TRS-80™ Educational Systems

Add A TRS-80 Network 2 Controller

£349⁰⁰

All Cables Included

- *Allows Teacher's "Host" System To Up and Down-Load Program To TRS-80 Student Stations*

Network II Operating System. Allows easy management of student programs. You can simultaneously load a program into all 16 student systems at either 500 or 1500 baud, depending on the TRS-80 computers used. With optional printer connected to "host" computer, student programs can be loaded into the host and printed out. Use the Model I/III/4 as host and student stations, or with Colour Computers as host and student stations. Or, MC-10s may be used as student stations with either an MC-10 or a Computer Computer host. (MC-10 programs cannot run on the Colour Computer, but they can be loaded and saved using tape or disk). Controllers can be cascaded to connect more stations. 26-1211 .... £349.00
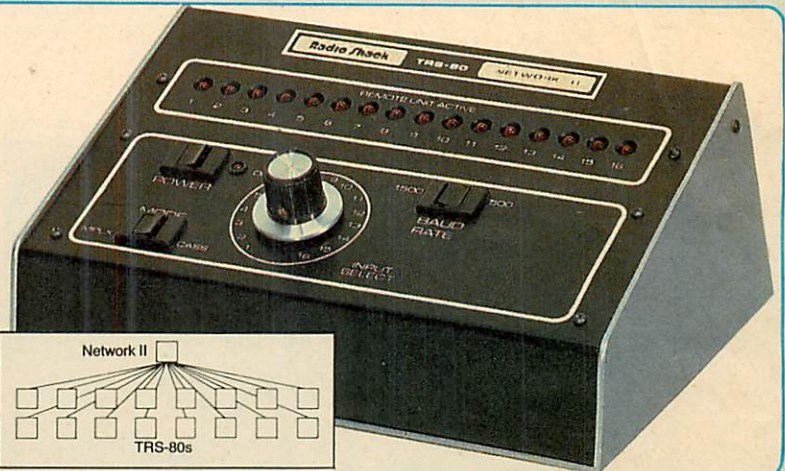

The Microcomputer as a Medium of Instruction

K-8 Math Program, Volume I. I/III* + E. Randomly generates drill and practice problems in number concepts, addition, subtraction, multiplication and division. Features student placement, skill building and test modes, plus automatic promotion and demotion.
26-1715 .... £159.95

K-8 Math with Student Management, Volume 1. I/III* C. With added student management feature. Monitors promotions and demotions, and allows for teacher review of scores. Starts each student in the appropriate lesson each session. Printer optional.
26-1725 .... £149.95

K-8 Math Worksheet Generator. I/III C. Prints worksheets and answer sheets from K-8 Math lessons. Teacher can print multiple copies of identical worksheets and worksheets with different problems at the same difficulty level. Worksheets can be saved on disk for later use or editing. Line printer required.
26-2162 .... £69.95

TRS-80 Network 3 Controller. III/4. Enables student workstations to access and select lessons stored on host system so teacher is freed from repeatedly loading programs. Under software control, scores can be automatically stored on the host disk for later review. An optional line printer attached to host computer lets students get printouts to their programs without teacher assistance. 26-1212 .... £429.00

Essential Math Program. Volume I and II. I/III* E. Volume I includes exercises in addition, subtraction, multiplication, division and number concepts. Volume II covers fractions, decimals and percents, and pre-algebra concepts.
Essential Math. Vol. I. 26-1716 .... £159.95
Essential Math. Vol. II. 26-1719 .... £159.95

Network 3 Operating Software. III. Supports the Network 3 host and its student stations. Permits student stations to SAVE and LOAD programs directly to and from the host disk. 26-2775 .... £89.95

Euclid Geometry Tutor. I/III* + E. Allows students to practice constructing proofs using nine basic postulates of Euclidian Geometry. Developed by a high school geometry teacher and tested extensively in the classroom. 26-1724 .... £24.95

TRS-80 Author I. I/III. A screen-orientated authoring system that allows teachers to create CAI materials. Features full-screen editing, graphics and automatic score-keeping option. 26-1727 .... £99.95

TRS-80 Author I Lesson Presentation Package. I/III. Presents lessons that have been created using TRS-80 Author I. Score recording and printing allows the teacher to print out student scores and timings.
26-2707 .... £44.95

TRS-80 MicroPilot. Create your own TRS-80 courseware or adapt it from any curriculum that's suitable for computer assisted instruction. Model I. MicroPilot I.
26-2205 .... £59.95
Model III. MicroPilot III. Model I commands, plus eight new commands. 26-2718 .... £79.95

Quick Quiz: A Mini-Authoring System. I/III. Makes it easy for teachers to create, store and give multiple-choice tests in any subject area using a TRS-80 computer. 26-1728 .... £19.95

Computers Past and Present. This classroom package illustrates the history of computers, what a computer is, what it can do, and how it works.
26-2755 .... £3.49

My TRS-80 Likes Me. A 32-page teacher's guide to helping elementary students understand and enjoy the BASIC computer language.
26-2751 .... 69p

Additional CAI simulation, problem-solving, or tutorial exercises for the secondary student.

Advanced Graphics. I/III* E. Plots graphs of functions and polar and parametric equations.
26-1714 .... £19.95
Vector Addition. I/III* E. Plots components and sums of student-provided vectors.
26-1720 .... £24.95
Graphical Analysis of Experimental Data. I/III* + E. Plots and analyzes data pairs input by student.
26-1722 .... £29.95
Investigations in Integral Calculus. I/III* + E. Graphs and computes areas of functions.
26-2600 .... £29.95
Plane Analytical Geometry. I/III* + E. Generates problems with emphasis on straight lines and conic sections. 26-2602 .... £29.95
Number Theory. I/III* + E. Definitions, examples and exercises on number theory concepts.
26-2613 .... £44.95
Matrices, Determinants, and Simultaneous Equations. I/III* E. Generates problems related to simple matric algebra. 26-2620 .... £29.95
Quadratic Equations. I/III* E. Coefficient recognition, discriminate evaluation, type of roots, etc.
26-2623 .... £29.95

Minimum System Requirements

I - Model I   III - Model III   I/III - Model I or Model III
CC - Colour Computer

C 48K With One Drive   E 16K With Cassette.

+ Furnished on cassette and diskette. Disk version requires 32K with one drive.
* Compatible with Network 3. Requires additional 16K and RS-232C in student station.

Informative "How To" Books From Our Reference Library
