

LYRA >>TRAX<<
Copyright 1989 The CoCo Corner
2211 University Lincoln Park, Mi. 48146
Introduced at Rainbowfest Oct. 1989
Somerset, N.J.

LYRA >>TRAX<< is a new LYRA LIBRARY that consists of music entered by users of LYRA, or authors other than Mulaford Research's compositions of the LYRA LIBRARY. If you are into doing music and would like to get paid for your efforts when entering music with LYRA and CoCo, Please feel free to send a disk of your music to : The CoCo Corner, 2211 University, Lincoln Park, Michigan 48146, and your music will be published in the next disk of LYRA >>TRAX<<. What about the pay??? It goes as follows: LYRA >>TRAX<< will sell for \$9.95 a disk full of music. Lets say that there are 20 songs on that disk and you have 5 songs that you have done in LYRA. I will split \$4.95 with all the authors who did music on that disk, so as each disk is sold you will be getting paid, which you will receive once a month. So you would get \$1.27 per disk that sold.

Before you send any music make sure you pull down the play menu on Lyra and click on the Annotations menu be sure to put the complete name of the song on the first line, on the second line put who the music was written by and who performed it. Then on the third line put your name so I know who to give the credit and moneys to. Make sure it is a song that YOU and not any one else entered, because we DO NOT support PIRACY in any way.

LYRA >>TRAX<< can be played on LYRA, LYRA PLAY, and LYRA BOX. The instrumentation on LYRA >>TRAX<< will be only set up for one MIDI Keyboard, so that it will not be complicated to change the instruments to your MIDI keyboard. On the first three disks will all be instrumented for the CASIO 640 or the 240 with minor instrument changes, but feel free to change them as you see fit.

On the disk there is a Program called "Filelist.Bas", this program is used to list out the Lyrics of the songs on the disk... Also it will list out the documentation for LYRA >>TRAX<< if you lose yours.. This way it is always at your finger tips!!!

Now That there is 6 disks I have made up a seperate catalog with all the songs that the CoCo Corner has published... And remember that we all like music so if you have some PLEASE send it to me for other LYRA user's to listen to. Hope you all enjoy and remember to " let the music play!!! "
