

CoCo, OS-9, and OS-9/68000

Books and Publications

"the world of 68' micros" magazine.

U.S. - \$23/year, \$12 six months

Can/Mex/APO/FPO - \$30/year, \$16 six mths

Others - \$40/year, \$20 6 months (air)

"microdisk" companion disk.

U.S. - \$40/year, \$20 six months

Can/Mex/APO/FPO - \$45/year, \$23 six mths

Others - \$55/year, \$28 six months (air)

This magazine offers some support for all Motorola processors. Current emphasis is on the Tandy Color Computer, OS-9, and systems running OS-9/68000. You won't find a more feature rich magazine supporting these systems! Published eight times per year.

Tandy's Little Wonder - \$22.50

The most complete reference book ever published for the Tandy Color Computer! 140 page soft bound book contains history, technical information, peripherals, upgrades and modifications, schematics, and much more for all CoCo models.

OS-9 Quick Reference Guide - \$7.50

(QRG and Patch OS-9 combination - \$12.50)

Get that bulky OS-9 Level II manual off your desk! This handy little 44 page 5.5"x8.5" quick reference contains all you need for normal system use. Includes command syntax, system calls, system and Basic09 error codes, and more! Not intended as a replacement for the manual, but has enough information to jog your memory or supply the correct switches for a command/system call.

NEW!

OS-9/68000 Quick Reference Guide - \$8.50

Provides the same information as our OS-9 QRG, only for OSK! Very handy to keep on the desk- the OSK manuals are even bulkier

Publishing/Mail Services

FARNA Systems PB offers full publishing services to the small/home business via mail order. From typesetting an original for you to providing fully assembled copies of a document, we have the capability to serve your needs! Let us prepare your catalogs and sales flyers! Prices vary with size of job, so only general set-up fees are listed below.

Per-Page Type Setting

8.5"x11" single spaced page, single column,

10 point size or larger - \$10.00

Same as above, 9 point or smaller,

multi-column - \$12.00

(prices assume customer supplies ASCII text on disk)

It is generally cheaper for a customer to order a "master" set from us then use that laser-printed original set to make copies from locally, then assemble/fold items. We can do it all, just call or write for a quote. We will need a rough sketch or dot-matrix print-out of what you want the end product to resemble. For sales flyers and book covers, a proof copy will be sent before final copy is made.

We also offer third class mail services. If you have 200 or more pieces of mail to send, we can generally copy, stamp, and send for you at about 3 cents per piece over the cost of first class mail. The clincher is you only send out ONE copy, we do all the work for the 200 or more! How much is your time worth?

CAT. NO. 0494

Color Computer Games

than OS-9! Based on OSK version 2.3.

*Disk drive required for all games.
CoCo 3 only unless otherwise specified.*

CrossRoad II - \$7.50

A simple game of tic-tac-toe, but with amazing graphics and digitized sound. Computer play is far from challenging, but two people may also play. Excellent for young children. Sound digitized with DigiTech Professional (in Utilities). 512K required.

Mind Games RAM Disk - \$7.50

This is a collection of nine classic games: color code, follow me, pyramid solitaire, line up four, five stacker, poker dots, color disposer, and yahtzee. Can be loaded individually, but with 512K a RAM disk is automatically created and all games loaded instantly from a menu.

Space Intruders - \$14.50

The closest thing to the original Atari "Space Invaders" you are likely to see anywhere! Fast machine language. Runs on CoCo 2 or 3.

Donut Dilemma - \$14.50

Antonio's Donut Factory has run wild! You must help Antonio shut the factory down by working your way up to the tenth floor, where the master power switch is located. CoCo 2 and 3 versions on same disk.

Rupert Rythym - \$14.50

The manager of "Music Box Records" has stolen Rupert's music and is planning on releasing it as his own. Help Rupert infiltrate "Music Box" and recover his music. Beware of the security robots! After collecting the stolen notes, arrange them in the correct order to propel Rupert to fame!

Color Computer Utilities/Applications

ADOS - from Spectro Systems

Original ADOS for CoCo 1 or 2 - \$15.00

ADOS 3 for CoCo 3 - \$25.00

Art's Disk Operating System has got to be the premier DECB enhancement. It is actively supported by the author, and is compatible with 99% of available software. Rarely will one find a program the won't run, and the author will supply a patch if possible. With ADOS you can use all 40 or 80 tracks and both sides of your disk drives, speed drive access... many more features to numerous to list. Run from disk or burn into an EPROM to use on power-up.

Extended ADOS 3 - \$30.00 (\$50.00 w/ADOS 3)

Extended ADOS 3 adds two RAM drives for 512K or more, menu for file run/kill/copy/load, multiple drive configurations, read 35/40 track drives in 80 track models, support for Disto/J&M parallel port and 1/2 MB Disto memory upgrades. Real-time clocks supported with optional module. Extended ADOS 3 must be burned into EPROM.

The CoCo Family Recorder - \$17.50

This is the best, most complete genealogy program ever written for any Color Computer! Reports include family groups, individual information, family trees, more. Easy to use menu driven interface. Manual has tips on keeping up with all your family information. Requires an 80 column monitor and two physical disk drives.

DigiTech Professional Sound Recorder - \$12.50

Multi-media on the CoCo? Well, this comes close! In fact, with a graphics program such as CoCoMax and this recorder, a multi-media presentation is possible! Record any sound for easy playback through the computer speaker. Easy to integrate sound effects, music, and voices with any BASIC or M/L program. Minimal manipulation of sound (playback speed only).

CoCo Hardware

DigiScan Video Digitizer - \$170.00

Updated version of the old RASCAN unit-very compact! Capture images from any VCR, camcorder, or TV camera. Edit later with CoCoMax 3, Max-10, or Color Max 3 or use as is. No MPI required- uses joystick ports. Resolutions up to 640x200 with 16 levels of grey with dithering. User friendly software interface. Requires disk drive, 512K, and RGB monitor. Special order item-send \$75.00 down payment. Requires 60-90 days for delivery.

Ken-Ton SCSI Hard Drive Systems

This has been described as *the best* CoCo hard drive system ever! True SCSI interface allows up to seven devices. The only available system at time of printing is a complete **85MB system** with a new (not refurbished) Seagate drive, case, power supply, software, and cables - **\$600.00** Inquire for "no drive" kit pricing.

CoCo OS-9 Software

Patch OS-9 - \$7.50

This is a collection of the most necessary, desirable patches and utilities available for OS-9 Level II. Automated program installs all patches for you! All you have to do is answer a few questions and swap disks. 512K and two 40 track double sided drives required for auto-patch program (one 40/DS and an 80/DS drive okay). Also available on two 35/SS disks for manual installation.

P.O.S-9.1.0- \$60.00

A simple point-of-sale program for OS-9 Level I or II. Menu driven, easy to set up, learn, and use. Keeps track of inventory, prints invoices, inventory list, customer price list, and more. Multi-user capable. Requires Basic09. Includes source code and liberal update policy.
