Raffles and Drawings:

Remember to purchase a few raffle tickets! You could win a computer system!

No-Minimum Bid Auction:

A mixture of worthless (?) and worthwhile items, including a Japanese dual-6809 computer system! Bid big, even though you don't have to!

Free Computer Hounds:

Be sure to pick up your **free** copy of *Computer Hound* magazine.

Same time next year?

Wait and see... but...

MAKE PLANS NOW FOR:

THE 8TH ANNUAL "LAST" CHICAGO COCOFEST!

Brought to you by the Glenside Color Computer Club... Again! They must be crazy!

May 1 & 2, 1999

Holiday Inn of Elgin

(Same great location as past years.)

345 W. River Road, Elgin, IL

Call (847) 695-5000 and ask for the "Glenside" or "CoCoFest" rate.

For details, contact **Tony Podraza**

email: tonypodraza@juno.com

voice: (847) 428-3576

BBS: (847) 428-0436

This may really, really, *really* be the last one — so BE THERE!

Welcome to the
1998 Pennsylvania CoCoFest!

August 15-16th, 1998
Harrisburg, PA

Last year, CoCoists were invited by Ron Bull to attend an independent summertime gathering in Carlisle, PA. 149 loyal Color Computer enthusiasts (plus vendors) showed up for this event. *Welcome* to our first time visitors, and *welcome back* to those who were here in 1997! Whether you are here for nostalgia or you still use a **TRS-80 Color Computer** or OS-9 machine, you should find something of interest here. One man is responsible for getting this event organized, but without your participation it would never have happened. Long live the CoCo Community, and let's try to make CoCo 2000 a reality.

Please do your part and help support the

Vendors Represented:

● Bargeman Research Labs
The fourth appearance by Karl is, again, mainly to support the Fest. Stop by for **CD-i info!**

● CoCoPS
Originally envisioned and created at last year's show, the **Color Computer Preservation Society** will be ready to sign up new members for only $5!

● Glenside CoCo Club
Long-time CoCo support club and, for at least one more time, sponsor of the **Chicago Co-CoFest**. Sign up today!

● Luckey Corner
Software and hardware "**you name it**"s!

● Mike Guzzi
Demonstrations on **interfacing the CoCo 3 to the real world** by showing a project designed to control the environment of reptile habitats by monitoring the temperature and light. It is designed to simulate the seasons by adjusting the daylight cycle and temputure (reptiles use this as their biological clock). The project displayed is a prototype and was designed cheaper then other devices used in reptile habitats. Also demonstrations on how the CoCo's built in ports can be used for real world sensing. Stop by for an **IRC** chat session on the internet!

● Monkoware/Br. Jeremy
First there was the CoCo. Then Microware with OS-9. Now at last, Monkoware presents the long rumored, much hoped for, often dreamed about, legendary **OS-9 Level 2 Upgrade**. This is the version of OS-9 Level 2 (The Official OS-9 Level 3) with movable, resizeable windows. Brother Jeremy will also have his collection of unique CoCos, CoCo ethernet card, and whatever else he can dig up. Stop by and
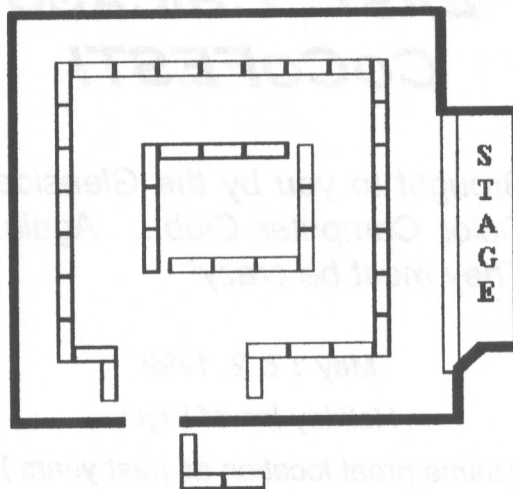

---

purchase OS-9 Level 3.

● Nancy's Hot Pretzels
Local snack vendor.

● Planet-9 Systems
While Planet 9 Systems is new in the CoCo community, it's owner, Boisy Pitre, isn't. Committed to providing quality software and hardware at affordable prices, Planet 9 Systems will be having various odds and ends for sale, as well as a ROM kit to allow you to put **OS-9 Level One or Level Two into the ROM** socket of your CoCo.

● Sub-Etha SoftWEAR
CoCo related **T-shirts** and **buttons**, as well as the new 192-page *CoCoFest Chronicles* Fest history **book**.

● Unlimited Elec. Repair
Ron Bull Representing:
● Cloud-9/Mark Marlette
Take a look at some original **hardware upgrades** for the CoCo, including memory and

---

SCSI.

● FARNA Systems
FARNA Systems has been supporting the CoCo for six years. Their main product is *the world of 68' micros* **magazine**. They also publish several other texts supporting the CoCo (*Tandy's Little Wonder* — 140 pages of everything you'd ever want to know about the CoCo, *Mastering OS-9* — a teaching guide to OS-9 on the CoCo 3, and an OS-9 and OSK *Quick Reference Guide* — desktop command and programming references). They also carry their own **CoCo Family Recorder** — a genealogy program — in both DECB and OS-9 Level II flavors.

● Real Time Services Inc.
The complete internet **OS-9 archives** FTP site available for the first time on CD-ROM.

● Art Flexser
ADOS, the ultimate disk basic enhancement.

Jim Davis Representing:
Jim Davis travels from the Show-Me-State representing various vendors who could not attend.

● C-3 Pages/Roger Hallman
The amazing **desktop publishing package** for the CoCo.

● CoCoPro!
Here in spirit with **OS-9 software** offerings.

● Nick Marantez
Relive the 80's with a fantastic **Pac-Man Tribute** game and a new compilation disk!

● Rick Cooper Comp. Ent.
CoCo Friends **disk magazine**, and the **CoCo Registry**.

● Sundog
Some of the best **CoCo games** ever at unbelievable prices.

To Be Announced!
Look for other vendors not confirmed at printing time.
