Introducing the Most Powerful Business Software Ever!

TRS-80™ (Model I, II, III, or 16) • APPLE™ • IBM™ • OSBORNE™ • CP/M™ • XEROX™

The VERSABUSINESS™ Series

Each VERSABUSINESS module can be purchased and used independently, or can be linked in any combination to form a complete, coordinated business system.

VERSARECEIVABLES™ $99.95

VERSARECEIVABLES™ is a complete menu-driven accounts receivable, invoicing, and monthly statement-generating system. It keeps track of all information related to who owes you or your company money, and can provide automatic billing for past due accounts. VERSARECEIVABLES™ prints all necessary statements, invoices, and summary reports and can be linked with VERSALEDGER II™ and VERSAINVENTORY™.

VERSAPAYABLES™ $99.95

VERSAPAYABLES™ is designed to keep track of current and aged payables, keeping you in touch with all information regarding how much money your company owes, and to whom. VERSAPAYABLES™ maintains a complete record on each vendor, prints checks, check registers, vouchers, transaction reports, aged payables reports, vendor reports, and more. With VERSAPAYABLES™, you can even let your computer automatically select which vouchers are to be paid.

VERSAPAYROLL™ $99.95

VERSAPAYROLL™ is a powerful and sophisticated, but easy to use payroll system that keeps track of all government-required payroll information. Complete employee records are maintained, and all necessary payroll calculations are performed automatically, with totals displayed on screen for operator approval. A payroll can be run totally automatically, or the operator can intervene to prevent a check from being printed, or to alter information on it. If desired, totals may be posted to the VERSALEDGER II™ system.

VERSAINVENTORY™ $99.95

VERSAINVENTORY™ is a complete inventory control system that gives you instant access to data on any item. VERSAINVENTORY™ keeps track of all information related to what items are in stock, out of stock, on backorder, etc., stores sales and pricing data, alerts you when an item falls below a preset reorder point, and allows you to enter and print invoices directly or to link with the VERSARECEIVABLES™ system. VERSAINVENTORY™ prints all needed inventory listings, reports of items below reorder point, inventory value reports, period and year-to-date sales reports, price lists, inventory checklists, etc.

VERSALEDGER II™ $149.95

VERSALEDGER II™ is a complete accounting system that grows as your business grows. VERSALEDGER II™ can be used as a simple personal checkbook register, expanded to a small business bookkeeping system or developed into a large corporate general ledger system **without any additional software.**

- VERSALEDGER II™ gives you almost unlimited storage capacity (300 to 10,000 entries per month, depending on the system),
- stores all check and general ledger information forever,
- prints tractor-feed checks,
- handles multiple checkbooks and general ledgers,
- prints 17 customized accounting reports including check registers, balance sheets, income statements, transaction reports, account listings, etc.

VERSALEDGER II™ comes with a professionally-written 160 page manual designed for first-time users. The VERSALEDGER II™ manual will help you become quickly familiar with VERSALEDGER II™, using complete sample data files supplied on diskette and more than 50 pages of sample printouts.

SATISFACTION GUARANTEED!

Every **VERSABUSINESS™** module is guaranteed to outperform all other competitive systems, and at a fraction of their cost. If you are not satisfied with any **VERSABUSINESS™** module, you may return it within 30 days for a refund. *Manuals for any* ***VERSABUSINESS™*** *module may be* purchased for $25 each, credited toward a later purchase of that module.

Tired Of Your GENERAL LEDGER?

VERSA-LEDGER II

★ THE ULTIMATE PERSONAL CHECK REGISTER

★ A PROFESSIONAL ACCOUNTING SYSTEM

★ A PERSONAL FINANCIAL MANAGER

★ A SMALL BUSINESS ACCOUNTING SYSTEM

★ A COMPLETE GENERAL LEDGER

FOR YOUR TRS-80* MODEL I, II, III or 16 • APPLE II* • I.B.M.* • XEROX* • ATARI* PET/CBM* • OSBORNE* • ALL MICROSOFT BASIC COMPUTERS

*TRS-80 is a trademark of Tandy Corp. - *APPLE is a trademark of Apple Corp. - *I.B.M. is a trademark of I.B.M. Corp. - *XEROX is a trademark of Xerox Corp. *ATARI is a trademark of Atari Inc. - *OSBORNE is a trademark of Osborne Corp. -*PET and CBM are trademarks of Commodore Corp.

HOW IT WORKS . . . .

VERSALEDGER II is a complete accounting system that grows as you or your business grows. To start, your VERSA-LEDGER II acts as a simple method of keeping track of your checkbook. Just enter your check number, date and whom the check is made out to. As you or your business grows, you may add more details to your transactions . . . . . account number, detailed account explanations, etc.

- VERSALEDGER II is an expanded and enhanced version of our original VERSALEDGER.
- VERSALEDGER II gives you an instant cash balance at anytime. **(IF YOU WANT IT TO)**
- VERSALEDGER II can be used as a small personal checkbook register. **(IF YOU WANT IT TO)**
- VERSALEDGER II can run your million dollar corporation. **(IF YOU WANT IT TO)**
- VERSALEDGER II prints checks. **(IF YOU WANT IT TO)**
- VERSALEDGER II stores all check information forever. **(IF YOU WANT IT TO)**
- VERSALEDGER II can distribute one check to multiple expense accounts. **(IF YOU WANT IT TO)**
- VERSALEDGER II can handle more than one checkbook. **(IF YOU WANT IT TO)**
- VERSALEDGER II can be used to replace a general ledger. **(IF YOU WANT IT TO)**
- VERSALEDGER II prints balance sheets and income statements. **(IF YOU WANT IT TO)**
- VERSALEDGER II can interact with any of the other four modules of the VERSABUSINESS SYSTEM.

VERSALEDGER II

HOW MUCH MONEY DO YOU OWE?

VERSA-- PAYABLES

★ THE ULTIMATE ACCOUNTS PAYABLE SYSTEM

★ HANDLES ALL ACCOUNTS PAYABLE FUNCTIONS

★ QUICK PERIODIC SUMMARIES AND REPORTS

★ PERFECT FOR PERSONAL OR BUSINESS USE

★ EXPANDS TO HANDLE LARGE CORPORATE PAYABLES

FOR YOUR TRS-80* MODEL I, II, III, 16 • APPLE* • I.B.M.* • XEROX* • ATARI*
OSBORNE* • PET/CBM* • ALL MICROSOFT BASIC COMPUTERS

*TRS-80 is a trademark of Tandy Corp. - *APPLE is a trademark of Apple Corp. - *I.B.M. is a trademark of I.B.M. Corp. - *XEROX is a trademark of Xerox Corp. - *ATARI is a trademark of Atari Inc.
*OSBORNE is a trademark of Osborne Corp. - *PET and CBM are trademarks of Commodore Corp.

HOW IT WORKS . . .

VERSAPAYABLES is a complete menu driven accounts payable system. It keeps track of all information related to how much money you (personally) or your company owes. It prints all necessary checks and statements on easily obtainable tractor feed forms (or on plain paper). Prints all summary reports to keep you in touch with the flow of money going out of your hands (or leaving your company). In short, VERSAPAYABLES is designed to keep track of current and aged payables. The system maintains a complete record of each vendor, helps determine which transactions to pay by due date within certain cash requirements and prints checks automatically with a detailed check register.

- VERSAPAYABLES prints out your checks. **(IF YOU WANT IT TO)**
- VERSAPAYABLES prints out a detailed check register. **(IF YOU WANT IT TO)**
- VERSAPAYABLES allows for full or partial payments. **(IF YOU WANT IT TO)**
- VERSAPAYABLES prints out vendor mailing labels. **(IF YOU WANT IT TO)**
- VERSAPAYBLES prints out all commonly used ACCOUNTS PAYABLE reports to give you a total picture of money you or your company owes. **(IF YOU WANT IT TO)**
- VERSAPAYABLES integrates with **VERSALEDGER. (IF YOU WANT IT TO)**
- VERSAPAYBLES HAS AN ALMOST UNLIMITED CAPACITY . . . .
  - 400 vendors and transactions per month on sinlge density 5¼" disk drives such as the TRS-80 MODEL I
  - 600 per month on the APPLE II
  - 2400 per month on the TRS-80 MODEL III
  - 6000 per month of the TRS-80 MODEL II
  - 3000 per month on single density 8" CP/M
  - Almost unlimited capacity on hard disk drive systems

PAYROLL SIMPLIFIED

VERSA-- PAYROLL

★ THE ULTIMATE PROFESSIONAL PAYROLL SYSTEM

★ HANDLES ALL PAYROLL FUNCTIONS AND REPORTS

★ QUICK QUARTERLY AND END OF YEAR SUMMARIES

★ PERFECT FOR A SMALL BUSINESS

★ EXPANDS TO HANDLE LARGE CORPORATE PAYROLLS

FOR YOUR TRS-80* MODEL I, II, III or 16 • APPLE* • I.B.M.* • XEROX* • ATARI*
OSBORNE* • PET/CBM* • ALL MICROSOFT BASIC COMPUTERS

*TRS-80 is a trademark of Tandy Corp. - *APPLE is a trademark of Apple Corp. - *I.B.M. is a trademark of I.B.M. Corp. - *XEROX is a trademark of Xerox Corp. - *ATARI is a trademark of Atari Inc.
*OSBORNE is a trademark of Osborne Corp. - *PET and CBM are trademarks of Commodre Corp.

HOW IT WORKS . . . .

VERSAPAYROLL is a complete menu driven payroll system that grows as you or your business grows. Your VERSA-PAYROLL acts as a simple payroll system keeping track of all government required payroll information. Just enter the employees, VERSAPAYROLL will perform all the necessary payroll calculations automatically and display to totals on your screen. The user has complete control to accept the totals, to print or not print out a check and to post or not post the total to our **VERSALEDGER** system.

- VERSAPAYROLL automatically prints out your PAYROLL checks. **(IF YOU WANT IT TO)**
- VERSAPAYROLL allows you to override any payroll deduction. **(IF YOU WANT IT TO)**
- VERSAPAYROLL automatically posts all checks written to our VERSALEDGER system. **(IF YOU WANT IT TO)**
- VERSAPAYROLL allows the user to print out PAYROLL checks one at a time. **(IF YOU WANT IT TO)**
- VERSAPAYROLL allows the user to print out all your PAYROLL checks at the same time. **(IF YOU WANT IT TO)**
- VERSAPAYROLL gives you a summary of any employee's year to date payroll totals or all employee totals at any time. **(IF YOU WANT IT TO)**
- VERSAPAYROLL will allow you to correct any error made at any time and automatically refigure all totals. **(IF YOU WANT IT TO)**
- VERSAPAYROLL works in every state. **(IF YOU WANT IT TO)**
- VERSAPAYROLL automatically calculates all federal and states taxes. **(IF YOU WANT IT TO)**
- VERSAPAYROLL allows for all of the standard deductions plus state, city and three miscellaneous deductions. **(IF YOU WANT IT TO)**
- VERSAPAYROLL prints all government required reports. **(IF YOU WANT IT TO)**
- VERSAPAYROLL permanently stores all PAYROLL transactions. **(IF YOU WANT IT TO)**
- VERSAPAYROLL HAS AN ALMOST UNLIMITED CAPACITY . . . .

  Can handle up to 300 employees on a TRS-80 MODEL I, 600 employees on a TRS-80 MODEL III, 1200 employees on a TRS-80 MODEL II, 500 employees on an APPLE II, 600 employees on any single density 8" CP/M computer and almost unlimited capacity on hard disk systems.

HOW MANY DO YOU HAVE LEFT?

VERSA-- INVENTORY

★ THE ULTIMATE INVENTORY SYSTEM

★ HANDLES ALL INVENTORY FUNCTIONS

★ QUICK PERIODIC SUMMARIES AND REPORTS

★ PERFECT FOR PERSONAL OR BUSINESS USE

★ EXPANDS TO HANDLE LARGE CORPORATE INVENTORIES

FOR YOUR TRS-80* MODEL I, II, III, 16 • APPLE* • I.B.M.* • XEROX* • ATARI*
OSBORNE* • PET/CBM* • ALL MICROSOFT BASIC COMPUTERS

*TRS-80 is a trademark of Tandy Corp. - *APPLE is a trademark of Apple Corp. - *I.B.M. is a trademark of I.B.M. Corp. - *XEROX is a trademark of Xerox Corp. - *ATARI is a trademark of Atari Inc.
*OSBORNE is a trademark of Osborne Corp. - *PET and CMB are trademarks of Commodore Corp.

HOW IT WORKS . . . .

VERSAINVENTORY is a complete menu driven inventory control system. It keeps track of all information related to how many of a particular item you have. It prints all necessary inventory reports and gives you instant access to any inventory item. VERSAINVENTORY allows the user to stay in touch with items that directly affect sales. Update INVENTORY through easy MENU driven processes.

- VERSAINVENTORY allows the user to instantly add to or deduct from INVENTORY. **(IF YOU WANT IT TO)**
- VERSAINVENTORY handles reorder point levels. **(IF YOU WANT IT TO)**
- VERSAINVENTORY gives period-to-date and year-to-date sales reports. **(IF YOU WANT IT TO)**
- VERSAINVENTORY can be linked to VERSARECEIVABLES and VERSALEDGER. **(IF YOU WANT IT TO)**
- VERSAINVENTORY gives all standard INVENTORY REPORTS. **(IF YOU WANT IT TO)**
- VERSAINVENTORY instantly values your INVENTORY. **(IF YOU WANT IT TO)**
- VERSAINVENTORY HAS AN ALMOST UNLIMITED CAPACITY . . . . .

INTRODUCTORY PRICE
$99.95

To figure out estimated VERSAINVENTORY limitations, just multiply 8 by the number of kilobytes of disk storage available. For example, the store capacity on a TRS-80 MODEL II disk drive is 500K. That will allow the user to have about 4,000 inventory items on record. This total is an estimate and depends on how you set up your inventory system.

Portfolio Valuation • Trend Analysis • Bond Calculations
Money Market Analysis • Portfolio Bookkeeping • Future Projections

This collection of programs aids both financial professionals and individuals in the evaluation, selection, and management of investment portfolios. It features: coverage of stocks, bonds, convertible securities, options, warrants and annuities; realistic treatment of taxes and commissions; and portfolio selection methods. The clearly written user's manual makes it easy to quickly learn how to use all of the programs in the package, even if you've never used a computer before. With the STOCK MARKET ANALYSIS PACKAGE, you'll soon find that your microcomputer is an indispensible tool, performing all of these instant calculations:

- Annuity Analysis
- Computation of Alpha and Beta Values for Security
- Option Valuation and Hedge Ratio using the Black-Scholes Method
- Bond Valuation — Yield to Maturity & Other Values
- Future Net Worth and Present Value of Projected Investment Schedule
- Compound Interest Computations
- Estimate of Future Earnings Per Share
- Date Computations (Number of Days Between Any Two Dates)
- Option Writing Computation
- Portfolio Listings with Various Profit/Loss Analyses
- Portfolio Selection by Sharpe's Method
- Rate of Return — Variable Inflow
- Valuation of a Share of Stock
- Value of a Warrant
- Investor's Rate of Return on a Convertible Bond
- Dilution Analysis
- Arbitrage Computations
- Future Price Estimation with Inflation
- Seasonal Quantity Indices
- Financial Ratios
- Merger Analysis
- Value of a Right
- Depreciation vs. Cash Flow
- Time Needed for Money to Double, Triple, etc.
- Time Series Analysis — Linear Trend
- Time Series Analysis — Moving Average Trend
- Brokerage Commissions
- Margin Account Computations
- Advanced Option Strategies
- Money Market Computations
- Forecasting Cash Flows
- Leverage Analysis

If joint return, does your spouse want $1 to go to this fund? . . . ___ Yes ___ No

Note: *Checking "Yes" will not increase your tax or reduce your refund.*

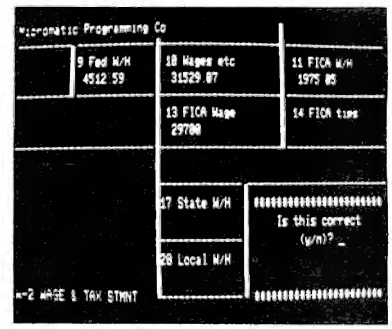
MICROMATIC PROGRAMMING COMPANY

TRS-80* Owners Do Your Own Taxes Like An Expert with TAX/SAVER II™

* TRS-80 is a trademark of the Radio Shack Division of Tandy Corp.

FOR MODEL I, II** or MODEL III

Now With Printout!



TAX/SAVER II™ — The tax help program for the layman, the professional accountant or tax preparer.

New and expanded, TAX/SAVER II™ offers a different approach to preparing a tax return. Like the original, the new version has the tax regulations programmed in so it is more than just a calculator. Designed for non-accountants, TAX/SAVER II™ asks you questions, just as an accountant does. Based on your answers, it leads you through the tax maze to your lowest legal tax. Then it tells you how to fill in your return, line by line, or it will output to a printer.

TAX/SAVER II™ also has speed features for those doing more than one return. Optional program instruction and tax text make TAX/SAVER II™ the practical system for professional preparers as well. TAX/SAVER II™ has full disk storage of data files (with optional password protection).

The manual includes information on special tax areas, lists of possible deductions and a tax glossary.

TAX/SAVER II™ compares itemized deductions to national averages; automatically computes certain limitations - for example, on medical deductions and contributions; checks for excess FICA; helps determine dependents. Yet, TAX/SAVER II™ offers the privacy and convenience of home use.

The user-oriented design with special screen formatting makes data entry, verification and correction easy. Yet you are always in control. You can skip any help features or parts of the program that you don't need.

TAX/SAVER II™

- Completes long and short forms (1040 & 1040A)
- Itemized Deductions - Schedule A
- Interest & Dividends - Schedule B
- Tax Calculation - Tables, Rates
- Tax Savings Methods - Income Averaging, Maximum Tax, Alternative Tax
- Business Income - Schedules C & SE
- Capital Gains - Schedule D
- Allows you the privacy of your own home
- Lets you help friends and relatives with their taxes
- Has built-in aids. Answers specific questions like "Is my father my dependent?" and "Are my deductions reasonable?"
- Manual includes 1982 tax forms, information on special tax areas, lists of possible deductions, and glossary of tax terms
- Completes long and short forms including itemized deductions, excess FICA, earned income credit, community property, tax calculation (comparing all possible filing statuses in one run)
- Tax regulations are programmed in by our team of accountants. Just type in your figures & you've done your own tax return
- Helps you find the lowest tax
- Discounts on yearly updates
- Prints out on standard IRS forms overlays or plain tractor feed paper
- Accepts totals from all other tax forms not listed here

REVIEWS:

"...well designed and easy to use" - D. Lubar, Creative Computing 1/81
"...TAX/SAVER™ may very well live up to its name"
M. Tannenbaum, CPA, 80 Microcomputing 2/81

CUSTOMERS:

"For the price it can't be beat. I am looking forward to next year. With this program I finish my filing in 2 hours. Thank you."

"Excellent presentation. Tutorial style is one of its most attractive attributes. Finally, a program I can really use!"

PROFESSIONALS:

"This is the perfect program for those doing taxes for others for reasonable fees. It was obviously written by folks that know both programming and tax law." "TAX/SAVER™ is superior."

NEW

PROFESSIONAL TAX/FORECASTER™

TAX/FORECASTER™, the quick tax estimator (with printout) for both 1982 and 1983 lets you revise its estimate by merely changing one or more lines. Use it as a tax planner either together with TAX/SAVER II™ or by itself. TAX/FORECASTER™ lets you quickly ask all of your WHAT IF? Questions and instantly recalculates your taxes. A great tax preparation aid for both the layman and professional. Includes Income Averaging and disk storage of Client files.

• Both TAX/SAVER II™ and TAX/FORECASTER™ are tax-deductible • Discounts are given on yearly updates • Free tax newsletter is issued annually.
With the combined package TAX/SAVER II™ and TAX/FORECASTER™, you can now have, at an affordable price, the power to predict, control and reduce your tax liability.

☐ TAX/SAVER II™ (MOD I & III) $139.95 - Manual Included
☐ PROFESSIONAL TAX/FORECASTER™ (MOD I & III) $84.95 ($79.95 if purchased with TAX/SAVER II™)
☐ UPDATE for Registered TAX/SAVER II™ Owners $83.95
☐ TAX FORM OVERLAYS $39.95
☐ TAX/SAVER II™ - Model II** Version $199.95
☐ PROFESSIONAL TAX/FORECASTER™ - Model II** Version $129.95

SYSTEM REQUIREMENTS
☐ TRS-80 Model I with 32K and 2 disk drives
☐ TRS-80 Model III with 32K and 2 disk drives
☐ TRS-80 Model II** with 64K and 1 disk drive

REMSOFT, Inc.

Let Your TRS-80™ Teach You ASSEMBLY LANGUAGE

REMASSEM-1

Tired of buying book after book on assembly language programming and still not knowing your **POP** from your **PUSH**?

REMSOFT proudly announces a more efficient way, using your own TRS-80™ to learn the fundamentals of assembly language programming at YOUR pace and at YOUR convenience.

Our unique package, **"INTRODUCTION TO TRS-80™ ASSEMBLY PROGRAMMING"**, will provide you with the following:

- ★ Ten 45-minute lessons on audio cassettes.
- ★ A driver program to make your TRS-80™ video monitor serve as a blackboard for the instructor.
- ★ A display program for each lesson to provide illustration and reinforcement for what you are hearing.
- ★ Step-by-step dissection of complete and useful routines to test memory and to gain direct control over the keyboard, video monitor, and printer.
- ★ How to access and use powerful routines in your Level II ROM.

This course was developed and recorded by Joseph E. Willis and is based on the successful series of courses he has taught at Meta Technologies Corporation, the Radio Shack Computer Center, and other locations in Northern Ohio. The minimum system required is a Level II, 16K RAM.

LEARN TRS-80™ ASSEMBLY LANGUAGE DISK I/O

REMDISK-1

Your disk system and you can really step out with **REM**SOFT's Educational Module, **REMDISK-1**, a "short course" revealing the details of DISK I/O PROGRAMMING using assembly language.

Using the same format as our extremely popular introduction to assembly language programming, this **"ASSEMBLY LANGUAGE DISK I/O PROGRAMMING"** course includes:

- ★ Two 45-minute lessons on audio cassette.
- ★ A driver program to make your TRS-80™ video monitor serve as a blackboard for the instructor.
- ★ A display program for each lesson to provide illustration and reinforcement for what you are hearing.
- ★ A booklet of comprehensive, fully-commented program listings illustrating sequential file I/O, random-access file I/O, and track and sector I/O.
- ★ A diskette with machine-readable source codes for all programs discussed, in both Radio Shack EDTASM and Macro formats.
- ★ Routines to convert from one assembler format to the other.

This course was developed and recorded by Joseph E. Willis, for the student with experience in assembly language programming; it is an intermediate-to advanced-level course. Minimum hardware required is a Model I Level II, 16K RAM one disk drive system.

--- Individual tests of each device with operator monitoring and intervention.
--- Continuous system tests run continually for hours, with diagnostic reports optionally written on line printer.
--- Complete instructions and documentation.

SPECIFY TRS-80™ MODEL I OR MODEL III

SMART TERMINAL

Enables your TRS-80 to be used as a data communications terminal to a time-sharing system, computer bulletin board, or another computer, via the RS-232-C interface.

- MEMORY BUFFER holds data for transmission or data received from other computer.
- CASSETTE or DISK may be used to load or save data from memory.
- AUTOMATIC TRANSMISSION of data from memory.
- AUTOMATIC STORAGE of incoming data at user's option.
- TRANSMIT or RECEIVE WITH VERIFICATION options included for communication between two TRS-80s using Smart Terminal.
- Full CONTROL KEYS, including control key mapping into any ASCII character. True BREAK key. Lower case supported on Model I.
- Buffered LINE PRINTER ECHO for incoming data.
- Disk and cassette files fully compatible with ELECTRIC PENCIL™ and SCRIPSIT™ programs.
- BAUD RATE and RS-232-C CHARACTERISTICS can be reset from within the program.
- SAVE PROGRAM option creates "personalized" back-up copy of program with all options set as specified by user.
- ONE PROGRAM supports both cassette and disk systems. Program is compatible with PMC-80 and other TRS-80 "work alike" computers.

Model I or III Version — **supplied on cassette $69.95**, **supplied on diskette $74.95**
Model II (CP/M) Version — **$79.95**

MON-3 and MON-4

The TRS-80 Monitor Programs #3 and #4 are powerful utility programs enabling you to interact directly with the TRS-80 in Machine Language. They are as useful for beginners as for advanced programmers.

- BEGINNERS can learn to interact directly with the computer in Machine Language.
- 40-PAGE MANUAL provided with each program.
- SIMPLE commands, easy to use.

The Features Of The Monitor Programs Enable You To The Following.....

- DISPLAY memory in different ways.
- DISASSEMBLE memory to see Machine Language commands.
- MOVE and COMPARE memory areas.
- SEARCH through memory to find specific values.
- MODIFY memory in various ways.
- RELOCATE object programs.
- PRINT output on video display or line printer.
- READ and WRITE object tapes in SYSTEM Format.
- UNLOAD programs using low RAM on disk.
- SAVE and READ disk files (MON-4 Only).
- INPUT and OUTPUT of disk sectors (MON-4 Only).
- SEND and RECEIVE data over RS-232-C Interface (MON-4 Only).
- Create SYMBOLIC Tapes (MON-3) or Files (MON-4) of Disassembled output for Editor/Assembler program.

MON-3 (For Cassette Systems) $39.95
MON-4 (For Disk Systems) $49.95

MAILING LIST

Maintains mailing lists of up to 1326 names (48K version). Add, change, delete, or find names. Machine language sort according to information in ANY field (first or last name, address, city, state, zip code). Three or four line labels printed in 1, 2, 3, or 4 columns, in master list, or on video display.

TRS-80 Model 1/3 Disk Version $69.95
IBM PC Disk Version $79.95

HOME BUDGET

Keeps track of your monthly and year-to-date income and expenses. Income and expenses classified by code numbers for identification of categories. Data includes date, code number, amounts and check number (optional). Computes monthly and year-to-date summaries showing income tax deductions. All output printed on video display or line printer at user's option. Complete instructions for customizing to suit your own budget.

TRS-80 Model 1/3 Cassette Version $29.95
TRS-80 Model 1/3 Disk Version $49.95
IBM PC Disk Version $59.95

SMALL BUSINESS ACCOUNTING

Based on Dome Bookkeeping Record #612, this program keeps track of income, expenditures, and payroll for a small business. Receipts and expenditures can be entered on a daily, weekly, or monthly basis. Program computes monthly, through last month, and year to date summaries. Payroll section (included in disk version only) keeps record of employees and paychecks with up to six categories of payroll deductions. Computes employee payroll records and year-to-date payroll totals. Complete instructions for customizing to suit your own business.

TRS-80 Model 1/3 Cassette Version $29.95
TRS-80 Model 1/3 Disk Version $49.95
IBM PC Disk Version $59.95

Experience Shows - S.B.S.G. has over 11,000 Installed Systems!

If you're not running Small Business Systems Group software . . . chances are you're not running!

GENERAL ACCOUNTING SYSTEM For TRS-80™

S.B.S.G. has created the first completely user-configurable accounting system available for the TRS-80™.

User configurable? Each S.B.S.G. General Accounting System Module (except Order Entry) can be operated independently, or any of the modules can be combined in any configuration, providing a complete, coordinated system to fit the needs of your business.

The S.B.S.G. System allows you the maximum efficient use of available disk space. Each module will run on a standard 1 disk drive system (except for Model I systems, which require 2 drives). As you add more disk drives to your system, the amount of on-line data storage increases. Now here's an important fact..... the S.B.S.G. General Accounting System "spans" your disk drives - that means that you can instantly access your data on any of **up to 8 disk drives** at any time! Since your S.B.S.G. Accounting System is user-configurable, it will work with 1, 2, 3, 4 or more disk drive systems -- and it is fully compatible with most hard disk drive systems (at additional cost).

General Ledger

The General Ledger accounting system consolidates financial data from other accounting subsystems in an accurate and timely manner. Major reports include Trial Balance, Income Statement, Balance Sheet, a user-defined report, and more. All data is maintained and reported by month, quarter, year and previous three quarters. Transactions may be entered via direct posting and external posting generated by A/R, A/P, Payroll - or any other user source.

Accounts Receivable

The objective of a computerized A/R system is to prepare accurate and timely monthly statements to credit customers. Management can generate information required to control the amount of credit extended and the collection of money owed in order to maximize profitable credit sales while minimizing losses from bad debts. This system is invoice-oriented. Invoices can be entered before they're ready for billing, after billing, or even after they are paid. Accounts Receivable allows entry of new invoices, credit memos, debit memos, or modification or deletion invoice and allows for progress payment. The transaction information includes: type of A/R transaction, P.O. #, description of P.O., billing date, general ledger sales account #, invoice amount, shipping and transportation charges, tax charges, payment, and progress payment information. Reports include: summary or detail listing of invoices not yet billed, open items (unpaid invoices), closed items (paid invoices), and aging. Statements may be printed at any time and follow the format of nationally available forms.

Order Entry

The Order Entry Module was designed as a supplement to the Accounts Receivable Module, and will not operate independently. This system allows you to add, change, delete, list and print invoices; apply an invoice to correct customer account; generate computer assigned invoice numbers; note type (invoice credit memo, debit memo); record customer order number, invoice date, shipping date, FOB location, method of shipping, salesman, and payment terms; print selected number of shipping labels; enter, display and correct 10 lines of data per invoice, noting the part number, description, price, quantity ordered, extension, taxable or not. It also allows the user to enter, display and correct invoice totals, noting the invoice subtotal, taxes, shipping and handling, with disbursement up to 5 General Ledger accounts; print a transaction report; maintain a terms code file in the system; update Account Receivable and generate summary report totals. It automatically coordinates to the Inventory Module (if used) to determine description, price and out of stock status, and to immediately deplete inventory stock. Price fields are easily modified to include percent or dollar discount.

Payroll

Payroll involves many complex calculations and the production of reports and documents, many of which are required by government agencies. The Payroll system performs all necessary payroll tasks including file maintenance, pay data entry and verification, computation of pay and deduction amounts, and the printing of reports and checks. State and Federal Tax changes are easily implemented by the user via menu prompting. In its link to General Ledger, each employee's payroll information is distributed to as many as 12 different GL accounts; system automatically posts to cash account.

Accounts Payable

The Accounts Payable system receives data concerning purchases from suppliers and produces checks in payment of outstanding invoices. Several reports are available to supply information needed for the analysis of payments, expenses, purchases and cash requirements. The Accounts Payable system is invoice-oriented. It handles new invoices, credit memos and even debit memos and allows modification and deletion of invoices. The flexible check calculation procedures allows checks to be calculated for a set of vendors, specific vendors or even specific invoices. The reports include open item listings and closed item listings (both detail and summary), debit and credit memo listings, aging, check register report (to give an audit trail of checks printed), and vendor listing and vendor activity. Update reports are useful for audit trails and checking for accuracy. Checks may be printed at any time and follow the format of nationally available forms.

Inventory

Status reports and minimum reorder reports help to reduce the potential hazard of overstocking which results in cash flow problems. Program selection allows the user to store data for inventory located at up to five separate sites (divisions), coding up to 9 sales people. Available reports include inventory master list, price listings, period and year-to-date sales, stock status, minimum reorder point and commission information.

Model I, 48K and 2 Disk Drives... $195.00 Per Module
Model III, 48K..... $195.00 Per Module
Model II, 64K..... $295.00 Per Module
Sample Report Printouts..... $ 10.00

H & E COMPUTRONICS Gives You A 30-Day Money Back Guarantee On All Modules

Experience Shows - S.B.S.G. has over 11,000 Installed Systems!

COMMUNICATIONS SYSTEMS

Small Business Systems Group markets a complete line of software which interfaces the TRS-80™ with ANY computer that communicates in ASCII. This family of products offers both terminal and host capabilities to users with even the most minimal hardware configurations. There has been wide interest in these products from "comm buffs," the educational community, and **businesses and individuals who need to communicate on a regular basis.** Our systems are among the most versatile and comprehensive on the market today for TRS-80™ microcomputers.

SMALL BUSINESS SYSTEMS GROUP

ST80-III™ -- The Ultimate Communications System

The "state of the art" in communications processors, designed for complex commercial applications. Included in this package is a set of programs that allow your TRS-80™ to talk to a timesharing computer, transfer files to and from your central business computer, and customize your ST80-III to your specific application.

Features Include: Selectable RS232 Setting • Help Display • Echo Feedback • Job Log (LDOS Mod I, Mod III) • 2-User Translation Tables • Auto Logon • 10 Function Keys (Definable) • RUBOUT Key (Definable) • Warm Restart • Automatic I.D. • True Break • Direct Cursor Addressing • DOS Command Support • Transmit Line Feed • Printer Support • Video Display Modes: SCROLL, FORMAT, PAGE, REVERSE VIDEO (Mod II), CURSOR ON/OFF • Auto-answer • Autodial (certain modems) • Append to memory buffer • Big buffer for printer • Off hook / on hook • 10 predefined ASCII strings in translation tables, • Registered users include NASA, USN, UPS, Westinghouse, and many colleges, universities and major banks.

Minimum Requirements: One disk drive, RS232-C, 32K Model I or III, 64K Model II.

Model I or III **$150.00**
Model II **$250.00**

FORUM-80™ -- Communications Network

With Bill Abney's hot new communications product, you and your TRS-80™ can become part of one of the fastest growing communications networks in the country; your computer becomes an on-line bulletin board system: users can leave messages, get messages, swap information; exchange VisiCalc™ reports, charts, graphs or other correspondence with other computers.

Features Include: Security System • Constantly displayed time-in-use figure • User Friendly • User Configurable or can be modified for custom application • Future updates and upgrades available to register owners • Multiple command strings • Non-technical user and operator manuals.

Minimum Requirements: TRS-80™ (3-drive Mod I, 2-drive Mod III), 48K, RS232-C, Auto-answer modem.

Model I or III **$350.00**

ST-80-PBB™ -- Personal Bulletin Board

A small yet powerful bulletin board for the individual to gather and leave electronic mail. Messages reside in data base in memory, eliminating the problem of scanning magnetic media.

Features Include: Password Security System • Four levels of Access--Guest, Member, Owner, Operator • User Log • Four message types • Smart reverse scan to view messages from most recent to oldest.

Minimum Requirements: TRS-80™ (Mod I or III), 16K, Level II, Auto-answer modem, ST80-X10 Host Program ($50), RS232-C.

Model I or III **$50.00**

ST-80-CC™ -- Communications Center

More than a personal bulletin board, this is a complete communications system for low to moderate traffic. Like ST80-PBB™ it supports four levels of users and four levels of messages with text editing and reverse scan of messages.

Additional Features Include: Transmit same message to many individuals • Auto logon and multiple command scanning • Print messages on line printer, save messages in memory buffer, maintain database without user intervention.

Minimum Requirements: TRS-80™ (Mod I or III), Level II, 48K, one disk, Auto-answer modem, ST80-X10 Host Program ($50), RS232-C.

Model I or III **$100.00**

MouseNet™ -- Advanced Bulletin Board System

Designed to accommodate high volume traffic, to operate simply enough for novice users, yet is fast and powerful enough for experienced callers.

Features Include: Messages stored on disk in keyed file • Uses machine language subroutines for speed • Supports text editing commands • Help commands guide user • System bulletins display each time a user logs on • All messages are dated.

Minimum Requirements: TRS-80™ (Mod I or III), 48K, RS232-C, 3 Disks, Auto-answer modem, text editor (such as Scripsit).

Model I or III **$295.00**

DELUXE PERSONAL FINANCE For TRS-80™ Model II

This is a sophisticated and unique financial analysis package which can be readily customized to suit your personal financial situation. It will:

- Accept and apply transactions to user-formatted budget categories.
- Separate cash and check disbursements.
- Allows up to ten category disbursements per check.
- Credit income/deposits according to source.
- Search, correct or void checks.
- Maintain an accurate checking account balance.
- Cancel returned checks.
- Provide monthly summaries of income vs. expenses.
- Calculate profit/loss.
- Summarize data by categories.
- Provides up to ten savings account summaries.

Model II **$75.00**
Model I or III **$35.00**

SBSG will provide all customers with software support and their free SBSG Newsletter

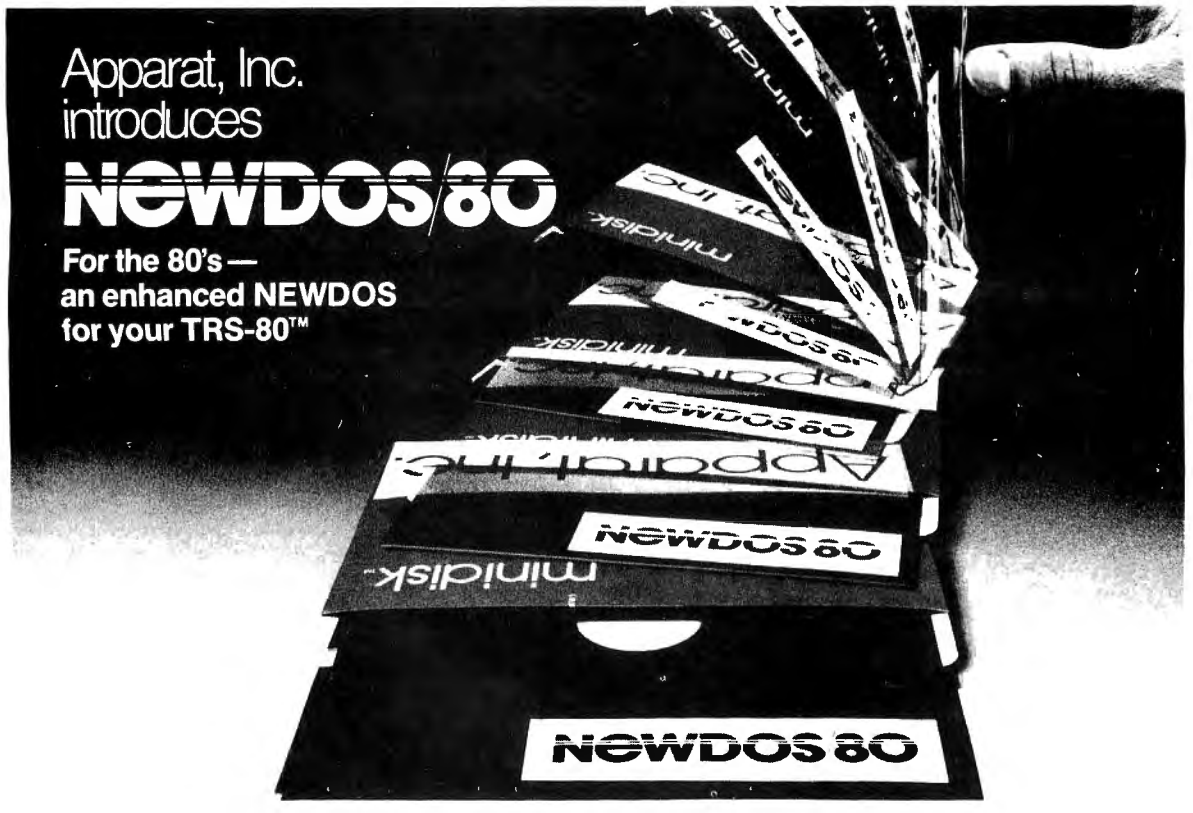
H&E COMPUTRONICS INC.

●● EVERYTHING FOR YOUR TRS-80™ MODEL I or MODEL III ●●

* TRS-80 is a trademark of the Radio Shack Division of Tandy Corp.



Apparat, Inc., announces the most powerful Disk Operating System for the TRS-80™. It has been designed for the sophisticated user and professional programmer who demands the ultimate in disk operating systems.

- **DOUBLE DENSITY ON MODEL I**
  Use of the LNW DOUBLE or the PERCOM DOUBLER will expand storage 80% under NEWDOS/80 Version 2.0, mixing single and double density specifications without any patches.
- **SINGLE DENSITY ON MODEL III**
  Will allow the MODEL III to read disk from MODEL I and to write disks the MODEL I can read, making it easy to move programs between the two machines.
- **EXPANDED DIRECTORIES**
  Directories can be expanded three times the normal number of available entries, even on DOS disks. This is extremely useful when using double density.
- **DYNAMICALLY MERGE IN BASIC**
  To allow sections of BASIC programs to be deleted and replaced with lines from a disk file during program execution. Also allows merging of non-ASCII format files.
- **SELECTIVE VARIABLE CLEARING**
  Allows the programmer to keep some variables and release the space used by the rest; also specific variables may be erased releasing the space they use.
- **PAGE SCROLLING IN BASIC**
  Scrolling has been modified to allow the user to display programs page by page, in addition to the regular line scrolling.
- **REPEAT FUNCTIONS**
  Keys in MODEL I repeat when held down. Entering "R" as a DOS command causes the previous DOS command to be repeated.
- **ROUTING FOR DEVICE HANDLING**
  To send input and output from one device (display, printer, keyboard, etc.) to others or to a routine in main memory.
- **DISASSEMBLER OUTPUT TO DISK**
  The Disassembler will now write a source code file to disk, which the editor assembler can read and edit.
- **CHAINING ENHANCEMENTS**
  Features to allow chain files to be written from SCRIPSIT; also chaining may be switched on and off without changing chain file positioning, and may be executed via CMD "xxx" and DOS-CALL.
- **SUPERZAP**
  Has the ability to scan diskettes or disk files to find the occurences of specific values. Also will generate disk file passwords and hashcode.
- **FAST SORT ROUTINE**
  Basic function CMD "O" provides direct or indirect in-memory sort of multiple arrays.
- **MERGING OF NON-ASCII BASIC PROGRAMS**
- **BASIC SINGLE STEPPING**
- New BASIC commands that supports files with variable record lengths up to 4095 Bytes long.
- Mix or match disk drives. Supports any track count from 18 to 80. Use 35, 40 or 77 track 5" mini disks drives or 8" disk drives, or any combination.
- A security boot-up for BASIC or machine code application programs. User never sees "DOS READY" or " > READY" and is unable to "BREAK", clear screen, or issue any direct BASIC statement including "LIST."
- New editing commands that allow program lines to be deleted from one location and moved to another or to allow the duplication of a program line with the deletion of the original.
- Enhance and improved RENUMBER that allows relocation of subroutines.
- CDE function; simultaneous striking of the C, D and E keys will allow the user to enter a mini-DOS to perform some DOS commands without disturbing the resident program.
- Upward compatible with NEWDOS 2.1 and TRSDOS 2.3.
- Includes Superzap 3.0 and all Apparat 2.1 utilities.

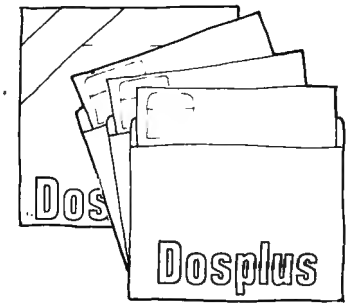
DOSPLUS 3.4

From
MICRO SYSTEMS SOFTWARE, INC.



Replaces TRSDOS™ with the most powerful and sophisticated operating system you can get for your TRS-80™ Model I or III (New Model II version also)*

THE ORIGINAL DOSPLUS CONTAINS ALL OF THE FOLLOWING FEATURES . . . . .

1) Radio Shack compatibility
2) Error free variable length records
3) Full lower case detection and support
4) Repeating keyboard with NO keybounce EVER
5) Shift [0] typewriter keyboard option
6) Execute only protection feature for BASIC programs
7) Automatic track support for 35 through 80 track drives (mixed)
8) Device I/O handling with FORCE command
9) Supports high speed clock modification (up to 4.Omhz)
10) Supports mixed mode (single & double density) automatically
11) Allows disable-enable to break key
12) Allows user to define step rate per drive and re-configure system disk
13) Allows for efficient use of double-headed drives
14) Built in screen printer (shift [CLEAR] with [BREAK] key abort
15) Multiple command chaining with "DO"
16) Built in memory test with CLEAR command
17) New printer driver which allows complete forms control and paging
18) Automatic serial printer driver with optional auto linefeed
19) Execute any DOS command from BASIC and return to BASIC
20) Free space map of diskette with optional output to printer
21) Copy with variable length files
22) Complete RS232 control from keyboard with status check
23) Create and pre-allocate files from DOS
24) Display current date and time from DOS
25) More information from Directory with optional printer output
26) Enter DEBUG with shift [BREAK] to allow use of [BREAK] from BASIC
27) New DISKDUMP/CMD sector display/modify program (works with filespecs)
28) New DISKZAP/CMD single/double density disk editor
29) New BACKUP (more reliable, no more pack ID check)
30) New FORMAT (more reliable, no need to bulk erase disk first)
31) New MAP utility (maps out disk, showing where files are located)

PLUS New DOSPLUS Z80 Extended Disk BASIC

1) Faster loads and saves
2) BASIC Reference utility (lines, variables, keywords, printer option)
3) BASIC Renumber utility (renumber section of text, block text move)
4) Shorthand features for almost ANY direct command (LOAD, SAVE, etc.)
5) Shorthand features for editing (listing and editing with single key)
6) CMD"M" instantly displays currently set variables
7) Global search and replace in BASIC text
8) Line printer TAB to 255
9) OPEN"E" to end of sequential file (for output)
10) DI (delete and insert text line)
11) DU (duplicate text line)
12) ",R" & ",V" options after LOAD and RUN (files open & save variable)
13) OPEN"D" allowed (Model II compatible) equal to OPEN"R"
14) DOS commands from BASIC
15) Automatic, error-free variable length records
16) Single step execution with TRON (fabulous for debugging)
17) CRUNCH (BASIC program compressor)
18) New TBASIC (tiny BASIC) offers full BASIC commands
19) TBASIC and DOSPLUS together only use BK of RAM (40K left in 48K TRS-80)

PLUS ** 7 MORE UTILITIES **

1) Single drive copy
2) Restore (dead files)
3) Purge (unwanted files)
4) Clearfile (destroys data by writing zeros to file)
5) Transfer (moves all user files from one disk to another)
6) Spooler (allows printing of text while freeing up the CPU)
7) Crunch (Basic program compressor)

NOW DOSPLUS 3.4 ADDS THESE NEW ADDITIONAL FEATURES . . . .

1. BASIC array sort - multi key, multi array
2. Tape/Disk - Disk/Tape utility (with relocator)
3. Input@ (controlled screen input)
4. Random access and ASCII modification on Diskdump
5. BASIC checks for active 'DO'
6. Backup and Format from a 'DO' file
7. Much improved Backup (More reliable)
8. I/O package much faster (disk access time reduced)
9. Repeat last DOS command with '/' ENTER
10. Short directory (file name and extension) available
11. Short directory of Model III TRSDOS disks
12. Single file convert from Model III TRSDOS
13. COMPLETE device routing supported (DOS and BASIC)
14. Ability to save BASIC programs directly to another machines' memory (if equipped with Dosplus 3.4)
    - Plus many more improvements
    - Includes the new expanded easy to read 200 + page users guide
    - Also includes the new DOSPLUS Z80 disk basic VER 1.6

$149.95

Now for the TRS-80™ Models I & III

* **DOUBLE** Sided & **DOUBLE** Density support.
* **AUTOMATIC** Density recognition.
* 35, 40, 77, 80 and any other track counts are supported.
* All available drive stepping rates are supported.
* Hard Drive support, can be **HANDLED AS A SINGLE DRIVE.**
* Hard drive partitioning, one drive can act as up to six.
* Intermix 5", 8" and Hard drives, up to a total of 8 drives.
- Compatible with the Model I Radio Shack Expansion Interface.
- Upward compatible with **TRSDOS** (2.3 & 1.3 as documented).
- Fully supports Microsoft language products for **TRS-80.**
- Complete media compatibility Model I to Model III and back.
- Full support for **LOBO's LX-80** interface.
- Full support for **AEROCOMP'S** double density controller**(DDC).**
- Full support for **PERCOM's DOUBLER II.**
- Complete documentation (well over 250 pages).
- Complete technical information.
- An **LDOS** users bulletin board on MicroNET.
- A liberal update policy.
- An enhanced **BASIC (LBASIC)** including:
  - > Upward compatible with Microsoft Basic.
  - > High speed **LOAD** and **SAVE**.
  - > Run multiple programs with common variables.
  - > **BLOCKED** (variable length) files are supported.
  - > **DOS** commands may be executed from **LBASIC.**
  - > Built in string array. **SORT.**
  - > Single stepper for debugging.
  - > Several new statements and file modes.
- A compiled **JOB CONTROL LANGUAGE (JCL).**
- **CONV**ert utility to move files from Model III **TRSDOS.**
- An Extended Debugging and Monitor program (with disk access).
- **CMDFILE** for movement of disk and/or tape system **(/CMD)** files.
- Device independent operation.
- Full **LINK**ing, **ROUTE**ing, **FILTER**ing and **SET**ting are supported.
- Mini**DOS** feature for constant access to certain **DOS** commands.
- **RS-232 DRIVER** for serial support.
- Sophisticated communications software included.
- Wildcard characters and partial Filespecs are supported.
- **DATED FILES,** show when a file was last written to.
- Backup: Mirror, by Class, if Modified, by Date, by Extension, etc.
- Selectable **PURGE** for fast disk "cleanup" of unwanted files.
- Print formatter, for control of printer output.
- Built in printer **SPOOLER,** to both disk and ram.
- Joblog to record all system operations with time stamps.
- **UPPER** and *lower* case support, throughout the system.
- Blinking cursor with selectable cursor character.
- 128 character **TYPE AHEAD** buffering for keyboard input.
- Assign strings to individual keys with Key Stroke Multiply **(KSM).**
- **SUPER FAST** operation with the **SYSRES** feature.
- Extensive user control and system feedback.
- Advanced **PATCH** utility for easy maintenance.
- Complete transportability of software among all **Z-80 LDOS** systems through the use of the **LDOS** high ram supervisory call system.
- Dealers to serve users Nationwide and in the Common Market.
- The only **DOS** with a limited **ONE YEAR WARRANTY!**
- Enjoy a professional operating system on **YOUR TRS-80!**

* Specific hardware is required to use these features.

The Ultimate In Operating Systems For Model I & III

Only $129.95
Version 5.1

* Model I LDOS provided on 35 track single density media.
* Model III LDOS provided on 40 track double density media.
* LDOS can be provided on special media configurations at an additional charge.
* Prices & Specifications are subject to change without notice.

STATE-OF-THE-ART ACCOUNTING SYSTEMS from PEACHTREE SOFTWARE™

Peachtree Software
AUTHORIZED CENTER

PEACHTREE ACCOUNTING SERIES 8

The Peachtree™ 8 Accounting Series is a comprehensive system of six linked packages—General Ledger, Accounts Payable, Accounts Receivable, Sales Invoicing, Inventory and PeachPay™ payroll — that, used together, provide the manager complete control over his "life-stream" accounting functions. And the Series 8 packages supply the manager his vital financial data as he's never had it before: on time, in order and organized into a wealth of special reports to keep him on top of his business.

All of the Series 8 applications, with the exception of Sales Invoicing, can be used as independent applications; Sales Invoicing is used with Accounts Receivable and Inventory to simultaneously access and update files in those two packages.

Series 8 Features

- Two levels of nondisplaying password control (one for controller or manager, one for operator.)
- Ability to force the operator to print control reports.
- Ability to block the deletion of General Ledger accounts and transactions.
- Ability to change the size of files for increased processing speed.
- Recover Data Files program to prevent data loss due to power surges, hardware breakdowns, etc.
- Designed to run on floppy-disk or hard-disk systems.
- Delivered in compiled BASIC for greater speed.
- Visionary™ screen manager for ease of entering and changing data
- Sample data bases with self-instruction exercises included.
- Sample and blank input forms provided for system start-up.
- Detailed report descriptions.
- Automatic end-of-period back-up.
- Complete documentation: Each package comes with a comprehensive six-part user's manual which takes the user through a complete instructional program for the package, with details on installation procedures and the full range of system options available to the user.

Hardware and System Requirements

CPU/Internal Memory: Any 8080-, 8085- or Z80-based microcomputer with 50K of RAM free of CP/M.™

Storage: At least two floppy-disk drives with a minimum of 138K per drive (one for the program disk and one for the data disk). The Series 8 packages take up varying amounts of disk space, and each package's programs can be divided between smaller diskettes. The Series 8 packages also supports hard-disk systems.

System Software: Microsoft BASIC Run Time Library (BRUN). Notes: Series 8 is written in Microsoft BASIC, but, as the packages are supplied in compiled form, the user does not have to have Microsoft BASIC to run them; only BRUN is required.

Operating System: CP/M version 2.0 or later.

Video Unit: Any CRT with keyboard having 24 lines per screen, 80 characters per line and scrolling, clear screen and cursor positioning capabilities.

Printer: Any unit having 132 print positions per line and at least 66 lines per page.

General Ledger	$750.00
Accounts Receivable	$750.00
Accounts Payable	$750.00
Sales Invoicing	$750.00
Inventory Control	$750.00
PeachPay™ Payroll System	$750.00

CPA-CLIENT POSTING AND ACCOUNTING SYSTEM

A client write-up and reporting system designed specifically for accounting firms and service bureaus; simple to use, yet containing a number of sophisticated features and options which allow the user to tailor the system to his own requirements.

System Features

- Two levels of passwords insure system security and access by only authorized personnel.
- Flexible chart of accounts set up and report generation capabilities make the system readily adaptable to most companies needs.
- An audit trail facilitates review and justification of statement amounts.
- Batch totals, prompting messages, and input validity tests, help the operator make correct entries the first time through and minimize time-wasting out-of-balance problems at month end.
- Departmental reporting optional on both the Balance Sheet and the Income Statement, giving effective division or cost center breakdowns.
- Comparative reporting on the Balance Sheet and Income Statement shows how last year's activity compares with this year.
- Income Statement and Department Income Statements allow inclusion of budget amounts.
- Reversing journal entry type and repeating journal entry type minimize transaction input effort.
- Produces Subsidiary Schedules, Statement of Changes, Cash Flow Statement, various Transaction Registers, and other user-defined reports.
- Includes Master Chart of Accounts to save time in client setup; handles multiple clients per disk to conserve media space.
- Generates Depreciation/Amortization Schedules.
- Follows AICPA guidelines in report formatting including period ending dates and necessary disclosure statements

Client Posting & Accounting System $1500.00

Peachtree Software™ may **not** be returned once the sealed diskette envelope has been opened.

A NEW ENHANCED VERSION OF THE FINEST DATA BASE SYSTEM FOR YOUR TRS-80™ MODEL I or III

Maxi Manager

JUST CHECK SOME OF THESE FEATURES

- Supports six different relational search techniques.
- Comes with programmer's interface.
- Over 93 pages of documentation.
- Supports up to 20 user defined fields of 40 characters each.
- Record length up to 800 characters.
- Files can be up to four disks in length.
- Compatable 35, 40, 77 & 80 track drives.
- Has calculated equation fields.
- Complete report generator.
- Data can be merged into letters.

Adventure INTERNATIONAL
A DIVISION OF SCOTT ADAMS, INC.

MAXI MANAGER for TRS-80 Models 1 & 3
Requires 48K of RAM and 1 Disk Drive Minimum.

New Features Include:

- **30%** INCREASE IN SORT SPEED
- RE-WRITTEN USER'S MANUAL
- NOW COMPATIBLE WITH NEWSCRIPT™ WORD PROCESSING SYSTEM
- **MAXI UTILITY,** WHICH ALLOWS YOU TO RESCUE FILES ON DISKETTES DAMAGED BY WEAR OR MISUSE AND LETS YOU ADD, DELETE OR EXPAND FIELDS IN AN EXISTING DATA BASE.

$149.95

NOTE 1: File size is dependant on memory size.
NOTE 2: Sequential files only.
NOTE 3: User must apply own driver routine.
NOTE 4: Hard copy print out only
NOTE 5: Four functions (+ − * /) only
NOTE 6: Same as note #5 with a maximum of two calculated fields.
NOTE 7: Available as a separate program for $99.95.
NOTE 8: 120 character maximum.
NOTE 9: Data structures defined in manual.
NOTE 10: 132 characters maximum.
NOTE 11: User option (files can be read from ascending or descending order).

MAXI CRAS
MAXI STAT
MAXI MAIL

MAXI CRAS Check Register Accounting System

MAXI CRAS is a TRS-80™ computerized check writing and recording system for personal or small business use. With **MAXI CRAS**, you can print a month's worth of checks in minutes (singly or on continuous forms), or you can write checks by hand and enter them into the register at your convenience. **MAXI CRAS** also eases the burden of reconciling your bank statement by providing the information you need to know quickly and efficiently. And **MAXI CRAS never** places a limit on your financial activity like some systems — **write as many checks per month as you need!**

But **MAXI CRAS** does much more than balance a checking account; it's an indispensable tool for managing money most effectively. You create up to 223 income and expense accounts in the system, and at any time, you can print a detailed statement that shows all activity in one or more of your accounts over a specified period of time. You always know exactly where your money is coming from and where it's going.

There's more! You can print complete check registers, income and expense sub-totals, and an account distribution statement that tells how each transaction was distributed over the individual accounts.

If you're weary of the messy, inefficient ledger method of bookkeeping, if you've been disappointed with other financial managing systems that don't deliver what they promise, then you're ready for best. We mean it when we say — **MAXI CRAS MEANS BUSINESS.**

ORDER NOW!

TRS-80™ 48K DISK Model I and III **$99.95**

MAXI STAT Statistical Analysis Package

MAXI STAT is a revolutionary new program that was designed as a complete analysis package for the TRS-80™. If you're familiar with SPSS (Statistical Package for the Social Sciences) and what it does for statistical analysis on mainframe computers, then you have an idea of what **MAXI STAT** can do on your microcomputer. The following description of **MAXI STAT** is divided into the 3 main components of statistical analysis:

(1) CODEBOOK
The codebook describes the data file format and the labels to be used for all statistical printouts. The four programs have been designed for complete codebook creation and editing. They are menu-driven and have incorporated several automatic error-checking routines.

(2) DATA ENTRY
MAXI STAT's data entry procedure is designed for speed and ease of entry. Entering and editing the raw information you wish to analyze is facilitated by the use of either fixed or free format. The four Data Management programs are menu-driven and are designed with a special backup feature that will save the data on disk at user-specified intervals.

(3) CONTROL FILES AND STATISTICAL ANALYSES
With **MAXI STAT**, you create the task control life to describe the types of analyses you would like printed. Hundreds of tasks can be specified with only one control file and analysis may be done on ranges of variables.

MAXI STAT is the most useful statistical analysis package on the market today. It was written and designed to allow maximum flexibility in designing your own analysis.

If you're in need of a program that adapts to your specifications, you need **MAXI STAT.**

ORDER NOW!

TRS-80™ 48K DISK Model I and III **$199.95**

MAXI MAIL Mailing List Management System

The **ultimate** in low-cost mail list management is now here — **MAXI MAIL**, the latest entry in the highly acclaimed **MAXI** series. **MAXI MAIL** is a powerful mail list management system that's easy to use and has **totally unlimited storage capacity.** Completely menu-driven and loaded with error trapping routines and safeguards, each **MAXI MAIL** data disk will hold approximately 1000 names and addresses; you can add as many extra data disks as you like! **MAXI MAIL** prints address labels, too — up to four across and in any configuration you want. An alignment test ensures that everything is just right before your data printing begins. **MAXI MAIL** also merges data, supports three numeric codes (of up to four characters each), and offers all of the features necessary for professional mail list management.

So, if you need a dependable, easy-to-use mail list management system at an affordable price, your search is at an end. **MAXI MAIL** means business!

H & E COMPUTRONICS INC.

SUPERCHARGE YOUR TRS-80*

WITH ADVANCED UTILITY PROGRAMS

FROM RACET COMPUTES LTD.

TRS-80™ is a trademark of Tandy Corp.

Facts About RACET COMPUTES Utility Programs:

- ***ALL PROGRAMS ARE WRITTEN IN MACHINE LANGUAGE
- ***ABSOLUTELY NO KNOWLEDGE OF MACHINE LANGUAGE IS NECESSARY TO USE ANY OF THE UTILITY PROGRAMS
- ***EACH UTILITY PROGRAM IS CALLED UP FROM **BASIC** USING THE SIMPLE BASIC COMMANDS PROVIDED
- ***EACH UTILITY PROGRAM COMES WITH A **RACET COMPUTES** INSTRUCTION MANUAL
- ***EACH INSTRUCTION MANUAL INCLUDES SEVERAL EXAMPLES OF UTILITY USAGE
- ***EACH UTILITY ALLOWS THE USER TO PERFORM CERTAIN BASIC OPERATIONS TEN, TWENTY OR MORE TIMES FASTER THAN THE EQUIVALENT BASIC ROUTINE (FOR EXAMPLE, **GSF** CAN SORT AN ARRAY OF 1000 RANDOM NAMES INTO ALPHABETICAL ORDER IN UNDER 9 SECONDS!!)

30 DAY MONEY-BACK GUARANTEE FROM H & E COMPUTRONICS, INC.

GSF (GENERALIZED SUBROUTINE FACILITY

- SORTS 1000-ELEMENT ARRAYS IN 9 SECONDS
- SORTS UP TO 15 ARRAYS SIMULTANEOUSLY (MIXED STRING, FLOATING POINT AND INTEGER)
- SORTS SINGLE OR MULTIPLE SUBSTRINGS AS ASCENDING OR DESCENDING SORT KEYS
- READ AND WRITE ARRAYS TO CASSETTE
- COMPRESS AND UNCOMPRESS DATA IN MEMORY
- MOVE ARRAYS IN MEMORY
- DUPLICATE MEMORY
- FAST HORIZONTAL AND VERTICAL LINES
- SCREEN CONTROLS FOR SCROLLING THE SCREEN UP, DOWN, LEFT, RIGHT AND FOR GENERATING INVERSE GRAPHIC DISPLAYS
- ADDS PEEKS AND POKES (MOD-II VERSION ONLY)

MODEL-I VERSION **$25.00**
MODEL-II VERSION **$50.00**
MODEL-III VERSION **$30.00**

KFS-80 (KEYED FILE SYSTEM)

- CREATE ISAM FILES (INDEX SEQUENTIAL METHOD)
- ALLOWS INSTANT ACCESS TO ANY RECORD ON YOUR DISKETTE
- INSTANTLY RETRIEVE RECORDS FROM MAILING LISTS, INVENTORY, ACCOUNTS RECEIVABLE OR VIRTUALLY ANY APPLICATION WHERE RAPID ACCESS IS REQUIRED TO NAMED RECORDS
- PROVIDES THE BASIC PROGRAMMERS THE ABILITY TO RAPIDLY INSERT OR ACCESS KEYED RECORDS IN ONE OR MORE DATA FILES
- RECORDS ARE MAINTAINED IN SORTED ORDER BY A SPECIFIED KEY
- RECORDS MAY BE INSERTED OR RETRIEVED BY SUPPLYING THE KEY
- RECORDS MAY BE RETRIEVED SEQUENTIALLY IN SORTED ORDER
- RAPID ACCESS TO ANY FILE REGARDLESS OF THE NUMBER OF RECORDS
- MULTIPLE INDEX FILES CAN BE EASILY CREATED WHICH ALLOWS ACCESS OF A SINGLE DATABASE BY MULTIPLE KEYS (FOR EXAMPLE, BY BOTH NAME AND ZIP CODE)

MODEL-I VERSION **$100.00**
MODEL-II VERSION **$175.00**
MODEL-III VERSION **$100.00**

DSM (DISK SORT MERGE)

- SORT AN 85K DISKETTE IN LESS THAN THREE MINUTES!
- SORTS LARGE MULTIPLE DISKETTE FILES ON A MINIMUM ONE DRIVE SYSTEM
- ALL RECORDS ARE PHYSICALLY REARRANGED-NO KEY FILES ARE REQUIRED
- SORTS RANDOM FILES CREATED BY **BASIC**, INCLUDING FILES CONTAINING SUB-RECORDS SPANNING SECTORS
- SORTS ON ONE OR MORE FIELDS IN ASCENDING OR DESCENDING ORDER
- FIELDS MAY BE STRINGS, INTEGER, BINARY INTEGER OR FLOATING POINT
- THE SORTED OUTPUT FILE MAY OPTIONALLY HAVE FIELDS DELETED, REARRANGED OR PADDED
- SORT COMMANDS CAN BE SAVED FOR REUSE
- SINGLE SORT, MERGE, OR MIXED SORT/MERGE OPERATIONS MAY BE PERFORMED
- SORTED OUTPUT MAY BE WRITTEN TO A NEW FILE, OR REPLACE THE ORIGINAL INPUT FILE

MODEL-I VERSION **$75.00**
MODEL-II VERSION **$150.00**
MODEL-III VERSION **$90.00**

INFINITE BASIC

- ADDS OVER 80 COMMANDS TO BASIC
- SORTING...STRING CENTERING/ROTATION/TRUNCATION...JUSTIFICATION...DATA COMPRESSION...STRING...TRANSLATION/COPYING...SCREEN DISPLAY...SCROLLING...MATRIX OPERATIONS...SIMULTANEOUS EQUATIONS (THROUGH MATRIX INVERSION)...DYNAMIC ARRAY RESHAPING

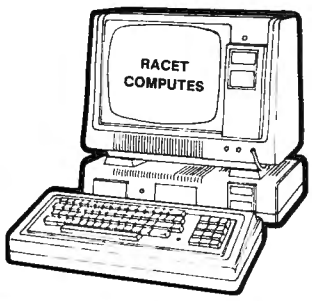
MODEL-VERSION **$50.00**
MODEL-III VERSION **$60.00**
NOT AVAILABLE ON MODEL-II

INFINITE BUSINESS

- ADD ON PACKAGE TO **INFINITE BASIC** (REQUIRES INFINITE BASIC)
- ADDS PACKED DECIMAL ARITHMETIC WITH 127 DIGIT ACCURACY (+,0,*,/)
- COMPLETE PRINTER PAGINATION CONTROLS
- BINARY SEARCH OF SORTED AND UNSORTED ARRAYS
- HASH CODES

MODEL-I VERSION **$30.00**
MODEL-III VERSION **$30.00**
NOT AVAILABLE ON MODEL-II

UNLEASH THE HIDDEN POWERS OF YOUR TRS-80*. SUPER FAST, HIGH POWERED AND ULTRA-SOPHISTICATED UTILITY SOFTWARE



CREATED BY RACET COMPUTES

...BROUGHT TO YOU BY THE COMPUTRONICS INC.

MODEL II SPEEDUP—FAST DISK I/O

THIS IS AN ENHANCEMENT FOR TRSDOS 2.0 THAT WILL RADICALLY DECREASE DISK ACCESS TIME.

NEW

- DISKS BOOT FASTER TO DOS
- IMPROVE DISK I/O UNDER BASIC

MODEL II ONLY **$99.95**

HSDS HARD DISK DRIVE SOFTWARE

- MAKES TRSDOS COMPATIBLE WITH MOST HARD DISK DRIVES
- ADDS MANY EXTRA FEATURES TO TRSDOS..... **$400.00**

COMPROC (COMMAND PROCESSOR)

- AUTO YOUR DISK TO PERFORM ANY SEQUENCE OF INSTRUCTIONS THAT YOU NORMALLY GIVE FROM THE KEYBOARD (FOR EXAMPLE, INSERT THE DISKETTE, PRESS THE RESET BUTTON. YOUR COMMAND FILE COULD AUTOMATICALLY SHOW YOU THE DIRECTORY, SHOW THE FREE SPACE ON THE DISKETTE, LOAD A MACHINE LANGUAGE SUBROUTINE, LOAD BASIC, LOAD AND RUN A BASIC PROGRAM, AND SELECT A GIVEN ITEM ON YOUR MENU...ALL WITHOUT TOUCHING THE KEYBOARD!)

MODEL-I VERSION **$20.00**
MODEL-III VERSION **$30.00**
NOT AVAILABLE FOR MODEL-II

DISCAT (DISKETTE CATALOG SYSTEM)

- THIS COMPREHENSIVE DISKETTE CATALOGUING/INDEXING UTILITY ALLOWS THE USER TO KEEP TRACK OF THOUSANDS OF PROGRAMS IN A CATEGORIZED LIBRARY...FILE INCLUDES PROGRAM NAMES AND EXTENSIONS PROGRAM LENGTH, DISKETTE NUMBERS AND FREE SPACE ON EACH DISKETTE...KEEP A COMPLETE CATALOG OF THE DIRECTORIES ON ALL YOUR DISKETTES IN ALPHABETICAL ORDER (SORTED ON EACH DISKETTE...OR COMPLETE ALPHABETICAL LIST OF PROGRAMS ON ALL YOUR DISKETTES)

MODEL-I VERSION **$50.00**
MODEL-III VERSION **$50.00**
MODEL-II VERSION (SEE MODEL-II UTILITY PACKAGE)

BLINK (BASIC LINK FACILITY)

- LINK FROM **BASIC** PROGRAM TO ANOTHER SAVING ALL VARIABLES
- THE CHAINED PROGRAM MAY EITHER REPLACE THE ORIGINAL PROGRAM OR CAN BE MERGED BY STATEMENT NUMBER

MODEL-I VERSION **$25.00**
MODEL-III VERSION **$30.00**
MODEL-II VERSION **$50.00**

REMODEL-PROLOAD

- THE ULTIMATE RENUMBERING PROGRAM...RENUMBERS ALL OR PART OF A PROGRAM (ALLOWS PARTIAL RENUMBERING IN MIDDLE OF PROGRAMS)
- PARTIAL OR COMPLETE MERGE OF TWO CASSETTE PROGRAMS

MODEL-I VERSION **$35.00**
MODEL-III VERSION **$35.00**
NOT AVAILABLE ON MODEL-II

COPSYS

- COPY AND VERIFY ALL MACHINE LANGUAGE (SYSTEM) TAPES WRITTEN IN STANDARD FORMAT...IF YOU BUY A MACHINE LANGUAGE PROGRAM, **COPSYS** ALLOWS YOU TO EASILY COPY THE PROGRAM ONTO ANOTHER CASSETTE AS A BACKUP

MODEL-I VERSION **$15.00**
MODEL-III VERSION **$20.00**
NOT AVAILABLE ON MODEL-II

MODEL II FASTBACK—FULL DISK BACKUP IN 55 SECONDS

IN BUSINESS TIME IS MONEY, & ONE BACKUP IS WORTH A THOUSAND TEARS.

- WORKS ON SYSTEMS WITH 2 OR MORE DRIVES
- CAN REPLACE YOUR EXISTING TRSDOS 1.2 or 2.0 BACKUP UTILITY

NEW

MODEL-II ONLY **$75.00**

MODEL-II UTILITY PACKAGE

- ESSENTIAL FOR EVERY MOD-II OWNER
- RECOVER AND REPAIR FILES AND DIRECTIONS (BY JUST ENTERING A SINGLE COMMAND)
- XCOPY...SIMILAR TO COPY BUT CAN COPY ANY NUMBER OF FILES AT ONE TIME FASTER AND MORE ACCURATE THAN COPY SINCE RECORDS ARE COPIED IN GROUPS RATHER THAN ONE RECORDS AT A TIME...USING XCOPY YOU CAN COPY FILES THAT CAN NOT BE COPIED USING THE COPY COMMAND
- SZAP...PROVIDES THE CAPABILITY TO READ AND MODIFY ANY SECTOR ON A DISKETTE
- XHIT...CAN BE USED TO REPAIR A DISKETTE DIRECTORY
- DCS...DIRECTOR CATALOG SYSTEM IS A UTILTIY FOR THE MANAGEMENT OF USER DISKETTES...SETS OF A MULTIPLE DISKETTE DIRECTORY FILE (WITH UP to 1200 INDIVIDUAL FILE NAMES)...ALLOWS SELECTIVELY LISTED OR PRINTED LISTS OF DIRECTORY FILES IN COMBINED SORTED ORDER (FOR EXAMPLE, LISTED ALPHABETICALLY BY DISKETTE...OR A COMPOSITE ALPHABETICAL LIST OF ALL YOUR DISKETTES!)
- DEBUG II...ADDS SEVERAL FEATURES TO THE PRESENT TRSDOS DEBUG UTILITY INCLUDING SINGLE INSTRUCTION CYCLE, AUTO (LOOP) BREAKPOINTS, SUBROUTINE CALLING, BREAK-KEY DETECTION AND MANY OTHERS.

MODEL-II ONLY **$150.00**

MODEL-II DEVELOPMENT SYSTEM

- THIS PACKAGE IS A MUST FOR ASSEMBLY LANGUAGE PROGRAMMERS
- INCLUDES THE **MICROSOFT EDITOR ASSEMBLER PLUS** WITH ENHANCEMENTS FOR THE MODEL-II
- A COMPLETE DISASSEMBLER
- SUPERZAP FOR READING AND MODIFY ANY SELECTOR ON A DISKETTE

MODEL-II ONLY **$125.00**

MOD-II BASIC CROSS REFERENCE UTILITY

- LIST OR PRINT A SORTED CROSS REFERENCE TO ALL NUMBERS OR VARIABLES WITHIN A PROGRAM
- LIST OF PRINT ALL LINE NUMBERS CONTAINING A SPECIFIED STRING OF CHARACTERS

MODEL-II ONLY **$50.00**

If you own a TRS-80, you've GOT to have this book!

Learning TRS-80 BASIC

for Models I, II/16 and III

FROM AMERICA'S MOST IMITATED COMPUTER AUTHOR . . .

THE ULTIMATE TRS-80™ BASIC BOOK!

COMPLETE COVERAGE OF MODEL I, II, III and 16 BASIC's.

ABOUT THE BOOK

* TRS-80 is a trademark of Radio Shack

In 1977 David Lien wrote the Original Level I TRS-80 Learner's Manual furnished with all Model I computers. This step-by-step, illustrated, nonintimidating manual introduced thousands of beginners to the concepts and practices of BASIC programming. The manual was a huge success, and won universal acclaim as the best BASIC training manual ever written. Dr. Lien's teaching style created an immediate rapport with novice users, helping them to feel more comfortable with their computers, and more curious to about programming. Translated into numerous foreign languages, it soon became the world's best selling tutorial-style computer book. A revised version is still sold by Radio Shack.

Level II BASIC was introduced in 1978 and Dr. Lien wrote **LEARNING LEVEL II** released by Compusoft Publishing. This book was bought by thousands of users at $16.95, and quickly became the standard training manual for Level II BASIC (although the book is NOT sold by Radio Shack). In addition to teaching users how to take advantage of the power of Level II BASIC, this book helped bridge the gap between Level I and Level II.

In his own unique style, Dr. Lien has used his great expertise to create the most comprehensive training manual ever written on BASIC programming for all TRS-80 computers. Completely re-organized and updated. **LEARNING TRS-80 BASIC** clearly instructs you in BASIC programming for TRS-80 Models I, II, III and 16 in a smooth flowing, easy-to-understand tutorial style. In addition to complete descriptions of each BASIC command, one or more sample programs are included to illustrate each command's use. Even the "know-it-all" programmer who thinks he knows all there is to know about BASIC will find a wealth of information not available elsewhere on use of PEEKs and POKEs, sorting techniques, disk BASIC usage, error handling and more. Schools teaching BASIC programming will find this to be an ideal textbook, with question and answer approaches and exercises at the end of each section that help the student make sure he understands the most important concepts, and is ready to move on to the next section.
Whether you're a beginner or an expert programmer, whether you're studying alone at home, or in a class with a teacher, **IF YOU OWN A TRS-80, YOU NEED A COPY OF THIS BOOK.**

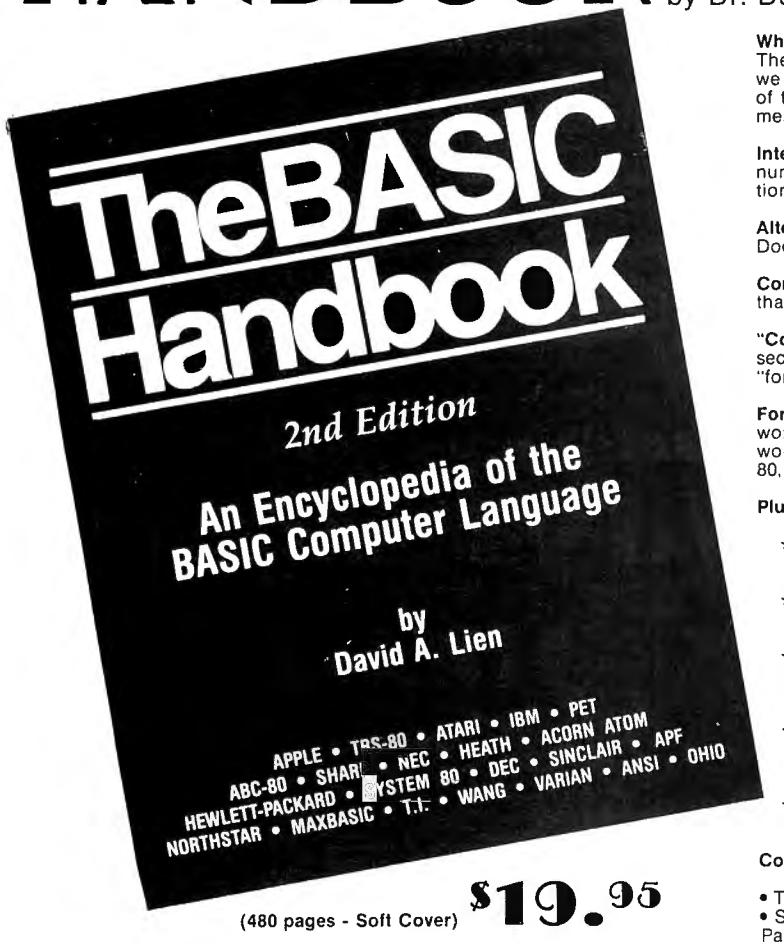
CompuSoft™ Publishing Proudly Announces . . .

The New 2nd Edition Of

THE BASIC HANDBOOK

Not A Dictionary, Not A Text, It Is A Virtual ENCYCLOPEDIA Of The BASIC Language, Explaining All You Need To Know About Over 500 BASIC Statements, Functions, Operators and Commands.

An Encyclopedia of the BASIC computer language.
by Dr. David A. Lien



(480 pages - Soft Cover) **$19.95**

The BASIC Handbook has never been this complete. The Expanded Second Edition gives you over twice as much information as the First Edition, explaining nearly 500 BASIC words. The Handbook features special sections on Disk BASIC, TRS-80 Extended Color BASIC, Atari BASIC, Acorn Atom BASIC, Tektronix BASIC and "Converting Programs From One Computer For Another."

The computer industry has experienced tremendous change in the last three years. Hundreds of new computers have been introduced since The BASIC Handbook was released in 1978. The Second Edition meets the challenge head-on, documenting every significant BASIC word used by every BASIC-speaking computer.

This new Edition makes program conversion easy. Its widely acclaimed feature, "If Your Computer Doesn't Have It" has been expanded. Each BASIC word is alphabetically listed, with **Test Programs** and **Sample Runs, Variations in Usage** combine with **Alternate Spellings** to totally cross-reference each BASIC word.

Who needs the BASIC Handbook?
Every user of the BASIC language needs the Handbook! Hobbyists converting between BASIC "dialects" need it. Students learning and using BASIC on any size computer need the Handbook as a supplement to their BASIC language text. Programmers at every level will use it constantly to find better ways to achieve the needed results.

What versions of BASIC does it cover?
There are nearly a **hundred** versions of BASIC in use today. No wonder we keep seeing strange new BASIC words. Dr. Lien has selected over 50 of the most used dialects and explained every commonly used statement, function, operator and command.

Interlocking subroutines: Every subroutine has been constructed so the numbers won't overlap with others in the book. Assemble any combination of the subroutines needed to do the job — with no line conflicts!

Alternate programming techniques: The popular "If Your Computer Doesn't Have It" feature has been expanded throughout the book.

Complete Index: The increased complexity of the language mandated that an index be added.

"Converting Programs From One Computer For Another" This special section provides valuable tips on how to translate a program with a "foreign" BASIC to run on your machine.

Foreign computers: Virtually every BASIC-speaking computer in the world is covered. You need the new Handbook to translate BASIC words used by Britain's Sinclair, Sweden's ABC-80, Australia's System 80, Japan's NEC and many others.

Plus these Special Sections

- ★ **Disk BASIC:** A helpful supplement to your Owner's Manual and a good introduction to the theory of Disk BASIC.
- ★ **TRS-80 Extended Color BASIC:** A comprehensive explanation of Radio Shack's newest BASIC.
- ★ **Atari BASIC:** You see programs written in this popular BASIC in nearly all the magazines. A special section explains its unique words and features.
- ★ **Acorn Atom BASIC:** The Atom is one of Europe's favorites, but its BASIC is very different. It's fully documented in this Second Edition.
- ★ **Tektronix BASIC:** A graphics-oriented BASIC used extensively by engineers and scientists.

Covers These Computers:

• TRS-80 (all models) • APPLE • IBM • Atari • Wang • Commodore PET • Sorcerer • Northstar • Acorn Atom • UNIVAC • System 80 • Hewlett Packard • Heathkit • Ohio Scientific • Texas Instruments • Sinclair • DEC • Sharp • Vector • NEC • Plus hundreds more!

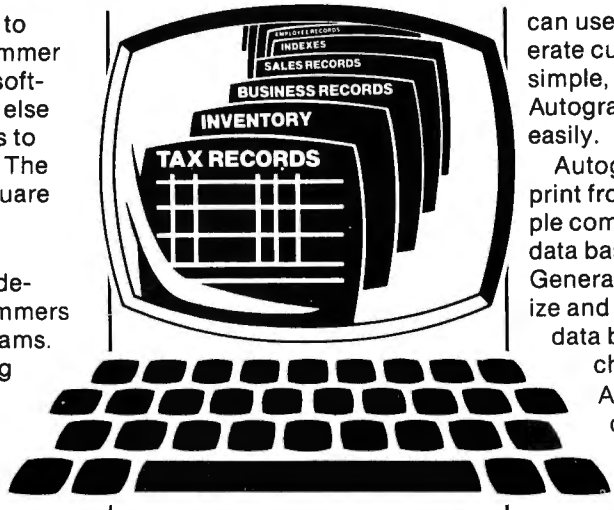
Announcing AUTOGRAMMER.

from Roklan Software

Now you can write the programs your business needs— even if you have no programming experience!

Until now, you either had to hire an expensive programmer to custom tailor existing software to your business, or else try to adapt your business to someone else's software. The classic dilemma of the square peg in the round hole.

But now there's Autogrammer. Software designed to let non-programmers generate their own programs. No need for programming knowledge. No need to learn any programming language. All you have to know are the needs of your own business.



EASY!

Autogrammer is as easy to use as a typewriter, yet so powerful it puts all the muscle of your computer right at your fingertips. Many applications require only 10 or 15 minutes to complete. What you type on the screen, Autogrammer turns into a machine-language program that's ready to run.

VERSATILE!

Autogrammer has thousands of applications for both business and personal needs. Inventory records, sales and earnings projections, tax calculations, forecasts, employees files, stock market analyses. Using Autogrammer, you can create even complex programs such as tracking inventories, adding purchases, subtracting sales, crediting accounts, report and adjust for daily sales, add back to inventory, make adjustments for credits, defects, shipping charges, and much more. Having this kind of vital information available can simplify business decisions and save you money.

FLEXIBLE!

As your needs change, Autogrammer-generated applications can easily be revised, updated, expanded, or combined. Autogrammer writes finished, stand-alone programs which do not require Autogrammer for running. They work first time, every time. Everybody in your organization can use Autogrammer to generate custom programs. It's so simple, anyone can become an Autogrammer quickly and easily.

Autogrammer allows you to print from screen with one simple command or list the entire data base. The optional Report Generator allows you to organize and then report from the data base in the format you choose.

Autogrammer by Roklan costs $299.95 and is available for Tandy TRS-80* model II and soon for models I, III and CP/M versions, with other versions soon to come. Optional Report Generator, $199.00, for in-depth reporting from the data base.

LET'S FACE IT.

Nobody knows your business like you do. With Autogrammer, you can write your own programs and gain control of your own business by generating exactly the information you need.

Autogrammer for TRS-80* model II is available from H&E Computronics Inc. and other major distributors and dealers nationally.

The end of the square peg in the round hole.

*Registered trademark of Tandy Corp.

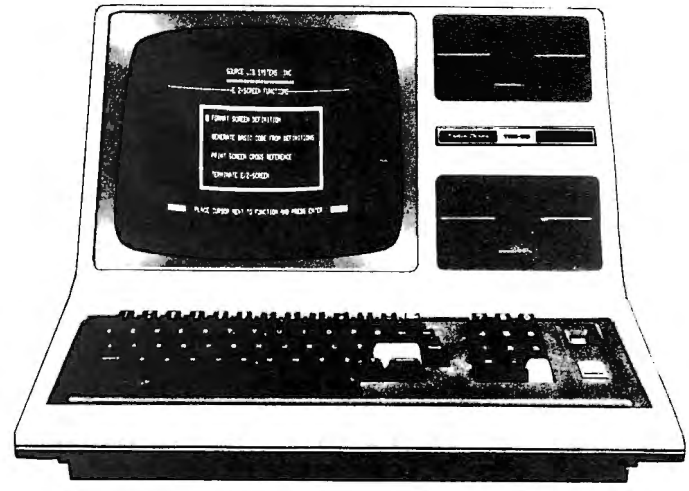
BASIC PROGRAMMERS CREATE DATA-ENTRY SCREENS IN A FLASH

with:

E/Z-SCREEN



SOURCE LIB Systems

E/Z-SCREEN is a revolutionary new programming system now available for the TRS-80 that enables you to design and edit professional-quality data entry screens right on your screen, and then generate BASIC code for your programs

Once in place, the E/Z-SCREEN system starts the show by "talking" to you. It automatically produces "user friendly" Disk BASIC code, giving you access to a host of screen processing functions.

This and many other E/Z-SCREEN features can save you untold time, effort and can actually make screen design rather enjoyable! Here's how:

E/Z-SCREEN DESIGN
By using your keyboard, E/Z-SCREEN's formatting commands let you format and modify your screen. Like changing channels, you can keep changing your layout until you're perfectly happy with it. And since what you see on screen is what you get, you never get a layout or write a program you're not completely satisfied with.

Want to center a line? Maybe a few? Just give the command and watch it happen — automatically! You can even repeat information, horizontally or vertically.

Best of all, if you still don't like what you see, you can totally rearrange the screen design — even after you've written your program.

E/Z-SCREEN lets you move any and all fields of information, re-sequence lines, and much more. And you see it all happen right in front of your eyes. When you're finally satisfied, save your screen on disk and go on to design another. After you've designed all of the screens for your program, then E/Z-SCREEN really goes to work for you.

THE GRAND FINALE
E/Z-SCREEN automatically generates the screen process code, making your screen work and look like those written for larger industrial computers. The code controls the displaying and reading of data and the printing of text on the screen — for up to 12 screens per program!

What's more, the keyboard operator is truly the program director, in total control of data being entered. Data changes, corrections, and erasures are all made easily by using the cursor-control keys.

A MATTER OF RECORD
E/Z-SCREEN even makes documentation of your program easy by automatically cross-referencing and printing it on paper (if a printer is connected).

SYSTEM REQUIREMENTS
TRS-80 Model I and III with 48K and two disk drives.

E/Z-SCREEN $149.95

Computer Books and Software from IJG

TRS-80™ DISK & OTHER MYSTERIES by H.C. Pennington

TRS-80 Disk and Other Mysteries is the definite fix-it book for disk users. More than 130 pages of easy to read entertaining and immensely useful information. Find out how to recover disk files, the layout of information on disks, memory maps, problem solutions . . . the list goes on!

Many readers have saved days of work by recreating disk files that were unreadable. *TRS-80 Disk and Other Mysteries* have received favorable reviews in several magazines **$22.50**

MICROSOFT™ BASIC DECODED & OTHER MYSTERIES by James Farvour

Microsoft Basic and Other Mysteries is the definite guide to your Level II ROMS. With more than 7,000 lines of detailed comments and 6 additional chapters packed with information, it is easily the biggest and best book about the Level II ROMS available **$29.95**

THE CUSTOM TRS-80™ & OTHER MYSTERIES By Dennis Bathory Kitsz

Ever wanted to do things to your TRS-80™ that Radio Shack said couldn't be done? How about reverse video, high resolution graphics, and audible keystrokes?

Not enough? How about turning an 8-track into a mass storage device, making music, controlling a synthesiser, individual reverse characters, and a real-time clock just to name a few?

The Custom TRS-80™ and other Mysteries is packed with more than 290 pages of practical information **$29.95**

BASIC FASTER AND BETTER & OTHER MYSTERIES By Lewis Rosenfelder

BASIC is not nearly as slow as most programmers think. *BASIC Faster and Better* shows how to supercharge your BASIC, with 300 pages of fast, functions and subroutines.

You won't find any trivial, poorly designed check-book-balancing' programs in this book—it's packed with *useful* programs.

Tutorial for the beginner, instructive for the advanced, and invaluable for the professional, this book doesn't just talk...it shows how! All routines are also available on disk, so that you can save hours of keyboarding and debugging.

The #1 disk *BFBDEM* contains all the demonstration programs, and #2 *BFBLIB* has all the library functions **$29.95**

BFBDEM (demonstration disk) $19.95 / BFBLIB (library disk) $19.95

NEW

MACHINE LANGUAGE DISK I/O & OTHER MYSTERIES by Michael J. Wagner

More than 190 pages of information and discoveries on the subject of disk I/O for the beginner and expert alike, using Z-80 Assembly Language to directly control the TRS-80 Model I and III disk drives and interrupt systems. With this book, you can become a disk I/O "expert", and make more efficient use of disk space, or even write your own disk operating system! **$29.95**

NEW

THE CUSTOM APPLE™ & OTHER MYSTERIES by W. Hofacker and E. Floegal

This new book is a complete guide to customizing your Apple, both with software and hardware additions and modifications. Install extra memory, sound chips, analog-to-digital converters, and many other modifications with the instructions in this book. *Turn your* APPLE into a terminal or into a piano! **$24.95**

ELECTRIC pencil

T.M.

VERSION 2.0

The New Enhanced Version Of The World's Greatest Word Processor Is Here.

The new ELECTRIC PENCIL 2.0 for TRS-80 Models I and III Available for Disk, Cassette and Stringy Floppy Systems

The ELECTRIC PENCIL System is easy to learn and easy to use -- its simple command structure will make you a word processing expert in minutes. The ELECTRIC PENCIL Manual serves both as a quick reference guide and as a self-teaching manual, including pictures and examples.

The ELECTRIC PENCIL 2.0 has more features than any other word processor for the TRS-80, including:

- ☐ Easy to learn-easy to use-menu driven
- ☐ All settings are displayed in menus
- ☐ Extensive 'HOW-TO' documentation with examples
- ☐ Disk version supports tape and Stringy Floppy
- ☐ Compatible with all ASCII files (including BASIC's)
- ☐ Configure program to your own format
- ☐ All print format settings saved with file
- ☐ Runs on Model I and Model III
- ☐ Runs under all versions of TRSDOS and NEWDOS
- ☐ Fast buffer shift and type-ahead in 'INSERT' mode
- ☐ Underlining
- ☐ No keyboard modifications required
- ☐ Compatible with all lower case modifications
- ☐ Three print drivers, (parallel, serial and TRS232)
- ☐ Recognizes high memory
- ☐ Uses printer DCB - you can use any print driver
- ☐ Commands to load and save special print-drivers
- ☐ Special print drivers may be loaded at any time
- ☐ Set RS232c and TRS232 options from SYSTEM menu
- ☐ Supports serial baud rates from 110 to 9600 baud
- ☐ Supports 1500 and 500 baud tape operations
- ☐ Cursor speed command
- ☐ Incomplete/'bad' loads saved for your inspection
- ☐ 'Printer hangs' eliminated
- ☐ All file commands use standard TRS-80 mnemonics
- ☐ ALL versions runs with 16K, 32K or 48K
- ☐ Automatic print formatting
- ☐ Automatic repeating keyboard
- ☐ Automatic 'whole word' wrap-around
- ☐ Cursor control - up - down - right - left
- ☐ Cursor to end of file
- ☐ Cursor to beginning of file
- ☐ Tabbing
- ☐ Scrolling - 5 speeds forward and reverse
- ☐ Freeze and continue scrolling
- ☐ Cursor to top of screen
- ☐ Cursor to beginning of line
- ☐ Delete and insert characters
- ☐ Delete and insert lines
- ☐ Erase line from cursor position to end
- ☐ Insert and delete blocks of text
- ☐ Backspace and erase characters
- ☐ Search from 1 to 38 characters at one time
- ☐ Replace from 1 to 38 characters at one time
- ☐ Search without replace
- ☐ 'Conditional' search and replace
- ☐ Cursor positions over 'search' character
- ☐ Selective (wild card) search and replace
- ☐ Selective (wild card) search without replace
- ☐ Search and replace carriage return and form feed
- ☐ Repeat command
- ☐ Hard Space character
- ☐ Concatenation of long lines
- ☐ Upper and lower case shift key lock
- ☐ Exit any command with a single keystroke
- ☐ Automatically displays free memory
- ☐ Automatically displays words in file
- ☐ Selection of cursor speeds
- ☐ Selective clearing of memory
- ☐ Set your own power-up configuration
- ☐ Warm start command
- ☐ Optional automatic titling
- ☐ Optional automatic page numbering
- ☐ Right justification
- ☐ Left margin may be set from 0 to 255 spaces
- ☐ Line length may be set from 1 to 255 characters
- ☐ Line spacing may be set from 1 to 255 lines
- ☐ Page length may be set from 1 to 255 lines
- ☐ Page spacing may be set from 0 to 255 lines
- ☐ Starting page number may be from 1 to 65535
- ☐ Optional print length may be set to print partial files
- ☐ Multiple printing of text files
- ☐ Single page printing
- ☐ Printer configuration control:
  - carriage return on/off
  - line feed on/off
- ☐ All options may be changed at any time
- ☐ Loads any ASCII file
- ☐ Compatible with all files created by previous releases
- ☐ Easy backup - no fancy protection features
- ☐ Cassette control for dictation - DICTAMATIC
- ☐ Loads multiple files
- ☐ Fast disk I/O - loads 36K in under 8 seconds
- ☐ 36K text buffer (48K disk system)
- ☐ All machine language program
- ☐ Manual available separately
- ☐ Source code available - 'THE ELECTRIC PENCIL HANDBOOK'

The ELECTRIC PENCIL 2.0 for TRS-80 Models I and III
(disk) $89.95 (cassette) $79.95

NEW

Editing Utilities for the ELECTRIC PENCIL 2.0!

BLUE PENCIL - A text proofing addition to THE ELECTRIC PENCIL. BLUE PENCIL reads the text file and notes any spelling errors on the video or printer. It recognizes prefixes, suffixes, hyphenation and comments. The word dictionary is infinitely expandable - by you! You can add or delete your own vocabulary of words to BLUE PENCIL's dictionary.

BLUE PENCIL comes with a 50,000 word dictionary (equivalent to a Webster's Pocket Dictionary.) Typical proofing time for a 60,000 word text file is under two minutes. Requires 32K minimum, 1 disk drive. **$89.95**

RED PENCIL - A text correction addition to THE ELECTRIC PENCIL. RED PENCIL automatically CORRECTS errors detected by BLUE PENCIL. RED PENCIL displays each misspelling and typo separately and offers you a choice of options which include: retyping the misspelled word, leaving it as is, adding it to the dictionary or displaying the word in context. If you choose to display the word in context, then you are again offered the first three choices. The text is instantly corrected and you may then proceed with your word processing chores. Typical correcting time for a 6000 word file is under two minutes. (Note: time may vary depending on the number of spelling errors.) Requires 32K Minimum, 1 disk drive and BLUE PENCIL. **$89.95**

Also Available:
The ELECTRIC PENCIL II for the TRS-80 Model II
TRSDOS or CP/M Version $300.00

Dear Computer Owner:

Here is your NEW H & E COMPUTRONICS, INC. CATALOG. Feel free to rip the pages apart. Every time you place an order, we will send you a new catalog with our latest catalog updates.

★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★

CATALOG #11 WILL CONTAIN MANY NEW ITEMS FOR OWNERS OF THE TRS-80, APPLE, PET, ATARI, XEROX, IBM, HEWLETT-PACKARD, SHARP, CASIO AND MANY OTHER COMPUTERS. ALL PRESENT SUBSCRIBERS TO ANY OF OUR THREE PUBLICATIONS AND THOSE H & E COMPUTRONICS, INC. CUSTOMERS WHO HAVE PURCHASED ANYTHING FROM US SINCE SEPTEMBER 1, 1982 WILL AUTOMATICALLY RECEIVE OUR NEXT CATALOG FREE OF CHARGE.

★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★ FREE ★

NOW THREE PUBLICATIONS

H & E COMPUTRONICS, INC. NOW HAS THREE PUBLICATIONS.

1. BUSINESS COMPUTING is a **NEW** publication for serious business computer users and owners (and those people considering the purchase of a business computer). The publication is fact oriented and non-technical in nature. The publication deals with all small business computers. (IBM, APPLE, TRS-80, PANASONIC, SHARP, XEROX, HEWLETT-PACKARD, NEC.....).
2. THE H & E COMPUTRONICS MAGAZINE was the first and original publication for TRS-80 OWNERS. The magazine is now in its fifth year of publication.
3. The MOD-II NEWSLETTER is an essential publication for all owners of the TRS-80 MOD-II COMPUTER. It is especailly geared to a non-technical audience and is especially aimed at letting MOD-II owners learn more about their computer and what is available for their computer.

SEE THE INSIDE OF OUR CATALOG FOR MORE INFORMATION ABOUT THE ABOVE THREE PUBLICATIONS

IMPORTANT NOTICE ABOUT YOUR ORDER

H & E COMPUTRONICS, INC. selects its software very carefully. We feel that the items we choose to sell are the best products currently available. Our software selections are based on value, documentation, support, saleability and reputation of the software house writing the product. We monitor the return rate of each piece of software very carefully. We normally only sell software written by the major software houses (such as MICROSOFT, PERSONAL SOFTWARE, RACET COMPUTES, ADVENTURE INTERNATIONAL, etc.), but we do choose software written by lesser known software houses when we feel the product has merit. We currently sell about 400 different items (out of the over 50,000 items available to MICROCOMPUTER owners). If you disagree with our choice we offer our money-back guarantee because we feel that our customers should not be "stuck" with software that they consider unsatisfactory. If you do not feel satisfied with the product we have sent you, please follow the return (or exchange) procedures below. **H & E COMPUTRONICS, INC. MAKES NO REPRESENTATIONS OR WARRANTIES WITH RESPECT TO THE PRODUCTS THAT IT PROVIDES AND SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. H & E COMPUTRONICS, INC. SHALL HAVE NO LIABILITY WITH RESPECT TO ITS OBLIGATIONS UNDER THIS AGREEMENT FOR COMPENSATORY, SPECIAL, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES. SOLE LIABILITY SHALL BE LIMITED TO THE PURCHASE PRICE OF THE SOFTWARE LICENSED HEREUNDER.**

TO EXCHANGE OR RETURN MERCHANDISE

1. Merchandise must be returned within 30 days of the day it was shipped. The 30 days are calculated from the day that your package was invoiced until the day your package was re-shipped to H & E COMPUTRONICS, INC.
2. It is the customer's responsibility to insure each package and obtain a receipt. We can **NOT** be responsible for packages that are lost in the mail. If the package is valuable...we suggest that you insure it (although it is certainly not mandatory).
3. Our receiving department will reject all packages shipped to H & E COMPUTRONICS, INC. that do not contain our return authorization label affixed to the *outside* of the package. This return authorization label is contained in every order shipped by H & E COMPUTRONICS, INC. If your return authorization label is missing, please call (or write) to Darlene at Customer Service **(914) 425-1535** (between 10:00 A.M. to 4:00 P.M. New York Time) for a replacement.
4. A copy of your original invoice must be included within the package. **WE WILL RETURN ANY PACKAGE THAT DOES NOT CONTAIN THE ORIGINAL INVOICE (OR MACHINE COPY) WITHIN THE PACKAGE.**
5. Please include brief instructions so that we know what to do with your returned package. For example, do you want credit towards another program? PLEASE do not send a lengthly description. PLEASE do be short and to the point. If you have any further comments to make about the software, please address them to Darlene, Software Manager (and send them in a separate envelope). We wish to process your return as soon as possible...please do **NOT** complicate the process by referring to previous phone calls or letters.
6. Merchandise must be returned in NEW condition. Although we do expect that sealed packages will undergo some damage, please keep it to a minimum. In any case, we reserve the right to refuse any package we feel has been overly abused.

POSTAGE RATES:

1. Add $3.00 for postage and handling for any order shipped within the United States by U.P.S.
2. Add $4.00 for orders shipped C.O.D. or by U.S. Mail within the U.S.
3. Add $5.00 for postage and handling for any order shipped to Canada and Mexico.
4. Add exact postage outside of U.S., Canada and Mexico.
5. Overnight delivery is available through **EMERY AIR FREIGHT** and other air services. If you require overnight delivery, the appropriate charges will be added to your order.

METHOD OF PAYMENT:

1. We accept **VISA, MASTER CARD** or **AMERICAN EXPRESS.**
2. Your **PERSONAL CHECK** is welcomed. All checks must be payable in U.S. Funds.
3. **C.O.D.** on request. (C.O.D. orders in excess of $100 require cash or certified check).
4. We do not have open accounts. Cash, Check, Credit Card Number or C.O.D. request must accompany each order.
5. **N.Y. STATE RESIDENTS MUST ADD LOCAL SALES TAX.**

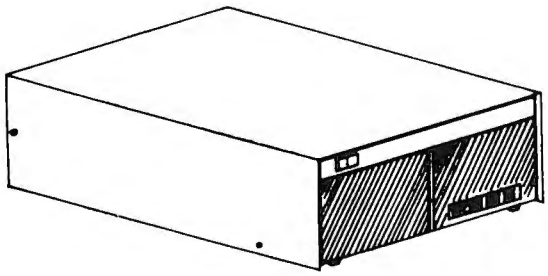
THE BOX

12 MEGABYTE 5-1/4" HARD DISK DRIVE

TRS-80* ● APPLE* ● IBM* ● HEATH* ● ZENITH* ● XEROX*



THE BOX WORKS . . . .

We're so convinced that **THE BOX** is exactly what you need that we'll let you try it for 10 days. If you're not satisfied with the incredible speed and capacity of this system — return it for a full refund.

THE FACTS

- Cost: **$2995*** per drive, complete
- Plugs directly into the Model III
- Model II systems require installation of Radio Shack's hard disk drive port modification (about $30)
- Winchester Technology
- Add up to 3 additional drives
- Full one year warranty on all parts and workmanship provided by manufacturer
- Boots up in seconds
- Direct installations in minutes
- Availability - **NOW!**

Model III TRSDOS-Compatible Operating System **$149.00**

Model III DOSPLUS-Compatible Operating System **$250.00**

Model III LDOS-Compatible Operating System **$250.00**

Model II TRSDOS-Compatible Operating System **$400.00**

Model II CP/M-Compatible Operating System **$250.00**

Increase Productivity with Products from APPLIED CREATIVE TECHNOLOGY, INC.

Is Your Printer Slowing Down the Work Flow?

The average microcomputer "moves" data at 120,000 characters a second. A typical disk drive transfers it at 27,000 CPS. Most printers however plod along at 100 CPS and many modems squeak out 30 CPS. That's quite a drop in efficiency, not to mention a waste of computing power!

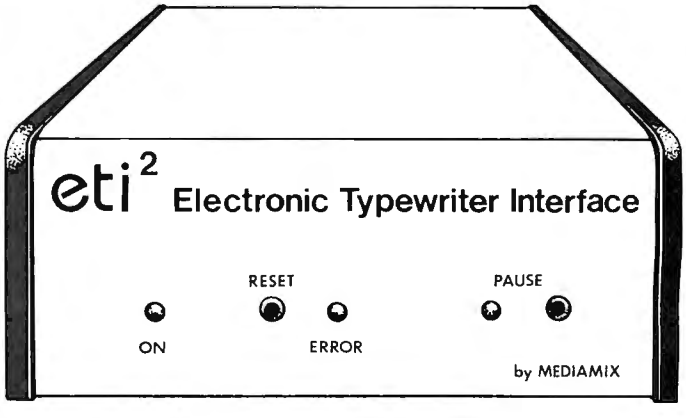
We've broken this bottleneck with a smart little "white" box called the PRINTER OPTIMIZER® that features a 64,000 to 256,000 character memory buffer. Now you can "print" your inventory in 2 seconds instead of 10 minutes, and no longer will your computer be tied up transmitting or receiving modem transmissions. The OPTIMIZER is smart too! You'll notice a keypad and display in our picture. You can tell the OPTIMIZER to convert data, send control sequences, pause on cue, and more. For example: access all of your printer's capabilities (graphics, font size, forms control, special symbols) with the ease of selecting a station on a pushbutton car radio. Use it to adapt an XYZ printer to your ABC computer running a PDQ word processing program. Run a serial printer or modem from a parallel port. If you can afford and justify a disk drive, then you certainly need our OPTIMIZER to bring your printer, plotter or modem "up to speed" with the rest of your system.

Optimizer with 64K buffer **$495.00**
(configured for Centronics-type parallel port)
Parallel cable for TRS-80 Mod I or III **$30.00**
Serial Port Adaptor (RS232C) **$125.00**
Additional 64K Memory Cards **$125.00**

Do You Need a Letter-Quality Printer?

(You may already own one without realizing it!)

Consider this economical alternative to buying a letter-quality printer:
The MEDIAMIX ETI²® converts an IBM Electronic Typewriter (and some other brands) into a computer printer. Every office needs a typewriter. So for example, you can buy an IBM Model 50 ET that costs about $1200 and have a superior typewriter, and then with our ETI² have a printer that produces probably the highest quality printed image available. You can even do typesetting like this ad! And for financial printing you can't beat a wide carriage IBM ET. It's a truly cost-effective investment. There are a number of arguments in favor of choosing this route over a single use computer printer.



ETI² (Parallel version) **$495.00**
Parallel Adaptor Cable for TRS-80 Mod II or III **$30.00**
ETI² (RS232C Serial Version) **$595.00**

FOUR "STARS" from POWERSOFT™

SUPER UTILITY PLUS

THE KING OF UTILITIES

I believe Super Utility or Super Utility Plus should be present at every serious TRS-80 disk installation."

We didn't say this; Paul Wiener did in 80 Microcomputing, Jan. '82...but we sure agree with him!

You heard about it! You read about it (80 Microcomputing). Now get the "cadillac" at a special price!

Compatible with MOD I, and MOD III, and all the current operating systems! Copy files from any DOS to any DOS, MOD I or III, without converting!

Zap	Disk repair	Format without erase
Purge	Memory	Disk copy
Format	File Utility	Special disk copy
Special Format	Tape Copy	Configurable System

MUCH MORE – Mod I & Mod III on Same Disk

For MOD I/III...**$74.95**

NEW! Back up copy now included.

Also available: Super Utility Plus TECH. MANUAL, $14.95 and "Inside Super Utility Plus," $19.95

INTRODUCING...

BASIC/S COMPILER SYSTEM

The BASIC/S Compiler System consists of two main programs - BASIC/S and BASIC S II/CMD - along with numerous supplementary files. Both BASIC/S and BASIC/S II are compilers for a large subset of TRS-80 Disk BASIC - the first one, BASIC/S, is itself a BASIC program while BASICS II/CMD is a machine language version, compiled by BASCOM(c). The difference between them is that BASIC/S supports the full BASIC/S subset, while BASIC/S II is an integer compiler - does not support floating point. Other than that, the two compilers support essentially the same BASIC subset. You get both compilers in one package; in general, one would want to use BASIC/S II (because of its speed), but when your application requires floating point, then BASIC/S is available.

Both compilers will run under virtually any MOD I/MOD III DOS. At least 48K and one disk drive are required to use BASIC/S. Two drives are certainly preferable.

Note: BASIC/S II does NOT run under MOD III TRSDOS.

It will compile up to a 260 line program - compiles directly into a /CMD file, no linking or run time module needed. No royalties are required for programs you write and compile with BASIC/S. The /CMD files created by BASIC/S are very reasonably sized - typically, they are only 1.2 - 2 times the size of your original BASIC source file. Quite often, if your source file is only 1 granule, then so is the /CMD file made by BASIC/S.

The name BASIC/S means BASIC/Subset - it doesn't complete full blown BASIC. It DOES support most of Level II Basic as well as the essential elements of sequential and random disk I/O, including LRL 256. BASIC/S allows dimensioning arrays of all variable types, with up to two dimensions; any one program can have up to 20 arrays. Also, BASIC/S compiled programs can chain from one to another with no loss of variables.

$89.95 *(Includes BASIC/S and BASIC/S II)*
BASIC/S Compiler System Manual is available for $25.00 of which $10.00 is applicable toward the purchase of the BASIC/S System.

HUNDREDS OF SATISFIED USERS...SCRIPLUS 3.0

Scriplus is a modification to Scripsit*™ which enables you to take advantage of the special functions, features, and print formats of your printer while your document is being printed. Allows you to:

```
change expanded print
change no. of characters per inch
or underline in mid-line!
```

Features:

- Compatible with all current DOS's (I or III).
- Modifies ALL versions of SCRIPSIT™.
- Allows usage of MOD I version on MOD III.
- Allows MOD III versions to be BACKED UP for your protection.
- Files can be killed, loaded, merged, or chained from Scriplus directory.
- Scriplus supplies an ALPHABETIZED directory with FREE space shown.
- "END" returns to DOS READY instead of rebooting.
- Printer can be stopped for insertion of text or forms alignment. Inserted text can be edited prior to resumption of printing.
- Specifically written for the MX-80 but will work with any printer that accepts CHR$ codes for control.
- Optionally select line feed after carriage return.

For MOD I/III...**$39.95**

NEW from KIM WATT...

POWERDRAW

Full screen graphics for MOD I/III.
Any current DOS

SAVES SCREENS IN SIX DIFFERENT FORMATS

POWER**DRAW** allows you to design graphic screens on your video, and save them to as many as 33 memory buffers. These buffers may be saved in 6 formats:

Compressed	BASIC Strings
EDAS	BASIC data
EDTASM	Load File

These files can be MERGED with your BASIC or assembly program very easily. You can easily design professional screen displays. You can also print the screens out on a "graphic" printer. POWER**DRAW** contains a built-in MENU that really makes drawing a BREEZE! If you own an EPSON printer, you WANT and NEED POWER**DRAW**!.

For MOD I/III...**$39.95**

Microsoft's muMATH and Extended muMATH

Now all you mathematicians out there can use your computer to answer complicated math equations with extended Algebraic equations for answers and much much more. The finest Math System previously available only on large computer systems is now available for the TRS or PMC-80.

muMATH - 32K.....**$74.95**
EXTENDED muMATH - 32K.....**$250.00**

Now The Softcard Can Take You Beyond The BASICS.

Apple Softcard
$395.00

The following Software requires the "Softcard" from Microsoft

FORTRAN, Disk	195.00
ASSEMBLY LANG. DEV. SYSTEM	125.00
BASIC, Compiler Disk	395.00
COBOL, Disk	750.00
muMATH Extended, Disk	250.00
RAMCARD 16K	195.00
APPLESOFT COMPILER-TASC	175.00

MICROSOFT BASIC COMPILER $195.00

With TRS-80™ BASIC Compiler, your Level II programs will run at record speeds! Compiled programs execute an average of 3-10 times faster than programs run under Level II. Make extensive use of integer operations, and get speeds 20-30 times faster than the interpreter.

Best of all, BASIC Compiler does it with BASIC, the language you already know. By compiling the same source code that your current BASIC interprets, BASIC Compiler adds speed with a minimum of effort.

And you get more BASIC features to program with, since features of Microsoft's Version 5.0 BASIC interpreter are included in the package. Features like the WHILE..WEND statement, long variable names, variable length records, and the CALL statement make programming easier. An exclusive BASIC Compiler features lets you call FORTRAN and machine language subroutines much more easily than in Level II.

Simply type in and debug your program as usual, using the BASIC interpreter. Then enter a command line telling the computer what to compile and what options to use.

Voila! Highly optimized, Z-80 machine code that your computer executes in a flash! Run it now or save it for later. Your compiled program can be saved on disk for direct execution every time.

Want to market your programs? Compiled versions are ideal for distribution. You distribute only the object code, not the source, so your genius stays fully protected.

BASIC Compiler runs on your TRS-80™ Model I with 48K and disk drive. The package includes BASIC Compiler, linking loader & BASIC library with complete documentation.

Adventure

The original adventure for your TRS-80 and APPLE! Don't take substitutes! Requires 32K 1 Disk

MODEL I / APPLE **$29.95**

Olympic Decathlon

EDUCATIONAL GAMES

MEMORY BUILDER: CONCENTRATION Ages 6 Up
A series of educational games to improve memory, attention span and concentration. Letter and 3-letter words are used. Player has three options: play against the computer, play against him or herself, play against another player. Especially good for parent and child to play together.
$16.95

STORY BUILDER/WORD MASTER Ages 9 Up
Series of partially completed verses that the child completes. Teaches grammar skills in an enjoyable way. Word Master is a logic game where the child tries to guess a 3-letter word generated by the computer. Teaches reasoning and vocabulary.
$16.95

GRAPH BUILDER Ages 10 Up
11 teaching programs and games teach students to read graphs. Covers x and y coordinates, and representation of numerical data on graphs. Starts with simplest concepts and works up to complicated grid game.
TRS-80 **$16.95**

CODE BREAKER Ages 10 to adult
3 scrambled message games of increasing difficulty that build basic word handling skills needed for good writing. First game scrambles letters within the words in the message: next 2 games scramble letters and also word order. The last game gives the hardest messages. Messages are made up by the computer from an extensive word list.
APPLE, ATARI, PET **$16.95**

MINICROSSWORD All Ages
4 programs that consist of 2 minicrosswords and 2 codeword games. Crossword programs invent their own crossword puzzles - hundreds of completely different puzzles are possible - and score how well you do each puzzle. When used in conjunction with the codeword programs, which are word-guessing games, the course provides a vocabulary and spelling development system.
TRS-80, APPLE, ATARI **$16.95**

ASTRO WORD SEARCH: GEOGRAPHY Junior high to adult
Search for hidden geographical place names in a pattern of letters generated by the computer. Words can be hidden across, down or diagonally as in the popular word-search puzzles. Hundreds of different puzzles can be formed by the puzzle in 3 programs. Computer scores you on how well you do.
TRS-80, APPLE, ATARI **$16.95**

ASTRO WORD SEARCH: SPANISH High school to adult
As in Astro Word Search: Geography, the computer generates hundreds of different puzzles, but this time the hidden words are common Spanish words. Helps improve Spanish vocabulary, Computer scores you. 3 programs.
TRS-80, APPLE, ATARI **$16.95**

ASTRO WORD SEARCH: FRENCH High School to Adult
Like Astro Search: Spanish, except this time, it's French vocabulary words.
TRS-80, APPLE, ATARI **$16.95**

ASTRO QUOTES: High School to Adult
Fascinating game in which you guess vocabulary words from clues and the computer takes each letter from the words and puts it where it belongs in a famous quotation. As soon as you can, you guess the quotation. If it takes you too many tries to guess the quote, you lose the game. 3 versions: easy, medium hard.
APPLE, ATARI **$16.95**

STUDY SKILLS

IQ BUILDER Junior High Up
A group of 4 courses that prepare a high school student for the College Boards or adult for aptitude tests.

VOCABULARY BUILDER 1: BEGINNING 11 programs include a set of graded vocabulary questions on synonyms and antonyms (the most common type of vocabulary question on an IQ test). The last lesson is a test on vocabulary. Total of 400 questions, 2000 words in course.
$16.95

VOCABULARY BUILDER 2: ADVANCED 11 programs like those in Vocabulary 1, but using a more advanced word list.
$16.95

NUMBER SERIES Contains 8 programs that provide practice in a common math problem type. The first lesson teaches how to approach number series and how to analyze their patterns. Later lessons provide practice with increasingly difficult problems, giving clues if you have difficulty with the problem. Final lesson is a test of abilities.
$16.95

ANALOGIES Contains 6 programs that teach what an analogy is and what the common types are, provide a method for analyzing analogies and provide practice in handling all types of analogies. Final lesson is an analogies test.
$16.95

LANGUAGE ARTS

READING COMPREHENSION: WHAT'S DIFFERENT? Ages 8 Up
5 reading comprehension programs which present logical problems where the student picks the one word in four which doesn't belong with the rest. Builds analytical skills essential for understanding what you read.
$16.95

PRESCHOOL IQ BUILDER Ages 3-6
Teaches vital cognitive skills that children must learn in order to do well in school. In Part 1, Same and Different, the child discriminates between two forms. In Part 2, Letter Builder, the child matches a letter on the TV monitor to one on the keyboard. Accompanying Parent's Guide gives instruction.
$16.95

SPELLING BUILDER Junior High Up
8 programs plus an audio cassette teach important spelling rules and skills. Helps students and adults overcome spelling difficulties. Not just spelling drill, this course teaches a method for approaching difficult words. Ideal for the student or adult who has mastered basic spelling but has trouble deciding if it's "supersede" or "supercede", "combustable" or "combustible". Final test of 25, ten-word lists.

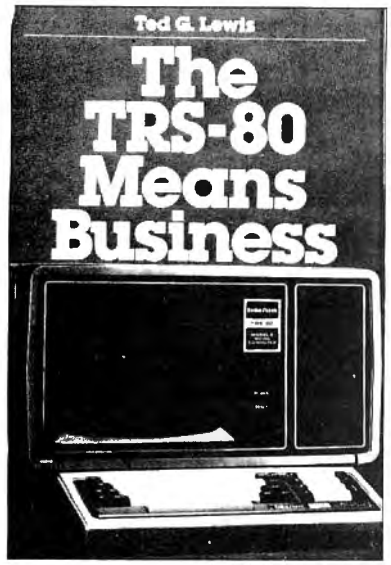
NEW SELF-TEACHING GUIDES

John Wiley & Sons



DATA FILE PROGRAMMING IN BASIC

LeRoy Finkel, San Carlos High School **& Jerald R. Brown,** Educational Consultant

Data files are the key to the successful use of microcomputers for virtually all business, educational, professional, and sophisticated home applications. This easy-to-follow guide serves the rapidly growing army of microcomputer users by explaining in comprehensive detail how to program and maintain data files on microcomputers. It uses the most popular variants of BASIC, TRS-80 BASIC and Microsoft BASIC-80, with an extensive appendix that covers BASIC for the Northstar computer. $12.95

APPLE™ BASIC Version $12.95

Optional APPLE™ Program Disk $19.95

FORTRAN IV, 2nd Ed.

Jehosua Friedmann, Ph.D., Jerusalem College of Technology, Jerusalem, **Philip Greenberg, Ph.D.,** Kingsborough Community College, **& Alan M. Hoffberg, CPA, MBA,** President, Information Resource Management

A revolutionary new edition of the standard FORTRAN guide—now heavily oriented to personal computers. Users of mainframe computers will also find the book totally applicable. You'll start writing basic FORTRAN immediately, then progress smoothly to standard extensions and advanced options. Whether you use FORTRAN 77 or FORTRAN IV, the authors point out all the differences—with comparative tables—so you can follow whichever version is right for your machine. $12.95

USING CP/M®

Judi N. Fernandez & Ruth Ashley, Co-Presidents, DuoTech

The first complete, detailed, self-paced introduction to CP/M—Control Program/Microcomputers, the most widely used microcomputer operating system. Packed with examples and exercises, and assuming only rudimentary programming experience, this daily working tool lets you use CP/M to perform routine work functions and sophisticated tasks with maximum capability and efficiency—with a wide variety of hardware, for any application.

"A marvelous addition to the CP/M literature...I only wish that I had had the book when I was starting out!"—Alan R. Miller, New Mexico Tech and Software Editor, Interface Age

$12.95

TRS-80™ BASIC

Bob Albrecht, Don Inman & Ramon Zamora, all of Dymax Corporation

Packed with games, graphics, and practical applications, this exciting new book helps you get maximum enjoyment and use from your TRS-80

"OUTSTANDING...the best thing to happen to Level II owners."—Computronics Monthly News

"If you're a rank beginner...your novice status won't last long. TRS-80 BASIC leads you by the hand through the maze of programming the computer to perform both entertaining and useful tasks."—Interface Age $10.95

MORE TRS-80™ BASIC

By Don Inman, Ramon Zamora, and Bob Albrecht

Here is an exciting new interactive programming guide to advanced functions. A sequel to the author's highly popular book, TRS-80 BASIC, MORE TRS-80 BASIC helps you build on your fundamental knowledge of Level II Basic with scores of practical applications that are both recreational and educational. It explains all TRS-80 Level II BASIC statements, commands, and features not covered in their previous best seller.

Along with an exploration of the PEEK and POKE functions, you'll get a clear demonstration of several different methods to display graphics, including little known "super graphics" techniques. Graphics become both fascinating and fun when you learn how to use TRS-80 string operations and functions like SET, POKE, and CHR$ to animate characters, games, and drawings.

You'll explore vital concepts in information processing and master file handling techniques that apply to both cassette and disk files. You'll also discover many "universal" applications easily adaptable to specific problems.

MORE TRS-80 BASIC is one of the **Wiley Self-Teaching Guides.** It's been carefully written so that we're sure you can broaden your understanding of Level II BASIC and expand your programming ability in order to make full use of your computing equipment. And it's self-instructional—so you work at your own place. Only a beginning background in Level II BASIC is needed. $12.95

NEW

THE TRS-80™ MEANS BUSINESS

Ted G. Lewis

Written specifically for business computer users, this hands-on manual is the first guide to the best-selling Radio Shack Model II Computer. You'll discover a wide variety of applications that will turn your system into a powerful "filing cabinet"— while making your business a lot more manageable. Many ready-to-run programs are included and the most difficult aspects of file structure programming are simplified. $12.95

Optional Model II Program Disk $19.95

FAST BASIC

Beyond TRS-80™ BASIC

NEW

George Gratzer, Ph.D. assisted by **Thomas G. Gratzer**

Using fewer than 20 assembly language instructions, and the names of 60 memory functions, FAST BASIC demonstrates how programmers can write faster, more efficient programs. In fact, it actually shows them how to improve their programming speed up to 100 times! $14.95

Optional Model I or III Program Cassette $19.95

Optional Model I Program Disk $19.95

Optional Model III Program Disk $19.95

TRS-80™ COLOR BASIC

Bob Albrecht

TRS-80 COLOR BASIC shows users how to appreciate the unique color, sound, and graphic capabilities of the TRS-80 Color Computer. With games, experiments, programming problems and solutions - geared to educational, recreational and home applications - it leads novices step by step into good programming practices. $9.95

NEW

PROBLEM-SOLVING ON THE TRS-80™ POCKET COMPUTER

Don Inman & Jim Conlan

The first guide to the new TRS-80 Pocket Computer, this step-by-step guide covers a range of educational and practical applications - from data storage, sorting, and searching to complex chain programming. $8.95

HOME ARCADE!

"SARGON II — Buy this program, when it becomes available — .....an evalution routine that enabled it to beat the giants!...unequaled in the endgame . . ." "Personal Computing."

Because new algorithms have been added, the program is able to: push passed pawns toward queening; play a stronger end game; and range into deeper play levels at end game without user direction. And the computer displays the levels of play at which it is thinking and also shows the move it is currently thinking and also shows the move it is currently thinking of making, changing the move shown until its final choice is made. SARGON II has 7 levels of play, and levels 0-3 play in tournament time. It has a randomized opening book up to 7 levels of play for 3 moves. When setting up the board, the user can scan up and down, left and right. And finally, you can use the hint option at any level but 0 and request SARGON II to tell what the best next move is. Available now.

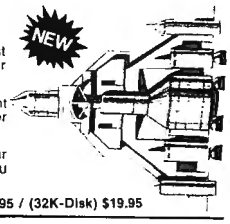
BIG FIVE

NEW STELLAR ESCORT©



Federation forces in Aries Quadrant 3 have made their first major advancement since the beginning of the war against the hostile Cretonian Empire. Unfortunately, the Cretonians attacked the entire Federation by surprise, depleting their supplies to near nothingness. The Federation's gallant efforts now depend on you, the Escort fighter pilot.

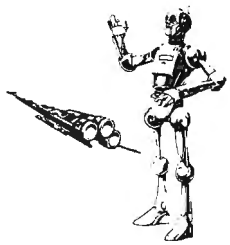
The supply cruisers from the Federation are not equipped for heavy battle assaults which will be encountered on the front from the hostile Cretonians, therefore your mission is to intercept the supply cruisers, place them in your fighter's tractor beam and escort them through the Cretonian battle front while warding off all assaults.

Collisions between your supply cruiser and any other craft will result in an immediate feedback of power along your tractor beam leading to total destruction. You must fire accurately because exhausting your fuel supply will leave you unprepared for the battle with the most devastating alien yet encountered in this quadrant! the Cretonian Cruncher!

TRS-80 MOD I & III (16K-Tape) $15.95 / (32K-Disk) $19.95

ROBOT ATTACK©

The newest & finest game is now available! **"Robot Attack"** begins by displaying an urgent message from Space Central on your electronic news viewer. It seems that robots from the Planet "Jidya" have captured one of Earth's valuable space stations. Alarms all over the space station are screaming out **"Robot Attack! Robot Attack!"** Boldly, you make the decision to transport yourself to this space station and destroy every last robot! As you finally reach your destination, you find yourself in a dark corridor that appears very quiet and deserted. Almost from nowhere, robots materialize in almost every corner of the compartment that you're in. Quickly & skillfully you fire your laser pistol to destroy them. In a blinding flash, their bodies explode and disintegrate. After every last one is gone you carefully enter the next compartment. Once again your battle is successful. It seems that you are just too quick for the slow computer minds and the archaic photon lasers that these robots possess. Somewhere you here a low humming sound that is steadily getting louder. "I've heard that sound before", you say to yourself. Finally you remember that it is the sound of the new long range matter transporter that the Jidyans have recently developed. Could they be transporting the --, no, they wouldn't send one of those just to destroy a human. Oh no! They did! It's the evil Flagship!

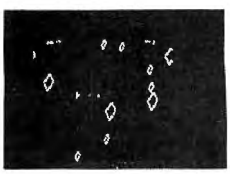


TRS-80 MOD I & III (16K-Tape) $15.95 (32K-Disk) $19.95

NEW DEFENSE COMMAND©

The Galaxy Invaders have returned in this exciting new twist on the ever-popular invasion theme. You are in command. You must protect the vitally important nuclear fuel cannisters from fleets of attacking aliens. Plays on Mod I & Mod III, with or without Joystick. **With Sound!**

TRS-80 MOD I & III **(16K-Tape) $15.95**
(32K-Disk) $19.95

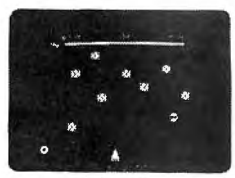


SUPER NOVA©

If you and your TRS-80 have longed for a fast-paced arcade-type game that is truly a challenge, then **SUPER NOVA** is what you've been waiting for. In this two player machine-language game, large asteroids float ominously around the screen. Suddenly your ship appears and you must destroy the asteroids before they destroy you! (But watch out because big asteroids break apart into little ones.) The controls that your ship will respond to are thrust, rotate, hyperspace, and fire. All right! You've done it! You've cleared away all the asteroids! But what is that saucer with the laser doing? Quick! You must destroy him fast because that guy's accurate!

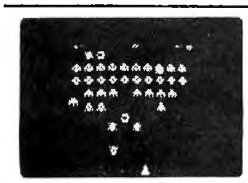
TRS-80 MOD I & III (16K-Tape) $15.95 / (32K-Disk) $19.95

COSMIC FIGHTER©



With thousands of stars whizzing by you, your **SPACE DESTROYER** ship comes out of hyperspace directly under a convoy of aliens. Almost effortlessly, you skillfully destroy every last one. But before you can congratulate yourself, another set appears. These seem to be slightly more intelligent than the first set. Quickly you eliminate all of them, too. But your fuel supply ic rapidly diminishing. You must still destroy two more sets before you can dock with your space station. All right! The space station is now on your scanners! Oh no! Intruders have overtaken the station! You must skillfully fire your neutron lasers to eliminate the intruders from the station before your engines run out of fuel and explode! With sound!

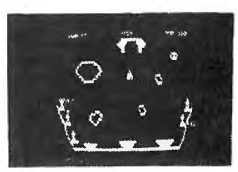
TRS-80 MOD I & III (16K-Tape) $15.95 / (32K-Disk) $19.95



GALAXY INVASION©

The sound of the klaxon is calling you! Cruel and crafty invaders have been spotted in battle formation warping toward Earth at an incredible speed. Suddenly, your ship materializes just below the huge flock of invaders. Quickly and skillfully you shift right and left as you carefully fire your lasers at them. But watch out! A few are breaking out of the convoy and flying straight at you! As the whine of their engines gets louder, you place your finger on the fire button knowing all too well that this shot must connect—or your mission will be permanently over! With sound effects!

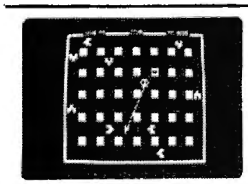
TRS-80 MOD I & III (16K-Tape) $15.95 / (32K-Disk) $19.95



METEOR MISSION II©

As you look down on your space viewer you can see the stranded astronauts that are crying out for you to rescue them. But first you must maneuver your shuttle down through the asteroids & meteors before you can reach them. Great! You've got one! But now can you get back to the space station to save your fellow shipmate or will you crash and kill both of you? You can fire your lasers to destroy the asteroids, but watch out, because there could be an alien FLAGSHIP lurking behind! Includes sound effects!

TRS-80 MOD I & III (16K-Tape) $15.95 (32K-Disk) $19.95

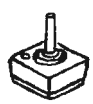


ATTACK FORCE©

Your TRS-80 screen has been transformed into a maze-like playfield for this game. As your ship appears on the bottom of the screen, eight alien ramships appear on the top. All of them are traveling at flank speed directly at you! Quickly and boldly you move toward them and fire missiles to destroy them. But the more aliens you destroy, the faster the remaining ones become. If you get too good you must endure the wrath of the keeper of the mazefield: the menacing "Flagship". You must destroy him fast because, as you will find out, that guy's accurate! With sound effects!

TRS-80 MOD I & III (16K-Tape) $15.95 (32K-Disk) $19.95

TRISSTICK™



The famous ATARI™ joystick has been adapted to the TRS-80™ Models I and III! TRISSTICK™ is compatible with all BIG FIVE games and comes with instructions for use with your own programs. Specify Model I or III **$39.95**

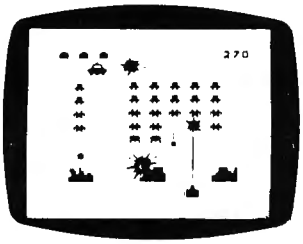
TRS-80™ COLOR COMPUTER

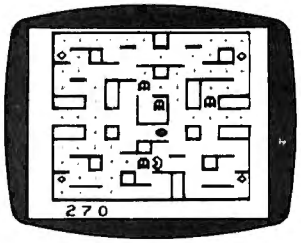
Software From **SPECTRAL ASSOCIATES**

SPECTRAL ASSOCIATES, the LEADER in TRS-80 Color Computer software, presents the best in 16K machine language, fast action, high resolution arcade games. Extended Basic not required.



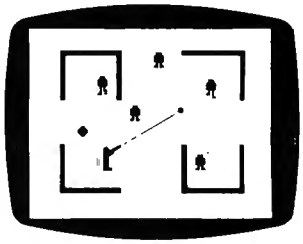
COSMIC INVADERS

The best invaders type game available. Complete with 16 skill levels, dynamite sound and 4 color hi-res graphics. Can you dodge the bombs long enough to blast the alien ship and invaders? $21.95.



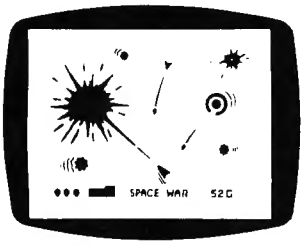
GHOST GOBBLER

An exciting version of the popular PAC-MAN game with power dots, 8 bonus shapes, super sound and 16 skill levels. Hours and hours of challenging fun. Joysticks $21.95



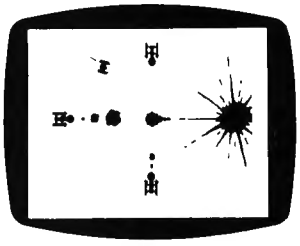
ROBOT BATTLE

Can you dodge the never ending horde of robots while avoiding the fatal touch of the Android? Realistic voices and 16 skill levels provide a tremendous arcade type challenge. Joysticks, $21.95.



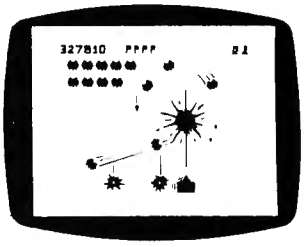
SPACE WAR

Maneuver your spaceship through the defenses of the Death Star for the killing shot while avoiding space mines, enemy ships and the gravity pull of the BLACK HOLE. Two color hi-res graphics - $21.95 Joysticks



COLOR ZAP

Super new space game! You must dodge the incoming photon torpedos before they can penetrate the defenses of your ship. Once you think you've got the upper hand, defensive fighters may appear and attack. $9.95



GALAX ATTAX

If you like Space Invaders, you'll love Galax Attax! Alien fighters leave formation to attack your ground base and you must fight them off! Exciting, fast-action machine language game with super sound and high resolution graphics. 16K and joysticks required. $21.95

NEW 16K MACHINE LANGUAGE GAMES

- KEYS OF THE WIZARD $19.95
  Best new adventure game available - over 200 rooms filled with creatures, tricks, treasures, magic spells. Cassette save feature built in.
- COLOR OUT $9.95
  Like Breakout, you must knock out six layers of blocks using your paddle to prevent missiles from escaping. Joysticks optional.

SUPERCHARGER

If you have a 32K E series printed circuit board, the **SUPERCHARGER** will let you switch your computer to full 64K RAM mode. It just plugs into the ROM PAK port and you can use BASIC or not as you wish. NO MODIFICATION is needed and it will not void your warranty. It allows you to still plug ROM pack and/or the disk controller board into the computer. ONLY $39.95

FLEXPLUS DOS

FLEXPLUS is a powerful, easy-to-use disk operating system. Spectral Associates has adapted TSC's FLEX to the best DOS completely compatible with Radio Shack software for use on the Color Computer. Eliminate the need for Radio Shack's TRS DOS - use **FLEXPLUS** with Editor/Assembler and have the options of a full range of utilities. **FLEXPLUS** works on the 32K Radio Shack disk system with 64K memory chips with a High Resolution multi-screen format that supports a 24 line by 51 character display! Also included are special enhancements to Radio Shack's Disk system when you are running FLEX with single or double sided, single or double density, 35, 40 and 80 track drives.

Advantages of FLEXPLUS are:

- Best price anywhere
- Easy start-up — just type "RUN FLEX+"
- Allows you to save RS compatible disk files from **FLEXPLUS**
- All FLEX compatible software will run including INTERRUPT DRIVEN SOFTWARE
- NO HARDWARE MODIFICATIONS NEEDED
- Warranty will not be voided — no need to open computer
- Wide range of available software
- Requires Supercharger board
- $149.95 for **FLEXPLUS**, Editor/Assembler and Supercharger

THE FACTS

At last, a complete description of the "guts" of the Color Computer. Specs on all the ICs, complete schematics, theory of operation and programming examples.

$14.95

UTILITIES

- EDITOR/ASSEMBLER $49.95
- SUPER MONITOR 19.95
- EPROM PROGRAMMER 89.95
  (Program your own ROMs for the ROM PAC port)
- MAGIC BOX 24.95
  Load MOD I/III Basic Tapes into color computer

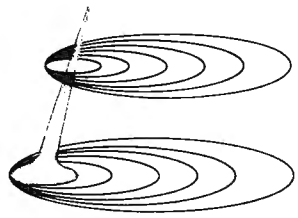
MAIL/FILE SERIES II



GALACTIC SOFTWARE LTD.

TRS-80™ MODELS I, II and III

The Mail/File Series II System is designed to meet all the requirements of a Mailing List data base manager. No effort has been spared to provide for maximum operator ease, while retaining overall system flexibility. Each Mail/File Series II System is fully supported by Galactic Software. It is without a doubt the most versatile package of its kind.

Mail/File Series II is designed to run on the TRSDOS or LDOS operating system.

1. Maximum capacities are as follows:

Model I	600 Names Per File
Model III	1200 Names Per File
Model II	2500 Names Per File

2. Nine data fields plus Mail/File System Control Number are provided.

#0 Control #	4 Characters
#1 Name #1 (or company name)	27 Characters
#2 Name #2 (or individual)	27 Characters
#3 Address	27 Characters
#4 City	15 Characters
#5 State	3 Characters
#6 Zip Code	11 Characters
#7 Telephone Number	14 Characters
#8 Telephone Extension	4 Characters
#9 Code	6 Characters

3. All records are sorted Alphabetically and by Zip Code. Alphabetic sort is by a combination of Name #1 plus Name #2.
4. Each entry is sorted into the system when entered. An assembler module allows for quick sorting, with an average wait of about 5 seconds per added item. Deletions are performed within 5 seconds, no matter how many items are in the list.
5. The Mail/File System provides for an 11 digit alpha/numeric Zip Code, allowing the system to handle both foreign and domestic Zip Codes.
6. Complete record maintenance is supported. Editing of any data field, including sorted fields, is allowed.
7. Records can be accessed in Alphabetic, Zip Code, or Control Number order. Control Number access is immediate, while access in Alphabetic or Zip Code order is always less than 10 seconds, even when operating at maximum capacity.
8. To provide for literally thousands of sublists, additional access criteria may be specified as follows:
   - And data field other than Name #1, Zip Code, or Code may be used as an inclusion criteria.
   - Up to 19 different whole or partial Codes may be used as inclusion criteria.
9. The Mail/File System supports standard 3-line and 4-line labels, with provisions for a user entered message line. Labels may be printed in single or multiple across formats. Zip Code changes may be identified during label printing and directory printing if required. The total number of items printed is always included during any printout operation.
10. The Mail/File System supports Directory printouts of 80 or 132 columns. The 132 column directory supports up to 199 lines per page, and includes full heading and page numbering. Control number is included in both types of directory listings to allow access by Control Number for purposes of editing.
11. The Mail/File System also allows printouts to be structured in a unique User Defined format with up to 16 format lines per data record, providing the exact type of output required by the user.
12. "Word Processor" type input editor allows for transparent cursor positioning, type over, and character insertion and deletion.
13. User may request a printout of items as they are added to the file.
14. A unique "Totaling" option allows the counting of items meeting user specified criteria.
15. Extensive error trapping has been employed to insure the integrity of the Mail/File System and to help eliminate operator error.
16. All data records created by Mail/File are upward compatible with all of Galactic's Mailing List programs.
17. Full Support is provided by Galactic Software for this and all its products. You may contact Galactic Software directly for full, professional assistance at any time.

MODEL I	**$159.00**
MODEL II	**$199.00**
MODEL III	**$159.00**

REALTY SOFTWARE COMPANY PRESENTS:

Systems for Landlords and Real Estate Professionals

Available for TRS-80 Models I and III, Apple II and Apple III

These systems have been developed by people professionally involved in real estate analysis, property management and sales who also have an extensive background in computer analysis. Hundreds of satisfied clients have discovered how effective a microcomputer can be in their business.

PROPERTY MANAGEMENT/GENERAL LEDGER

This is a truly flexible system designed for use by both property owners and property managers. The system is easy to use even for the computer novice.

This system consists of a set of programs which track rental income and expenses and provide general ledger accounting as well as management reports which are timely and accurate. Income and expense data is entered into the system by filling in on-screen forms. Corrections can be easily made at any time.

Features:

TENANT INFORMATION REPORT
YEAR-TO-DATE INCOME REPORT
RENT RECEIPT PRINTING
CHECK PRINTING
LATE RENT REPORT
VACANCY REPORT
EXPENSE DETAIL REPORT
VENDOR EXPENSE REPORT
UTILITY EXPENSE REPORT
TAX EXPENSE REPORT
OPERATING STATEMENTS

System Requirements:
A 48K system with at least one disk drive. All reports can be printed on an 80-column printer.

Property Management System $375.00

PROPERTY LISTING & COMPARABLES

This is a complete system for maintaining real estate listings and comparable sold properties. The system store complete information about each property and includes a comprehensive screening capability that allows you to search for properties based on certain user-selected criteria. All property information is entered and updated by filling in a form on the computer screen.

Features:

ATTRIBUTE SELECTIONS — Selection of properties on file based on maximum and minimum price, number of bedrooms, number of units, city and zone can be made in any combination.

PERFORMANCE SELECTIONS — Selection of properties can also be made based on a maximum gross factor, a maximum price per square foot of improvements and a minimum cashflow requirement in any combination.

System Requirements:
A 48K system with at least one disk drive and a standard 80-column printer.

Property Listing System $325.00

REAL ESTATE ANALYSIS PROGRAM MODULES

These modules form an analysis systems for real estate and can be ordered individually or in any combination on one diskette. They are also available on cassette. A 48K system with cassette or disk drive is required, and all reports can be printed on an 80-column printer.

HOME PURCHASE
An invaluable aid to making knowledgeable decisions when buying, selling or comparing properties.

LOAN AMORTIZATION
This module generates a complete loan payment schedule for fully amortized, interest-only and less than interest-only (negative amortization) loans with payments from one to 365 per year.

CONSTRUCTION COST/PROFIT
A sophisticated program for builders and investors which allows fast and complete analysis of potential profits.

PROPERTY SALE
This module will show the net financial result of a property sale, and will calculate the total gain realized, total taxable gain, return on investment and total cash to seller.

APR LOAN ANALYSIS
This tool for comparing loans will calculate the annual percentage rate of a loan based on the base interest rate of the loan, loan fees, prepaid interest and the term of the loan.

INCOME PROPERTY ANALYSIS
A superb tool for comparing income-producing properties, this module will provide a thorough financial analysis of almost any income-producing property in minutes.

TAX DEFERRED EXCHANGE
This module shows the total financial impact of a tax-deferred or partially deferred property exchange, allowing investors to make informed decisions when trading properties.

LOAN WRAP RETURN
When selling or buying properties involving a wrap-type of loan this program will show the actual percentage return to the seller.

LOAN SALES/PURCHASE
This flexible module will calculate either the present value of a loan base on the required percentage of return, or the percentage return based on the price paid for the loan.

DEPRECIATION/ACRS
Based on the new law governing real estate and other depreciable assets, this program calculates and displays both straight-line depreciation and the Accelerated Recovery System figures for assets in the 3, 5, 10 and 15-year life categories.

Real Estate Analysis Modules ..... $50.00 each

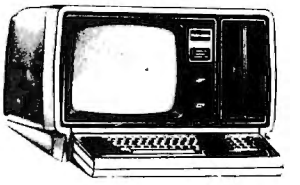
MOD II/16 NEWSLETTER

THE NEWSLETTER FOR OWNERS OF TRS-80™ MODEL II and MODEL 16 MICROCOMPUTERS.



The MOD/16 NEWSLETTER is a special publication that keeps MOD II and 16 owners aware of the latest news, helpful hints and other information related to the most powerful TRS-80's™

In its pages you will find:

- News and reviews of the latest software releases
- Information on hardware upgrades and modifications
- A forum for readers to express their opinions and exchange tips on running the Model II and 16
- Descriptions of books for Model II and 16 owners
- The latest announcements and updates

THE MOD II/16 NEWSLETTER IS THE ONE PUBLICATION THAT EVERY MOD II/16 OWNER NEEDS

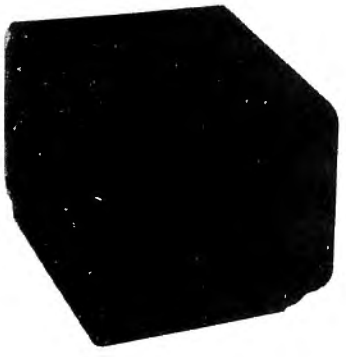
The Ultimate Diskette Storage System



Stores 50 to 60 Diskettes. This durable smoke-colored acrylic unit provides easy access through the use of index dividers and adjustable tabs. Unique lid design provides dust-free protection and doubles as a carrying handle.

5¼" Disks — $29.95
8" Disks — $34.50

THE ALPHA GREEN SCREEN

IBM and all other mainframe houses use green screen monitors. The advantages of the green video screen are now widely known. Every TRS-80 user should enjoy the benefits that it provides.

- **THE ALPHA GREEN SCREEN** is the only CURVED screen MOLDED exactly to the picture tube shape. It is cut precisely to cover the exposed area of the tube.
- **THE FILTER MATERIAL** that we use is just the right shade and density. The result is a screen very pleasant to the eye.
- **IMAGE CONTRAST** is increased and screen legability improved.
- Eye fatigue is reduced by our eye-saving green color and the enhanced readability of text.
- Your system takes on a distinctively professional look.
- **THE ALPHA GREEN SCREEN** is the easiest and fastest to install, no fitting, taping, or gluing necessary. Can be removed instantly for cleaning.

THE ALPHA GREEN SCREEN Please specify model. **ONLY $12.50**

FROM PERCOM . . .

- **THE DOUBLER II: Affordable Upgrade to Double-Density Storage...$169.95**

DATA SEPARATOR

Rarely does a new product come along that we can recommend so thoroughly as a product called the DATA SEPARATOR. We recommend is so completely that we do not feel a business application should be run without one being installed. This device eliminates most disk 1.0 errors. The manufacturer of the controller chip used in the expansion interface recommends data separation whenever reliability is important. The Data Separator is a board that is plugged into the computer (installation time about 5 minutes by a total novice). The Data Separator turns the personal computer into a reliable business computer...**$29.95**

ALL SOFTWARE LISTED HERE WORKS WITH TRSDOS*

(1) ELECTRIC PENCIL (Michael Shrayer Software). Complete word processor with extensive editing and printer formatting features $300

(2) GENERAL LEDGER, ACCOUNTS RECEIVABLE, ACCOUNTS PAYABLE, INVENTORY CONTROL, INVOICING AND PAYROLL (Small Business Systems Group)...an extensive business system for the serious user...can be used one module at a time or as a coordinated system...$295...per module...$1475 for the complete system.

(3) FASTBACK (Racet Computes)...A full disk backup in 55 seconds on systems with 2 or more disk drives - including verification. Can replace your existing TRSDOS 1.2 or 2.0 Backup Utility..... $75.00

(4) MOD-II UTILITY PACKAGE (Racet Computes).... adds important utilities to TRSDOS.....copy files selectively...faster and more accurate file copying... repair bad directories...displays sorted directory of all files on 1 to 4 disk drives...SUPERZAP...change disk ID...and more. $150

(5) ADVENTURE #1-#12 (Scott Adams - Adventure International)...a series of games formally only available on the large computers...your goal is to work your way through a maze of obstacles in order to recover a secret treasure or complete a mission...the package includes all 12 Adventures written by Scott Adams. $129.95

(6) GSF (Racet Computers)...Generalized Subroutine Facility...a series of super fast machine language utilities that can be called from a BASIC program (no machine language knowledge required)...sorts 1000 items in under 5 seconds...allows PEEK and POKE statements...move data blocks...compress and uncompress data. .works under TRSDOS..... $50

(7) DSM (Racet Computes)...Disk Sort Merge...sorts and merges large multiple diskettes files on a 1 to 4 drive system...NOT AN IN MEMORY SORT...can actually alphabetize (or any other type of sort) 4 disk drives worth of data...sorts one complete disk of information in 10 minutes...information is provided to use DSM with the RS MAILING PROGRAM...works under TRSDOS..... $150

(8) RSM (Small Systems Software).....a machine language monitor and disassembler...can be used to see and modify memory of disk sectors...contains all the commands found on the Model-I version plus some additional commands for the MOD-II...works under TRSDOS..... $39.95

(9) BLINK BASIC LINK FACILITY (Racet Computes).. Link from one BASIC program to another saving all variables...chain program without losing variables $50

(10) BASIC CROSS REFERENCE UTILITY (Racet Computes)...lists all variables and strings used in a program (with the line numbers in which they appear) ...lists all GOTO's (with the line numbers in which they appear)...searches for any specific variables or strings (with the line number in which they appear) $50

(11) DEVELOPMENT PACKAGE (Racet Computes) SUPERZAP (to see, print or change any byte on a diskette)...Disassembler and MOD-II interface to the MICROSOFT EDITOR ASSEMBLER PLUS including uploading services and patches for Disk I/O..assemble directly into memory...save all or portions of source to disk...dynamic debug facility (ZBUG)...entended editor commands $125

(12) HARD/SOFT DISK SYSTEM (Racet Computes)... The software essential to interface any of the popular large hard disk drives...completely compatible with your existing software and files...allows up to 20 megabytes of storage (and larger)...directory expandable to handle thousands of files $400

(13) CAMEO HARD DISK DRIVE CONTROLLER... CALL FOR PRICE

(14) HARD DISK DRIVES ..... CALL FOR PRICE

(15) H & E COMPUTRONICS, INC. SHARE-A-PROGRAM DISKETTE #1...works under TRSDOS.....a collection of programs written by MOD-II owners... programs include data base management...a word processor...mail system...mortgage...calculations... checkbook register...and many others...$12 FREE if you send us a diskette containing a program that can be added to the SHARE-A-PROGRAM DISKETTE.

(16) WABASH CERTIFIED DISKETTES ..... $39.95 (per box of 10)

(17) VERBATIM CERTIFIED DISKETTES ... $49.95 (per box of 10)

(18) FLIP SORT DISKETTE STORAGE TRAY Stores 50 diskettes. .comes complete with index-dividers, tilt plates and adjustable spacing $34.50

(19) MASTER PAC 100 .... 100 essential programs BUSINESS...PERSONAL FINANCE...STATISTICS.... MATH...GAMBLING.. GAMES.. includes 125 page manual and 2 diskettes $149.95

(20) BUSINESS PAC 100 ... 100 essential business programs...INVENTORY...CONTROL...PAYROLL... BOOKKEEPING SYSTEM...STOCK CALCULATIONS.....CHECKBOOK MAINTENANCE.....ACCOUNTS RECEIVABLE...ACCOUNTS PAYABLE.... includes 125 page manual and two diskettes $149.95

(21) EDITOR ASSEMBLER (Galactic Software Ltd.)... The first user oriented Editor Assembler for the MODEL II and was designed to utilize all the features of the MODEL II It includes innovative features for ease of coding and debugging and complete documentation (over 120 pages)...works under TRSDOS $179

(22) BASIC COMPILER* (Microsoft)...changes your source program into machine language...increases program execution by 3-10 times $395

(23) MAIL/FILE SYSTEM from Galactic Software Ltd. Stores 2,500 names per disk. No sorting time is required since the file is automatically sorted by first and last name plus Zip Code on input. Retrieve by any combination of 19 user codes. Supports an 11 digit alphanumerica Zip. Supports a message line. Comes complete with user-oriented documentation (100-page manual) Allows for company name and individual of a company and complete phone number (and extension)...works under TRSDOS..... $199.00

(24) COMPUTER GAMES (SBSG) ..Mean Checker Machine, Star-Trek III, Concentration, Treasure Hunt, Banco, Dog Star Adventure $74.95

(25) INTERACTIVE FICTION...is a story-teller using a computer, so that you, the reader, can actually take part in the story instead of merely reading .. $49.95

(26) SPEEDUP (Racet Computes).....Gives you a minimum 30% overall decrease in disk input/output time $99.95

*** BASIC COMPILER may not be returned after diskette package has been opened.**

ALL PROGRAMS LISTED HERE REQUIRE CP/M*

(1) CP/M (Lifeboat Associates)....an alternative operating system for the **MOD-II** that allows **MOD-II** owners to use any of the hundreds of programs available under **CP/M** $195

(2) CP/M HANDBOOK...(Sybex).....a step-by-step guide to **CP/M**...takes the reader through each of the **CP/M** commands...numberous sample programs... practical hints...reference tables $14.95

(3) GENERAL LEDGER, ACCOUNTS RECEIVABLE, ACCOUNTS PAYABLE, INVENTORY CONTROL, AND PAYROLL (Peachtree Software) Series 4 requires CP/M and MICROSOFT BASIC...professional business systems ..turn key operation...can be used as single modules or as a coordinated system. .$500 per module ..... $2500 for the complete system

(4) WORD-STAR...The ultimate word processor...a menu driven word processing system that can be used with any printer. All standard word processing commands are included...plus many unique commands only found on WORD STAR...requires CP/M $495.00

(5) MAIL LIST MERGE...An add on package that allows the user to send form letters (created on WORD-STAR) to any compiled mailing list (using any CP/M based MAIL program such as the PEACHTREE MAIL PROGRAM)...requires CP/M, WORD STAR and CP/M based mail program $150

(6) CBASIC-2...a non-interactive BASIC used for many programs that run under **CP/M**...allows user to make more efficient use of disk files...eliminates the use of most line number references...require on such programs as the **SELECTOR** $120

(7) MICROSOFT BASIC...an enhanced version of the **MICROSOFT BASIC** found on **TRSDOS**.....adds commands such as chaining (allows the user to LOAD and RUN a new program without losing the variables currently in memory)...long variable length file records, WHILE/WEND and others ..can be used with the BASIC COMPILER to speed up programs (3-10 times faster execution) $325

(8) ELECTRIC PENCIL (Michael Shrayer Software) Complete word processor with extensive editing and printer formatting features $300

(9) BASIC COMPILER (Microsoft)...changes your source programs into machine language...increases program execution by 3-10 times $395

(10) SELECTOR V (Micro-Ap)...The ultimate data management system...user defined fields and codes... manages any list defined by the user...includes additional modules for simplified inventory control, accounts receivable and payable...data file format conversions...full page report formatter...computations...global search and replace...data/text merging . hard disk compatible....requires CBASIC-2 .... $995

(11) T/MAKER II (Lifeboat Associates) The most advanced utility for the analysis and presentation of numerical data and text material...just set up your data in columns and rows, and T/Maker II does the rest ...change any number in the model and all the others are adjusted and recalculated...300-character wide screen editor...justify lines...formattables...move blocks of copy...global editing $275

(12) SMART TERMINAL Enables your TRS-80 to be used a remote terminal to a time sharing computer system. Supports upper/lower case and full range of control keys, including control key mapping into any ASCII character. Automatic transmission of files between TRS-80 and host computer. Files can be read from or written to cassette tape or disk. Incoming data can be printed on line printer or stored in memory for subsequent save to cassette or disk. Disk and tape files are fully compatible with the ELECTRIC PENCIL program. Baud rate and RS-232C sense switches can be reset without opening Expansion Interface. Requires RS-232C interface and modem $79.95

*** (CP/M IS A REGISTERED TRADEMARK OF DIGITAL RESEARCH)**

CP/M software may not be returned after diskette package has been opened.

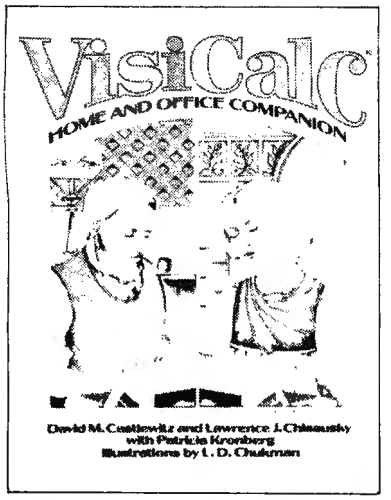
BOOKS FROM OSBORNE/McGRAW-HILL



VISICALC™ - HOME & OFFICE COMPANION

If you're an experienced VISICALC™ user, or if you just bought VISICALC™, this book will give you more power for your money in just one afternoon.

Fifty ready-to-use models for VISICALC™ applications, along with sample printouts, descriptive narratives, and coordinate listings, are presented, and users may simply enter their own data in place of the sample data or substitute a label or list of entries to tailor the models to their specific needs. Algorithms and modeling techniques provide the experienced VISICALC™ user with the opportunity to custom-design new models. The models provided cover seven areas of application: Loans and Investments, General Business, Inventory Control, Advertising and Sales, Personnel and Departments, Personal Finance, and Household Aids. All models are designed to support most computers and versions of VISICALC™, and the models can also be used with SUPERCALC™. This book is aimed at the business user who doesn't have time to reinvent commonly used financial and management techniques, and the home user is looking for new applications for this versatile program.

$15.99

Some Common BASIC Programs, Second Edition

by Lon Poole and Mary Borchers

Some Common BASIC

Programs is a collection of 76 programs you will not have to write for yourself. Each program is presented with BASIC source code, operating instructions, and verbal description. If you're a student or a beginning programmer, you can learn from this book what well designed and documented programs look like.

Some Common BASIC Programs $14.99
200 Pages

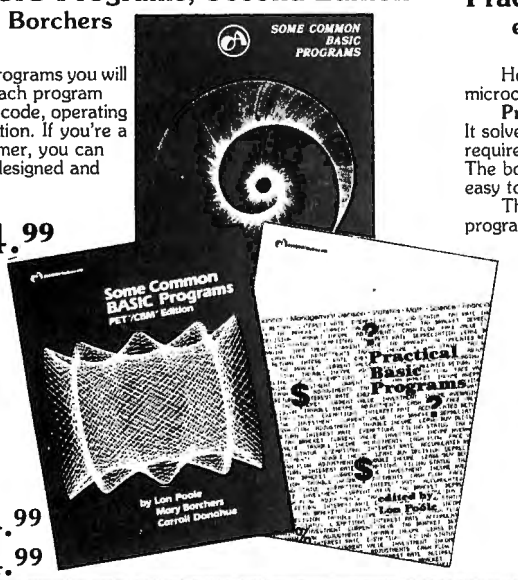
PET/CBM EDITION $14.99

TRS-80 EDITION $14.99

APPLE II EDITION $14.99

IBM PC EDITION $14.99

ATARI EDITION $14.99



Practical BASIC Programs

edited by Lon Poole

$15.99
200 Pages

Here is a new collection of 40 programs you can easily key in and use on most microcomputers. Each program does something useful.

Practical BASIC Programs is especially useful in small business applications. It solves problems in finance, management decision, mathematics and statistics. It requires no prior programming knowledge. Each program is thoroughly documented. The book contains sample runs, practical problems, BASIC source listings, and an easy to follow narrative to help you realize the potential uses of each program.

This book is a valuable reference for anyone who needs a wide range of useful programs.

Examples of Programs in these books:

Some Common BASIC Programs

Regular Withdrawals from an Investment
Nominal Interest Rate On Investments
Effective Interest Rate On Investments
Depreciation Rate
Discount Commercial Paper
Check Writer
Regular Payment on a Loan
Mortgage Amortization Table
Linear Programming
Binomial Distributions
Linear Regression
Federal Withholding Taxes

Practical BASIC Programs

Income Averaging
Current Value of a Treasury Bill
Accrued Interest on Bonds
Rule of 78's Interest
Lease/Buy Decision
Depreciation Switch
Checkbook Reconciliation
Home Budgeting
Nonlinear Breakeven Analysis
Program Evaluation and Review Technique

Apple II User's Guide

by Lon Poole, Martin McNiff, and Steven Cook **$16.95**

This guide is the key to unlocking the full power of your Apple II or Apple II Plus computer. The **Apple II User's Guide** brings together in one place a wealth of information for Apple computer users. It will tell you more about your Apple than any other single source. This book will save you both time and effort. No longer will you have to search endlessly for useful information. It's all here, in the **Apple II User's Guide,** thoughtfully organized and easy to use.

Topics Include:

- **Applesoft and Integer BASIC programming** — especially how to make the best use of Apple's sound, color, and graphics capabilities.
- **A thorough description of every BASIC statement, command and function.**
- **Advanced programming** — special sections describe High Resolution Graphics techniques and other advanced applications
- **Hardware features** — the disk drive and printer are covered in separate chapters.
- **Machine level programming** — although not a machine language programming guide, this book covers the Machine Language Monitor in detail.

TRS-80 Assembly Language

By Hubert S. Howe, Jr.

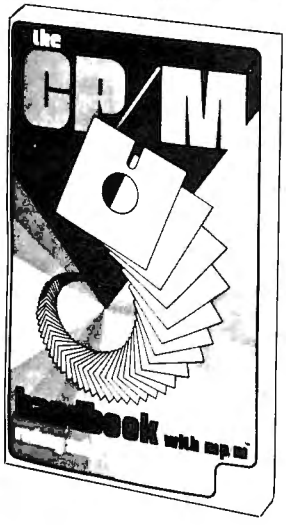
Now, for both first-time and experienced users of the TRS-80 microcomputer, there is a book that explains assembly language programming in a clear, yet easy-to-understand style. This outstanding training manual incorporates into a single volume all of the information you need to become familiar with assembly language programming for the TRS-80.

In this book you will find:

- Clear presentations of all introductory concepts
- Completely tested practical programs and subroutines
- Details of ROM, RAM, and Disk Operating Systems
- Comprehensive charts, tables and appendices

$9.95

BOOKS FROM SYBEX



THE CP/M HANDBOOK (With MP/M) By Rodnay Zaks

This book is a complete guide and reference manual for CP/M - the standard microcomputer operating system. Most users of microcomputer based systems will at some time utilize CP/M - it is available on almost all 8080 or Z80 based computers as well as on some 6502 based computers. Beginning with a step-by-step description of start-up procedures—powering up the system, inserting diskettes and performing basic initial operations (including diskette duplication)—the book progresses to detailed explanations of PIP, the file transfer program, DDT, the debugging program and ED, CP/M's text editing program for creating and updating files. Reference chapters will complete practical hints and an introduction to CP/M's internal operation complete this thorough treatment of CP/M. Extensive appendices summarize all commands for ready reference. The standard guide to CP/M.

LEVEL: First time computer users, input typists, business users as well as experienced programmers.

CONTENTS: Introduction to CP/M and MP/M • CP/M and MP/M Facilities • Handling Files With PIP • Using The Editor • Inside CP/M (And MP/M) • (Reference Guide To CP/M and MP/M Commands and Programs • Practical Hints • The Future • Appendices • Index

336 Pages, 100 Illustrations - **$14.95**

NEW

INTRODUCTION TO WORD PROCESSING By Hal Glatzer

Why "process" words? Why not just type? The electronic revolution that gave us calculators has now given us word processing machines that remember, display, edit, correct and print entire pages faster than any person can. Yet these sophisticated machines are as easy to operate as a typewriter and no more expensive than an office copier. If you write letters, organize reference materials, produce articles, reports, contracts or any other materials, a word processor will help you save time, and improve accuracy and efficiency. This book explains in plain language what a word processor can do, how to use one, how it improves productivity—especially in businesses that handle lots of words—and how to buy one wisely.

LEVEL: No technical knowledge required. For all first-time users and those considering the purchase of a word processor.

300 Pages, 140 Illustrations **$12.95**

NEW

INTRODUCTION TO WORDSTAR® By Arthur Naiman

BEST WORDSTAR® GUIDE TO DATE

For anyone who owns WordStar® or is considering buying it, this book will quickly and easily teach how it works while presenting a clear picture of what a word processing program can do. A clearly written, well-organized guide to MicroPro's word processing program, INTRODUCTION TO WORDSTAR®, by Arthur Naiman, is a complete reference manual. It clarifies the process of learning how to use a high-powered word processing program. Electronic cut-and-paste, boldface type, automatic centering and page numbering, justified margins and form letters are only a few of WordStar's® capabilities. From editing and special print features to printout and incorporation of ancillary programs, this SYBEX book contains all the information needed by anyone pursuing word processing.

200 Pages, 30 Illustrations **$11.95**

Announcing!

DOS RANDOM ACCESS & BASIC FILE HANDLING

Written For TRS—80 and All Computers Using MICROSOFT basic

FINALLY IT IS HERE. At last someone wrote a book on disk random access and file handling. A book written for the non-programmer. Written for the businesman and professional who need to solve and write special programs for in house business problems.

Written for the hobbyist who wants to go beyond the cassette recorder and into disk storage and file manipulation.

This book handles a subject of reasonable complexity, so simple and down to earth, that anyone with some Level II experience can cope with the material.

This book is written using a simple program as a starting point. The programs grow in ability and complexity as the book progresses into the various aspects of file handling and record manipulation. Extensive effort has been made to keep the material coherent and every program line is explained in detail.

The programming material presented in this 150 page self-instruction tutorial will provide any non-programmer with the ability to write special programs for inventories, mailing list, work scheduling, record keeping, research project data manipulation, etc. The subjects covered in this edition are as follows . . . . .

(A) The writing of a Menu to summarize program functions.
(B) The writing of a screen format to accept record data.
(C) The creation of the basic record.
(D) The Fielding and LSET routines for buffer preparation.
(E) The writing of the record to disk in a Random Access mode.
(F) The retrieval of a record from disk in a Random Access mode.
(G) The ability to change or edit a record.
(H) The LPRINT capability from disk using three different formats.
(I) Deleting a record from a Random file.
(J) Sorting the Random file.
(K) Searching the Random file by name or other keyfield.
(L) The ability to search in a "NEXT or PRIOR" fashion.
(M) The ability to purge a disk file from deleted records.
(N) The ability to calculate with data from a disk file.
(O) The provision for future expansion of the data fields.
(P) The use of flags to prevent program crashes.
(Q) Date setting, printer on-line, and many other routines that make a program run like a commercial written program.

SOFTWARE FOR YOUR TRS-80*

* TRS-80 is a trademark of Tandy Corp.

From SMALL SOFTWARE SYSTEM

RSM-2 Machine Language Monitor

A 27-command monitor program with capabilities for entering, executing, savings and loading machine language programs. Commands to search, display, edit, zero, exchange, test, fill and verify memory. Also provides links for keyboard and CRT display access for users.

Provides access to all memory locations. You may examine your Basic ROM's, test your RAM, enter and execute machine language programs, read and write machine language tapes.

You can set BREAKPOINTS in your programs, write SYSTEM tapes, READ SYSTEM tapes and display their name and starting address, and PRINT any command with the TRS232 printer interface or the Radio Shack expansion interface! Disk commands (see RSM-2D) are included for future expansion of your system. RSM-2 loads from cassette into the top 5K of memory in Level I or Level II 16K computers so that it can reside in memory with other programs! **$26.95**

RSM-2D

This special disk version of RSM-2 has all the commands of both RSM-1S and RSM-2, including two commands that read or write disk sectors directly! You can read any number of disk sectors into any memory area, or write any memory area to disk! A truly unique tool for use with disk systems. RSM-2D is furnished on disk with three versions that load and run in the top 5K of 16K, 32K and 48K computers. A special loader program prompts you to select the desired version, which then loads and executes. If desired, you can make CMD files of RSM-2D by use of the TAPE-DISK command for direct execution from TRSDOS. **$29.95**

RSM-II for Model II $39.95

DCV-1 Converts Machine Language Programs From A Tape To A Disk Program

DCV-1 is a special SYSTEM tape that allows you to convert nearly any machine language program from a tape to a disk program. Nearly all of our software may now be executed from your disk system! This includes RSM monitors, The Electric Pencil, Air Raid, RSL-1, ESP-1 or any program that occupies less than 5K (Larger programs may be handled if you have more than 16K of memory). After DCV-1 is loaded, DCV-1 then loads any SYSTEM tape into memory starting at 6C00 Hex. A short block-move program is added at the beginning of the program, and the parameters necessary to create a disk file are displayed on the screen. TAPEDISK is then used to create a disk file. When accessed, the program loads at 6C00 Hex, moves itself to its correct address, then jumps there and executes! A super accessory for disk systems! **$19.95**

AIR RAID A Real-Time Shooting Gallery

AIR RAID is an arcade-type action game that uses the high speed machine language capabilities of the TRS-80. AIR RAID offers enough challenge to keep the attention of the most dedicated of game haters, and has been known to become nearly an obsession to more than one individual. Just about the time you finally achieve that magic score of 10,000 someone points out that you're still playing the game at one of the low speeds!

AIR RAID is played on the TRS-80 video screen. A random sequence of large slow aircraft and small fast aircraft traverse the screen in both directions at seven altitudes. A missile launcher that can be pointed in 5 different directions launches missiles under your command. After launch, the flight path may be modified (if you're fast enough)! When hit, aircraft explode dramatically and the debris rains to the bottom of the screen, destroying any aircraft in its path! On occasion, two aircraft collide, destroying the aircraft and creating a parachute which settles slowly to the ground. These, of course, offer additional targets, but they are much harder to hit than the aircraft. To compensate, a higher score is tallied for parachute hits!

AIR RAID also runs in a continuous demonstration mode, providing an interesting display for shows or computer meetings. AIR RAID will provide hours of fun for you, and is an ideal program for entertaining your friends.! **$19.95**

EDAS Editor Assembler

For The TRS-80 Models I, II, III

By Galactic Software Ltd.

EDAS is the ultimate disk based Editor Assembler for the TRS-80 Model I, II, and III computer. Among its features are direct assembly from disk source files or memory buffer, IF conditional assembly commands, fully formatted printer output, assembly to disk or to memory, and a full feature editor.

Default file extensions of /ASM for source files and /CMD for object code files are provided.

EDAS will support both upper and lower case entries. Opcodes and labels entered in lower case can be automatically converted to upper case.

All EDAS versions respect the HIGH$ memory protect pointer, and also allow for warm restarts from the DOS level or from the system debugger.

EDAS comes with a complete operator's manual and a cross reference utility program. Model I and III versions also include a disk to tape utility, and a CMDFILE utility for disk-to-disk, tape-to-disk, disk-to-tape program loading and concatenation.

ASSEMBLY FEATURES

A *GET directive allows assembly directly from disk source files, providing a capacity limited only by the size of the symbol table in memory! Source files may also be linked by multiple *GET statements in the main program, allowing literally hundreds of thousands of bytes of source code to be assembled.

Conditional assembly is provided through the use of an IF directive. Allowable conditions are Greater Than, Less Than, and Equal.

Allowable operators are + (addition), - (subtraction), < (shift), & (logical AND), ! (logical OR), # (exclusive OR), * (multiply), / (divide), and % (modulo).

Object code may be assembled to disk or directly to memory. A Branch command allows jumping to the code in memory for debugging, with an exit provided back to the editor assembler with the source code intact.

Assembly to a line printer allows adjustment of page length and lines per page. Also provided are Title, Subtitle, Page, and Space psuedo ops, allowing for the exact labeling and formatting of printed output you need.

A COM psudeo op allows comment lines to be written to a disk file along with the object code. These comment blocks will not be loaded with the object code, but merely provide an easy way to store such things as copyright messages in your object code files.

Constants can be entered in hexadecimal, decimal, octal, or binary format.

The assembler will generate a symbol table sorted in alphanumeric order. The output will be in three across format, with symbols of up to 14 characters allowed. An additional cross reference file may also be generated for use with the XREF utility program

EDITOR FEATURES

EDAS will Write and Load text files directly to or from disk, with provision for text file concatenation. Many different types of text files can be loaded by the editor, including files without line numbers.

The editor can write source files with or without line numbers, and with or without a header.

For ease of editing, the editor provides for block Moves of lines, Global replacement of text strings over the entire buffer, and a Find command to locate all occurrences of a specified text string.

Individual line editing maintains command syntax indentical to the BASIC editor - Character Insert, Delete, Change, Locate, Kill, Hack, New Line, Display Line, Quit, etc. are all supported.

The text buffer can be printed in whole or in part, with or without line numbers.

All versions provided for disk directory displays, and allow the user to kill disk files while remaining in the editor assembler.

The editor provides over 32K of text buffer space. The Assembler portion of the program may be deleted from within the editor, thus increasing the size of the available text buffer by approximately 5K.

Memory utilization can be determined with the Usage command, which displays the bytes used by the text, the bytes available, and the first free address.

A View command allows review of disk source file without actually loading the file into the text buffer.

All versions of EDAS provide controlled text scrolling capabilities, as well as a functional Clear Screen key.

EDAS SPECIFICATIONS

HARDWARE REQUIRED:
All versions require 32K of memory with one disk drive.

TEXT BUFFER CAPACITY:
Model I & III - about 32K (with 48K system)
Model II - about 40K (with 64K system)

TEXT FILES:
Source files are compatible between versions.
Most ASCII source files may be read.
Text concatenation is supported.
Conditional assembly is supported.
Macros are not supported.
Source files can be written with or without headers and line numbers.
Up to 14 characters are allowed for labels.
Linking of source files is supported.

OBJECT FILES:
Object code may be assembled to disk or to RAM.
Disk object files are directly executable.
RAM object code may be executed from the editor.

COMMANDS:
The commands and syntax in the Radio Shack Model I Editor Assembler are a small subset of EDAS. Users already familiar with that assembler will be able to function in EDAS's advanced environment immediately.

MANUAL
The complete manual is over 70 pages and contains complete descriptions of all commands and parameters.

EDAS Model I, III	**$79.00**
EDAS Model II	**$179.00**

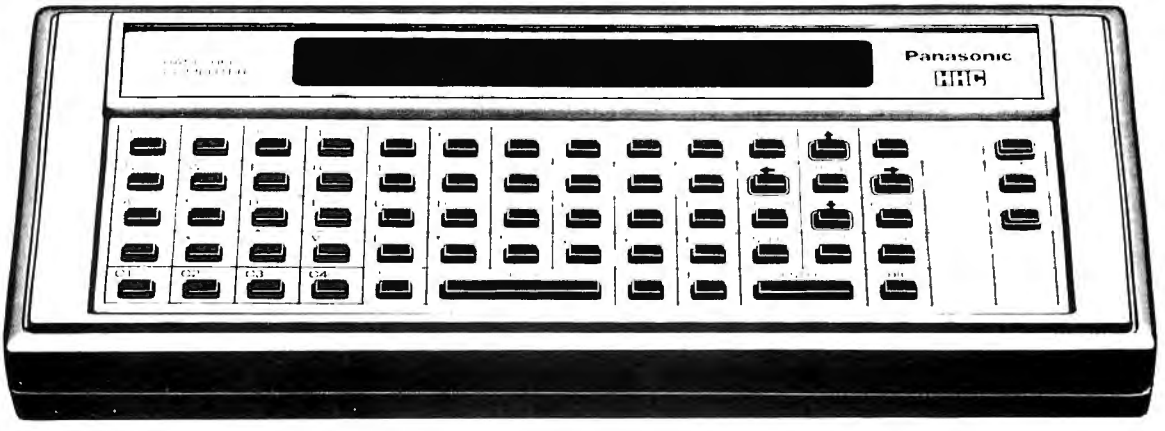
Introducing . . . . .

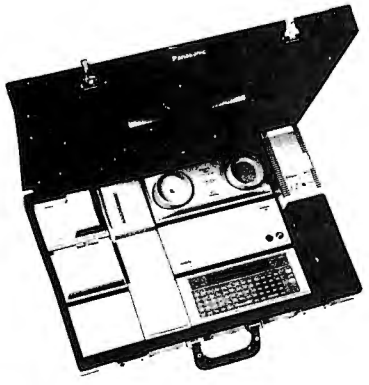
THE LINK



Panasonic

HAND-HELD COMPUTER SYSTEM

The Link will revolutionize the way you do business. Salesmen, Executives, Engineers — everyone who needs information and computing power at their fingertips, whether in the office or on the road, will find The Link an invaluable tool.



PORTABLE — A built-in rechargeable battery pack powers The Link when you're in the field -- the AC Adaptor/Recharger takes at home or the office. Innovative new circuitry allows The Link to use far less power than conventional microprocessors -- even when you turn it off, its memory stays active and keeps your data safe. When connected to its peripherals, The Link can be carried in its custom-fitted attache case, or used as a desk-top unit that travels from office to office.

VERSATILE — The modular peripherals allow you to customize the system for your specific needs. The Link can be anything you want it to be, from a pocket-size problem-solver for business and technical calculations to an attache-case computer terminal, sending order and billing data over phone lines to your company's computer, receiving credit and inventory data, and displaying text and graphic presentations on your customer's color TV.

POWERFUL — The Link Capsule System enables use in a wide variety of applications -- The Link capsules contain programs in 24-pin ROM (Read Only Memory) chips that can be easily changed by inserting them into one of The Link's three ROM slots. In addition, The Link is provided with 16K of internal ROM, up to 4K of internal RAM (Random Access Memory), and is expandable to a total of 52K of RAM and 64K of ROM.

THE LINK PRIMARY UNIT — (Built-In 4K bytes RAM) **$380.00**
(Built-In 8K bytes RAM) **$480.00**

AC ADAPTOR/RECHARGER — Allows operation of The Link and all peripherals on 120V AC current, recharges main unit's battery pack. **$45.00**

MICRO PRINTER — Thermal 5 × 7 dot matrix printer provides "hard copy" records from any program performed or data received by The Link. Give a customer a printed record of an order entered, or a printed receipt when using The Link as a portable cash register. Send your Sales force a schedule of appointments, complete with names and addresses of prospects.

40-column printer **$300.00**
15-column printer **$225.00**

ACOUSTIC MODEM — Expands The Link to unlimited power and storage capacity. The Acoustic Modem connects The Link to any telephone handset and allows it to transmit and receive information from other computers. Gives access to home and office computers, time-sharing networks and data base systems — from anywhere you have access to a telephone. The Link can become a remote data terminal.

$250.00
With Cassette Interface $300.00

TV ADAPTOR — Connects The Link to any TV set, so that you can view up to 16 lines (by 32 characters) of data on screen, rather than viewing it a line at a time on The Link's LCD Display. An entire "page" of data can be received and displayed on screen. Also allows use of color graphics for impressive presentations of charts and diagrams — perfect for conferences, demonstrations, and complicated information analysis.

$349.00

RS-232C SERIAL INTERFACE — Allows you to connect The Link directly to large-format printers, main frame computers, or any other devices that use the industry-standard RS-232C interface (Note: the RS-232C Capsule is necessary for operation of the RS-232C peripheral).

$254.00

PROGRAMMABLE MEMORY — Adds extra random-access memory (RAM) to The Link, greatly extending its internal storage capacity. Up to six memory modules may be added simultaneously, giving The Link a total RAM storage capacity of 52K bytes. Each module carries a memory protection back-up battery pack to keep your data safe.

(4K bytes) **$150.00**
(8K bytes) **$250.00**
(16K bytes) **$350.00**

INPUT/OUTPUT ADAPTOR — Allows up to six peripherals of any kind to be connected to The Link's main unit (one via I/O cable).

$158.00

ATTACHE CASE — Holds Primary Unit. I/O Adaptor, two large-size peripherals. (TV Adaptor and Acoustic Modem), three small-size peripherals (RS-232C Serial Interface, Programmable Memory, Micro Printer), plus AC Adaptor, Antenna Selector Box, TV cables, owners manual, and others.

$163.00

I/O CABLE — For sixth peripheral. **$86.00**

RS-232C CABLE — Used to connect the serial interface to a printer or other device. **$35.00**

NEW! **4-COLOR PRINTER/PLOTTER** — Prints 80 characters of text per line, plus eye-catching four-color graphics. **$480.00**

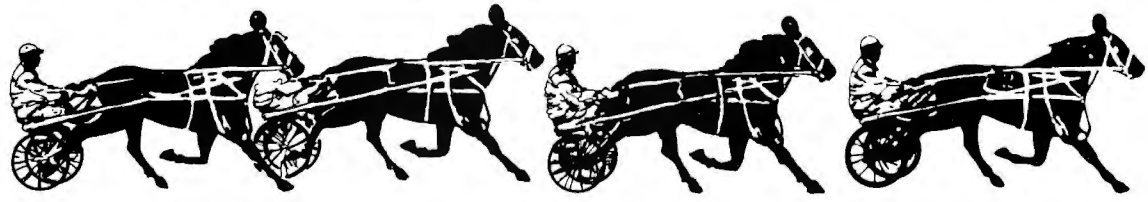
Meet the computer with horse-sense!



INTRODUCTION

The *Kel-Co Trot Computer* is a scientifically engineered special purpose computer designed to provide an accurate and rapid means for obtaining the Kel-Co ratings for harness race horses. These ratings, together with a few basic rules, provide a statistically proven handicapping method.

The unit has two modes of operation: the "computer mode" and a "calculator mode." The computer mode contains the programmed formulas for the Kel-Co Trot ratings using a special Texas Instrument microprocessor chip (TMS 1100/MP3490N-1). In the calculator mode the unit operates as a standard calculator.

The novice will find his lack of experience no problem. He need only know how to read the track program, and this information is found within each program. The instruction manual is complete, it tells what races to avoid, what horses to eliminate, how to rate the horses, and how to play the various types of wagers.

This computer is an outgrowth of the original Kel-Co Trot Calculator (Slide Rule) first marketed in 1969. Although based on the same general principles, it has undergone extensive refinements in theory. In addition, by its very nature, the electronic computer is much easier to use, more accurate, and much faster than the slide rule calculator.

GUARANTEE

Cannella Corporation provides a full six month warranty, from date of purchase, and will repair defects in material and workmanship, free of charge.

You'll Come Out A Winner™

COMPUTER PICKS WINNER 70% OF THE TIME

Cannella Corp. claims that strict adherents to the system will find themselves in the money about 70% of the time. **Money** magazine put it and a competitor through their paces and concluded, "There is no question that either Kel-Co or Racetrack II can help a lout like me (or even an experienced bettor) to invest more scientifically at the expense of poor suckers....."

H & E Computronics offers its full 30-day Money-Back Guarantee on the Trot Computer.

MEET THE COMPUTER WITH HORSE-SENSE.

COMPUTER PICKS WINNER 70% OF THE TIME*

THE KEL-CO CLASS COMPUTER IS THE MOST INGENIOUS WAY TO PICK THE HORSES, BY A LONG SHOT.

You'll Come Out A Winner

Now there's a space-age computer that helps you narrow the odds, for it has been specially designed to give you a **class** rating on every thoroughbred race horse horse on every track in North America. No, this isn't a toy or merely an ordinary calculator. It's a sophisticated state-of-the-art computer that contains a special Texas Instruments microprocessor computer chip (TMS 1100/MP3452NL) specifically programmed with our unique handicapping system of **Established Class Ratings.** These ratings, together with an easy-to-follow system for qualifying selections, provide you with the most probable winner. And, there's no prior handicapping experience necessary! They even show you when you should consider combination races—Daily Doubles and Exactas (Perfectas)—and how to play them.

THE COMPUTER GIVES YOU THE RATING

We have pre-programmed the Kel-Co Class Computer with the four different formulas accounting for purse distribution used by every racetrack in North America. To operate simply 1) enter the track category number where the horse has raced 2) enter the number of Wins, Places, Shows and Forths 3) depress the E/R button 4) enter the earnings and 5) push the E/R button. The computer instantly evaluates each horse's performance and displays the horse's **Kel-Co Established Class Rating.**

PRINCIPLE OF ESTABLISHED CLASS

The rating developed by the computer is based on the premise that thoroughbred class is best measured by the size of the purses that the horse has **successfully** competed for in the recent past. This rating is determined mathematically by the computer as a function of the horse's earnings and finish positions from past performance charts. In very basic terms, this would probably mean that a horse with only one win and $5,000 in earnings would be likely to beat a horse with three wins and only $8,000 earned.

The rating also indicates the purse size of the race in which the horse is likely to win if fit and ready. This means that a horse running in a race with a lower purse value than his rating represents a real "drop down" and a potentially strong bet. A horse with a lower rating than the purse value, however, is moving up in class and will seldom be a serious contender.

DEVELOPED BY PROBABILITY EXPERT

The Kel-Co Class Computer is based upon the same principles as the Kel-Co Slide Rule, developed by Dr. A. Stuart Kelsey in 1969. Dr. Kelsey is a probability and statistical expert and was a member of the space research team which perfected the Lunar Excursion Module for the Apollo space program. Applying his expertise in probability studies, Dr. Kelsey created a system that made his Slide Rule the most widely used handicapping aid in North America. That same method is embodied in the Kel-Co Class Computer.

The Kel-Co Class Computer comes complete with battery, AC adaptor, operating instruction book and handicapping guide. And don't forget, the computer will also operate as a powerful 4-function calculator, complete with percent key and bright LED display.

* Cannella Corp. claims that strict adherents to the system will find themselves in the money about 70% of the time. **Money** magazine put it and a competitor through their paces and concluded, "There is no question that either kel-Co or Racetrack II can help a lout like me (or even an experienced bettor) to invest more scientifically at the expense of poor suckers....."

H & E Computronics offers its full 30-day Money-back Guarantee on the Thorough-Bred Computer.

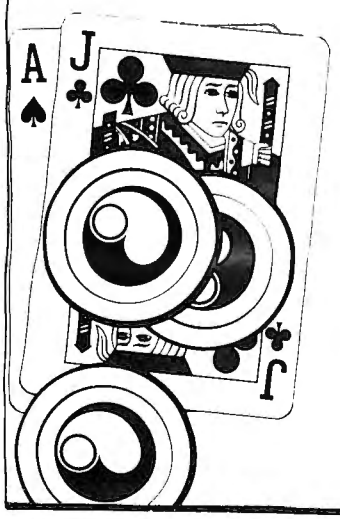
★ **FREE** **DUTCHING TABLES** ALLOWS BETTING ON 2 OR MORE HORSES WITH A GUARANTEED PROFIT
GUARANTEED SATISFACTION

THE HORSE SELECTOR II $50.00

Learn To Win At Blackjack With Your TRS-80 or APPLE II!



For TRS-80 16K Level II . . . . .

WIN 21 is more than just a computer blackjack game. It's a complete tutorial program for helping you improve your playing skills. You select the strategy you want to practice and **WIN 21** coaches you at every step from betting to insuring, splitting pairs, doubling down and drawing. And the strategies you will learn are sound. They come right out of Dr. Edward O. Thorp's book, **Beat the Dealer,** a copy of which is included with every program. With **WIN 21** you get: One of the most realistic blackjack simulations on the market; a wide variety of rules options; four different strategies to practice; five levels of programmed coaching; a series of lessons typing the program to **Beat the Dealer.**

Cassette for TRS-80 Level II 16K $29.00

BLACKJACK MASTER (from Hayden)
Unlike other blackjack programs that emphasize graphics and fun, the **BLACKJACK MASTER** is a serious game. This program performs complex simulations and evaluations of any playing and betting strategies that are entered into the computer. And, it will tutor the player in the playing of these strategies and perform an evaluation of the results. With the capabilities of **BLACKJACK MASTER** at hand, a winning blackjack system can be developed and tested without risking a penny at the tables. Hayden is offering $250.00 in cash for a winning strategy developed with **BLACKJACK MASTER.** Strategy must give the player a better than 2% advantage over the house. Complete details of **THE BLACKJACK CHALLENGE** are available with the program.

TRS-80 Level II $24.95
Disk Version $29.95

For APPLE II with Disk . . . . .

THE COUNT is a systematic approach to blackjack play which minimizes house edge and maximizes the player's opportunity to win. Teaches basic playing strategy and a very simple card counting strategy which can at times give the player a tremendous advantage over the dealer.
THE COUNT also advises proper betting procedures and can be instructed to disallow improper card play. Can modify certain game conditions, including double downs, pair splits, and insurance rules — even allows play with one to six decks of cards.

Datalife

By Verbatim®

Now with a full 5-Year Warranty!

Few things are as important as the data you're storing on disks. In many cases, the information itself is priceless. And in all cases you'd pay a stiff price to recreate the data you can't retrieve.

That's why it's so important to keep all your data on disks that insure a longer lifetime of trouble-free data recording, storage and retrieval:

Verbatim Datalife flexible disks, with the 5-year warranty! A warranty *five times longer* than industry standard, because Verbatim Datalife disks perform far better than the industry standard.

Datalife Diskettes by Verbatim — the best insurance policy you can get for your data!

All diskettes are Certified, Single-sided Double-density with Hub Rings.

5¼-inch diskettes (box of 10) **$34.95**
(for TRS-80 Models I and III, Apple, IBM PC, Atari, Pet, Osborne, Xerox and others)

8-inch diskettes (box of 10) **$49.95**
(for TRS-80 Model II or other 8-inch drives)

5¼" or 8-inch Head Cleaning Kit **$12.50**

10 Refill Head Cleaning Disks **$19.95**

GOT BUGS IN YOUR TRS-80 or APPLE?

Get Disco-Tech's Disk Drive Timer
For TRS-80 Models I, II and III or Apple

You've cleaned your disk drive heads, but you're still getting frequent disk errors. So now you have to spend time and money getting your drives repaired, right? WRONG! With Disco-Tech's Disk Drive Timer program, you can eliminate many problems caused by maladjusted *disk drives*, without any special training or tools. All you need is the DDT program, two screwdrivers, and about 5 minutes to do the job. DDT is a real-time speedometer (accurate to one-tenth of a revolution out of 300 RPM) that lets you analyze and fine-tune disk drive motor-speed on a routine basis. So, before you call a repairman, get DDT.
