

OS-9 COMMUNITY NETWORK  
Your OS-9 Connection to the Future

LET YOUR IMAGINATION RUN WILD

Imagine a database filled with freeware, shareware and public domain files, utilities and programs for OS-9/6809, OS-9/68000 and OS-9000. Imagine being able to download this software via modem or order it via mail.

Imagine a database filled with BBS systems, clubs and users groups from Canada, the United States and points across the sea.

Imagine a database filled with OS-9 retailers, manufacturers and distributors of both hardware and software for the OS-9 Operating System, offering support when you need it.

Imagine being able to search a database for hardware and software experts to help with your problems. Imagine this same database holding names of companies needing programming and hardware experts.

Imagine receiving a catalog of all the above for the price of a stamped, self addressed envelope (SASE). Or, if you have a modem, being able to go to your Regional OS-9 Library and download to your heart's content.

Along with all this, imagine receiving the OS-9 Community NetNews monthly, packed with articles and information on the OS-9 Operating Systems for the 6809, 68000 and OS-9000.

Imagine no more! As a member of the OS-9 Community Network, all this and more will soon be reality for you.

The dynamic new OS-9 Community Network is now forming and would like to offer you a charter membership. To become a member, simply complete a membership form and leave it here, or mail it to our acting secretary, Nancy Ward, whose address appears below.

If, perchance, you failed to get a membership form, simply send your name, address, phone number and the type of operating system you use, along with any comments or suggestions you might have to help us better serve you.

VOLUNTEERS WELCOME!
