This new Second City Software program is an electronic Coloring Book. It's so easy to use that any one who can 'point-n-click' a mouse or joystick will be able to enjoy this program. It is designed for ages 3 to 7, however, a few of our software testers are well into middle age and have been seen spending hours playing Coloring Book. Once you have colored your picture, you can save it to disk or clear the colors and start all over again selecting a completely different color palette set. Program supports Black & White hardcopies to a Star NX-1000 dot matrix printer. Coloring Book is a project that was one year in the making!
