

Color Computer

File Transfer Utility

Elite•Xfer™

Sound familiar?

Color Computer users are in the process of moving, or already using, PC/MS-DOS computers. They wanted a way to keep using their CoCo files by moving them to MS-DOS and back. Elite•Xfer was designed to provide that capability... and much more.

How does it work?

Elite•Xfer is a Color Computer file transfer utility that lets you freely move CoCo ASCII and BINARY files to MS-DOS. Your files can then be used by MS-DOS software with ASCII import capability, or edited to meet your needs. Elite•Xfer transfers files... it does not convert CoCo games to run on an MS-DOS computer. The program comes on a 5¼" DOS disk and runs on your MS-DOS computer. Once running, Elite•Xfer will let one of your 5¼" MS-DOS floppy disk drives read CoCo disks. You can then copy files back-and-forth, from CoCo or DOS. If your MS-DOS computer has only one 5¼" disk drive, the program will automatically switch you between CoCo and DOS disks. Elite•Xfer requires that your CoCo files be on TRS-DOS disks (not OS-9 format). The program works with all versions of MS-DOS 2.1 and higher. It will also work with all floppy disk drives, either low or hi-density, set as A/B/C/D and all hard drives. All displays: Color, B&W or LCD laptop are supported. Use Elite•Xfer to share files with friends, move files between home and work, or to upgrade your CoCo data to MS-DOS. It's easy, fast and reliable!

There's more...

With Elite•Xfer you can format CoCo disks on any MS-DOS computer in only 15 seconds. With this feature you can quickly move CoCo and MS-DOS files without a Color Computer. Elite•Xfer can transfer all CoCo wordprocessor files to MS-DOS. If you have Elite•Word™ text files, Elite•Xfer will automatically convert them to ASCII and transfer them to MS-DOS. Elite•Xfer also has a CoCo check-disk feature that will help you edit and repair bad CoCo disks. Using this feature you can display and edit all CoCo disk sectors. The program can also make several types of disk-repair corrections, automatically.

High Quality - Just \$29.95

Elite•Xfer's regular list price is \$69.95. For a limited time you can purchase Elite•Xfer for only \$29.95 + \$5 s/h.
