"As Seen in The Rainbow, OS9 Underground, and at the CoCoFests!"

OS-9 6809 Software

CheckBook+09 by Joel Mathew Hegberg

"Point 'n click" checking account manager with graphing!"

Fully mouse/joystick driven OR keyboard on an 80-column text screen. Organize your deposits/withdrawals easily. Visualize your account with Circle, Bar, and Line graphs which can be saved in VEF format. Pop-up currency calculator with memory, complete "cut 'n paste" editing, sorting, printer support...plus more!

Req: 512K CoCo 3, OS9 Level 2, 80 Column Monitor $24.95

MiniBanners09 by Allen C. Huffman

Print single or multiple line banners on ANY printer!

Our best-seller! Supports graphics or non-graphic printers (like daisy wheels, plotters, or even non-standard width printers like the TP-10)! Independently sized text on each line. Comes with over 30 fonts. Fully menu driven an easy to use. Latest version supports output to disk file so you can save your banner and print it out later! If you have a printer, you need this program!

Req: CoCo 3, OS9 Level 2, Any Printer $19.95

MAC to DMP Print Utility by Carl England

Dump MACintosh picture files direct from disk to your DMP printer!

Now even a CoCo 1 or 2 (which cannot adequately view a MAC picture) can print them out! Comes with six sample pictures to get you started!

Req: CoCo, OS9 Level 1 or 2, DMP 105/106/130 Printer $14.95

OSK (MM/1) Software

WriteRight Word Processor by Joel Mathew Hegberg

At last! A real word processor for OSK!

NEW! More information available separately. Some of the many features include true on-screen preview of document including italics, bold, underline, etc. Full support of color printers. Point 'n click interface. And many many more features and options. (At "press time", WriteRight was still evolving...ask for the latest information!)

Req: MM/1 or 100% Compatible, K-Windows, Printer ..... $ CALL

EthaGui by Joel Mathew Hegberg

A must-have for all MM/1 owners!

This is an amazing Graphical User Interface for your MM/1 or 100% K-Windows compatible. Features include NotePad, PhoneBook (with auto-dialer), Icon Editor, graphical Screen Savers, drag n' drop file Copy and Delete, point n' click Attribute Setting, and (of course) much more! Launch applications at varying priorities with desired font, colors, window size, etc.! Exciting look and feel will let you show your new computer off to your friends. The way a GUI really should be! (It even has a trash can!)

Req: MM/1 or 100% Compatible, K-Windows $44.95

CheckBook+OSK by Joel Mathew Hegberg

Weren't computers designed for this?

The very popular checkbook balancing program with graphing functions has come to OSK! Same basic features as OS9 version, plus more!

Req: MM/1 or 100% Compatible, K-Windows $34.95

MiniBannersOSK - port by Joel Mathew Hegberg

What better way to test out your printer port?

Fabulous multi-line banner printing program which gained popularity on the Color Computer 3 has been ported over to OSK.

Req: MM/1 or 100% Compatible, K-Windows, ANY Printer $24.95

RS-DOS Software

CheckBook+ - This is where it all started. Same features as OS-9 version but requires mouse/joystick. Runs on a hi-res graphic screen. Supports thousands of transactions - more with 512K. "The CoCoMax of Checking Programs." *(Reviewed October 1992 Rainbow, Page 54.)*
Req: CoCo 3, Disk Drive, Mouse/Joystick, Hi-Res Interface $24.95

MiniBanners - The original. Same as OS-9 version but with font preview and does not support output to file. *(Reviewed October 1991 Rainbow, Page 54.)*
Req: CoCo 3, Disk Drive, Any Printer $19.95

NEW!!! **InfoPatch** - Clever hack which patches old CoCo 1/2 Infocom text adventure to work in 80 columns, double speed mode on a CoCo 3. (Does not work on Seastalker.) *(See Adventure Survivors Newsletter.)*
Req: CoCo 3, Disk Drive, Infocom Disk ..... $ 9.95

The Carl England Utilities

Carl's powerful RS-DOS "must-have" disk utilities!

By special arrangement with Carl England we are proud to be distributors for his fine programs. All are **100% machine language** (which means fast!) and each program sell for a mere $14.95. **SPECIAL OFFER:** Buy any **two for $12.50** each, or **all three for just $34.95!**

Super Boot - We've said it before, and we say it again. This is **the best autoboot ever!** Simply type DOS and automatically set drive step rate, tracks, sides, printer baud, CoCO 3 screen colors and speed mode (even speeds up disk access) as well as specifying a program to auto-start or get a two column directory and select from there.

Super Backup Utilities - Use all of your system RAM for backups, from 64K to 512K. Even copies 80 track disks. *(Reviewed April 1990 Rainbow, Page 102)*

512K Copy Utility - Menu-driven copy assistant. Copy only selected files or entire disk file-by-file. Simplified Rename, Kill, and **25% faster** DSKINI! Supports 35-80 track drives. Even defragment your disks! "User friendly."

Call or write for further information on our produces. **DEMO** version available for CheckBook+ and MiniBanners09. More demos will be available shortly by request. Expanded info sheets available for all Carl England programs and most Sub-Etha OSK products.
