Dear Fellow CoCoist,

Here's a package that will let you know what's happening with the most active group of CoCoists in the World!! That's the Friends of CoCo Friends Disk Magazine! If you're not an active member of our group, let me invite you to remedy that situation now! Please read on.

This package includes information about two exciting events that will occur in the near future. Our fifth Phone Fest is coming March 4th and you're invited to participate. (Please look over the enclosed booklet for exciting auction packages and our \$100 Bonus Coupon Doorprize.) And...in July we will be hosting our Friends at Rick's Picnic. (See back page of booklet.) And you're invited! We are expecting a number of our Friends to attend..and...our special guest will be Jeff Vavasour, creator of the CoCo 3 Emulator for the PC. Make your reservation now!

I also want to invite you to get registered for the CoCo Registry, if you haven't already. There's a data form in the booklet. And if you haven't purchased your copy of the Registry, you still can. The current issue contains the personal records of 364 CoCoist. There will be one final update coming in mid-March. Send \$12 and receive the current issue and I'll send you the final update in March. Not only does the Registry contain valuable information about active CoCoists all over the world, but on the flip side of the disk you'll see ads with special discounts from over 20 active CoCo companies. Don't miss out...get registered and get your copy!

At the top I said we want you to join our group of CFDM Friends. Now here's a special offer to you if you'll subscribe to CFDM for 6 issues or CFDM HARDCOPY for 12 issues. As a special bonus for joining now, before March 15th, I'll send you a FREE copy of SUNDOG'S 'ZENIX' or 'CRYSTAL CITY'!! Use the order blank on the back of this letter to order CFDM or HARDCOPY and make your bonus choice. You will be absolutely AMAZED at the quality of these programs...the very finest arcade games ever produced on our favorite computer. It wasn't long ago that SUNDOG SYSTEMS sold these programs for close to \$40 each...I offer them for \$18...but you can have your choice FREE with your subscription. OR..subscribe to both CFDM and HARDCOPY and get both free. You must use the order form on the back and subscribe before March 15th. Don't miss out.

Yes we are still active and we still care about the CoCo and the Community! Please help us remain strong by participating as a subscriber to one of our publications! We really do want and need you in our group!!!

Your Friend,

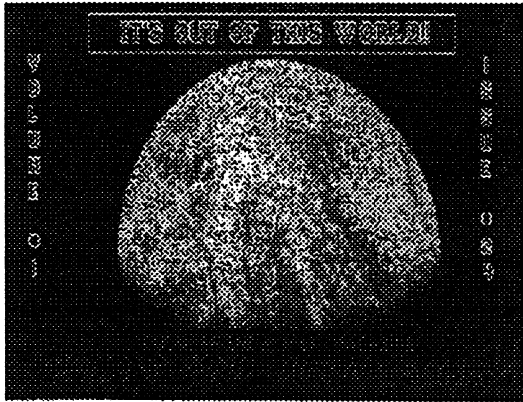

Rick Cooper

**The Blue Marble**  
Issue 1, 1984

Don't it would be offered if we had a real aggressive policy for our 2000th anniversary of CFDM. It took 10 years of work from a dedicated volunteer staff to produce this color with Colormax 3. Diskette. As you probably know, colors do not reproduce very well when saved from the original process. So I want to inform 3 Diskette and the Print and Fax file to be the closest as it was allowed possible. I had a lot of problems, but as you can see, the results were not bad. This file can take one 4 days to get ready and I hope you will enjoy this picture as we start our 20th year of CFDM. ... Joe T. Adams

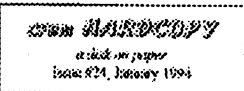

Because Diskette is included with this issue!
