The VERSABUSINESS™ Series

Each VERSABUSINESS module can be purchased and used independently, or can be linked in any combination to form a complete, coordinated business system.

VERSARECEIVABLES™ $99.95

VERSARECEIVABLES™ is a complete menu-driven accounts receivable, invoicing, and monthly statement-generating system. It keeps track of all information related to who owes you or your company money, and can provide automatic billing for past due accounts. VERSARECEIVABLES™ prints all necessary statements, invoices, and summary reports and can be linked with VERSALEDGER II™ and VERSAINVENTORY™.

VERSAPAYABLES™ $99.95

VERSAPAYABLES™ is designed to keep track of current and aged payables, keeping you in touch with all information regarding how much money your company owes, and to whom. VERSAPAYABLES™ maintains a complete record on each vendor, prints checks, check registers, vouchers, transaction reports, aged payables reports, vendor reports, and more. With VERSAPAYABLES™, you can even let your computer automatically select which vouchers are to be paid.

VERSAPAYROLL™ $99.95

VERSAPAYROLL™ is a powerful and sophisticated, but easy to use payroll system that keeps track of all government-required payroll information. Complete employee records are maintained, and all necessary payroll calculations are performed automatically, with totals displayed on screen for operator approval. A payroll can be run totally, automatically, or the operator can intervene to prevent a check from being printed, or to alter information on it. If desired, totals may be posted to the VERSALEDGER II™ system.

VERSAINVENTORY™ $99.95

VERSAINVENTORY™ is a complete inventory control system that gives you instant access to data on any item. VERSAINVENTORY™ keeps track of all information related to what items are in stock, out of stock, on backorder, etc., stores sales and pricing data, alerts you when an item falls below a preset reorder point, and allows you to enter and print invoices directly or to link with the VERSARECEIVABLES™ system. VERSAINVENTORY™ prints all needed inventory listings, reports of items below reorder point, inventory value reports, period and year-to-date sales reports, price lists, inventory checklists, etc.

VERSALEDGER II™ $149.95

VERSALEDGER II™ is a complete accounting system that grows as your business grows. VERSALEDGER II™ can be used as a simple personal checkbook register, expanded to a small business bookkeeping system or developed into a large corporate general ledger system **without any additional software.**

- VERSALEDGER II™ gives you almost unlimited storage capacity (300 to 10,000 entries per month, depending on the system),
- stores all check and general ledger information forever,
- prints tractor-feed checks,
- handles multiple checkbooks and general ledgers,
- prints 17 customized accounting reports including check registers, balance sheets, income statements, transaction reports, account listings, etc.

VERSALEDGER II™ comes with a professionally-written 160 page manual designed for first-time users. The VERSALEDGER II™ manual will help you become quickly familiar with VERSALEDGER II™, using complete sample data files supplied on diskette and more than 50 pages of sample printouts.

SATISFACTION GUARANTEED!

Every **VERSABUSINESS™** module is guaranteed to outperform all other competitive systems, and at a fraction of their cost. If you are not satisfied with any **VERSABUSINESS™** module, you may return it within 30 days for a refund. Manuals for any **VERSABUSINESS™** module may be purchased for $25 each, credited toward a later purchase of that module.

VERSALEDGER II™

The Most Versatile Accounting System Available for Your Microcomputer

The Ultimate Check Register System • A Personal Financial Manager • A Professional Business Accounting System • A Complete, Coordinated General Ledger

Only **VERSALEDGER II™** gives you the versatility you need to set up your system the way you want it. With **VERSALEDGER II™** you can:

- Maintain a check register alone, totally independent from the system's general ledger features.
- Run a general ledger alone, without setting up a check register.
- Run one or more checking accounts *and* a general ledger as a complete, integrated accounting system.
- Get an instant cash balance at any time.
- Distribute a single check to more than one account (*unlimited* multiple disbursements).
- Print checks, check registers, lists of outstanding checks, journal transaction registers, detailed and summary account listings, detailed and summary trial balances, check register posting reports, balance sheets and income statements.
- Design and store *your own formats* for balance sheets and income statements!
- Coordinate your system with any of the other four independent modules of the **VERSABUSINESS™ Series** to handle Accounts Receivable, Accounts Payable, Payroll, and Inventory.

VERSALEDGER II™ can take full advantage of your system's capacity. It can store up to:

- 615 accounts and 300 transactions per month on single density 5.25-inch drives (TRS-80 Model I)
- 615 accounts and 2400 transactions per month on the TRS-80 Model III or IBM PC
- 1000 accounts and 6000 transactions per month on the TRS-80 Model II
- 615 accounts and 500 transactions per month on the APPLE II
- 1000 accounts and 3000 transactions per month on single density 8-inch CP/M
- Virtually unlimited capacity on hard disk systems

(The above figures are estimates—storage capacity depends on the configuration of your systems.)

VERSALEDGER II™ is easy to learn and easy to use. The comprehensive 156-page user's manual provides first-time users with a complete overview of the system, and clear, well-organized descriptions of every function of the system. After gaining some experience, you will still find the manual to be very useful as an excellent quick-reference guide to the system. The manual acts as a step-by-step instructional text that makes use of *complete sample data files supplied on diskette* and refers to 51 *pages of sample reports.* Even if you've never used a computer before, you'll be running **VERSALEDGER II™** like a pro in just one afternoon!

VERSARECEIVABLES™

VERSARECEIVABLES™ is the complete accounts receivable system that will handle your invoicing and billing operations and provide you with a clear picture of the flow of money owed to your company. **VERSARECEIVABLES™** will store a complete history for each of your customers and show you *who* owes your company money, *how much,* and which customers are delinquent in their payments.

VERSARECEIVABLES™ will:

- Keep a complete history on each account, both current and aged
- Print invoices and statements on preprinted forms (available from New England Business Service).
- Allow you to enter invoices manually, or take product and pricing data from **VERSAINVENTORY™** files
- Generate periodic statements at any time
- Bill your customers automatically (if desired).
- Allow partial payments on open invoices.
- Print all needed accounts receivable reports, including complete transaction reports, customer data sheets, and detailed aging reports
- Print customer mailing labels.
- Integrate with **VERSALEDGER II™**

VERSARECEIVABLES™ maximizes the storage capacity of your system. It will store

- 400 customers and transactions per month on single density 5 25-inch drives (TRS-80 Model I)
- 2400 per month on the TRS-80 Model III or IBM PC
- 6000 per month on the TRS-80 Model II
- 600 per month on the Apple II
- 3000 per month on single density 8-inch CP M
- Virtually unlimited storage on hard disk systems

(The above figures are estimates—storage capacity depends on the customer-transaction mix and the amount of disk space available.)

The **VERSARECEIVABLES™** user's manual (which includes complete sample report printouts) will help you get the system up and running quickly, even if you're a beginner. **VERSARECEIVABLES™** is ideal for doctors, lawyers and other professionals, small business or large corporations. If your receivables system is giving you headaches, **VERSARECEIVABLES™** is the cure!

VERSAINVENTORY™

VERSAINVENTORY™ is a complete, comprehensive inventory control system that keeps track of descriptions, pricing, and vendor information for every item in stock, what is being sold (and removed from stock), what stock has been depleted to a user-defined reorder point, and what items are actually out of stock. **VERSAINVENTORY™** also provides you with essential sales reports that tell you how well any particular product has been selling.

VERSAINVENTORY™ will

- Allow you to instantly add to or deduct from inventory levels.
- Notify you when an item's stock level falls to reorder point (which you have previously defined)
- Store comprehensive data for every item in stock, including item I.D. number, description, vendor I.D., vendor's item number, stock location, department, unit of sale, weight of unit, number of items in stock, number on backorder, reorder level and quantity, items sold period-to-date and year-to-date, latest cost, average cost, last P O number and date, expected delivery date, standard and alternate selling prices, and sales period-to-date and year-to-date.
- Print all needed inventory and sales reports, including master inventory listings, items below reorder point, inventory value report, period and year-to-date sales reports, price lists, and physical inventory checklists.
- Allow you to enter and print invoices, automatically depleting stock levels.
- Integrate with **VERSARECEIVABLES™** (when using the **VERSARECEIVABLES™** invoicing system, **VERSAINVENTORY™** files are automatically updated).

VERSAINVENTORY™ makes the most of your available disk capacity, to figure out the storage limitations of your system, multiply the number of kilobytes of disk storage available by 8; for example, a TRS-80 Model II disk will hold 500K, and will thus allow 4000 inventory items on record. (This method provides an estimate only; actual capacity depends on the configuration of your system).

The **VERSAINVENTORY™** manual provides first time users with everything they needed to know to run the system. Whether you're running a retail store of a large warehouse, **VERSAINVENTORY™** is perfect for controlling any inventory operation.

VERSAPAYABLES™

VERSAPAYABLES™ is the complete accounts payable system that will help you stay in touch with exactly how much your company owes, to whom, and when payments become due. **VERSAPAYABLES™** stores a complete file of vendors and transactions, helps you select vouchers for payment, and can even print checks.

VERSAPAYABLES™ will:

- Keep complete information on each vendor
- Keep track of current and aged payables.
- Let you quickly select vouchers for payment, or *automatically* suggest which vouchers should be paid.
- Allow partial payments of vouchers.
- Print checks and a check register.
- Print all needed summary reports, including vendor data and transaction reports, aged payable reports, open voucher reports, and automatic voucher selection reports.
- Print vendor mailing labels.
- Integrate with **VERSALEDGER II™**.

VERSAPAYABLES™ maximizes the storage capacity of your system. It will store

- 400 vendors and transactions per month on single density 5 25-inch drives (TRS-80 Model I)
- 2400 per month on the TRS-80 Model III or IBM PC
- 6000 per month on the TRS-80 Model II
- 3000 per month on single density 8-inch CP/M
- 600 per month on the APPLE II
- Virtually unlimited storage on hard disk systems

(The above figures are estimates—storage capacity depends on the vendor-transaction mix and the amount of disk space available.)

With its complete set of sample report printouts, the **VERSAPAYABLES™** manual provides clear and simple instructions to get your system set up and running. **VERSAPAYABLES™** is the accounts payable system designed for any business, large or small.

VERSAPAYROLL™

VERSAPAYROLL™ simplifies your payroll operation by storing all of your employee records, automatically making all payroll calculations, and printing out paychecks and all government-required payroll reports. The user is in control at all times, with the power to verify, and if necessary intervene and alter data on any employee's check before printing it, or to *prevent* a single check from being printed (which allows you to write out on employee's check by hand in advance). With **VERSAPAYROLL™** you can say goodbye to those tedius, time-consuming withholding calculations, and process your payroll in minutes instead of hours.

VERSAPAYROLL™ will:

- Print paychecks one at a time, or print an entire payroll at once
- All you to intervene and alter any figure on any paycheck.
- Give you an instant summary of any employee's year-to-date totals, or totals for all employees.
- Calculate all Federal, State and Local taxes
- Allow for all standard deductions, plus three miscellaneous deductions
- Take amounts from different departments to form one paycheck
- Print all government-required reports.
- Permanently store all payroll transactions.
- Integrate with **VERSALEDGER II™**.

VERSAPAYROLL™ maximizes your system's storage capacity. It will store data for.

- up to 300 employees on single density 5.25-inch drives (TRS-80 Model I)
- 600 employees on a TRS-80 Model III or IBM PC
- 1200 employees on a TRS-80 Model II
- 500 employees on an APPLE II
- 600 employees on any single density 8-inch CP/M system
- Virtually unlimited capacity on hard disk systems

(The above figures are estimates—storage capacity depends on the configuration of your system.)

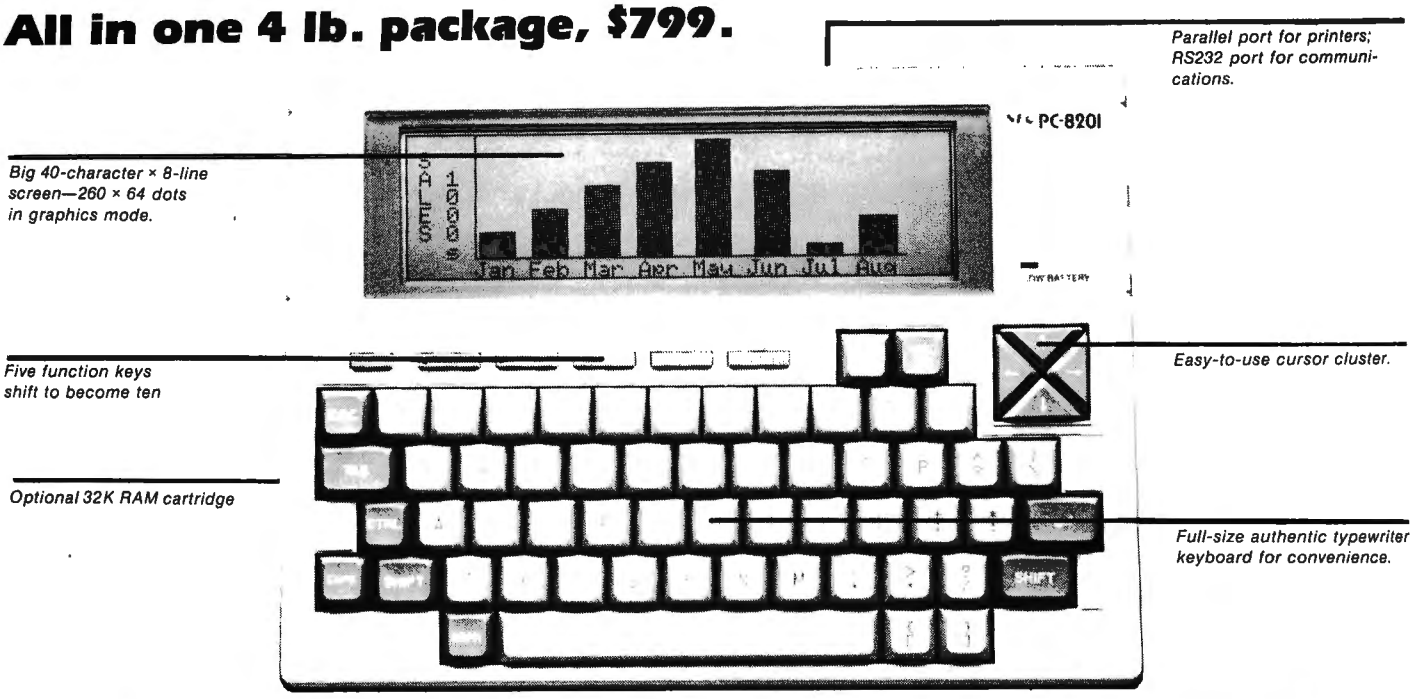
VERSAPAYROLL™ comprehensive user's manual is designed to guide even the most inexperienced user and includes complete sample printouts. Whether you have hundreds of employees, or just a dozen, automate your system with **VERSAPAYROLL™**.

Every **VERSABUSINESS™** module is guaranteed to outperform all other competitive systems and at a fraction of their cost. If you are not satisfied with any **VERSABUSINESS™** module, you may return it within 30 days for a refund. Manuals for any **VERSABUSINESS™** module may be purchased for $25 each, credited toward a later purchase of that module.

On your next trip, take along a typewriter, calculator, bookkeeper, secretary, financial planner, file cabinet, and confidant.

Productivity at your fingertips

All in one 4 lb. package, $799.



The *NEC* PC-8200 Portable Computer

At last, a full-powered microcomputer that really does go anywhere you do. The PC-8200 weighs only 3.8 pounds and is no bigger than a three-ring binder. Yet it gives you the same power and features as other so-called "portables" that can weigh up to 18 pounds. On the top of that, the PC-8200 can run on batteries as well as AC power. That means you can use it wherever you go — on a plane, at the beach, in the car — without having to plug it in. A special "protect" feature saves all data for up to 26 days, even if the batteries fail or the computer is accidentally turned off.

Eight reasons why you'll choose NEC over the other leading portables.

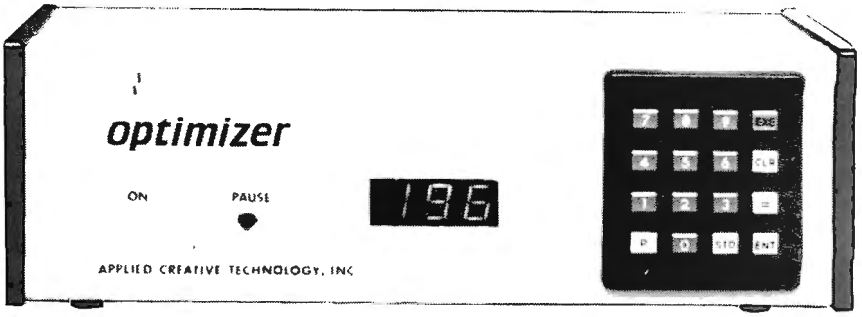
The Most Important Addition To Your Computer System



The Printer Optimizer

From Applied Creative Technologies, Inc.

DON'T WAIT FOR YOUR PRINTER!

How long does it take your computer to print a 15-page letter? 10 minutes? 30 minutes? More than an hour? The **PRINTER OPTIMIZER** does it in 20 seconds! Heres how it works: your computer sends the text to the **PRINTER OPTIMIZER**, where it is stored in memory. Your computer is immediately free to continue with other programs – while the **PRINTER OPTIMIZER** keeps printing your letter at a rate the printer can handle.

And there's more! The **PRINTER OPTIMIZER** is not just an ordinary printer buffer. It can do a lot of things no other printer buffer can do:

- The **PRINTER OPTIMIZER** comes equipped with 64K of memory, and up to 256K may be added with optional OPTIMEM cards.
- The memory can be divided into 4 separate "storage areas." The buffer can be used to store text for printing *all day long*, with letters going into one storage area, invoices in the second, statements in the third, and shipping labels in the fourth. At the end of the day, you can put stationery in the printer and print out all of your form letters, invoices, statements, and labels. See why it's called **THE PRINTER OPTIMIZER?**
- Connect any printer to any computer, serial or parallel, any protocol. You can even reconfigure your RS232 cable connections without cutting a single wire!
- You can connect one computer to three printers *at the same time* -- which would allow you to print letters, invoices and labels all from the same program, *without ever changing forms!* (And your letters can be printed on a letter-quality printer, while other reports are being printed on a high-speed dot-matrix printer.)
- It can also connect *two computers* simultaneously to one or two printers, allowing both workstations to send text into the same four buffer storage areas.
- Use *any word processing program* to access *any printer's special print features*, including boldface, italics, underlining, super- and subscripts, paging, reverse feed, graphics, proportional printing, pitch and size changes...anything your printer can do!
- You can program it to automatically convert any type of code character (or group of characters) into any other character (or group of characters). This means that it functions as a very sophisticated translator (or filter) for transmitted text -- so you can even program it to interface your computer to a typesetter, plotter, or other advanced output device.

Not convinced? We'll send you a 16-page book about The **PRINTER OPTIMIZER** for $5, refundable or credited toward purchase.

SPECIFICATIONS & OPTIONS:

PRINTER OPTIMIZER - basic unit connects parallel computer to parallel printer, with 64K buffer (roughly equivalent to 15 single spaced pages (80 col by 56 lines). Extra memory, extra outputs and serial connections are options.

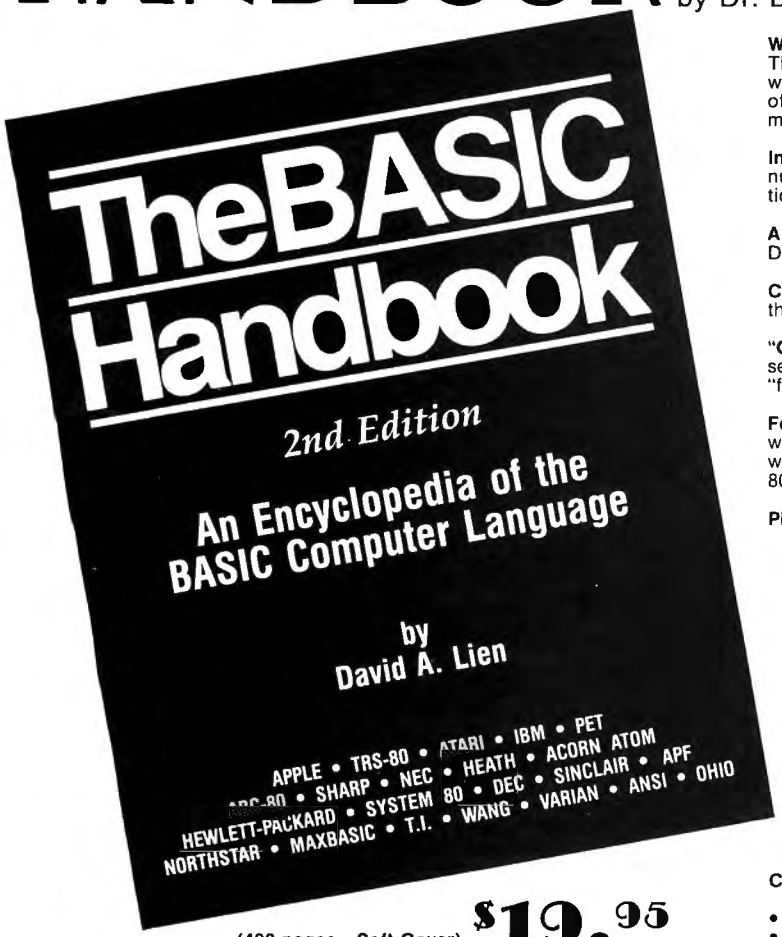
CompuSoft™ Publishing Proudly Announces . . .

The New 2nd Edition Of

THE BASIC HANDBOOK

Not A Dictionary, Not A Text, It Is A Virtual ENCYCLOPEDIA Of The BASIC Language, Explaining All You Need To Know About Over 500 BASIC Statements, Functions, Operators and Commands.

An Encyclopedia of the BASIC computer language.
by Dr. David A. Lien



(480 pages - Soft Cover) **$19.95**

The BASIC Handbook has never been this complete. The Expanded Second Edition gives you over twice as much information as the First Edition, explaining nearly 500 BASIC words. The Handbook features special sections on Disk BASIC, TRS-80 Extended Color BASIC, Atari BASIC, Acorn Atom BASIC, Tektronix BASIC and "Converting Programs From One Computer For Another."

The computer industry has experienced tremendous change in the last three years. Hundreds of new computers have been introduced since The BASIC Handbook was released in 1978. The Second Edition meets the challenge head-on, documenting every significant BASIC word used by every BASIC-speaking computer.

This new Edition makes program conversion easy. Its widely acclaimed feature, "If Your Computer Doesn't Have It" has been expanded. Each BASIC word is alphabetically listed, with **Test Programs** and **Sample Runs, Variations in Usage** combine with **Alternate Spellings** to totally cross-reference each BASIC word.

Who needs the BASIC Handbook?
Every user of the BASIC language needs the Handbook! Hobbyists converting between BASIC "dialects" need it. Students learning and using BASIC on any size computer need the Handbook as a supplement to their BASIC language text. Programmers at every level will use it constantly to find better ways to achieve the needed results.

What versions of BASIC does it cover?
There are nearly a **hundred** versions of BASIC in use today. No wonder we keep seeing strange new BASIC words. Dr. Lien has selected over 50 of the most used dialects and explained every commonly used statement, function, operator and command.

Interlocking subroutines: Every subroutine has been constructed so the numbers won't overlap with others in the book. Assemble any combination of the subroutines needed to do the job — with no line conflicts!

Alternate programming techniques: The popular "If Your Computer Doesn't Have It" feature has been expanded throughout the book.

Complete Index: The increased complexity of the language mandated that an index be added.

"Converting Programs From One Computer For Another" This special section provides valuable tips on how to translate a program with a "foreign" BASIC to run on your machine.

Foreign computers: Virtually every BASIC-speaking computer in the world is covered. You need the new Handbook to translate BASIC words used by Britain's Sinclair, Sweden's ABC-80, Australia's System 80, Japan's NEC and many others.

Plus these Special Sections

- ★ **Disk BASIC:** A helpful supplement to your Owner's Manual and a good introduction to the theory of Disk BASIC.
- ★ **TRS-80 Extended Color BASIC:** A comprehensive explanation of Radio Shack's newest BASIC.
- ★ **Atari BASIC:** You see programs written in this popular BASIC in nearly all the magazines. A special section explains its unique words and features.
- ★ **Acorn Atom BASIC:** The Atom is one of Europe's favorites, but its BASIC is very different. It's fully documented in this Second Edition.
- ★ **Tektronix BASIC:** A graphics-oriented BASIC used extensively by engineers and scientists.

Covers These Computers:

• TRS-80 (all models) • APPLE • IBM • Atari • Wang • Commodore PET • Sorcerer • Northstar • Acorn Atom • UNIVAC • System 80 • Hewlett Packard • Heathkit • Ohio Scientific • Texas Instruments • Sinclair • DEC • Sharp • Vector • NEC • Plus hundreds more!

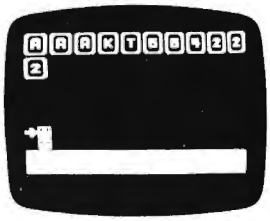
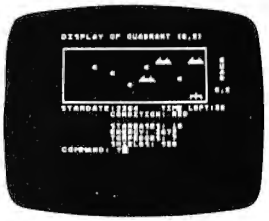
DYNACOMP
SOFTWARE

AVAILABLE FOR IBM PC, TRS-80, APPLE, KAYPRO, ATARI, COMMODORE/PET, OSBORNE, XEROX, NORTHSTAR, NEC, HEATH/ZENITH, MORROW, SUPERBRAIN, ALTOS, CROMEMCO, CANON and any CP/M Computer with 8" disk drives and MBASIC.





BRIDGE MASTER
BRIDGE MASTER is our most popular DYNACOMP program--a comprehensive bridge program designed to provide hours of challenging competition. The program plays the North hand as your partner and East-West as your opponents. Bidding features include the Blackwood convention, Stayman convention, pre-emptive openings, and recognition of demand bids and jump-shift responses. The program saves the scores to a disk file and can display the last hand played--so you can come back to a game at any time. Requirs 24K memory (48K on Atari). **Price: $29.95** (diskette), **$32.45** (8" CP/M disk).

BLACKJACK COACH
Learn and practice your blackjack skills with the "Coach" giving advice. Test various playing and betting strategies. Program will analyze just which parts of your strategy work and which do not. Includes 30-page tutorial manual. **Price: $29.95** (cassette), **$33.95** (diskette), **$36.45** (8" CP/M disk). (Not available for ATARI or NEC)

FLIGHT SIMULATOR
This realistic mathematical simulation allows you to take off, fly, navigate, and land an airplane. The FLIGHT SIMULATOR realistically portrays the problems associates with stalls, landing with the nose wheel first, crosswinds, etc. You can practice touch-and-go landings, take a cross-country trip, or just practice exercising the flight controls: flaps, trim, elevators, ailerons and throttle. All versions run in 16K memory. **Price: $19.95** (cassette), **$23.95** (diskette), **$26.45** (8" CP/M disk).

STARBASE 3.2
This is a new and exciting program related to the classic "Star Trek" type computer simulations of interstellar warfare, with many significant enhancements. Your tactics and strategy are put to the ultimate test as you direct your forces in a conflict on a battlefield that stretches across light-years of space. **Price: $13.95** (cassette), **$17.95** (diskette), **$20.45** (8" CP/M disk).

SPACE LANES
SPACE LANES is an exciting simulation of the economics of the space transportation industry. The object is to establish and expand space transportation companies in a competitive environment. The success of a particular company is measured by the extent of its space lanes, and reflected in the value of its stock. The computer is one of the players, and up to three additional players are allowed. The galaxy is displayed on a 9 by 18 grid, showing star bases, space lanes, and remote space stations. Up to five companies may be in operation at one time. **Price: $10.95** (cassette), **$14.95** (5¼" diskette), **$17.45** (8" diskette).

BACKGAMMON 2.0
This program tests your backgammon skills and will also improve your game. You can choose to compete against the computer or against another person, and the computer can even play itself! Either the computer or human can double or generate dice rolls. Board positions can be created or saved for replay. BACKGAMMON 2.0 is played in accordance with the official rules of backgammon, and is sure to provide many fascinating sessions of backgammon play. Requires 16K (Atari requires 24K). **Price: $19.95** (cassette), **$23.95** (5¼" diskette), **$26.45** (8" diskette).

VALDEZ
VALDEZ is a simulation of supertanker navigation in the Prince William Sound area of alaska. It contains a detailed analysis of ship response characteristics, as well as a model of tidal patterns in the Sound. Navigation is aided by a variable range radar display which shows the land masses and other traffic (ships and icebergs). A unique feature of this simulation is the 256-by-256 element map employed, which greatly enhances the realism of the program. Requires 16K (Atari requires 24K). **Price: $19.95** (cassette), **$23.95** (5¼" diskette), **$26.45** (8" diskette).

MONARCH
MONARCH is a brain teaser! You have just been elected the Ultimate Ruler of your own country. It is your job to decide the country's budget. Your country's income comes from farm produce and tourism. Half your land is farmland, which also has excellent mineral content. It is up to you to decide how to manage the country's economy and to redistribute the wealth to your countrymen. Can you keep your countrymen happy enough to last in office for eight years? **Price: $14.95** (cassette), **$18.95** (5¼" diskette).

GAMES PAC I and GAMES PAC II
Each of these packages contains an exciting cross-section of traditional computer games. GAMES PAC I includes CATAPULT and LUNAR LANDER; an excellent mathematical brain teaser, SWITCH; and entertaining gambling games: BLACKJACK, HORSE RACE, CRAPS, and SLOT MACHINE. GAMES PAC II includes the word game JOTTO; card games ACEYDEUCY and CRAZY EIGHTS; the game of LIFE; and WUMPUS, NUMBER GUESS, and CALENDAR. Each GAMES PAC requires 16K (Atari requires 24K). **Price: $19.95 EACH** (cassette), **$23.95 EACH** (5¼" diskette), **$26.45 EACH** (8" diskette).

HANDICAPPER
HANDICAPPER is a handicapping scheme designed for thoroughbred races of lengths 6, 6½ or 7 furlongs. It was designed by a mathematician and has been tested by professional bettors and handicappers. In general, the HANDICAPPER can be expected to produce the winning horse about 40% of the time (according to DynaComp, Inc.). However, in certain instances it can be far more accurate. Requires 16K. **Price: $29.95** (cassette), **$33.95** (5¼" diskette), **$36.45** (8" diskette).

PERSONAL FINANCE SYSTEM
The Personal Finance System (PFS) offers the user of the most complete financial management packages available, allowing the individual or small businessman complete flexibility in maintaining all aspects of financial record-keeping. Depending on configuration, you will be able to store from 300 to 2000 transactions on each disk.

Records are easily entered into the master file and can be accessed by payee or by a user-defined code (you may assign up to 26 different categories). PFS will keep track of all tax deductible items, bank deposits, monthly charges, cash payments, etc. It will even automatically deduct any check fees it desired. You will be able to get financial summaries for any category on a per item, monthly, or yearly basis. PFS will print the results in detail or summary form, access the printer if you have one, and even plot the results on a monthly bar graph.

PFS is available on diskette only. The Atari version includes DOS 2.0 on the diskette and utilizes that computer's sound, color, and graphics capabilities. The Atari version requires only 24K of memory, all others require 32K and disk drive. **Price: $39.95** (diskette), **$42.45** (8" CP/M disk).

THE FAMILY BUDGET
Welcome to the age of electronic record-keeping. The Family Budget Program is designed as a two-part electronic home data record-keeping program. Part One, Budget, is used to record expenditures, both cash and credit, and income on a daily basis for the period of one calendar year. Three categories are used to record tax deductible items, namely Interest and Taxes, Medical Expenses, and Charitable Donations. Part Two, Charge Accounts, provides a continuous record of all credit transactions. Each program provides options for hardcopy printout of various data (in the Apple version it is assumed that a printer is connected to port #1).

You may easily enter, edit, save and recall data, print out selected categories according to transaction period, and much more. Family Budget comes with an excellent 17-page instruction manual. Be prepared for the IRS audit! Requires 16K program memory (Atari version requires 24K). **Price: $34.95** (diskette), **$37.45** (8" CP/M disk). (Available only for TRS-80, APPLE, ATARI disk and 8" CP/M)

DYNACOMP
SOFTWARE

AVAILABLE FOR IBM PC, TRS-80, APPLE, KAYPRO, ATARI, COMMODORE/PET, OSBORNE, XEROX, NORTHSTAR, NEC, HEATH/ZENITH, MORROW, SUPERBRAIN, ALTOS, CROMEMCO, CANON and any CP/M Computer with 8" disk drives and MBASIC

MICROCOMPUTER STOCK PROGRAM (MSP)

The MICROCOMPUTER STOCK PROGRAM (MSP) will help you analyze stock prices by providing you with timing signals for purchases and sales. It will provide: buy/sell signals for the last 8 weeks: a volume/price/moving average chart for any 80- or 132-column printer; complete data maintenance facilities, including on-screen viewing and easy editing for adding, changing or deleting data; simple adjustment for stock splits and dividends; price/volume data listed to printer; completely menu-driven operations for ease of use. Cassette version requires 16K, diskette version requires 32K and one disk drive. **Price: $55.95** (cassette), **$59.95** (5¼" diskette), **$62.45** (diskette).

MICROCOMPUTER BOND PROGRAM (MBP)

MICROCOMPUTER BOND PROGRAM (MBP) is designed to help you evaluate bonds. It provides complete bond data entry, editing, listing and storage capabilities; a flexible analysis environment, including market interest levels and tax rates; bond yields before maturity, showing estimated price, total dividends, and gross yield, bond prices estimated over time, at various market interest rates evaluated to either maturity or early call; bond valuations, showing current yield, and before and after tax yield to maturity. Cassette version reequires 16K, diskette version requires 32K and one disk drive. **Price: $55.95** (cassette), **$59.95** (5¼" diskette), **$62.45** (8" diskette).

TAX OPTIMIZER

TAX OPTIMIZER will evaluate various tax alternatives and to select the most advantageous method for the preparation of an individual Federal Income Tax return. Using this program you can easily determine the advantages of your projected financial decisions and actions. Requires 16K (24K on Atari) and one disk drive **Price: $59.95** (5¼" diskette), **$62.45** (8" diskette).

MULTILINEAR REGRESSION (MLR)

This is the third program in the DynaComp Statistics Series. Whereas Regression I and II are designed for analyzing bivariate data, MLR is capable of treating multivariate situations with no limit (other than available computer memory) on the number of dimensions. Requires 16K (24K on Atari). **Price: $24.95** (cassette), **$28.95** (5¼" diskette), **$31.45** (8" diskette).

Minimum System Configurations (unless stated otherwise)

IBM PC with PCDOS or MSDOS and PCBASIC
Kaypro with CP/M and MBASIC)
TRS-80 I/III/4 with 16K Level II BASIC*
Apple II, IIe with 16K, Applesoft BASIC, DOS 3.2 or 3.3 (state which)
Atari 400/800 with Atari BASIC cartridge, 16K/24K **
Osborne with CP/M and MBASIC
8" CP/M with IBM standard 3740 single density format compatibility and MBASIC
Commodore/PET with 16K, Commodore BASIC ***
Xerox 820/820 II with CP/M and MBASIC (8" disk version only)
NorthStar with 16K free memory and NorthStar DOS and BASIC, OR · CP/M and MBASIC.
NEC PC 8000 with NBASIC or MBASIC (state which)
Morrow Designs I, II or III with CP/M and MBASIC
ALTOS with CP/M and MBASIC (8" disk version only)
Heath/Zenith Z-89 with CP/M and MBASIC (8" disk version only)
Heath/Zenith Z-100 with ZDOS and ZBASIC
SuperBrain/Compustar with CP/M and MBASIC
Cromemco with CDOS and BASIC (8" disk version only)
Canon AS-100 with MSDOS and MBASIC

* TRS-80 diskettes do not come with TRSDOS or BASIC on them.
** Atari programs require 24K.
*** Commodore/PET diskettes come in 4040 (2040) and C-64 format. They cannot be loaded on 8050 disk drives.

STATTEST

This program performs statistical tests of hypothesis and includes t-tests, chi-square tests, and F-tests as well as simple regression. Data can be entered under program control or directly from tape or disk. Any external file which already contains data in the simple format required may also be used. Tape version runs on 16K TRS-80 Model I or III/4. **Price: $29.95** (cassette), **$33.95** (5¼" diskette), **$36.45** (8" diskette).

REGRESSION II (PARAFIT)

PARAFIT is a parametric least squares regression program designed specifically for the determination of the non-linear coefficients in complicated mathematical expressions. This is in contrast to the linear polynomial coefficients calculated by Regression I. Requires 16K (24K on Atari). **Price: $29.95** (cassette), **$33.95** (5¼" diskette), **$36.45** (8" diskette).

REGRESSION I

This is a complete and coordinated regression curve fitting package for the analysis of linear and non-linear, one-dimensional data. The user is given considerable freedom in experimenting with fitting functions and orders of approximation. Requires 16K (24K on Atari). **Price: $19.95** (cassette), **$23.95** (5¼" diskette), **$26.45** (8" diskette).

BASIC STATISTICAL SUBROUTINES (Vol. I.

This is a collection of statistics routines. The routines are written in BASIC and can be called from an easy-to-use menu. Full facilities for data storage, retrieval and editing are provided. Includes 29 statistical tests and a 100 page manual. Requires 32K, one disk drive. **Price: $99.95** (diskette).

BASIC SCIENTIFIC SUBROUTINES (Vol. I)

This packaga provides the user with an invaluable library functions in BASIC, including: alphanumeric data plotting, complex variables, vector and matrix operations, random number generators and series approximations. Requires 16K (24K on Atari). **Price: $44.95** (cassette), **$53.95** (5¼" diskette), **$59.95** (8" diskette).

BASIC SCIENTIFIC SUBROUTINES (Vol. II)

This second volume of scientific subroutines includes routines for: least squares approximation, series approximation techniques, functional approximations by iteration and recursion, CORDIC approximation techniques and alternatives, table interpolation, differentiation and integration, finding the real roots of functions, finding the complex roots of functions and optimization by steepest descent. **Price: $119.95** (cassette), **$149.95** (5¼" diskette), **$169.95** (8" diskette).

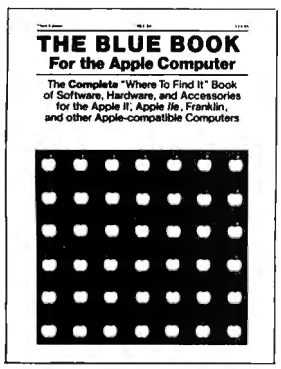
WHERE TO FIND EVERYTHING FOR YOUR COMPUTER

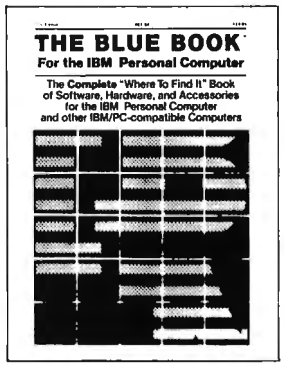
The BLUE BOOK™ APPLE® Computer



A complete 'Where-to-find-It' Book of software, hardware, and accessories for the Apple Computer. With the large number of programs available for the Apple, the Blue Book is the key to locating software in a wide variety of subject categories. It's loaded with more than 3500 listings of the latest products for the Apple II, IIE, and other Apple-compatible computers. New subject categories and a new 'Key-Word' index make this 3rd edition bigger and better than ever.

The BLUE BOOK™ for the APPLE® Computer $24.95

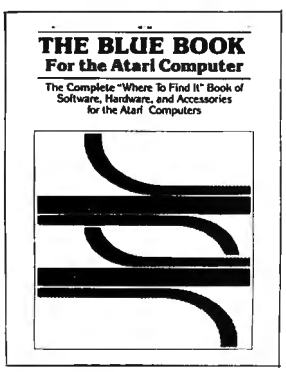
The BLUE BOOK™ IBM® Personal Computer



The complete 'Where-to-Find-It' Book of software, hardware, and accessories for the IBM Personal Computer. This brand new edition is the first and foremost source reference for the IBM personal computer and IBM-PC compatible micro-computers. The Blue Book lists hundreds of new programs for the IBM as well as many of the latest peripherals and accessories that can expand it's capabilities. As in every Blue Book, the new IBM directory has several cross reference indexes.

The BLUE BOOK™ for the IBM® Personal Computer $24.95

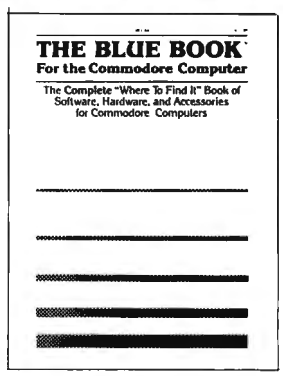
The BLUE BOOK™ ATARI® Computer



The complete 'Where-to-Find-It' Book of software for the Atari Computer. Here is the first and foremost reference for the Atari Computer user. The Atari Blue Book is a master directory of software and information for the Atari computers. It is helpful in locating and evaluating programs for your specific applications. Every software listing has its own unique reference number called the Blue Book Number that makes it easy to find listings and to contact software sources. Illustrated.

The BLUE BOOK™ for the ATARI® Computer $17.95

The BLUE BOOK™ COMMODORE® Computer



The complete 'Where-to-Find-It' Book of software, hardware, and accessories for the Commodore Computer. Both the Commodore VIC-20 and the Commodore 64 are fast becoming a favorite for both home and office use. And the Blue Book for the Commodore Computer makes finding programs and accessories for both, any easy task. Every software and hardware listing has a unique reference number that helps you locate programs in this "must have" directory. Illustrated.

STOCK MARKET ANALYSIS PACKAGE

THE MARKET PAC

THE MARKET PAC is a selected set of 37 separate programs designed to help both financial professionals and private investors in the analysis of positions and prospective positions in various securities. The programs range from the most-often-used investment calculations and formulas, to sophisticated programs like a complete portfolio bookkeeping system that keeps track of your investment records.

Just select the function you want from THE MARKET PAC's Main Menu, and the computer will guide you step-by-step through the operation. For a more in-depth look at each function, a complete user's manual is provided that gives complete full-page descriptions of each calculation and function in THE MARKET PAC.

THE MARKET PAC $99.95

Portfolio Valuation • Trend Analysis • Bond Calculations
Money Market Analysis • Portfolio Bookkeeping • Future Projections

THE MARKET PAC will prove to be an invaluable tool in the evaluation, selection and management of investment portfolios. It features coverage of stocks, bonds, convertible securities, options, warrants and annuities, realistic treatment of taxes and commissions, and portfolio selection methods. With THE MARKET PAC your microcomputer will be able to perform all of these calculations:

- Annuity Analysis
- Computation of Alpha and Beta Values for Security
- Option Valuation and Hedge Ratio using the Black-Scholes Method
- Bond Valuation — Yield to Maturity & Other Values
- Future Net Worth and Present Value of Projected Investment Schedule
- Compound Interest Computations
- Estimate of Future Earnings Per Share
- Date Computations (Number of Days Between Any Two Dates)
- Option Writing Computation
- Portfolio Listings with Various Profit/Loss Analysis
- Portfolio Selection by Sharpe's Method
- Rate of Return — Variable Inflow
- Valuation of a Share of Stock
- Value of a Warrant
- Investor's Rate of Return on a Convertible Bond
- Dilution Analysis
- Arbitrage Computations
- Future Price Estimation with Inflation
- Seasonal Quantity Indices
- Financial Ratios
- Merger Analysis
- Value of a Right
- Depreciation vs. Cash Flow
- Time Needed for Money to Double, Triple, etc.
- Time Series Analysis — Linear Trend
- Time Series Analysis — Moving Average Trend
- Brokerage Commissions
- Margin Account Computations
- Advanced Option Strategies
- Money Market Computations
- Forecasting Cash Flows
- Leverage Analysis

CASH REGISTER CONTROL

CASH REGISTER CONTROL is an amazingly versatile retail sales and inventory control system that has been carefully designed for the first-time computer user. You can quickly and easily learn to use CASH REGISTER CONTROL's many features, because you learn them one step at a time. You'll be running the system as a simple cash register in just minutes, "ringing up" sales and printing receipts. Then, once you've mastered this step, you can turn on the system's other optional features one at a time, to test and "play around" with each feature. For example:

-- activate the inventory feature, so that you can "ring up" an item by entering just a product code, calling up the price and product description automatically.
-- add the product descriptions to the customer receipts.
-- activate the automatic tax-computation feature.
-- store names and addresses for credit customers.
-- try out all of the other features you're interested in.

Finally, you set up your system with exactly the features *you* want to use, and you're in business! Even though CASH REGISTER CONTROL has so many features, you are always completely in control -- and you can teach new employees to use the system in less than five minutes.

FEATURES:

- Completely Menu-driven -- *very* easy to learn and use.
- Can be used either in conjunction with your present cash register, or to replace it completely.
- Allows a variety of different receipt styles -- receipt may be a simple list of prices with total, cash received and change, or may include the date of sale, full product descriptions, customer names and addresses, and an automatic duplicate copy.
- Displays the customer's receipt on screen before printing it on paper, and allows error correction at any time -- even *after* the transaction has been completed.
- Can keep track of up to four independent cash drawers.
- Operators can be required to enter a security code before each transaction.
- Can track the activities of up to 25 salespeople.
- Can operate as a simple cash register -- you enter prices manually, and the computer totals them, then displays and prints a receipt and computes change.
- Can define items as taxable or non-taxable and automatically compute tax.
- Keeps track of cash, check, credit card and open account sales.
- Can store names, addresses, credit limits and balances for open account customers, and print statements.
- Includes an integrated inventory control system that keeps track of stock levels of all items in and out of stock, and automatically notifies you of low stock levels. Prints inventory reports and pricing labels with product descriptions and codes.
- If you use the inventory features, you can "ring up" sale by entering only product codes, and the computer will retrieve all prices and product descriptions from the inventory file (and automatically deduct from inventory levels), then automatically subtract from inventory levels when the sale is complete.
- Prints sales reports that provide an organized picture of your daily sales activity. Reports include transaction audit trail, daily sales by item, and daily sales by salesperson.

MINIMUM SYSTEM REQUIREMENTS:
48K RAM, and 1 disk drive (2 drives if single-density)

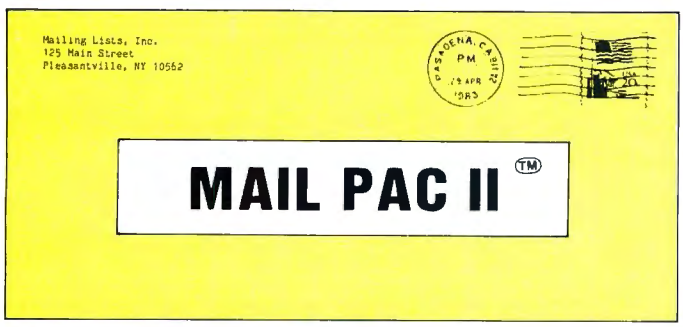
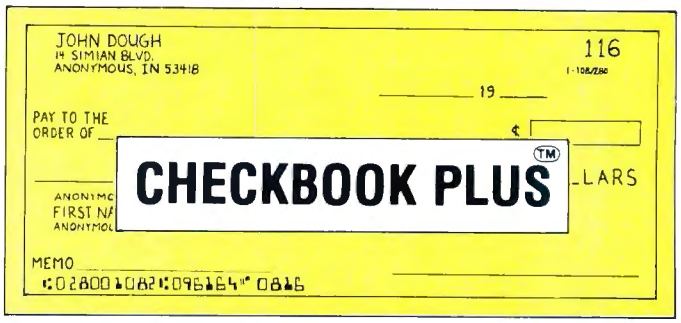
ANYONE CAN USE OUR SOFTWARE!

MAIL PAC II and CHECKBOOK PLUS represent a new generation of computer software. *Our* software doesn't even need a manual! Anyone can quickly learn to use either package by following simple, explicit on-screen instructions. But, for those of you who insist -- we've included a complete user's manual as well.





MAIL PAC II FEATURES:

High Capacity --

Stores from one to one million names in Zip Code, Numerical or Alphabetical order. The only limitation is your disk storage space.

Flexibility --

Prints your mailing list on 1, 2, 3, or 4-across labels (with up to 5 user-defined lines on each label) or as a compact, user-designed directory. The record length is completely user-defined, and each field within each of your records is completely variable (allowing storage of any number of characters for any particular address entry). Devote fields to telephone numbers, codes, or even special messages related to each particular name on file.

Powerful --

A built-in word processor allows you to create personalized form letters for each address on your list (or just a particular group of addresses).

Ease of Use --

Create new mailing lists, review existing lists, handle changes of address, delete cancelled names, sort lists, and purge duplicate names from your files. Complete on-screen instructions tell you in plain english exactly how to accomplish all of these tasks.

MAIL PAC II $99.95

CHECKBOOK PLUS FEATURES:

Complete Check Register --

Checkbook Plus stores your entire check register in a disk file, and then uses the data to balance your account, track your expenses, and help you make budget projections. Review the entire checkbook, enter checks, deposits, fees and adjustments, mark outstanding checks when paid, and get an instant cash balance at any time. All data can be viewed onscreen or printed out in report form.

Tax Preparation --

Storage of monthly and yearly totals and other important information aids in income tax preparation, for your personal use or for your accountant.

Handles the Details --

Store names and addresses for frequently written checks, then print checks to fit standard window envelopes, eliminating the need for extra typing. You can even store any comment, explanation or other message (up to 255 characters) related to a particular check.

Automatic Monthly Bill Payments --

Enter amounts and names of payees for all of your fixed-cost monthly payments, and then sit back while the system automatically prints checks.

CHECKBOOK PLUS $99.95

BOTH PROGRAMS REQUIRE 48K AND AT LEAST ONE DISK DRIVE (2 DRIVES FOR HIGHER STORAGE CAPACITIES), AND ALL HARD DISK SYSTEMS ARE SUPPORTED.

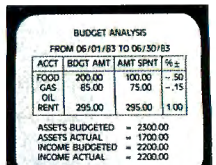
Complete Personal Accountant™

For TRS-80 COLOR COMPUTER, ATARI 400/800, COMMODORE 64/VIC-20

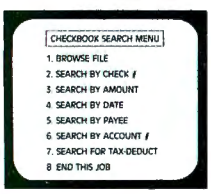


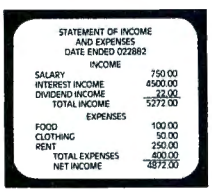
Let your microcomputer pay for itself

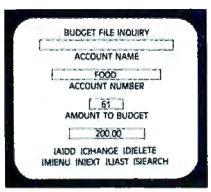
Our COLOR ACCOUNTANT software will automatically manage your money, providing you with the financial information you need.

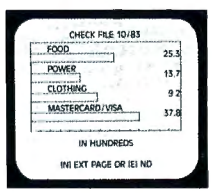
Standard features include complete checkbook maintenance and flexible chart of accounts, detailed and summary budget analysis, automatic net worth and income/expense calculations, check search, and graphical analysis.

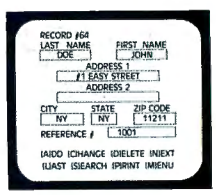
What's more, the COLOR ACCOUNTANT also includes a payments/appointment calendar, mailing list, and the ability to print personalized checks!











CHECKBOOK MAINTENANCE

This program manages your checks, charges, deposits, and interest quickly and accurately. Includes:

* Full-screen editing — allows access to all fields.[1] * Automatic transaction recall — removes any uncertainty from checkbook reconciliation. * Continuous balance — each entry automatically balances your checkbook. * Supports multiple entry and tax deductible items, credit cards, and automatic transactions.

CHART OF ACCOUNTS

This program provides the user with the utmost in flexibility. Assets, liabilities, equity, income, and expenses are all covered.

* Up to 99 accounts and 9 sub-categories/account may be defined.[2] *Program comes equipped with 66 standard categories. * Store/retrieve personalized chart of accounts. * Generate hard-copy report.

CHECK SEARCH

An end to shuffling shoeboxes . . .

This convenient record-retrieval system can locate any transaction through 6 fields. Combined with its automatic sort/search capability is the capacity to generate hard copy reports. Whether it's for the IRS, or the local department store, CHECK SEARCH will find that missing check.

NET WORTH/INCOME-EXPENSE

Know Where You Stand . . .

This program accounts for all transactions that do not flow through your checkbook.

* Interfaces Smoothly With Existing Checkbook Records

* Automatically updates each month's changes in assets, liabilities, and net worth. * Print individual lists of income and expenses. * Generate hard copy financial reports monthly, quarterly, annually.

DETAILED BUDGET ANALYSIS

This program enables you to build your budget records on an account by account basis. Features include:

* Full-screen editing with add/change/delete * Automatic check sort and dump * Account-by-account analysis of expenditures.

This menu-driven wonder is accompanied by a comprehensive user-manual complete with system flow-charts and indexing.

WORDSTAR IS USED BY MORE PEOPLE, MORE OFTEN, TO DO MORE THINGS THAN ANY OTHER WORD PROCESSING SOFTWARE

For TRS-80 Model I/III/4 (includes LDOS 5.1), Apple, IBM PC, Xerox, Sanyo, Televideo, NEC, DEC, NorthStar, Superbrain, Heath/Zenith, Hewlett-Packard, TI Professional, Dynabyte, Vector Graphic, CP/M-80 (8" SD), CP/M-86 (IBM PC, DEC Rainbow, or 8" formats), MSDOS (8" SD)

All MicroPro programs are designed to work with each other as well as they work for *you.* They're designed for the non-technical user. Training guides, on-screen menus, Help screens, and easy-to-understand User Manuals help you feel comfortable and in control right from the start. Although they're easy to learn and use, each STAR program has the most advanced features available -- for word processing, spreadsheet calculations, and advanced financial planning.

WordStar

Wordstar is used by more people, more often, to do more things than any other word processing software. And you'll find it'll do more for you.

Ask Arthur C. Clarke. He used WordStar to write his best selling novel, **2010: Odyssey Two.** Or ask Osborne-McGraw Hill, where the editors use it to produce all of their books. Or, for that matter, ask any of over 400,000 others who swear by WordStar's reliability when it comes to making fast work of the written page.

And no wonder. WordStar has more work-saving features to take the time and drudgery out of revising and retyping than any other word processing software. For instance, there are production typing features to let you move columns around and merge paragraphs from different documents at the touch of a key, and print features like boldfacing, underlining, centering, superscripts and subscripts, automatic pagination and justification, and a built-in print spooler that lets you print one document and edit a different document at the same time. Finished pages are displayed onscreen, complete with page breaks and justified text, just as they will appear on paper.

WordStar guides you through every step with complete menus displayed onscreen. As you become more proficient with WordStar, you may choose to eliminate some or all of the onscreen instructions. When your needs grow, WordStar is ready to grow right along with you, with options like SpellStar, StarIndex and MailMerge. You can even insert business data and financial projections and graphs from CalcStar, InfoStar and PlanStar into your WordStar documents, to create professional-looking reports in a fraction of the time it would take to do the job manually.

WordStar **$495**

WordStar Options:

SpellStar

This WordStar option is your "proofreader on a disk." It rapidly compares every word in your document against a list of the 20,000 most commonly used English words. When it reaches a misspelled word, SpellStar flags the mistake. You can change the word, leave it as it is, or add it to the dictionary if it is some special term that you don't want flagged again. If error-free documents are important for you, then SpellStar is a WordStar option that's a must!

SpellStar (requires WordStar) **$250**
WordStar with SpellStar (special combined price) **$695**

StarIndex

This newest addition to the list of WordStar options allows you to create complex professional **indexes,** with all entries and subentries formatted automatically according to your specifications. As you type or edit your document (using WordStar), you "mark" the items to be included in the index. When the document is complete, StarIndex will produce a complete alphabetized index, with page numbers of all references.

StarIndex will let you store formats to be used automatically for headings and subheadings, and automatically generate a table of contents and lists of tables and figures, keeping track of chapters, sections, appendices and tables, and renumbering everything automatically whenever you insert or delete copy.

StarIndex (requires WordStar) **$195**
WordStar with StarIndex (special combined price) **$595**

MailMerge

This WordStar option is a multi-purpose file merging program which helps you produce customized form letters for mass mailings. It will print names and addresses on each letter, and insert anything you want into the body of each letter to create customized versions for each recipient. MailMerge can also merge sections of different documents into one, or create mailing labels and invoices from DataStar files. When a mass mailing involves several steps, you can give MailMerge the instructions in advance, and MailMerge will complete the task while you get on with other business. Data can be inserted from a separate file or from the terminal while you are printing. MailMerge will automatically reformat the inserted item to fit the rest of your document.

MailMerge (requires WordStar) **$250**
WordStar with MailMerge (special combined price) **$645**
The WordStar Professional Package:
WordStar, SpellStar, StarIndex and MailMerge **$895**

InfoStar

Finally there's a Database Management system that speaks your language. English! And naturally, it's another member of the growing family of integrated MicroPro software programs. What WordStar did for word processing, InfoStar will do for your business information. And it will do it quickly, accurately and easily. (The InfoStar system is a set of fully integrated programs based on the DataStar, ReportStar and SuperSort packages.)

InfoStar allows you to enter any kind of data into electronic files, and then retrieve, change, sort, and manipulate the data in any way you wish before printing out finished reports in a format of your own design. With InfoStar, you don't need to learn a programming language or write actual programs. Onscreen menus give you options in plain English and prompt you for input and the next step to take. Help screens indexed to the User Manual are just a keystroke away.

Even though InfoStar is easy to learn and use, it has the most powerful features available in a database system, including: a screen editor for creating data entry forms, the fastest sort in any microcomputer database system (will sort on 32 fields simultaneously), transactional updating (which revises multiple files automatically), and 200 editing mask combinations for accuracy. InfoStar can also exchange data with the WordStar, CalcStar and PlanStar programs.

InfoStar **$495**

CalcStar

CalcStar is MicroPro's powerful electronic spreadsheet -- a sophisticated yet easy to use calculating and business planning program, designed to work with other members of MicroPro's family of programs. CalcStar turns your screen into a "window" on a giant ledger sheet. It helps you make budget plans and sales forecasts with speed and accuracy that will amaze you.

Of course, CalcStar is easy to learn and use. Condensed Help menus can be displayed onscreen and complete Help menus are just a keystroke away. A handy reference card and a step-by-step User's Manual take you smoothly through the basics and into CalcStar's advanced functions.

You get power and flexibility with CalcStar. Column widths can vary from 3 to 63 characters. The four traditional four math functions are provide, plus advanced capabilities, including logarithms, exponents and linear regression. And edit line can be used for "scratchpad" calculations, which are not entered in the spreadsheet.

The Automatic Form mode moves the cursor from one location to another automatically, requiring the user to input data at each location. This feature can be preformatted, so that your support staff can do routine updates to your spreadsheet without accidentally changing your model.

Naturally, CalcStar is compatible with WordStar, so you can put your spreadsheet into a finished report, complete with boldfacing, underlining, and other special print features.

CalcStar **$195**

PlanStar

MicroPro has taken financial planning one step beyond even the most advanced electronic spreadsheet program. With PlanStar, plain English is all you need from data input and manipulation to production of finished reports.

Consolidation of many spreadsheets takes just a single command. Virtual memory allows over 32,000 cells per spreadsheet and 1,000 sheets per project. Since formulas and data are stored separately, temporary worksheets can be used to ask "what if?" questions over and over again, leaving your original data intact.

PlanStar is sophisticated, yet so easy to use that you can construct models that lead your clerical staff through routine data entry and report generation. PlanStar's editor uses familiar WordStar commands. The PlanStar window lets you view and modify data as you would with CalcStar. Move data directly form an InfoStar, CalcStar, or DataStar file straight into a PlanStar model. Merge PlanStar graphs and reports with WordStar files, to give your final reports a truly professional appearance.

PlanStar's Sensitivity Analysis command can automatically vary any of your input data to see what the net effect is on your bottom line. Goal Seeking lets you specify the desired bottom line and PlanStar works backwards to find starting conditions and assumptions to meet the desired goal. Advanced financial functions include leads and lags, positive and negative values, inflation, discounting, net present value, rate of return, amortization, depreciation, moving average, regression, and more. PlanStar can even be used to produce line plots and bar charts to illustrate important areas of your reports.

REMSOFT, Inc.

Let Your TRS-80™ Teach You ASSEMBLY LANGUAGE

REMASSEM-1

Tired of buying book after book on assembly language programming and still not knowing your **POP** from your **PUSH**?

REMSOFT proudly announces a more efficient way, using your own TRS-80™ to learn the fundamentals of assembly language programming at YOUR pace and at YOUR convenience.

Our unique package, **"INTRODUCTION TO TRS-80™ ASSEMBLY PROGRAMMING"**, will provide you with the following:

- ★ Ten 45-minute lessons on audio cassettes.
- ★ A driver program to make your TRS-80™ video monitor serve as a blackboard for the instructor.
- ★ A display program for each lesson to provide illustration and reinforcement for what you are hearing.
- ★ Step-by-step dissection of complete and useful routines to test memory and to gain direct control over the keyboard, video monitor, and printer.
- ★ How to access and use powerful routines in your Level II ROM.

This course was developed and recorded by Joseph E. Willis and is based on the successful series of courses he has taught at Meta Technologies Corporation, the Radio Shack Computer Center, and other locations in Northern Ohio. The minimum system required is a Level II, 16K RAM.

LEARN TRS-80™ ASSEMBLY LANGUAGE DISK I/O

REMDISK-1

Your disk system and you can really step out with **REM**SOFT's Educational Module, **REMDISK-1**, a "short course" revealing the details of DISK I/O PROGRAMMING using assembly language.

Using the same format as our extremely popular introduction to assembly language programming, this **"ASSEMBLY LANGUAGE DISK I/O PROGRAMMING"** course includes:

- ★ Two 45-minute lessons on audio cassette.
- ★ A driver program to make your TRS-80™ video monitor serve as a blackboard for the instructor.
- ★ A display program for each lesson to provide illustration and reinforcement for what you are hearing.
- ★ A booklet of comprehensive, fully-commented program listings illustrating sequential file I/O, random-access file I/O, and track and sector I/O.
- ★ A diskette with machine-readable source codes for all programs discussed, in both Radio Shack EDTASM and Macro formats.
- ★ Routines to convert from one assembler format to the other.

This course was developed and recorded by Joseph E. Willis, for the student with experience in assembly language programming; it is an intermediate-to advanced-level course. Minimum hardware required is a Model I Level II, 16K RAM one disk drive system.

INTRODUCING...

BASIC/S COMPILER SYSTEM

The BASIC/S Compiler System consists of two main programs - BASIC/S and BASIC S II/CMD - along with numerous supplementary files. Both BASIC/S and BASIC/S II are compilers for a large subset of TRS-80 Disk BASIC - the first one, BASIC/S, is itself a BASIC program while BASICS II/CMD is a machine language version, compiled by BASCOM(c). The difference between them is that BASIC/S supports the full BASIC/S subset, while BASIC/S II is an integer compiler - does not support floating point. Other than that, the two compilers support essentially the same BASIC subset. You get both compilers in one package; in general, one would want to use BASIC/S II (because of its speed), but when your application requires floating point, then BASIC/S is available.

Both compilers will run under virtually any MOD I/MOD III DOS. At least 48K and one disk drive are required to use BASIC/S. Two drives are certainly preferable.

Note: BASIC/S II does NOT run under MOD III TRSDOS.

It will compile up to a 260 line program - compiles directly into a /CMD file, no linking or run time module needed. No royalties are required for programs you write and compile with BASIC/S. The /CMD files created by BASIC/S are very reasonably sized - typically, they are only 1.2 - 2 times the size of your original BASIC source file. Quite often, if your source file is only 1 granule, then so is the /CMD file made by BASIC/S.

The name BASIC/S means BASIC/Subset - it doesn't complete full blown BASIC. It DOES support most of Level II Basic as well as the essential elements of sequential and random disk I/O, including LRL 256. BASIC/S allows dimensioning arrays of all variable types, with up to two dimensions; any one program can have up to 20 arrays. Also, BASIC/S compiled programs can chain from one to another with no loss of variables.

$49.95 *(Includes BASIC/S and BASIC/S II)*
BASIC/S Compiler System Manual is available for $25.00 of which $10.00 is applicable toward the purchase of the BASIC/S System.

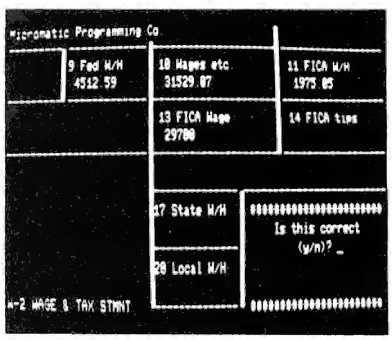
MICROMATIC PROGRAMMING COMPANY

TRS-80* Owners Do Your Own Taxes Like An Expert with TAX/SAVER II™

* TRS-80 is a trademark of the Radio Shack Division of Tandy Corp.

FOR MODEL I or MODEL III/4

Now With Printout!



TAX/SAVER II™ — The tax help program for the layman, the professional accountant or tax preparer.

New and expanded, TAX/SAVER II™ offers a different approach to preparing a tax return. Like the original, the new version has the tax regulations programmed in so it is more than just a calculator. Designed for non-accountants, TAX/SAVER II™ asks you questions, just as an accountant does. Based on your answers, it leads you through the tax maze to your lowest legal tax. Then it tells you how to fill in your return, line by line, or it will output to a printer.

TAX/SAVER II™ also has speed features for those doing more than one return. Optional program instruction and tax text make TAX/SAVER II™ the practical system for professional preparers as well. TAX/SAVER II™ has full disk storage of data files (with optional password protection).

The manual includes information on special tax areas, lists of possible deductions and a tax glossary.

TAX/SAVER II™ compares itemized deductions to national averages; automatically computes certain limitations - for example, on medical deductions and contributions; checks for excess FICA; helps determine dependents. Yet, TAX/SAVER II™ offers the privacy and convenience of home use.

The user-oriented design with special screen formatting makes data entry, verification and correction easy. Yet you are always in control. You can skip any help features or parts of the program that you don't need.

TAX/SAVER II™

- Completes long and short forms (1040 & 1040A)
- Itemized Deductions - Schedule A
- Interest & Dividends - Schedule B
- Tax Calculation - Tables, Rates
- Tax Savings Methods - Income Averaging, Maximum Tax, Alternative Tax
- Business Income - Schedules C & SE
- Capital Gains - Schedule D
- Allows you the privacy of your own home
- Lets you help friends and relatives with their taxes
- Has built-in aids. Answers specific questions like "Is my father my dependent?" and "Are my deductions reasonable?"
- Manual includes 1983 tax forms, information on special tax areas, lists of possible deductions, and glossary of tax terms
- Completes long and short forms including itemized deductions, excess FICA, earned income credit, community property, tax calculation (comparing all possible filing statuses in one run)
- Tax regulations are programmed in by our team of accountants. Just type in your figures & you've done your own tax return
- Helps you find the lowest tax
- Discounts on yearly updates
- Prints out on standard IRS forms overlays or plain tractor feed paper
- Accepts totals from all other tax forms not listed here

REVIEWS:
"...well designed and easy to use" - D. Lubar, Creative Computing 1/81
"...TAX/SAVER™ may very well live up to its name"
M. Tannenbaum, CPA, 80 Microcomputing 2/81

CUSTOMERS:
"For the price it can't be beat. I am looking forward to next year. With this program I finish my filing in 2 hours. Thank you."

"Excellent presentation. Tutorial style is one of its most attractive attributes. Finally, a program I can really use!"

PROFESSIONALS:
"This is the perfect program for those doing taxes for others for reasonable fees. It was obviously written by folks that know both programming and tax law." "TAX/SAVER™ is superior."

NEW

PROFESSIONAL TAX/FORECASTER™

TAX/FORECASTER™, the quick tax estimator (with printout) for both 1983 and 1984 lets you revise its estimate by merely changing one or more lines. Use it as a tax planner either together with TAX/SAVER II™ or by itself. TAX/FORECASTER™ lets you quickly ask all of your WHAT IF? Questions and instantly recalculates your taxes. A great tax preparation aid for both the layman and professional. Includes Income Averaging and disk storage of Client files.

• Both TAX/SAVER II™ and TAX/FORECASTER™ are tax-deductible • Discounts are given on yearly updates • Free tax newsletter is issued annually.
With the combined package TAX/SAVER II™ and TAX/FORECASTER™, you can now have, at an affordable price, the power to predict, control and reduce your tax liability.

These systems have been developed by people professionally involved in real estate analysis, property management and sales who also have an extensive background in computer analysis. Hundreds of satisfied clients have discovered how effective a microcomputer can be in their business.

PROPERTY MANAGEMENT/GENERAL LEDGER

This is a truly flexible system designed for use by both property owners and property managers. The system is easy to use even for the computer novice.

This system consists of a set of programs which track rental income and expenses and provide general ledger accounting as well as management reports which are timely and accurate. Income and expense data is entered into the system by filling in on-screen forms. Corrections can be easily made at any time.

Features:

TENANT INFORMATION REPORT
YEAR-TO-DATE INCOME REPORT
RENT RECEIPT PRINTING
CHECK PRINTING
LATE RENT REPORT
VACANCY REPORT
EXPENSE DETAIL REPORT
VENDOR EXPENSE REPORT
UTILITY EXPENSE REPORT
TAX EXPENSE REPORT
OPERATING STATEMENTS

System Requirements:
A 48K system with at least one disk drive. All reports can be printed on an 80-column printer.

Property Management System
TRS-80 or APPLE **$450.00**
IBM or CP/M **$525.00**

PROPERTY LISTING & COMPARABLES

This is a complete system for maintaining real estate listings and comparable sold properties. The system store complete information about each property and includes a comprehensive screening capability that allows you to search for properties based on certain user-selected criteria. All property information is entered and updated by filling in a form on the computer screen.

Features:

ATTRIBUTE SELECTIONS — Selection of properties on file based on maximum and minimum price, number of bedrooms, number of units, city and zone can be made in any combination.

PERFORMANCE SELECTIONS — Selection of properties can also be made based on a maximum gross factor, a maximum price per square foot of improvements and a minimum cashflow requirement in any combination.

System Requirements:
A 48K system with at least one disk drive and a standard 80-column printer.

Property Listing System
TRS-80 or APPLE **$325.00**
IBM or CP/M **$425.00**

REAL ESTATE ANALYSIS PROGRAM MODULES

These modules form an analysis systems for real estate and can be ordered individually or in any combination on one diskette. They are also available on cassette. A 48K system with cassette or disk drive is required, and all reports can be printed on an 80-column printer.

HOME PURCHASE
An invaluable aid to making knowledgeable decisions when buying, selling or comparing properties.

LOAN AMORTIZATION
This module generates a complete loan payment schedule for fully amortized, interest-only and less than interest-only (negative amortization) loans with payments from one to 365 per year.

CONSTRUCTION COST/PROFIT
A sophisticated program for builders and investors which allows fast and complete analysis of potential profits.

PROPERTY SALE
This module will show the net financial result of a property sale, and will calculate the total gain realized, total taxable gain, return on investment and total cash to seller.

APR LOAN ANALYSIS
This tool for comparing loans will calculate the annual percentage rate of a loan based on the base interest rate of the loan, loan fees, prepaid interest and the term of the loan.

INCOME PROPERTY ANALYSIS
A superb tool for comparing income-producing properties, this module will provide a thorough financial analysis of almost any income-producing property in minutes.

TAX DEFERRED EXCHANGE
This module shows the total financial impact of a tax-deferred or partially deferred property exchange, allowing investors to make informed decisions when trading properties.

LOAN WRAP RETURN
When selling or buying properties involving a wrap-type of loan this program will show the actual percentage return to the seller.

LOAN SALES/PURCHASE
This flexible module will calculate either the present value of a loan base on the required percentage of return, or the percentage return based on the price paid for the loan.

DEPRECIATION/ACRS
Based on the new law governing real estate and other depreciable assets, this program calculates and displays both straight-line depreciation and the Accelerated Recovery System figures for assets in the 3, 5, 10 and 15-year life categories.

SARGON III™

HAYDEN SOFTWARE

Sargon III challenges the masters.

Sargon III may be the toughest opponent you'll ever play. The ultimate in computer chess, Sargon III is more difficult and moves faster than our famous Sargon II. Played at its highest level, Sargon III is the Grand Master of computer chess games.

Sargon III gives you the greatest instructional value of any microcomputer chess game. It allows two players to play each other while it monitors moves for consistency with rules of play. You can also query Sargon for move suggestions. If you're playing alone, you can ask Sargon for alternate moves after it makes its best move. Sargon III also shows you 107 of the greatest chess games in history so you can see how the masters did it. If you want to see classic situations and problems, Sargon III will show you. If you want to replay those sequences, Sargon III will let you. You can even stop your game in progress and save it to disk or printer if you want. Hayden Software provides a very complete and informtive user manual, making it easy for the novice to learn.

Sargon III for Apple or IBM PC **$49.95**
Sargon II for TRS-80 I/III/4 or Apple ... (tape) **$29.95**
(disk) **$34.95**

Sargon is the best way to learn chess.

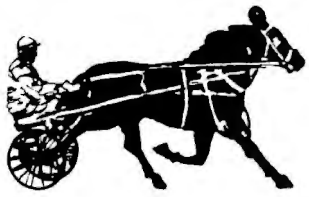
Meet the computer with horse-sense!

Computer Picks Winner 70% Of The Time*

THE TROT COMPUTER



THE THOROUGHBRED COMPUTER

The *Kel-Co Trot Computer* is a scientifically engineered special purpose computer designed to provide an accurate and rapid means for obtaining the Kel-Co ratings for harness race horses. These ratings, together with a few basic rules, provide a statistically proven handicapping method.

The unit has two modes of operation: the "computer mode" and a "calculator mode." The computer mode contains the programmed formulas for the Kel-Co Trot ratings using a special Texas Instrument microprocessor chip (TMS 1100/MP3490N-1). In the calculator mode the unit operates as a standard calculator.

The novice will find his lack of experience no problem. He need only know how to read the track program, and this information is found within each program. The instruction manual is complete, it tells what races to avoid, what horses to eliminate, how to rate the horses, and how to play the various types of wagers.

This computer is an outgrowth of the original Kel-Co Trot Calculator (Slide Rule) first marketed in 1969. Although based on the same general principles, it has undergone extensive refinements in theory. In addition, by its very nature, the electronic computer is much easier to use, more accurate, and much faster than the slide rule calculator.

- **TROT COMPUTER (pictured above) .. $154.95**
- **ADVANCED COMPUTER PROGRAM VERSION (For TRS-80 I/III/4, II/12/16 and APPLE Computers (requires 1 disk drive) $300.00**
- ★ **New TRS-80 Model 100 Version..... $300.00**

You'll Come Out A Winner™

* Cannella Corp. claims that strict adherents to the system will find themselves in the money about 70% of the time. **Money** magazine put it and a competitor through their paces and concluded, "There is no question that either Kel-Co or Racetrack II can help a lout like me (or even an experienced bettor) to invest more scientifically at the expense of poor suckers...."

H & E Computronics offers its full 30-day Money-back Guarantee on the Thoroughbred and Trot Computer

Cannella Corp. provides a full six-month warranty, from date of purchase, and will repair defects in material and workmanship, free of charge.

Now there's a space-age computer that helps you narrow the odds, for it has been specially designed to give you a **class** rating on every thoroughbred race horse on every track in North America. No, this isn't a toy or merely an ordinary calculator. It's a sophisticated state-of-the-art computer that contains a special Texas instruments microprocessor computer chip (TMS 1100/MP3452NL) specifically programmed with our unique handicapping system of **Established Class Ratings.** These ratings, together with an easy-to-follow system for qualifying selections, provide you with the most probable winner. And, there's no prior handicapping experience necessary! They even show you when you should consider combination races — Daily Doubles and Exactas (Perfectas) — and how to play them.

The rating developed by the computer is based on the premise that thoroughbred class is best measured by the size of the purses that the horse has **successfully** completed for in the recent past. This rating is determined mathematically by the computer as a function of the horse's earnings and finish positions from past performance charts. In very basic terms, this would probably mean that a horse with only one win and $5,000 in earnings would be likely to beat a horse with three wins and only $8,000 earned.

The rating also indicates the purse size of the race in which the horse is likely to win if fit and ready. This means that a horse running in a race with a lower purse value than his rating represents a real "drop down" and a potentially strong bet. A horse with a lower rating than the purse value, however, is moving up in class and will seldom be a serious contender.

AARDVARK ADVENTURES

All Adventures are written in BASIC and are available for the TRS-80 Color Computer (with 16K), the VIC-20 (with 13K), the VIC-64 and the Timex/Sinclair 1000 or ZX81 (with 16K).

QUEST
This game is different from all other games of adventures--it's played on a computer-generated map of Alesia. You lead a small band of adventurers on a mission to conquer the Citadel of Moorlock. You have to build an army and then arm and feed them by combat, bargaining, exploration of ruins and temples, and outright banditry. The game takes 2 to 5 hours to play and is different each time. (Extended BASIC required on the TRS-80 Color Computer).

PYRAMID
This is one of the toughest adventures. Average time through the Pyramid is 50 to 70 hours. The old boys who built this pyramid did not mean for it to be ransacked by people like you.

ESCAPE FROM MARS
Your ship has crashed on the Red Planet and you have to get home. You will have to explore a Martian City, repair your ship, and deal with possibly hostile aliens to get home again.

CIRCLE WORLD
This alien culture has built a huge artificial world in the shape of a ring circling their sun. They left behind some strange creatures and a lot of advanced technology. Unfortunately, the world is headed for destruction and it is your job to save it before it plunges into the sun. (Extended BASIC required on the TRS-80 Color Computer).

DERELICT
This adventure takes place on an alien ship that has been deserted for a thousand years. You can explore and ransack the ship, but you'll have to learn to speak the alien language and to operate the machinery they left behind. The hardest problem of all is to live through it. (Extended BASIC required on the TRS-80 Color Computer).

TREK
This one takes place aboard a familiar starship and is a must for trekkies. The problem is a familiar one: the ship is in a decaying orbit and the engines are out. Your options are to start the engines, save the ship, get off the ship, or die. Good luck.

ARCADE GAMES

ZEUS
It's fast and furious as you become the WIZARD fighting off the Thunderbolts of an angry ZEUS. Cone of Cold will destroy a thunderbolt and your shield will protect you - for a while. This is a High Speed Action game with difficulty increasing wave after wave, providing hours of challenging fun and a game that you may never completely master. (Available for TRS-80 Color Computer, Commodore 64 and VIC-20).

CATERPILLAR
OK, the Caterpillar does look a lot like a Centipede. The TRS-80 Color version also has spiders, falling fleas, monsters raipsing across the screen, poison mushrooms, and a lot of other familiar stuff. For the TRS-80 Color Computer ONLY, REQUIRES 16K and JOYSTICKS.

VENTURER
A fast action arcade game that feels like an Adventure. Go berserk as you sneak past the dreaded Hall of Monsters to gather treasure in room after room, killing off the nasties as you go. Great color hi-res graphics and sounds. Cassette tape for TRS-80 Color Computer ONLY, REQUIRES 16K and JOYSTICKS.

PLANET RAIDERS
Not just another copy of Defender, this is an original program, good in its own right! You pilot a one-man ship across a planetary surface, dogfighting with invader ships, dodging and blasting ground-based installations and rescuing stranded troopers. Rescue all the troopers and be transported to another more difficult battle. For TRS-80 Color Computer ONLY, 32K disk or 16K cassette.

LABYRINTH
The action takes place in a realistic maze seen from ground level. This is a real time monster hunt as you track down and shoot the mobile monsters. For TRS-80 Color Computer ONLY. Requires Extended BASIC.

PDI TURN YOUR COMPUTER INTO A TEACHING MACHINE

A COMPUTER PROGRAMMING COURSE FOR BEGINNERS

STEP BY STEP Ages Junior High to Adult
32 Programs and a 64-page workbook teach programming in BASIC for the beginner. Introduces all important BASIC commands and programming logic, including simple string logic and one-dimensional arrays. Lessons are interactive, presented in a question-and-answer format on the computer screen.

TRS-80 (tape), COMMODORE 64 or PET (tape or disk), $59.95
APPLE (disk), $99.95

STEP BY STEP 2
The second in the PDI series for BASIC programming, Step-by-Step Two introduces more advanced techniques like the use of PEEK and POKE, CHR$ and ASC functions, hexidecimal numbers, control characters, the machine monitor, string logic, string arrays, high resolution graphics, screen memory, and much more. All instruction is in the interactive style that made Step-by-Step number one a bestseller.

APPLE (disk), $99.95

PREPARING FOR THE SAT
Teaches more than subject matter: teaches how to take the SAT and other aptitude tests. The package includes the following PDI Hi-Tester courses: ANALOGIES, VOCABULARY BUILDERS I and 2, NUMBER SERIES, and QUANTITATIVE COMPARISONS. Also includes a unit on time strategy that helps students evaluate how well they allocate their time. The introductory unit evaluates a student's test-taking strategies. The total package consists of 6 cassettes (or 6 disks and 1 cassette), a user's manual, and a copy of the booklet *Making the Grade*, all contained in a convenient storage container.

APPLE or ATARI (disk), $119.95, ATARI (tape), $99.95

EDUCATIONAL GAMES

MEMORY BUILDER: CONCENTRATION Ages 6 Up
A series of educational games to improve memory, attention span and concentration. Letter and 3-letter words are used. Player has three options: play against the computer, play against him or herself, play against another player. Especially good for parent and child to play together.

TRS-80, APPLE, ATARI, C-64, $19.95

STORY BUILDER/WORD MASTER Ages 9 Up
Series of partially completed verses that the child completes. Teaches grammar skills in an enjoyable way. Word Master is a logic game where the child tries to guess a 3-letter word generated by the computer. Teaches reasoning and vocabulary.

TRS-80, APPLE, ATARI, C—64, TI 99/4A, $19.95

GRAPH BUILDER Ages 10 Up
11 teaching programs and games teach students to read graphs. Covers x and y coordinates, and representation of numerical data on graphs. Starts with simplest concepts and works up to complicated grid game.

TRS-80, $19.95

CODE BREAKER Ages 10 to adult
3 scrambled message games of increasing difficulty that build basic word handling skills needed for good writing. First game scrambles letters within the words in the message: next 2 games scramble letters and also word order. The last game gives the hardest messages. Messages are made up by the computer from an extensive word list.

APPLE, ATARI, C-64, TI 99/4A, $19.95

MINICROSSWORD All Ages
4 programs that consist of 2 minicrosswords and 2 codeword games. Crossword programs invent their own crossword puzzles - hundreds of completely different puzzles are possible - and score how well you do each puzzle. When used in conjunction with the codeword programs, which are word-guessing games, the course provides a vocabulary and spelling development system.

TRS-80, APPLE, ATARI, $19.95

ASTRO WORD SEARCH: FRENCH High School to Adult
Like Astro Search: Spanish, except this time, it's French vocabulary words.

TRS-80, $19.95

ASTRO QUOTES: High School to Adult
Fascinating game in which you guess vocabulary words from clues and the computer takes each letter from the words and puts it where it belongs in a famous quotation. As soon as you can, you guess the quotation. If it takes you too many tries to guess the quote, you lose the game. 3 versions: easy, medium hard.

APPLE, ATARI, TRS-80, $19.95

STUDY SKILLS

IQ BUILDER Junior High Up
A group of 4 courses that prepare a high school student for the College Boards or adult for aptitude tests.

VOCABULARY BUILDER 1: BEGINNING 11 programs include a set of graded vocabulary questions on synonyms and antonyms (the most common type of vocabulary question on an IQ test). The last lesson is a test on vocabulary. Total of 400 questions, 2000 words in course.

APPLE, ATARI, C-64, $19.95

VOCABULARY BUILDER 2: ADVANCED 11 programs like those in Vocabulary 1, but using a more advanced word list.

APPLE, ATARI, C-64, $19.95

NUMBER SERIES Contains 8 programs that provide practice in a common math problem type. The first lesson teaches how to approach number series and how to analyze their patterns. Later lessons provide practice with increasingly difficult problems, giving clues if you have difficulty with the problem. Final lesson is a test of abilities.

APPLE, ATARI, C-64, (disk only) $19.95

ANALOGIES Contains 6 programs that teach what an analogy is and what the common types are, provide a method for analyzing analogies and provide practice in handling all types of analogies. Final lesson is an analogies test.

APPLE, ATARI, TI 99/4A, C-64, $19.95

LANGUAGE ARTS

READING COMPREHENSION: WHAT'S DIFFERENT? Ages 8 Up
5 reading comprehension programs which present logical problems where the student picks the one word in four which doesn't belong with the rest. Builds analytical skills essential for understanding what you read.

APPLE, ATARI, C-64, $19.95

PRESCHOOL IQ BUILDER Ages 3-6
Teaches vital cognitive skills that children must learn in order to do well in school. In Part 1, Same and Different, the child discriminates between two forms. In Part 2, Letter Builder, the child matches a letter on the TV monitor to one on the keyboard. Accompanying Parent's Guide gives instruction.

TRS-80, APPLE, ATARI, C-64, TI 99/4A, $19.95

SPELLING BUILDER Junior High Up
8 programs plus an audio cassette teach important spelling rules and skills. Helps students and adults overcome spelling difficulties. Not just spelling drill, this course teaches a method for approaching difficult words. Ideal for the student or adult who has mastered basic spelling but has trouble deciding if it's "supersede" or "supercede", "combustable" or "combustible". Final test of 25, ten-word lists.

ALCOR Systems

MAKE YOUR BASIC PROGRAMS RUN 10 to 50 TIMES FASTER!

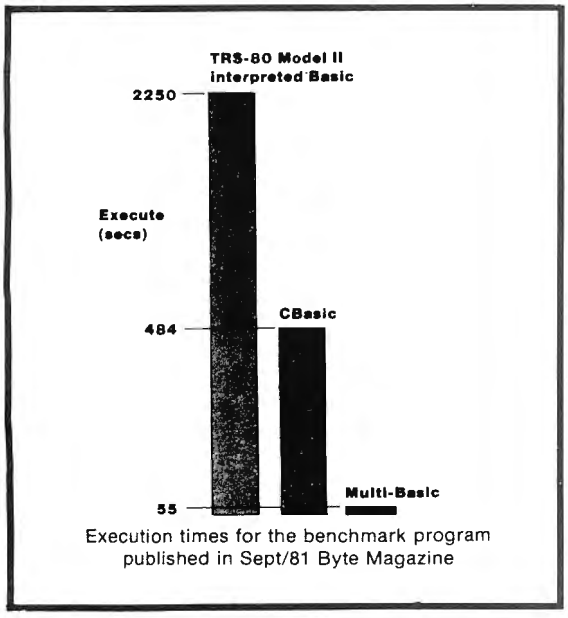
Multi-Basic Language

Alcor Multi-Basic is the first Basic language system that provides the advantages of both interpreted and commercial Basic. The Multi-Basic compiler is a compatible superset of the Basic which comes with your microcomputer. Slight variations of the interpreted Basics used on these computers are common to a wide range of other computers. In addition, the Multi-Basic compiler is compatible with the commercial Basic compilers, CBasic and CB-80.

IDEAL FOR THE BEGINNER

The interactive environment of interpreted BASIC makes learning to program easier. With Multi-Basic, you can obtain the speed and power of a compiled language without giving up the advantages of interactive debugging.

- Multi-Basic can compile the programs written for interpreted Basic with few or no changes. Existing Basic programs run 10 to 50 times faster after being compiled by Multi-Basic.
- You may continue to use interpreted Basic to debug programs and then use Multi-Basic to obtain a big improvement in performance.
- Multi-Basic adds advanced features to the Basic language. Once you have learned the fundamentals of programming, you can go on to the more powerful features that Multi-Basic provides.



Execution times for the benchmark program published in Sept/81 Byte Magazine

- When you move up to a new computer, your programs will move with you. The availability of Multi-Basic on a wide range of computers means that you won't be spending valuable time rewriting programs.

EXTENDED BASIC FEATURES

Multi-Basic provides the extra features which transform Basic into a professional development language.

- Multi-line functions
- Local variables (variable names used within a function do not conflict with names used elsewhere in the program)
- Structured statements
- Statement labels (descriptive labels may be used in place of line numbers)
- Long variable names (up to 255 characters)
- Dynamically dimensioned arrays
- Nested functions
- Recursion (a function can call itself)
- Complete function library

Dear Computer Owner:
Here is your New H & E Computronics, Inc. CATALOG #14. Feel free to rip the pages apart. Every time you place an order, we will send you a new catalog with our latest catalog update.

CATALOG #15(ALREADY IN THE WORKS) WILL CONTAIN MANY NEW ITEMS FOR OWNERS OF EVERY MICRO-COMPUTER. ANY CUSTOMER ORDERING ANY ITEM FROM H & E COMPUTRONICS, INC. AFTER OCTOBER 1, 1983 WILL AUTOMATICALLY RECEIVE OUR NEXT CATALOG FREE OF CHARGE.

We at H & E Computronics, Inc., are very proud of our accomplishments in the past 7 years. We are the largest mail order catalog software house in the world. We want to thank our customers for making Catalog #13 a huge success. WE DO BELIEVE IN CUSTOMER SATISFACTION. We have added several new technical service lines to help our customers with their problems (related to software created by H & E Computronics, Inc.). Now you can call our programmers directly (the new phone numbers appear within each software manual).
We have added new personnel and phone lines to expedite the processing of your order, and we can assure you that all orders will be processed and shipped within 24 hours (in any case, if any order must be delayed by more than 3 business days, written notification will be sent). If you need super-quick service, we can ship your merchandise by Federal Express, Emery Express, UPS Overnight or most other air services.
We stand behind our products and believe in customer satisfaction. Enjoy Catalog #14.
Howard Y. Gosman, President

IMPORTANT NOTICE FOR ALL PAST PURCHASERS OF OUR VERSABUSINESS SERIES, BUSINESS PAC 100 OR MASTER PAC 100

H & E Computronics, Inc. provides a registration form with each VersaLedger II, VersaPayroll, VersaReceivables, VersaInventory, Business Pac 100, Master Pac 100, Mail Pac-II and Checkbook Plus software package.

H & E Computronics does maintain a record of each registered owner and we do provide an update service for registered owners.
If you have purchased any of these packages from H & E Computronics, Inc. or any other source, and you're not sure if you are on our list of registered owners, please provide us with your name, address and a stamped self-addressed envelope so that we can make sure that the proper registration agreement is mailed to you.

IMPORTANT NOTICE ABOUT YOUR ORDER

H & E COMPUTRONICS, INC. selects its software very carefully. We feel that the items we choose to sell are the best products currently available. Our software selections are based on value, documentation, support, saleability and reputation of the software house writing the product. We monitor the return rate of each piece of software very carefully. We currently sell about 400 different items (out of the over 50,000 items available to MICROCOMPUTER owners). If you disagree with our choice we offer our money-back guarantee because we feel that our customers should not be "stuck" with software that they consider unsatisfactory. If you do not feel satisfied with the product we have sent you, please follow the return (or exchange) procedure below. **H & E COMPUTRONICS, INC. MAKES NO REPRESENTATIONS OR WARRANTIES WITH RESPECT TO THE PRODUCTS THAT IT PROVIDES AND SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. H & E COMPUTRONICS, INC. SHALL HAVE NO LIABILITY WITH RESPECT TO ITS OBLIGATIONS UNDER THIS AGREEMENT FOR COMPENSATORY, SPECIAL, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES. SOLE LIABILITY SHALL BE LIMITED TO THE PURCHASE PRICE OF THE SOFTWARE LICENSED HEREUNDER.**

TO EXCHANGE OR RETURN MERCHADISE

1. Merchandise must be returned within 30 days of the day it was shipped. The 30 days are calculated from the day that your package was invoiced until the day your package was re-shipped to H & E COMPUTRONICS, INC.
2. It is the customer's responsibility to insure each package and obtain a receipt. We can **NOT** be responsible for packages that are lost in the mail. If the package is valuable...we suggest that you insure it (although it is certainly not mandatory).
3. ***H & E* Computronics, Inc., will not accept any package at H & E Computronics, Inc., that does not bear a return address.**
4. A copy of your original invoice must be included within the package. **WE WILL RETURN ANY PACKAGE THAT DOES NOT CONTAIN THE ORIGINAL INVOICE (OR MACHINE COPY) WITHIN THE PACKAGE.**
5. Please include brief instructions so that we know what to do with your returned package. For example, do you want credit towards another program? PLEASE do not send a lengthly description. PLEASE do be short and to the point. We wish to process your return as soon as possible...please do **NOT** complicate the process by referring to previous phone calls or letters.
6. Merchandise must be returned in NEW condition. Although we do expect that sealed packages will undergo some damage, please keep it to a minimum. In any case, we reserve the right to refuse any package we feel has been overly abused.

POSTAGE RATES:

1. Add $3.00 for postage and handling for any order shipped within the United States by U.P.S.

TYPITALL

The SCRIPSIT™ Compatible Word Processor

TYPITALL is a word processing program which is upward compatible with SCRIPSIT™ for the Model 1, 3, and 4 TRS-80™ computers. If you already know how to use SCRIPSIT, you will be able to start using TYPITALL immediately. Even if you don't know SCRIPSIT™, you can start using TYPITALL immediately by using the HELP commands to learn it as you go.

Following is a partial list of the features available in TYPITALL. Compare these features to those of your current word processor, and see why users have called it the *best* word processor program for the TRS-80™:

- Assign any sequence of keystrokes to a single control key.
- Print the formatted text on the screen, either as graphic blocks or as plain text, before going to the line printer.
- Send the formatted text to a disk file for later printing.
- Merge data from a disk file during printing. Names, addresses, and other text can be inserted into the text being printed.
- Stop printing and enter data from the keyboard.
- Send **any** control or graphic character to the printer.
- Call up HELP screens at any time.
- Flexible cursor motion keys: move cursor by character, word, line, section or page.
- Make your own special version of TYPITALL with the supplied customization program.
- Get audible feedback from the keyboard through the cassette recorder.
- Use the same version on the Models 1, 3, or 4.
- Reenter the program with all text intact if you accidentally exit without saving the text.
- Enter hard spaces to make a sequence of words indivisible.
- Use copy markers to print selected portions of text.
- Change words from upper to lower case, or vice versa, without retyping.
- Change key repeat speed.
- Display cursor position, line length, document length, and free space constantly on bottom line of screen.
- Optionally ignore case of letters in string search.
- Use TYPITALL for editing BASIC programs.

Disk version only — specify Model 1, 3, or 4.

TYPITALL (on diskette) $129.95

SMART TERMINAL

The *intelligent* communications program. Allows you to use your computer as a terminal to information systems, time-sharing computers, or for data transmission and reception.

- Memory buffer holds data to be transmitted or received
- Automatic transmission of data from buffer
- Automatic storage of incoming data in buffer
- Character translations
- Data files compatible with Electric Pencil™ and SCRIPSIT™
- True BREAK key
- Create "personalized" back-up copies
- Same program supports both cassette and disk systems

Model 1, 3 or 4 version $74.95
Model 2/12/16 (CP/M) version $79.95

SMALL BUSINESS MANAGEMENT SYSTEM

An integrated package allowing you to use your computer to manage a small business.

- **Order Entry:** enter orders, print invoices, and recall and change invoices from past orders. Use preprinted forms or plain paper.
- **Bookkeeping:** complete general ledger by user-defined categories.
- **Accounts Receivable:** interacts with order entry by invoice number.
- **Inventory:** complete summary of products sold by part number and price invoiced.
- **Installation:** Complete customization package tailors the programs to your business.

Requires 2 floppy disk drives or hard disk, 80-column printer. Available for: TRS-80™ Models 1/3/4, 2/12/16, IBM/PC or Model 2000, Kaypro II, and many other CP/M computers.

All versions $250.00

HOME BUDGET & CHECKBOOK ANALYST

This program maintains your checkbook while it analyzes your income and expenses. On data entry, constantly displays running checkbook balance. Check numbers automatically updated, but non-checkbook expenses can also be handled. Multiple-item expenses allowed. Complete budget categories and amounts can be maintained, and your present expenses compared with the budgeted amounts. The program maintains a heirarchical category list, with 12 general budget categories, each of which can be divided into up to 12 subcategories. Monthly and year-to-date summaries and projections can be computed from the data.

The cassette program is a reduced version of the disk program, which maintains the broad outlines of the program but handles much less data, in order to accommodate 16K users. Separate cassettes necessary for each month, and for year-to-date totals.

Model 1/3/4 disk version $59.95
Model 1/3/4 cassette version $29.95
Model 2/12/16, IBM/PC or CPM version $69.95

MAILING LIST

Maintains mailing lists of up to 1328 names per disk file. Add, change, delete, or find names. Sorting, which is done by machine language in the TRS-80™ Model 1/3/4 version, can be done according to the data in **any** field. Labels printed in 1, 2, 3, or 4 columns, with tabs adjustable to fit any size labels. (Disk versions only.)

TRS-80™ Model 1/3/4 version $69.95
Model 2/12/16, IBM/PC or CPM version $79.95

Monitor #4 (disk) $24.95
Monitor #5 (disk) $29.95

SMALL BUSINESS ACCOUNTING

Based on Dome Bookkeeping Record #612, this program keeps track of income, expenses, and payroll for a small business. Income and expenses can be entered on a daily, weekly, or monthly basis. The program computes monthly, through last month, and year to date summaries. Year-to-date profit and loss statement also included.

The payroll section (not included in cassette version) keeps records of individual employees and their paychecks with up to six payroll deductions. Employee payroll records and year-to-date payroll summaries can be computed.

The program comes with a complete installation package that customizes it to your business.

The cassette version keeps track of the income and expense data, and requires seperate cassettes for each month.

Model 1/3/4 disk version $59.95
Modei 1/3/4 cassette version $29.95
Model 2/12/16, IBM/PC or CPM version $69.95

SYSTEM DIAGNOSTIC

Is your computer working correctly? *Are you sure?* Find out for certain with System Diagnostic, which has complete diagnostic tests for every component of your TRS-80™ Model 1, 3 or 4. Separate tests for:

- ROM: checksum tests
- RAM: three separate tests including every location and data value.
- Video Display: character generator, video RAM, and video signal.
- Keyboard: every key contact tested.
- Line Printer: repeating or diagonal character tests, adjustable platen length.
- Cassette Recorder: read, write, verify data.
- Disk Drives:, disk controller, drive select, track seek, read sectors, formatting, read/write/verify data with or without erasing, disk drive timer, disk head cleaner. Single or double density, 1-99 tracks.
- RS-232-C Interface: connector fault, data transmission, framing, data loop, baud rate generator.

Individual tests or continuous testing mode, reports optionally written to line printer.

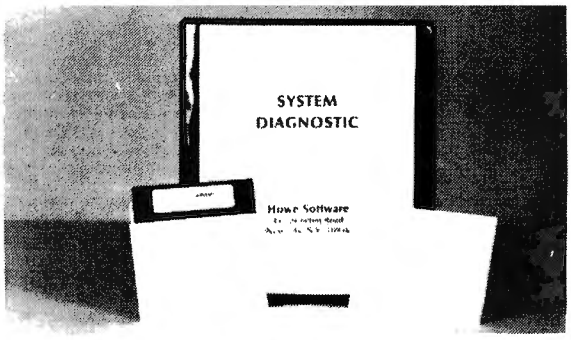
System Diagnostic $99.95



IN-MEMORY DATABASE MANAGEMENT

Define files of various descriptions and maintain data on disk (or cassette with the TRS-80™ Model 1/3/4 version). Program is an "in RAM" system allowing files to contain up to 50 fields, with the number of records available determined by your free RAM space. Commands allow you to add, change, or delete records; find a specific item (search any field); sort according to the data in any field; total items in a single field, with or without comparison to another field; print file on video display or line printer; and save file on cassette or disk. Reports generated can be formatted in extensive ways.

SMALL BUSINESS SYSTEMS GROUP

RELIABILITY!

SBSG HAS INSTALLED MORE THAN 20,000 SYSTEMS

SMALL BUSINESS SYSTEMS GROUP

THE FINEST ACCOUNTING SYSTEM AVAILABLE

The S.B.S.G. System allows you the maximum efficient use of available disk space. Each module will run on a standard 1 disk drive system (except for Model I systems, which require 2 drives). As you add more disk drives to your system, the amount of on-line data storage increases. Now here's an important fact...the S.B.S.G. General Accounting System "spans" your disk drives - that means that you can instantly access your data on any of **up to 8 disk drives** at any time! Since your S.B.S.G. Accounting System is user-configurable, it will work with 1, 2, 3, 4 or more disk drive systems—and it is full compatible with most hard disk drive systems (at additional cost).

GENERAL LEDGER

The General Ledger module consolidates all financial data from other accounting sources within your organization. Within minutes you can get a complete overview of your business operation and performance. The most significant feature of SBSG GL is the tremendous flexibility you are allowed in the configuration of the chart of accounts. You can select your own account numbers, account descriptions, and report formats based on your own unique needs. Accounts Receivable, Invoicing, Accounts Payable, and Payroll modules will directly post to the GL module. Additional modules can be added at any time with minimal disruption. Supports up to 9 divisions.

ACCOUNTS RECEIVABLE

The Accounts Receivable module will be a tremendous asset in maximizing cash flow. SBSG AR will help you increase credit sales to your best customers while allowing you to reduce your bad debt write-offs. Credit decisions can be made based upon current and accurate information. The AR module provides 4 important management reports including open and closed items, invoices not billed, and aging. Of course, SBSG AR also produces your customer's statements. When coordinated with SBSG GL, the AR module will perform applicable posting activities. Since the product is user-configurable, you can implement its use to meet your business requirements.

ORDER ENTRY

The SBSG Invoicing module was designed to print details of customer purchases on invoice forms and update totals into Accounts Receivable as either open or closed AR invoices. Each line item can be declared taxable or not taxable. Each invoice can be disbursed to as many as 5 General Ledger expense accounts, as well as to AR and cash. This module supplements Accounts Receivable and cannot be run independently. You may coordinate it with inventory, in which case you input the inventory number and the computer displays description and retail cost. Cost can be overridden via discounting by percent or by directly changing the price on the particular invoice—not in the inventory.

ACCOUNTS PAYABLE

The Accounts Payable module is a valuable management tool, designed to store data regarding purchases from your suppliers, and to help manage your important cash resources. The AP module incorporates 5 management reports based on data from your suppliers' invoices. The system is invoice-oriented and accurately tracks open and closed items, aging, historical vendor activity, and all associated expenses. Additionally, the system can print checks for vendor payment based on a variety of arguments. The AP module can be used as an independent system or in conjunction with other SBSG modules. When utilized with the GL module, data needs to be entered only one time.

PAYROLL

The Payroll system is one of the most complete payroll packages available on the market for small business microcomputer use. The system will promptly and accurately pay your employees, produce documents required by federal and state agencies, and create reports for management use. Since the system is user-configurable, SBSG Payroll will allow you to run your system your way. When coordinated with the GL module, the Payroll will perform applicable postings to up to 12 different GL liability and expense accounts as well as posting to cash. File maintenance of Federal and State Tax tables may be accomplished by the user when changes occur. Up to nine state tax tables may be stored on-line and utilized simultaneously. Flexible reporting features also support multiple state tax payrolls. Works in every state.

INVENTORY

The Inventory module was designed to meet the specific needs of retail and wholesale operations. All information is easily accessible and reportable, with status reports and minimum reorder reports to help you reduce the potential hazard of overstocking which results in cash flow problems. Salespeople always have current price lists at their fingertips. The compatibility of these business oriented packages offers flexible data manipulation for informed decision making that was previously affordable only by large companies.

Complete detailed sample reports with specifications are available for $10, refundable or credited toward purchase of program module.
Due to licensing agreements, SBSG Accounting Software may not be returned after the sealed diskette envelope has been opened.

MAXI CRAS Check Register Accounting System

MAXI CRAS is a TRS-80™ computerized check writing and recording system for personal or small business use. With **MAXI CRAS,** you can print a month's worth of checks in minutes (singly or on continuous forms), or you can write checks by hand and enter them into the register at your convenience. **MAXI CRAS** also eases the burden of reconciling your bank statement by providing the information you need to know quickly and efficently. And **MAXI CRAS never** places a limit on your financial activity like some systems — **write as many checks per month as you need!**

But **MAXI CRAS** does much more than balance a checking account; it's an indispensable tool for managing money most effectively. You create up to 223 income and expense accounts in the system, and at any time, you can print a detailed statement that shows all activity in one or more of your accounts over a specified period of time. You always know exactly where your money is coming from and where it's going.

There's more! You can print complete check registers, income and expense sub-totals, and an account distribution statement that tells how each transaction was distributed over the individual accounts.

If you're weary of the messy, inefficient ledger method of bookkeeping, if you've been disappointed with other financial managing systems that don't deliver what they promise, then you're ready for best. We mean it when we say — **MAXI CRAS MEANS BUSINESS.**

TRS-80 Model I/III/4 (48K), IBM PC or 8-Inch CP/M Disk $99.95

MAXI MAIL Mailing List Management System

The **ultimate** in low-cost mail list management is now here — **MAXI MAIL,** the latest entry in the highly acclaimed **MAXI** series. **MAXI MAIL** is a powerful mail list management system that's easy to use and has **totally unlimited storage capacity.** Completely menu-driven and loaded with error trapping routines and safeguards, each **MAXI MAIL** data disk will hold approximately 1000 names and addresses; you can add as many extra data disks as you like! **MAXI MAIL** prints address labels, too — up to four across and in any configuration you want. An alignment test ensures that everything is just right before your data printing begins. **MAXI MAIL** also merges data, supports three numeric codes (of up to four characters each), and offers all of the features necessary for professional mail list management.

So, if you need a dependable, easy-to-use mail list management system at an affordable price, your search is at an end. **MAXI MAIL** means business!

COMMUNICATIONS SYSTEMS

SMALL BUSINESS SYSTEMS GROUP

Small Business Systems Group markets a complete line of software which interfaces the TRS-80™ with ANY computer that communicates in ASCII. This family of products offers both terminal and host capabilities to users with even the most minimal hardware configurations. There has been wide interest in these products from "comm buffs," the educational community, and **businesses and individuals who need to communicate on a regular basis.** Our systems are among the most versatile and comprehensive on the market today for TRS-80™ microcomputers.

ST80-III™ -- The Ultimate Communications System

The "state of the art" in communications processors, designed for complex commercial applications. Included in this package is a set of programs that allow your TRS-80™ to talk to a timesharing computer, transfer files to and from your central business computer, and customize your ST80-III to your specific application.

Features include: Selectable RS232 Setting • Help Display • Echo Feedback • Job Log (LDOS Mod I, Mod III) • 2-User Translation Tables • Auto Logon • 10 Function Keys (Definable) • RUBOUT Key (Definable) • Warm Restart • Automatic I.D. • True Break • Direct Cursor Addressing • DOS Command Support • Transmit Line Feed • Printer Support • Video Display Modes: SCROLL, FORMAT, PAGE, REVERSE VIDEO (Mod II), CURSOR ON/OFF • Auto-answer • Autodial (certain modems) • Append to memory buffer • Big buffer for printer • Off hook / on hook • 10 predefined ASCII strings in translation tables, • Registered users include NASA, USN, UPS, Westinghouse, and many colleges, universities and major banks.

Minimum Requirements: One disk drive, RS232-C, 32K Model I or III, 64K Model II.

Model I or III/4 ..... **$150.00**

Model II/12/16 ..... **$250.00**

FORUM-80™ -- Communications Network

With Bill Abney's hot new communications product, you and your TRS-80™ can become part of one of the fastest growing communications networks in the country; your computer becomes an on-line bulletin board system: users can leave messages, get messages, swap information; exchange VisiCalc™ reports, charts, graphs or other correspondence with other computers.

Features Include: Security System • Constantly displayed time-in-use figure • User Friendly • User Configurable or can be modified for custom application • Future updates and upgrades available to register owners • Multiple command strings • Non-technical user and operator manuals.

DELPHI™

Bulletin Boards

- A public system where members can place messages for other members. Bulletin boards are available for owners of specific computers, general news and uses of Delphi, software and hardware reviews, and special interest groups.

Conference

- Gives two or more members who are "on-line" at the same time the ability to "talk" to each other through their keyboards.

Delphi Mail

- A comprehensive private message-delivery system allows you to exchange personal messages with other members, put your mail into files for later retrieval by topic and get a directory of all your mail messages.

Delphi Banking

- Allows you to pay your bills directly from your keyboard, without the hassle of checks, stamps and envelopes. You don't have to keep a balanced check register — Delphi even reconciles your statement.

The Delphi Library

- A tremendous on-line reference library includes a cross-referenced encyclopedia with information on more than 20,000 topics, a library of financial and statistical programs, and the Research Library — a vast collection of data from over 200 different databases, which, if produced in printed form, would fill more than a mile of bookshelf space.

News

- An on-line news service that uses the searching and indexing power of the computer to retrieve the stories you want. Accesses all of the major wire services and schedules of events in Washington. When you provide a profile of the topics that interest you, the News service will list all related stories for you

Online Markets

- The BAZAAR is a Marketplace where items of all sorts may be offered for bid, sale, lease, etc
- The CATALOG is like mail or phone order, only quicker. Merchants of everything from computer software to radios may use it for gathering orders without the use of expensive WATS line
- COMP-U-STORE is a complete shop-at-home service. With it you can comparison shop and then order delivery direct from the manufacturer or distributor at substantial savings (this is a premium service which requires an annual membership fee)

Travel

- This is a collection of services which enables you to review current airline schedules, check on the availability and price of hotel accomodations worldwide and on rental cars through the U.S. That's not all -- you can also use Delphi to place your airline, hotel and car reservations!

Scheduler

- Keeps track of all your appointments, and gives you a list of today's appointments when you sign on

Programming Languages

- BASIC-Plus-2, COBOL, FORTRAN-77, and Pascal are all available for your use through Delphi, providing mainframe power and massive on-line storage

Infomania

- This is a collection of publications and services which come from members of Delphi -- an open forum for exchange of information

Writer's Corner

- A "toolkit" for your use in writing, editing and publishing, from programs to books. Normally, publications submitted by members appear in Infomania "Best Sellers" from Infomania may find their way to other parts of Delphi, and their authors may be eligible for royalties.

Online Typesetting

- This feature allows you to prepare a text file for typesetting on a high-speed digital phototypesetter in any of 200 different typestyles and sizes. Foreign language symbols, rulings, kerning and expansion can all be accomodated. Finished copy can be returned to you by Federal Express

Storage

- You will be charged for information stored in files under your control, and for information in mailings sent to more than one member. The first 50,000 characters stored (month's average) is free, with a $0.05 charge for each additional 1,000 characters.

Lifetime membership fee plus $5 per hour minimum charge for access time from DELPHI (No monthly minimum).

The ELECTRIC PENCIL 2.0 for TRS-80 Models I and III

NOW AVAILABLE! **(disk) $89.95 (tape) $79.95**

Editing Utilities for the ELECTRIC PENCIL 2.0!

BLUE PENCIL - A text proofing addition to THE ELECTRIC PENCIL. BLUE PENCIL reads the text file and notes any spelling errors on the video or printer. It recognizes prefixes, suffixes, hyphenation and comments. The word dictionary is infinitely expandable - by you! You can add or delete your own vocabulary of words to BLUE PENCIL's dictionary.

BLUE PENCIL comes with a 50,000 word dictionary (equivalent to a Webster's Pocket Dictionary.) Typical proofing time for a 60,000 word text file is under two minutes. Requires 32K minimum, 1 disk drive. **$89.95**

RED PENCIL - A text correction addition to THE ELECTRIC PENCIL. RED PENCIL automatically CORRECTS errors detected by BLUE PENCIL. RED PENCIL displays each misspelling and typo separately and offers you a choice of options which include: retyping the misspelled word, leaving it as is, adding it to the dictionary or displaying the word in context. If you choose to display the word in context, then you are again offered the first three choices. The text is instantly corrected and you may then proceed with your word processing chores. Typical correcting time for a 6000 word file is under two minutes. (Note: time may vary depending on the number of spelling errors.) Requires 32K Minimum, 1 disk drive and BLUE PENCIL. **$59.95**

THE ELECTRIC PENCIL FOR THE IBM Personal Computer

GOT BUGS IN YOUR TRS-80 or APPLE?
Get Disco-Tech's Disk Drive Timer
For TRS-80 Models I, II and III or Apple

Get the bugs out of your disk drives with DDT, Disco-Tech's disk drive timer and analysis program, which lets you analyze disk drive motor speed within a tenth of an RPM (out of 300) with a real-time graphic "speedometer." DDT analysis is faster and more accurate than strobe timing and doesn't require costly equipment. Everything you need is in this package. Incorrect motor speed causes lost data and program incompatibility. DDT lets you check disk drive motor speed **routinely** with a detailed motor speed analysis, so your drives are always running right.

TDK Premium Quality Diskettes.
TDK diskettes mark a new high in diskette technology. They are so reliable that they're *guaranteed for life.* Not for 1 year, not for 5 years, but with a replacement warranty good for *as long as you own the diskettes!*

DataLife Diskettes by Verbatim
Verbatim DataLife diskettes carry a full *5-Year Warranty,* and their record of error-free performance is practically legend. No wonder more people use Verbatim DataLife diskettes than any other brand!

3M - The High Quality, Low-Cost Diskette
Few names in the data recording industry are as respected as 3M. For durability, reliability and *guaranteed* error-free performance, demand 3M diskettes.

Few things are as important as the data you're storing on diskettes. In many cases, the data itself is priceless. And in *all cases,* you'd be very upset if the data were lost forever and had to be re-created from scratch. So why trust your data to less-than-top-quality diskettes?

All diskettes sold by H & E Computronics, Inc., are *certified* 100% error-free and come with Hub Rings installed. Diskettes are available for every major microcomputer.

SOFTWARE FOR EVERY MICROCOMPUTER

MINI-PACS™

TELEPHONE DIRECTORY

Stores and instantly recalls all of your important telephone numbers. Also stores complete address information along with any user-created messages related to each entry. Instantly access any record, change, delete or add information. Duplicate records may be printed out on tractor-feed paper (in list format) or on tractor-feed index cards.

Cassette or Diskette **$49.95**

THE PERSONAL CHECK REGISTER

Tired of manual keeping track of your check register? The personal check register will keep track of all deposits and outstanding checks. Simple to use (even if you don't like your computer!). Enter information from your own handwritten checks or use low cost tractor-feed checks available from rapidforms.

Cassette or Diskette **$29.95**

HOME BUDGET MANAGER

Includes all the functions available in the personal check register. But home budget performs additional financial functions such as budgeting available money on a monthly and yearly basis. Keeps track of all income and expenses. You may use program-defined income and expense categories or customize the software by defining your own categories.

Cassette or Diskette **$49.95**

MULTIPLE AND LINEAR REGRESSION

Multiple and linear regression are important tools used in predicting future trends (sales, business, interest, etc.). Most software programs of this type only use linear regression. This program is capable of both linear and multiple regression and calculates the correlation coefficient.

Cassette or Diskette **$29.95**

ARITHMETIC TEACHER

Teaches the basic number facts (addition, subtraction, multiplication and division). A built-in timer helps the child compete against his own best time. Once a child has mastered a certain task he is told that the skill has been mastered, and that no further study is necessary. Mastering these skills is essential to future mathematical success.

Cassette or Diskette **$29.95**

MULTIPLE CHOICE QUIZ WRITER

Outstanding software for teachers, parents, or students. Allows the user to easily create multiple choice or true-false tests. User selects number of questions and number of alternative solutions. The multiple choice quiz writer stores your test forever. Can be used with or without a printer. User can opt for random questions.

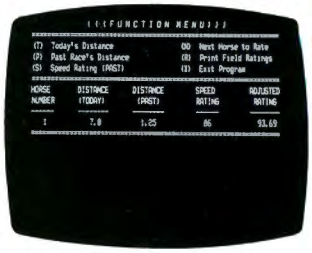
Cassette or Diskette **$29.95**

THE HORSE COMPUTER

We don't recommend betting on horses, but this program really works. Its purpose is to give a class rating for each horse entered in a race (either trots or throughbred). The user instantly determines which horses are running out of their proper class and eliminates these horses from contention. This easy-to-use system is based on pure science.

Cassette or Diskette **$29.95**

THOROUGHBRED DISTANCE ANALYZER



This program is based on scientific fact and is not a horse racing system. This software is used to adjust the past speed of every horse in a given race due to a change in distance. This speed factor is one of the most important factors affecting the results of a thoroughbred race. Can be used in conjunction with the horse computer.

EMERGENCY PREVENTION!

the Grizzly™

UNINTERRUPTABLE POWER SUPPLY FOR THE SERIOUS BUSINESSMAN

From Electronic Protection Devices, Inc.

THE GRIZZLY is no ordinary power line filter — it's an UNINTERRUPTBLE power supply that will keep your computer up and running even during a complete power blackout! If your power fails, THE GRIZZLY takes over instantly, providing full power for up to 20 minutes — more than enough time to safely close your files and shut down the system without losing data.

THE GRIZZLY also acts as a sophisticated noise filter and "spike" suppressor to prevent errors and data loss during everyday operations. THE GRIZZLY is perfect for any sensitive electronic equipment. It requires no special wiring — just plug it into any standard electrical outlet and you're ready to go!

MAKE ALL THE RIGHT CONNECTIONS WITH THE HAYES SMARTMODEM 1200

The Smartmodem 1200 is the state-of-the-art in high speed, direct connect modems -- it connects to any computer with an RS-232 port. The Smartmodem 1200 sends and receives data four times faster than the most popular modem on the market today, so it can save you as much as **50%** on telephone charges.

Easy to use features include automatic answering, auto dialing and redialing. You control the Smartmodem 1200 by simple commands from the keyboard, and a built-in control program makes it "intelligent" -- which means it analyzes your commands and responds with result codes (in English, if you wish).

The HAYES SMARTMODEM 1200 (pictured above) $699.95
The HAYES SMARTMODEM 300 (not pictured) $279.95

Learn to Program Like a Professional!

THE COMPLETE BOOK OF RANDOM ACCESS & DATA FILE PROGRAMMING

From D.S.C. Publishing — Distributed exclusively by H & E Computronics, Inc.

VOLUME I

VOLUME II

Written for TRS-80™ I, II, & III - IBM™/PC - APPLE™ M/S - OSBORNE™ - HEATH™ - DEC™ - SUPERBRAIN™ - and all Computers using CP/M with Microsoft BASIC™

The last word on disk random access and file handling techniques, this series is intended for everyone — beginning programmers, businessmen and professionals will learn how to create custom programs to handle inventories, mailing lists, work scheduling, record keeping, and many other tasks, while more experienced programmers will learn advanced, professional programming techniques for faster, more efficient data storage and retrieval.

Although random access file handling is a matter of some complexity, the subject has been treated in a simple and down-to-earth fashion, so that anyone with some small familiarity with programming in Microsoft BASIC will be able to cope with the material. Each stage of learning uses a sample program as a starting point. The programs grow in capability and complexity as the books progress into all of the various aspects of file handling and record manipulation. An extensive effort has been made to keep the material coherent and every program line is explained in detail.

Volume I
BASIC FILE HANDLING

- The writing of a Menu to summarize program functions
- Screen format for data entry
- The creation of a basic record
- The FIELD and LSET routines for buffer preparation
- Disk storage of random access records
- Changing or editing stored records
- The LPRINT capability from disk using three different formats
- Sorting the random file
- Searching by name or key field
- Search in "next" or "prior" fashion
- Purging deleted records
- Using disk file data for calculations
- Future expansion of data fields
- Using flags to prevent program crashes
- Date setting, printer on-line and many other professional routines

VOLUME I $29.95
Optional Vol. I Program Disk
TRS-80 Model I/III/4 or IBM PC $28.50
TRS-80 Model II/12/16 or CP/M Systems $32.50

Volume II
ADVANCED FILE HANDLING TECHNIQUES

- Relational database programming
- Comprehensive self-balancing accounting system with printouts
- Hashcoded data file manipulation -- (probably the fastest method of data retrieval). Hashing the input key and recovery method explained
- Span-blocking techniques allow creation of records longer than 256 bytes without wasted space
- Blocking & Deblocking
- Shell-Metzner sort
- In-place screen editing
- Recovery of deleted record space
- Alpha-index record retrieval
- Fast machine language/BASIC sort
- Linked list record structure and sort-merge, deleted record removal and file reorganization
- Multi-key file reorganization and record searching

VOLUME II $29.95
Optional Vol. II Program Disk
TRS-80 Model I/III/4, II/12/16,
IBM PC or CP/M Systems $49.95

CONTINENTAL SOFTWARE

THE HOME ACCOUNTANT
Personal Finance (disk) **$74.95**

A complete home financial management program. Program includes checkbook balancing, budgeting, printing of checks, a personal general ledger and a net worth statement. Full high resolution graphing of all assets and liabilities. Maintains a history of all transactions.

T & F SOFTWARE

CHECK EASE
Finance (cassette or disk) **$34.95**

Maintain multiple checking accounts, complete with full checkbook reconciliation and budget catagories. Change or delete any check, check or deposit amount, or deduction and CheckEase will automatically update all balance figures. Print by check number, category or if item is tax deductable. VIC-20 users can even save months worth of check data in a format compatible with Commodore's Personal Finance package for later analyzation.

BRODERBUND SOFTWARE

BANK STREET WRITER
Word Processor (disk) **$69.95**

Almost anything you would ordinarily use a typewriter for the Bank Street Writer will help you do better. Powerful, yet simple, the system has no complex codes to memorize. The screen guides you every step of the way as you prepare error-free reports, compose and revise letters, and much more. Also included are tutorial and utility programs, a comprehensive reference manual and a free back up disk. Requires BASIC cartridge and 810 Disk Drive.

CHOPLIFTER
Arcade (48K cartridge) **$39.95**

Your mission is to rescue hostages from behind enemy lines. You must maneuver your helicopter through a sky full of enemy jet fighters and air mines. Once you've landed, hostages will run toward you through a barrage of tank fire and air-to-ground missiles while you try to hold off the enemy. Each flight back to safety is particularly nerve-wracking, since a full load of hostages will perish if you go down!

SERPENTINE
Arcade (cartridge) **$39.95**

An a-maze-ing game about hunger and survival. You control a multipede who must pursue other multipedes through a dense maze. (Of course, they are also pursuing you!) Sneak up behind them and they're your lunch. Eat 'em quick before they split into smaller sections. Meet them head-to-head and it's all over for you. Frogs and spiders appear from time to time just to keep the game interesting. Features hi-res screen and smooth animation.

SIERRA ON-LINE, INC.

JAWBREAKER
Arcade (cartridge or disk) **$29.95**

This arcade game takes you to the candy store for a wild game of tag with some of the rowdiest playmates you'll find anywhere. If you can eat all the sweets, the bratty kids will stop bothering you. After a quick stop and a brushing of the teeth, its off to the store for another day of sweets and tag.

FROGGER
Arcade (cassette or disk) **$34.95**

Move five frogs in a limited amount of time across four lanes of traffic, then jump on the backs of diving turtles and moving logs as you cross the pond to reach the safety of home. Once they are all home, the game advances to a level that threatens you with tightly spaced cars in the one fast lane, deadly snakes that patrol the bank, and logs, hungry alligators and otters that move with the current. Logs become faster and fewer and the diving turtles usually disappear just when you need them. Gobble insects and escort a female frog home for some extra points. Includes sound effects and graphics.

O'RILEY'S MINE
Adventure (cassette or disk) **$29.95**

You're an Irishman with a short temper for adventure—unless of course, it pays off. You have just got a tip that leads you to an abandoned mine full of mind boggling treasures—gold, rubies, diamonds, coal and oil. You have to make it down mysterious depths to get the treasure while avoiding a weird assortment of creatures. You'll need the luck of the Irish to survive this one, but with so much at stake, it's a chance you're willing to take.

HESWARE

GRIDRUNNER
Arcade (cartridge) **$29.95**

Sixty-four owners can now defend the Earth's orbiting solar power station, "The Grid" from enemy Droids. Incredibly fast action, arcade quality game with multi-levels and options. Joystick definitely required.

HESMON 64
Music Synthesizer (cartridge) **$39.95**

Hesmon 64 is an adaption of the Hesmon cartridge for the Commodore 64. Hesmon is a 6502/6510 machine language monitor with a mini-assembler that is for all assembly language programmers.

EPYX/AUTOMATED SIMULATIONS

TEMPLE OF APSHAI
Adventure (cassette or disk) **$40.00**

A role-playing game that catapults you into a world of magic and monsters—doomed cities and damsels in distress. It's also an alter-ego experience. Complex factors that make up a human being are abstracted into a few basic characteristics: strength, constitution, dexterity, intelligence and ego. Via your role-playing character, you'll venture into an unknown labyrinth and be at home with the like of skeletons, zombies, spiders and wraiths. Discover for yourself the fantasy world of Apshai!

JUMPMAN
Arcade (cassette) **$40.00**

With quick wit, unparalleled speed and seven lives, Jumpman must scale ladders, girders and ropes, and fight off Alienators to diffuse a bomb that could destroy Jupiter.

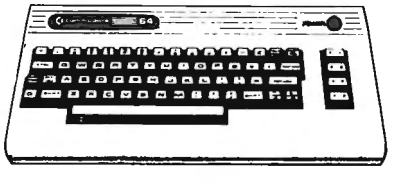
DATASOFT

POO YAN
Arcade (cassette or disk) **$29.95**

Poo Yan requires quick reflexes and fast thinking as you battle a pack of vicious, hungry wolves in order to protect helpless piglets roaming the forest. Clinging to air-filled balloons, the wolves travel up and down the forest valley as you glide up and down in a tram car. As the wolves hurl objects, you try to lure them out of battle by tossing chunks of meat at them. You also have a weapon on hand—a bow-and-arrow. For one or two players. Poo Yan includes two scenerios and colorful graphics. Joystick required.

GENESIS
Arcade (cassette or disk) **$29.95**

In the beginning insects inhabited the earth and only the strong survived. As the deadly scorpion in Genesis, your domain is patrolling the brick wall above a pit of insects. Your tail packs a powerful sting and you'll have to use it often to keep the bugs away. As bugs scale the wall and attack, you can paralyze them with a direct hit. If you miss, one of your three lives dies. As the battle intensifies, a red brick cuts off your path. Step on it and you're closer to death. However, when it flashes green, you have a chance to double your score.



We stock more than 1,000 products for C-64. For prices, just call with the name of any product and its manufacturer.

SPINNAKER SOFTWARE

SNOOPER TROOPS #1
Reasoning Game (disk) **$39.95**

As a Snooper Trooper, your job is to find out who is trying to scare the Kim family out of their new home. But, it will take some daring detective work. You will have to question witnesses, uncover background information and even search dark houses to find the facts. Your equipment includes, a SnoopMobile, a wrist radio, the SnoopNet computer, a camera for taking Snoopshots and a notebook for keeping track of the information you uncover. Snooper Troops helps children learn to take notes, draw maps, classify and organize information, and develop vocabulary and reasoning skills. Features full color graphics and sound. For ages 10 to adult.

SIRIUS SOFTWARE

CRITICAL MASS
Mystery (disk) **$39.95**

Five of the world's largest cities will be destroyed in five days unless you, Steve Stone-Private Detective, can save it! Time is running out so you must search the five cities and the world's darkest caves in order to locate some clues. You will have to travel by any means available, from automobiles to water-skiing to uncover this mysterious threat.

REPTON
Strategy (disk) **$39.95**

Buckle-up. You're on your way to save the world of Repton with your advanced model Armageddon spacecraft. Your armory includes five nuclear bombs, a shield, and an unlimited supply of missile fire. Enemies will be attacking you from all directions. While flying through the air, the enemy will be building its base and stealing power from your city. This base is actually the Armageddon bomb that will destroy everything on the ground, sending it to a lower level. Your mission is to destroy them before they complete the bomb. Points are earned through the destruction of the enemy craft, both above and below ground.

INFOCOM

SUSPENDED
Strategy (disk) **$49.95**

In Suspended, you will strategically manipulate six robots. Each has a distinct perception of the world and offers you specific abilities. For instance, one specializes in sight, a second in hearing and a third in accessing information from computer memory banks. Through them, you will solve an intertwined myriad of realistic and original problems. Suspended continually challenges you to hone your strategies and develop new ones, to explore new areas and interactions, and in so doing, to improve your score each time you play. The game is also designed so that you can alter conditions at will before starting, effectively allowing you to customize the game whenever you desire.

WITNESS
Mystery (disk) **$49.95**

The Witness is the second game in the Infocom mystery series. From writing to personalities to settings to packaging, The Witness reflects the classic whodunits of the 1930's in incredible detail. Mystery enthusiasts will love the packaging, which includes a user's manual that looks just like a 1930's detective magazine. The rest of the packaging is also full of clues.

ZORK I
Adventure (disk) **$39.95**

The great underground empire confronts you with perils and predicaments ranging from the mystical to the macabre as you strive to discover the Twenty Treasures of Zork and escape with them and your life. First in the Zork Trilogy.

ZORK II
Adventure (disk) **$39.95**

In Part Two of the Great Underground Empire you are placed at the entrance to a long-hidden region of the empire, a region under the control of the Wizard of Frobozz. Many strange tales have been told of fabulous treasures, exotic creatures, and diabolical puzzles to be found here. The aspiring adventurer had best equip himself with light (for the caverns are dark and gloomy) and weapons (for some of the inhabitants are unfriendly).

ZORK III
Adventure (disk) **$39.95**

The Dungeon Master is the final test of your courage and wisdom in the Zork Trilogy. Your odyssey culminates in an encounter with the Dungeon Master himself and your destiny hangs in the balance.

LOTUS DEVELOPMENT CORP.

1-2-3
Spreadsheet/Graphics/Database **$495.00**

The first software package that combines spreadsheet, graphics and information management functions into a single software program. Allows you to move information from data files to spreadsheet analysis to graphic display in a matter of seconds, all without changing disks or re-entering data. Easy to use formulas can be entered in English and the program makes maximum use of the computer's function keys, including HELP! Features include 256 columns and 2048 rows (twice the memory of other software), functions such as present, net present and future values, variance, standard deviation and internal rate of return. 1-2-3 can produce a bar chart, stacked bar chart, line or symbol graph, XY graph or pie chart. With 1-2-3 you can sort and extract a sales report that's compiled alphabetically and rearrange it numerically by salary, commission, territory – any way you want it, in less than a second. Requires two double-sided disk drives.

SOFTWARE PUBLISHING CORPORATION

PFS: FILE
Database **$140.00**

The PFS Software Series is designed to solve personal information management needs. PFS FILE, the first program in the series, lets you create a data file by simply painting a form on the screen. No field formats, record sizes, or complex syntax strings are required. Key PFS·FILE features include "free form" screen design, entry, searching, and editing. Fast primary item form access. Multiple (up to 32) page forms allowed. Multiple line data items (up to a page each). Can print selected items from information in forms (such as mailing labels or phone lists). Up to 1000 one page forms can be stored on a single diskette.

PFS: REPORT
Report Generator **$125.00**

The PFS: Software Series is designed to solve personal information management needs. PFS REPORT sorts, calculates, totals formats, and prints the information in your PFS files. Up to nine columns can be printed, with the first two automatically sorted either numerically or alphabetically. Up to three columns can be derived from data in other columns. PFS REPORT even automatically formats and is used without any programming! Features include: calculating subtotals, totals, subaverages, averages, subcounts and counts on any column; up to nine columns per page; automatically formats the print out by searching for the longest item in each column and setting the width accordingly (up to 160 columns); pre-defined report specifications can be saved to disk and used repeatedly; user definable report title and column headings; 100% compatible with PFS FILE.

INFORMATION UNLIMITED SOFTWARE

EASY FILER
Database
(Requires 96K, MSDOS) **$400.00**

This advanced database manager and report generator lets the user store, sort, manipulate and retrieve company records, and produce timely, effective reports. Easy to use and simple to learn, Easy Filer allows you to custom-design an electronic file cabinet, as well as quickly enter, change and sort the information you want.

EASY PLANNER
Finance **$250.00**

Easy Planner gives the user programmability and interactive worksheet capability. "What-if" analysis is easy, flexible and productive. It works with Easy Writer II for customized financial presentations. If you perform repetitive tasks such as price quotations or updates to budget forecasts, you can easily program a sequence of standard worksteps. Programs can be created to consolidate multiple worksheets, or perform calculations conditionally. Program steps can be used to compare values and branch to another section of the program, load another workstep program from disk, and load a block of values from another sheet. Practical applications include reports for Break-Even Analysis, Revenue and Profit Projections and Price Projections.

ASHTON-TATE

THE FINANCIAL PLANNER
Finance
(Available in MSDOS or CP/M-86 format) **$700.00**

A system for the construction of spreadsheet applications and financial planning language. Since it is a development system, users can develop their own reporting applications that involve multiple models and reports. The Planner is flexible, allowing you complete control over the order of processing. A separate report writer formats any number of reports. In addition, it allows you to perform complex consolidations supporting any number of levels in a hierarchy and performs goal-seeking. Key applications include: profit and loss forecasts, budget planning, cash flow management, real estate development analysis, capital investment analysis, and many others.

MICRO PRO

WORDSTAR
Word Processor
(Available in MSDOS or CP/M-86 format) **$495.00**

Easy powerful incredibly versatile! With WordStar what you see is what you get. The screen shows you exactly what will be printed. And WordStar's numerous on-screen instructions make it simple to use its many capabilities. WordStar now comes with a completely rewritten easier-to-understand manual. Also available are a Training Guide for beginners, a Reference Card listing WordStar commands and a set of adhesive labels that show WordStar functions on your keyboard.

MAILMERGE
WordStar Utility
(Available in MSDOS or CP/M-86 format) **$250.00**

MailMerge is a powerful, multi-purpose file-merging program used with WordStar. One of its most popular applications is producing personalized form letters. MailMerge lets you combine a file of names and addresses with a WordStar file containing a form letter. You can even insert special words and phrases – unique to each addressee – into the body of each letter. Other uses for MailMerge include: creating invoices, printing mailing labels and producing "boilerplate" legal documents out of many different standard paragraphs.

SPELLSTAR
WordStar Utility
(Available in MSDOS or CP/M-86 format) **$250.00**

SpellStar is a spelling checker program that works with WordStar, saving you countless hours of proofreading. SpellStar checks your text against its 20,000 word dictionary-on-a-disk. You can add your own words to SpellStar's dictionary or create any number of supplemental dictionaries. Because SpellStar operates within the WordStar program, you get to see your mistakes highlighted in context. And you're always only one keystroke from full word processing.

DATASTAR
Database Utility
(Available in MSDOS or CP/M-86 format) **$295.00**

DataStar is a high-powered data entry and retrieval program comprehensive, versatile and fast. DataStar features power and facilities usually found only on large key-to-disk systems. And it gives you remarkable flexibility in designing your own data forms to match your exact needs before entering data. The program includes sample forms to guide you.

CALCSTAR
Spreadsheet
(Available in MSDOS or CP/M-86 format) **$195.00**

Use CalcStar to answer those "what if" questions you face daily in business. Designed as an electronic spread sheet and financial modeling program, CalcStar calculates solutions to complex numerical problems in business and finance. It helps you make budget plans and sales forecasts with greater speed and accuracy. And it projects figures into the future so you can see how the decisions you make today will affect your profits in the future. CalcStar also joins with WordStar to combine spread sheet and word processing capabilities. For example, you'll gain printing options like boldface and underlining and the ability to insert sections of CalcStar spread sheets into your word processing. Extremely handy for such things as budget reports.

BLUECHIP SOFTWARE

MILLIONAIRE
Strategy **$59.95**

Millionaire is a fun, complex game and a real education in the art of playing the stock market. The object is to become a millionaire in the stock market. At first this is done solely through investments, but as the player's fortune builds, options expand. A game takes about two hours and is played a "week" at a time over the course of 77 weeks. The same kind of information used by real-life investors is provided to help the player make informed decisions: charts of overall market activity over an extended period of time, charts of the performance of select industry segments, tables showing highs, lows and the most recent price for each stock in the news. It keeps complete records of performance and holdings for up to 14 players.

VISICORP

VISICALC
Spreadsheet
(Atari 800, 32K disk) **$250.00**

VisiCalc displays a huge 'electronic worksheet' that replaces paper, pencil and calculator to automatically solve nearly any number problem. The wallsized worksheet can contain more than six typewritten pages of information. Just type in labels, numbers and mathematical formulas and VisiCalc instantly calculates the results. Then play "What if ?"— change one variable and VisiCalc automatically recalculates the entire problem so you can see the effect.

Features include: Forecasting and Projecting: Cash flow, sales, inventory, production and purchasing levels, product/market growth, income statements, balance sheets; Analyzing: stock fluctuations, P&L statements, structural designs, real estate investments, personal expenditures, buy vs. lease, agricultural crop returns, etc.; Computing: trust fund reports, seller's and buyer's closing costs, pricing, taxes, proposals, job cost and material estimates, engineering and scientific data, classroom grades, baseball team statistics, etc.; Planning: new business ventures, budgets, workloads, advertising media schedules, office space expansion, five-year plan, pricing—in fact, nearly any business plan and financial model;

Powerful Recalculation feature lets you change any number or formula and immediately all numbers affected by that change are recalculated and displayed. Replicate feature duplicates any entry—label, number or formula—anywhere else on the worksheet without you having to retype it over and over; "Window" feature splits the display into two parts or "windows," either horizontally or vertically, to view separate portions of the worksheet. Variable Format sets any or every number to integer, general, dollars and cents, left or right justified, or histogram (simple graph) with just three keystrokes. Automatically Calculates simple math functions (+, -, x, /) and built in formulas (Sum, Average, Net Present Value, Counting, Minimum, Maximum).

MICROSOFT

MULTIPLAN
Financial Planning
(Apple II, 64K) **$250.00**

A software program that turns your microcomputer into an answer machine. It starts as an open worksheet of rows and columns. You build your worksheet on this grid by entering titles, names, numbers or formulas, building a worksheet for a particular problem. You establish the logic. Multiplan assigns the time-consuming calculations to the computer. A completely interactive electronic worksheet, Multiplan is written in English. There are no confusing codes. The worksheet is 63 columns wide by 255 rows deep. You can open multiple windows to other areas of the worksheet. Use it for business analysis, forecasting, technical and engineering projections and for your household and personal finances. Requires a Z-80 card.

SORCIM

SUPERCALC II
Spreadsheet
(Z-80 card & 80-column board req.) **$295.00**

SuperCalc makes it possible for decision makers to manipulate data quickly, setting up exactly what's necessary for in-depth analysis and modeling. It all takes place on the SuperCalc spreadsheet simulator screen. You can examine and alter numbers and text within a grid that can cover up to 63 columns and 254 rows of data. It's valuable for "what if" and "now what" questions. It only takes a moment to enter the new figure in the appropriate column and SuperCalc automatically calculates the rest of the spreadsheet. It's been designed to use the minimum number of commands to get the maximum power, and it's self explanatory: just press the "?" key if you need assistance.

ASHTON-TATE

D BASE II
Database
(req. Z-80 card & 80-column board) **$700.00**

dBase II is an assembly language relational database management system which is an information handler, not a file handler. You don't have to get involved with sets, lists, pointers, and other complexities. Data entry is easy, and it can be programmed so that even untrained personnel can run applications. It has a full English-like language of its own. Changing, extending, or modifying of databases takes only a few simple commands. Creating a new database is simply a matter of naming it, then deciding how big to make the fields and what kind of data to keep in them. Entire databases can be moved, copied, or otherwise manipulated without having to re-enter data. dBase II doesn't make you change the way you do business and lets you use your existing forms. With dBase II you can extend the power of your microcomputer to jobs that were previously reserved for larger mainframes such as General Ledger, Journal of Accounts, Payroll, Check Management and Writing, Document Cross Referencing, Accounts Receivable, Accounts Payable, etc.

Pie Writer has two display modes. The first, without the use of an 80-column card, allows a display of 38 columns across the screen; the second, with a card installed, displays 78 columns of text. Both allow up to 21 lines of text on the screen at one time. A manual is offered, supplying sample lesson plans in a clear and concise tutorial, and a reference manual is provided that allows the user to find the specific command or series of commands needed to perform a function.

APPLIED SOFTWARE TECHNOLOGY

VERSAFORM
Form Processor
(Apple II, II+, 64K) **$389.00**

A powerful system specifically designed for total forms processing on a personal computer. It requires no computer background to use—if you can design a rough form with a pen and ruler, you can instruct VersaForm to automate your business records. This system operates within the familiar structure and work flow of existing pre-printed forms, making it possible to use your computer with only minimal changes in the way you now do things. VersaForm can even be instructed to catch mistakes people often make with both forms and computers. Purchase orders, invoices, statements, sales orders, personnel index forms—the documents that all businesses require—can now be processed by VersaForm. It also performs many functions usually assigned to data base managers and file management systems such as directories, name lists, inventory management, and shop floor reports. Once the information has been entered and processed, it can be sent back to a pre-printed form or blank paper that becomes its own form. Management reports can be produced summarizing information from the completed forms.

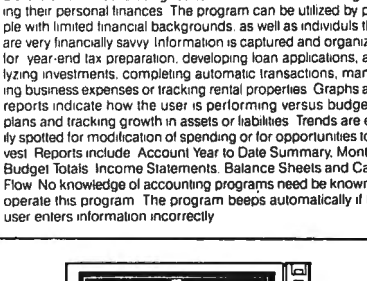
The 1983 edition of the Tax Preparer makes the preparation of tax returns easier than ever. New features for the novice include a built-in road map for error-free preparation, fool-proof recovery from operator error, expanded manual with step-by-step tutorials, fully automatic computations based on IRS regulations and built-in calculator for easier data entry. New features for the professional include instant access to any section of any form, rapid movement up, down, in, and out of any form, a new disk library system for managing hundreds of clients, a summary letter for client billing, two-printer option and manual override for unusual tax situations. The old features are still there, including on-screen facsimiles, low-cost updates, tax bookkeeping, printing on official 1040s, printing of IRS facsimiles, auto-linking, state supplements and interactive or batch printing.

MONOGRAM

DOLLARS AND SENSE
Personal Finance
(Apple II, 48K) **$100.00**

Dollars and Sense is designed to assist consumers in organizing their personal finances. The program can be utilized by people with limited financial backgrounds, as well as individuals that are very financially savvy. Information is captured and organized for year-end tax preparation, developing loan applications, analyzing investments, completing automatic transactions, managing business expenses or tracking rental properties. Graphs and reports indicate how the user is performing versus budgets/plans and tracking growth in assets or liabilities. Trends are easily spotted for modification of spending or for opportunities to invest. Reports include: Account Year to Date Summary, Monthly Budget Totals, Income Statements, Balance Sheets and Cash Flow. No knowledge of accounting programs need be known to operate this program. The program beeps automatically if the user enters information incorrectly.



We stock more than 1,000 products for APPLE. For prices, just call with the name of any product and its manufacturer.

SILICON VALLEY SYSTEMS

WORD HANDLER
Word Processor
(Apple II, 48K) **$59.95**

The Word Handler is a single-key command word processing program that runs without hardware modifications. It gives you full line capability on the screen, unlimited tabs, incremental spacing, vertical spacing and a two character format. Includes lower and upper case, underlining, superscript, bold and even and normal justification.

VISICORP

VISICALC 3.3
Spreadsheet
(for Apple IIe) **$250.00**

VisiCalc displays a huge 'electronic worksheet' that replaces paper, pencil and calculator to automatically solve nearly any number problem. The wall-sized worksheet can contain more than six typewritten pages of information. Just type in labels, numbers and mathematical formulas and VisiCalc instantly calculates the results. Then play "What if ?"—change one variable and VisiCalc automatically recalculates the entire problem so you can see the effect.

PBL CORPORATION

THE PERSONAL INVESTOR
Stock Portfolio
(Apple II, 48K) **$145.00**

The Personal Investor is a portfolio management, news terminal and quotation system designed to allow the private investor to take control of his securities investments. Connect your computer with the Dow Jones News/Retrieval service to update the value of your portfolio, retrieve business news and information and collect quotations. This service gives you instant access to the Wall Street Journal, Barrons, Dow Jones/News Service, stock/option/bond quotations, sports, weather and the Acadmic American Encyclopedia. The Portfolio Manger records and reports on stock purchases, commissions, dividend yields and sales transactions. It automatically calculates splits, gains and losses, and each purchase is accounted for individually. Quotations on a pre-assigned list of stocks can be automatically collected and saved from the Dow Jones, then viewed or printed. Requires DC Hayes Micromodem or an Apple Com Card and an acoustic modem.

INFOCOM

STARCROSS
Adventure
(Apple II, 48K) **$39.95**

The year is 2186. You are destined to rendezvous with a gargantuan starship from the outer fringes of your galaxy. But first you must succeed in gaining entry to its mysterious interior. Once you enter, you will face other-worldly beings both helpful and harmful. Only you can meet the challenge that was issued eons ago, from light years away.

BRODERBUND SOFTWARE

BANK STREET WRITER
Word Processor
(Apple II, 48K) **$69.95**

Bank Street Writer provides general word processing capabilities in a simple, uncomplicated program that anyone can have up and running in less than ten minutes. It has global search and replace, and remembers to go to the beginning before searching. It moves sections of text around according to your will and it puts them back if you change your mind. It indents and centers, though it doesn't justify, uses lower and upper case and highlights text.

CHOPLIFTER
Arcade Game
(Apple II, II+, 48K) **$34.95**

Your mission is to rescue hostages from behind enemy lines. You must maneuver your helicopter through a sky full of enemy jet fighters and air mines. Once you've landed, hostages will run toward you through a barrage of tank fire and air-to-ground missiles while you try to hold off the enemy. Each flight back to safety is particularly nerve-wracking, since a full load of hostages will perish if you go down!

DATASOFT

ZAXXON
3-D Arcade
(Apple II, 48K) **$39.95**

The official home computer version of the highly popular arcade game. Unique color graphics surround you as you pilot your aircraft through a 3-dimension-like battlefield complete with enemy aircraft, anti-aircraft tanks, and nerve-shattering sound effects. For one or two players.

THE MOST ESSENTIAL PERIPHERAL FOR YOUR COMPUTER

THE LEMON™ THE LIME™ THE PEACH THE ORANGE™

Avoid data loss • unexpected rebooting • destroyed diskettes
strange printer characters • distorted video images

The LEMON™ - $59.95
Power Surge Protector with Six Outlets

The LEMON,™ The LIME,™ The ORANGE,™ and are solid state voltage clamping devices and EMI-RFI noise filters which utilize high speed semiconductor technology and are designed to protect all mini and micro computers, word processors, printers, disk drives, medical test equipment and sensitive computer controlled equipment that is plugged into an AC power line.

Transient overvoltages, commonly referred to as "spikes" or "glitches", are the major cause of software and hardware damage. The common cause of these transients are on-off switching of motors (air conditioning, refrigeration, elevators and copying machines, power-line regulators, electro-static discharge and nearby lightning strikes).

These protectors, from Electronic Protection Devices (EPD), will protect any electronic equipment from line disturbances, allowing it to operate without software faults or hang-ups and without hardware damage.

All EPD AC Surge Protectors and Filters are protected in "normal mode" (line to neutral) and "common modes" (line to ground) and neutral to ground. The ORANGE™ six-outlet unit with 4½ foot power cord and on-off switch and three-outlet unit that plugs into normal three-wire wall sockets are EMI-RFI Filtered Surge Protectors that will eliminate high frequency noises as well as transient surges.

The EPD line of AC Surge Protectors exceed IEEE 587-1980 Guide for Surge Voltages in Low Voltage AC Power Circuits.*

* current surges 6000 Volts up to 3000 Amps one time
