Stu is a School Teacher ("Wyss" is pronounced "Veece", I think). He has written a number of games, utilities, and improved other programs. Most of his stuff has been published in CFDM - available in Back-Issues. He just might (probably) send you his stuff as mentioned below (CFDM #21).

Rick wrote a graphic "thingee" (NIB) to manipulate, save, view, etc. for CFDM. Stu has improved it a number of times, and NIB can be used to save graphic Fractals as well - one of Stu's specialities.

Each CFDM Issue (Flippie disk) has articles on the Front Side, and Programs (& pics) on the Back. Some Issues included a BONUS Disk. Here's a List of Stu's stuff, and articles. Some MAJOR CFDM Headings:
R - Review. POM - Program of the Month. AC - Active CoCo.
P - Potpourri. AOM - Article of the Month. Q&A - Questions & Answers.

CFDM #16 5/93. POM: "Fractals with NIB".
Programs: FRACTALS.BAS FRACDOC.BAS FRACDOC.DOC FRACTAL1.NIB.

CFDM #21 10/93. AC: "FREE for the Asking" (send SASE disk & mailer to Stu for his programs).
+Bonus disk #5

CFDM #33 10/94. R: "*** HOOKED ON FRACTALS **", by Godfrey Moll.
+Bonus Disk #9: Includes a batch of Fractals from Godfrey Moll.

CFDM #38 3/95. POM: "The New NIBSHOW" (vers 1.2). Q&A: "Fractals/Wyss".

CFDM #40 5/95. AOM: "GRAPHICS & FORMATS". POM: "SQS to NIB Converter".
Programs: NIBSAVER.BAS NIBSAVER.BIN NIBSHOW2.BAS
SQS>NIB.BAS SQSREADR.BIN.

CFDM #42 6/95. AOM: "NIB - Improving A Standard".
POM: "NIB to NIB+", "NIBSAVE+ Saving a New Standard",
"NIBSHOW Vers 2.0", and "SQS to NIB Conversion".
+Bonus #12 Pgms: NIB>NIB+.BAS NIBLOADR.BIN NIBSAVE+.BAS
NIBSAVER.BIN SQS>NIB.BAS SQSREADR.BIN

CFDM #48 1/96. Q&A: "Are You Having Problems?" (concerning programs in
+Bonus Disk #14 CFDM #42 6/95 - NIBS, NIBSHOW, and SFRACTALS).

CFDM #49 2/96. AOM: "Good Julia Fractal Numbers" (list of numbers - real values, Imaginary, A, B, and Interations).

CFDM #51 4/96. POM: "Interger Fractal Program".
+Bonus Disk #15
Programs: IFRACTAL.BAS IFRACTAL.BIN QUIKFRAC.BAS
FRACINST.TXT SQSSHOW.BAS SQSSHOW.BIN

CFDM #53 6/96. POM: "Faster Floating Point Fractals". "WOW Fast Fractals".
Programs: FFRACTAL.BAS FFRACTAL.BIN IFRACTAL.BAS IFRACTAL.BIN

Rick's next Issue (#54) due out in September, begins his change to a quarterly Publication \$30/yr. Each Issue will include the CFDM Flippie Disk, "Hardcopy" Magazine, and a flippie Bonus Disk. All Back-Issues (#1 - #53) are available for \$3 each, plus S&H - at least \$2/order.
