

For superior OS-9 performance, the SYSTEM V

Provides a 68020 running at 25 MHz, up to 128 MBytes of 0 wait-state memory, SCSI and IDE interfaces, 4 serial and 2 parallel ports, 5 16-bit and 2 8-bit ISA slots and much more. The SYSTEM V builds on the design concepts proven in the SYSTEM IV providing maximum flexibility and inexpensive expandability.

AN OS-9 FIRST - the MICROPROCESSOR is mounted on a daughter board which plugs onto the motherboard. This will permit low cost upgrades in the future when even greater performance is required.

G-WINDOWS benchmark performance index for the SYSTEM V using a standard PC VGA board is 0.15 seconds faster than a 68030 running at 30 MHz with ACRTC video board (85.90 seconds vs 86.05 seconds).

Or, for less demanding requirements, the SYSTEM IV

The perfect, low cost, high-quality and high performance OS-9 computer serving customers world-wide. Designed for and accepted by industry. Ideal low-cost work-station, development platform or just plain fun machine. Powerful, flexible and expandable inexpensively. Uses a 68000 microprocessor running at 16 MHz.

Both computers provide flexible screen displays in the native mode with the optional VGA card.

Eight text modes are supported -

40 x 24,	80 x 25,
80 x 50,	100 x 40,
132 x 25,	132 x 28,
132 x 44,	132 x 60

Foreground, background and border colors are user selectable from up to 16 colors.

Eleven graphics modes are supported -

640 x 200 x 16,	320 x 200 x 256,
640 x 350 x 16,	640 x 350 x 256,
640 x 480 x 16,	640 x 400 x 256,
800 x 600 x 16,	640 x 480 x 256,
1024 x 768 x 16,	800 x 600 x 256,
	1024 x 768 x 256

Text and graphics modes may be selected by a utility provided, MODESET, by software using SetStt calls or by termcap entries. In the text mode, the screen responds to standard VT100 control sequences. The full character set from Hex 20 through Hex FF is supported in text modes up to and including 100 characters wide. The upper 128 characters follow the 'IBM Character Set 2' popular with many terminals and printers. These may be displayed on the screen by using the 'Alt' key and one or two other keys (software permitting).

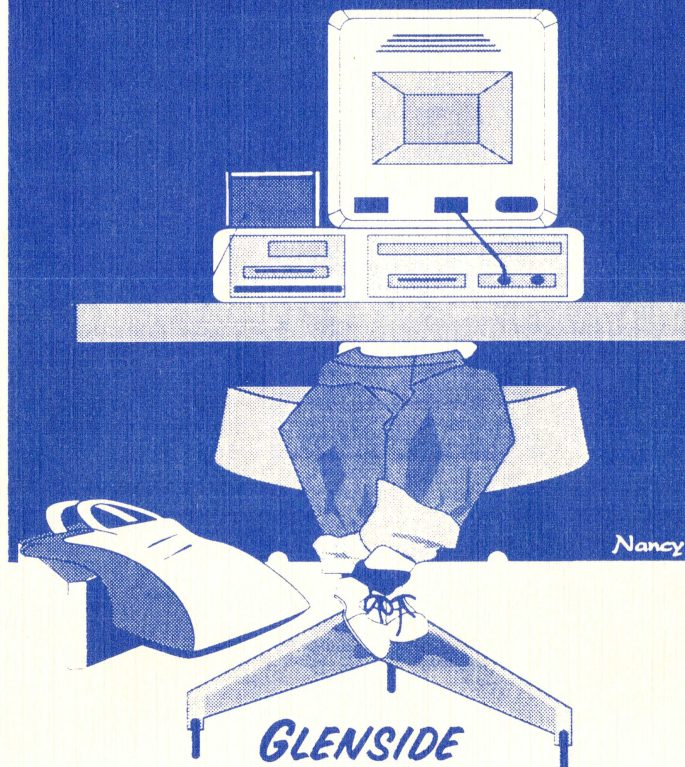

G-WINDOWS option provides 3 screen resolutions; 640 x 480 x 256, 800 x 600 x 256 or 1024 x 768 x 256. You can have 2 full size 80 x 25 windows with room to spare, a window as large as 122 x 44 using the large fonts or a window over 180 x 70 using the small fonts.

COCOFESTING...
"REAL-TIME" WELL SPENT!

GLENSIDE
COLOR COMPUTER CLUB
PRESENTS THE THIRD
ANNUAL "LAST" CHICAGO COCOFEST
MAY 21-22, 1994
ELGIN, ILLINIOS

Sub-Etha Software welcomes you to the Chicago Fest!!

Sub-Etha Software always has some unique surprises at every Fest, so be sure to stop by our booth and see what all the excitement is about!

OSK Software – Fest Specials:

CheckBook+ for K-Windows is 1/2 off!!

This powerful software is going for half-price as a fest spectacular sale! CheckBook+ is fully keyboard or mouse driven, with amazing features like a pop-up calculator (with running total), sorting by any field, selective printing, account category numbers, graphing with Circle-, Line-, and Bar-graphs!! CheckBook+ makes fast work of any checkbook balancing act! "The extra features separate CheckBook+ from other 'vanilla' checkbook packages. In a nutshell, this is another fine program from Joe! Mathew Hegberg" -- quote from review in The Rainbow Magazine
Fest Price.....**\$14.95!**

Write-Right! Word Processor

At last! A real word processor for K-Windows!

Includes mouseable cut-and-paste, WYSIWIG display of italics/bold/underline/color, easily customizable for any printer type. On-screen text ruler, easy-to-use graphical interface, find/replace, word-count, insert/overstrike modes, on-screen full-page preview before printing, edit/save files in WR format or in ASCII format. A great value at \$59.95!
Fest Price.....**\$49.95!**

Etha-GUI

A must-have for all MM/1 owners!

This is an amazing Graphical User Interface for your MM/1 computer system. Features include NotePad, PhoneBook (with auto-dialer), 2 icons editors, graphical screen savers, drag-and-drop file Copy and Delete, point-and-click file attribute setting, and much more! Launch applications at varying priorities with desired font, colors, window size, etc.! Exciting look and feel will let you show off your computer to your family & friends!
Fest Price.....**\$29.95!**

The Glenside Color Computer Club

The Glenside Color Computer Club (GCCC) is a not-for-profit organization whose members share an interest in the Tandy Color Computer (R). The CoCo~123 is the official newsletter of the Glenside Color Computer Club. The Glenside Color Computer Club has no affiliation with Radio Shack (R) and/or Tandy Corporation (R).

For a fee of \$15.00 you can become a GCCC member with full membership privileges for one year (January 1st through December 31st). Send your membership dues to:

George Schneeweiss
RR #2 Box 67
Forrest, IL 61741-9629

The following is a list of the 1994 Executive Officers and how to contact them:

<u>POSITION</u>	<u>NAME</u>	<u>PHONE</u>
President	Brian Schubring	(708)529-3539
Vice-President	Carl Boll	(312)735-6087
Vice-President	Gene Brooks	(708)897-9023
Vice-President	Mike Knudsen	(708)665-1394
Secretary	Howard Luckey	(708)747-0117
Treasurer	George Schneeweiss	(815)832-5571
VP Telecom/Editor	David Barnes	(708)587-9820

The members of the Glenside Color Computer Club hope that you enjoy this Fest and will plan on attending again and again. As long as there is enough interest in these Fests we plan on holding them.

It is our sincere hope that this Fest will continue to happen again and again. If you enjoy this Fest tell others. Spread the word. This is the only way that these Fests will continue to happen. We need attendees!!

It is a sad fact that we are a slowly shrinking community but we have new vendors EVERY Fest!! Support is there! Come join us and keep the CoCo going strong.

Show Hours

Saturday, May 21

Exhibition Area 10:00 AM-6:00 PM
Seminar Area 10:00 AM-4:30 PM
OS-9 Users Group, Inc. Annual meeting and elections

Sunday, May 22

Exhibition Area 10:00 AM-4:00 PM
Seminar Area 8:00 AM-3:00 PM

**** DOOR PRIZE DRAWINGS ****

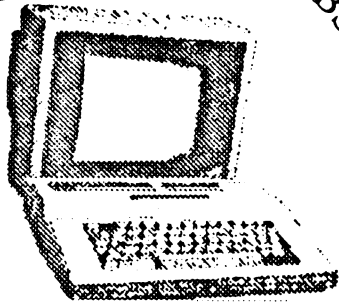

Drawings for door prizes will be held every hour that the exhibition area is open, on the half hour. You need not be present at the time of the drawing to win, but you **MUST** be present at the following hour's drawing in order to claim your prize if you were not present when your name was called. If the winner from the previous drawing does not claim their prize by the time of the second drawing following the drawing of their name, then the aforementioned prize will be re-entered into the pool of prizes and another winner sought. At the final drawing, at 3:30 PM Sunday, names will be drawn until a winner for that drawing can be found.

**** SOUVENIR T-SHIRTS ****

T-shirts commemorating the Third Annual "Last" Chicago CoCoFest! are available at the Glenside Color Computer Club's Booth.

"Welcome! Sirs, Madams, and Mademoiselles to the 3rd Annual "Last" Chicago CoCoFEST!" (I intone in my best High English). "My Name is Brian Schubring and I will be your servant and host. If you would kindly follow me to the hall, there we shall commence with the festivities." (Oops, my voice cracked on that phrase.)

"Back here folks, we can loosen up a little." Really folks, there's only so many ways to welcome you to the 'FEST!, but that's only the start of the fest, the rest is up to you. For the second year in a row, the GLENSIDE Color Computer Club has hosted the Chicago CoCoFEST!. Why do we do it? It's because of you, the Vendors, who have dedicated yourselves to support the CoCo with both software and hardware... AND YOU!, the Users and Hackers, who have continued to create a demand for the support of the vendors, that we can all come together and share with each other "What's happening" in the 'CoCo Community', and get the latest goodies you may need or want. As others have pointed out in the past, we no longer have the manufacturer's support for our great machine. Nor do we have the Rainbow publication for support, info, and product availability. So it's up to us, the Vendors, the end-users, and those who really DIG INTO the guts of this machine to support each other with products, info, and help, while developing friendships in the process. In short... WE need to be the Movers and the Shakers that keep the machine ALIVE!!! Let me reprint for you an excerpt from last year's "Welcome" by Tony Podraza, (past president of Glenside.)...

'The people like you and me, the owners of the Color Computer, are going to be the real movers and shakers in the community from here on out, as we have from day one, actually, when we discovered that the salesperson from whom we bought our first CoCo couldn't really help us beyond "plug it in, turn it on."

That discovery was the cause of the birth of Color Computer user groups all over the world. It was and IS from these groups that we, as users, receive the "REAL" support.'

Tony goes on some more, but this is the nucleus of why we are here. If there isn't a better reason to get together, then it's for the friends that we have made over the years and the friends that we will make at this year's FEST! So with that in mind....

JWT Enterprises

UpTime

A monthly magazine for CoCo's and OSK machines. **In each issue:** Find out about new products and upgrades for your favorite computers. ☛ Learn about what new technical breakthroughs are on the horizon. ☛ Discover what programs really can do and what they cannot. ☛ Published monthly in newsletter format. *One Year Subscription, two installments of \$7.50; Canadian Orders, two installments of \$9.00; Foreign Orders, 2 X \$11.00 Can also be paid in one installment*

RIK'S COMPUTER ENTERPRISE
P.O. Box 276 Liberty, KY 42539

Dear Fellow CoCoist,

I hope this letter finds you still enjoying our favorite computer. Here at Rick's Computer Enterprise we are still having lots of fun! And especially with the over 200 CoCo Friends who are currently subscribing to CoCo Friends Disk Magazine.

CFDM is now over two years old! The April issue (#27) just went out a few days ago. We've been very busy these last two years! Besides CFDM, we've added the fabulous software of COCOPRO! and SUND0G SYSTEMS.

Another aspect of Rick's Computer Enterprise is the 'PHONE FEST' events. A 'PHONE FEST' is a special day with special prices, door prizes, and auction items. The 'doorprize' at our last fest was a NEW STAR NX-1040 Color Printer plus THE LAST BLUE STREAK ULTIIMA. The PHONE FEST was created as a way of passing on special prices along with a lot of fun to subscribers to CFDM. I hope you'll plan to join CFDM and participate in a future 'PHONE FEST'!

Another new product you may not be aware of is CFDM HARDCOPY. HARDCOPY is a professionally printed copy of the magazine side of CFDM. HARDCOPY turns out to be 20 pages of delightful CoCo reading. It also includes many of the graphics found on the program side of the disk. CFDM HARDCOPY is available for \$30 for 12 issues. All subscriptions run from issue #18 to #29. If you order now you'll receive issues #18-25. The remaining issues will be sent monthly.

Rick's Computer Enterprise is the only CoCo company that still provides flippie diskettes. In case you don't already know it, flippies are double notched diskettes that allow your single-sided disk drive to read and write to both sides of the disk. Format side one then flip the diskette over and format side two. Now you have the equivalent of two diskettes in one! You can buy cheap single-sided diskettes or you can have quality flippies for very reasonable prices from Rick's.

The mission of Rick's Computer Enterprise is to keep the CoCo alive and to provide the Friends of CFDM with a means of contact. We need your help in this effort. Won't you please support the CoCo by joining the many Friends of CFDM with your subscription?

Sincerely,

Rick Cooper

NORTHERN XPOSURE

Welcome NX to Chicago for the first time! They are a consolidated group of Canadians who have, individually, contributed much to the enjoyment of the CoCo/OS9 community in the past. You just have to spend some time with them to get a full understanding of just how they can help you with YOUR quest for games, utilities, and applications.

Address: 7 Greenboro Cres; Ottawa, Ontario; Canada; K1T 1W6
Phone Number: 613-736-0329

WELCOME TO THE 3rd ANNUAL 'LAST' CHICAGO CoCoFEST! OF '94!

I want to welcome all the returning vendors from last year's 'FEST!, for coming out and joining us again, and thank the new vendors for helping to support us at this FEST!. Be sure to listen for your name as there will be doorprizes donated by the vendors, and stop at any of the forums that will going on throughout the weekend.

Above all have a good time, enjoy the stay, find the discoveries, make and meet those friends that make this time so worthwhile.

Until we meet again, I Salute you all.

Brian Schubring

Brian Schubring
President - Glenside Color Computer Club, 1994

OS9 software for your CoCo!

All programs run under OS9 level 2. Most packages need 512K to function properly. The following titles are currently available:

CoCoTop version 1.0
CoCoTop version 1.1
OScopy/RScopy
TOOLS 3 version 1.1
Quickletter version 2.0
Accounting level 2
Investing level 2
Level II graphics 1.2

Upgrades for these packages are also available, while new titles are still being added. If you would like to find out more, stop by at the booth of Farna Systems or contact:

BLACKHAWK ENTERPRISES, INC.

As the premier proponent of the MM/1 computer, Blackhawk can help you MM/1 owners with your modifications and upgrades. You can also order NEW MM/1s from this vendor. Owner David Graham has the rights to build new MM/1s and is doing so. Stop by and see what an MM/1 can do.

Address: P O Box 10552; Enid; OK; 73706-0552
Phone Number: 405-234-2347

BUDGETWARE

Blowin' in from Nebraska, these gentlemen have promised to pop open our eyes with some really radical stuff. You really need to TREK(tm) on over the TILES and Monitor their GUI system utility. Want to give your two cents? They're looking for input re: current and future projects for both the CoCo and the MM/1.

Address: Box 3422; Omaha; NE; 68103
Phone Number: 402-342-8805

CHICAGO AREA OS9 USERS GROUP

Stop by and get information on the local OS9 support group and see the ChiCoCo BBS in action. Log in and check out this CoCo & OS9 support BBS. Other OS-9 platforms are also supported such as the MM/1. Big plans for the future of this club are in the works.

Address: 10 McCarthy; Park Forest; IL; 60466
Phone Number: 708-747-0117

Vendors

COLORSYSTEMS

New for this year, Colorsystems presents K-Windows Chess for the MM/1 and also X10 Master! These two items are joining the ever-popular Variations of Solitaire for both the CoCo and the MM/1, WP-Shell for the CoCo3, as well as their much-vaunted games packages. Other items of interest will show up as well, such as bumper stickers and buttons.

Address: P O Box 540; Castle Hayne; NC; 28429
Phone Number: 910-675-1706

CONECT

WHOA! Stop in here to see what Rick Uland has cooked up in order to cram all that COSMIC POWER into an itty-bitty living space. I refer to the EXPANDER! Also available will be a full buss supported RS-232 pak. Come and see what this Wisconsin Wizard is stirring up, now!

Address: 449 South 90th; Milwaukee; WI; 53214
Phone Number: 414-258-2989

CRYSTAL PALACE BBS

Nelson Howard et al will be on hand to present the latest in Access Color BBS Software package. See how you can run an OS9 BBS and still present RIP Graphics to those users who want to use it.

Address: 2193 D Drive South; East Leroy; MI; 49051
Phone Number: 616-979-9795

Vendors

DALTRUG

Coming to the Chicago-area FEST! for the second time as a vendor, Lee Veals presents to the public, Gravity Studio's "Planet Engine". This OS9-based astronomy program will capture your attention.

Address: 8809 Linda Vista; Rowlett; TX; 75088
Phone Number: 214-475-2840 (evenings only, please)

DELMAR

Ed Gresick is here to show us the System IV, a 68000 computer which is currently serving customers world-wide in industry. Delmar will also be demoing the System V, a 68020 computer as well as an Intel based machine running OS-9000. Delmar will have something of interest for everybody, even if you're only a pretend carpenter.

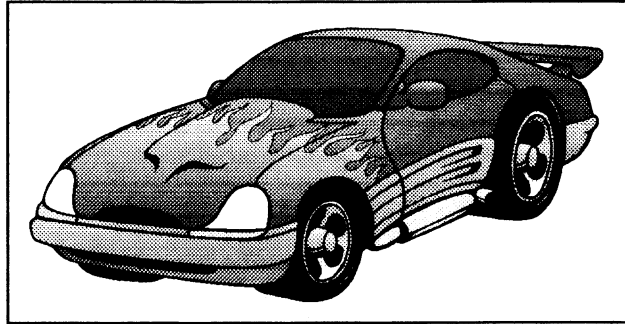

Address: P O Box 78; Middletown; DE; 19709
Phone Number: 302-378-2555

DIGIGRADE PRODUCTIONS

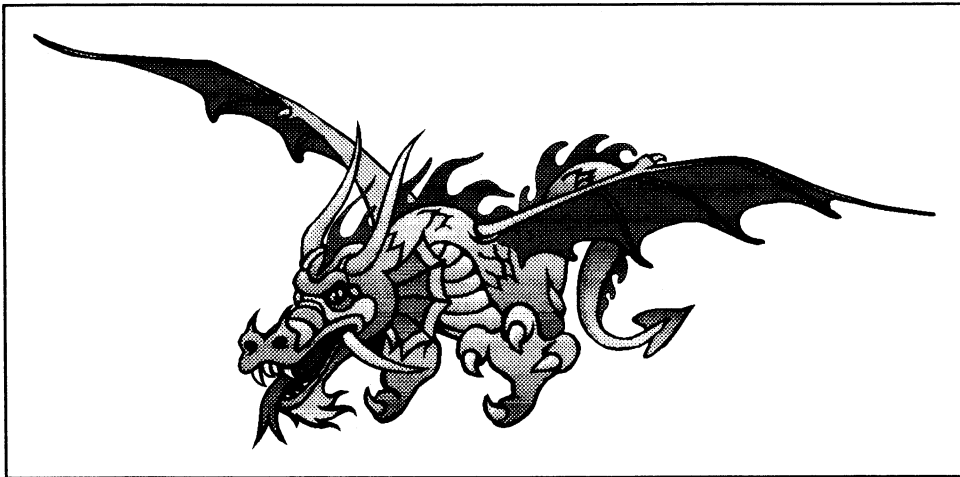

In his first appearance as an exhibitor, Dave Pellerito has presented us with the unique concept of a video newsletter. Segue to this booth and catch the image. Also ask about the 1993 CoCoFEST! video.

Address: 1325 West Lincoln Hwy; Apt 412A; DeKalb; IL; 60115
Phone Number: 815-756-7419

SEMINARS

Saturday

09:15 Future Support for the CoCo

Allen Huffman will speak on the future of the CoCo and some of the ways it can be supported in the future. Stop by and learn how you can make a difference.

10:15 Networking, BBSing and telecommunications

Scott Griepentrog and Paul Jerkatis will speak on network communications, BBSes and telecommunications in general. Learn the difference between a LAN and a WAN.

11:15 OSK V3 and Ultra C

Boisy Pitre and James Jones will do a joint seminar. Boisy will discuss Version 3 of OS-9 (68K) while James will discuss Microware's new Ultra C.

12:45 Nitros-09

Bill Nobel and Curtis Boyle will present a seminar on installing Nitros-09 on a CoCo. Afterwards there will be a question and answer period.

02:15 ACBBS

Nelson Howard will present a view of ACBBS and answer questions about the BBS package.

03:15 OS-9 Forum

John Strong and a host of others will host an open Forum on OS-9. Come join the fun.

SEMINARS

Sunday

08:00 CoCo Community Sunday Service

Our own Monk, Brother Jeremy will hold a non-denominational prayer service for those who wish to join their fellow enthusiasts in a worship service.

10:15 GCCC General Meeting

Brian Schubring will hold a special meeting of the Glenside Color Computer Club for members that can not normally attend meetings. Come sit in even if you aren't a member. See what it is that we do in these meetings.

12:00 Introduction to Games Programming

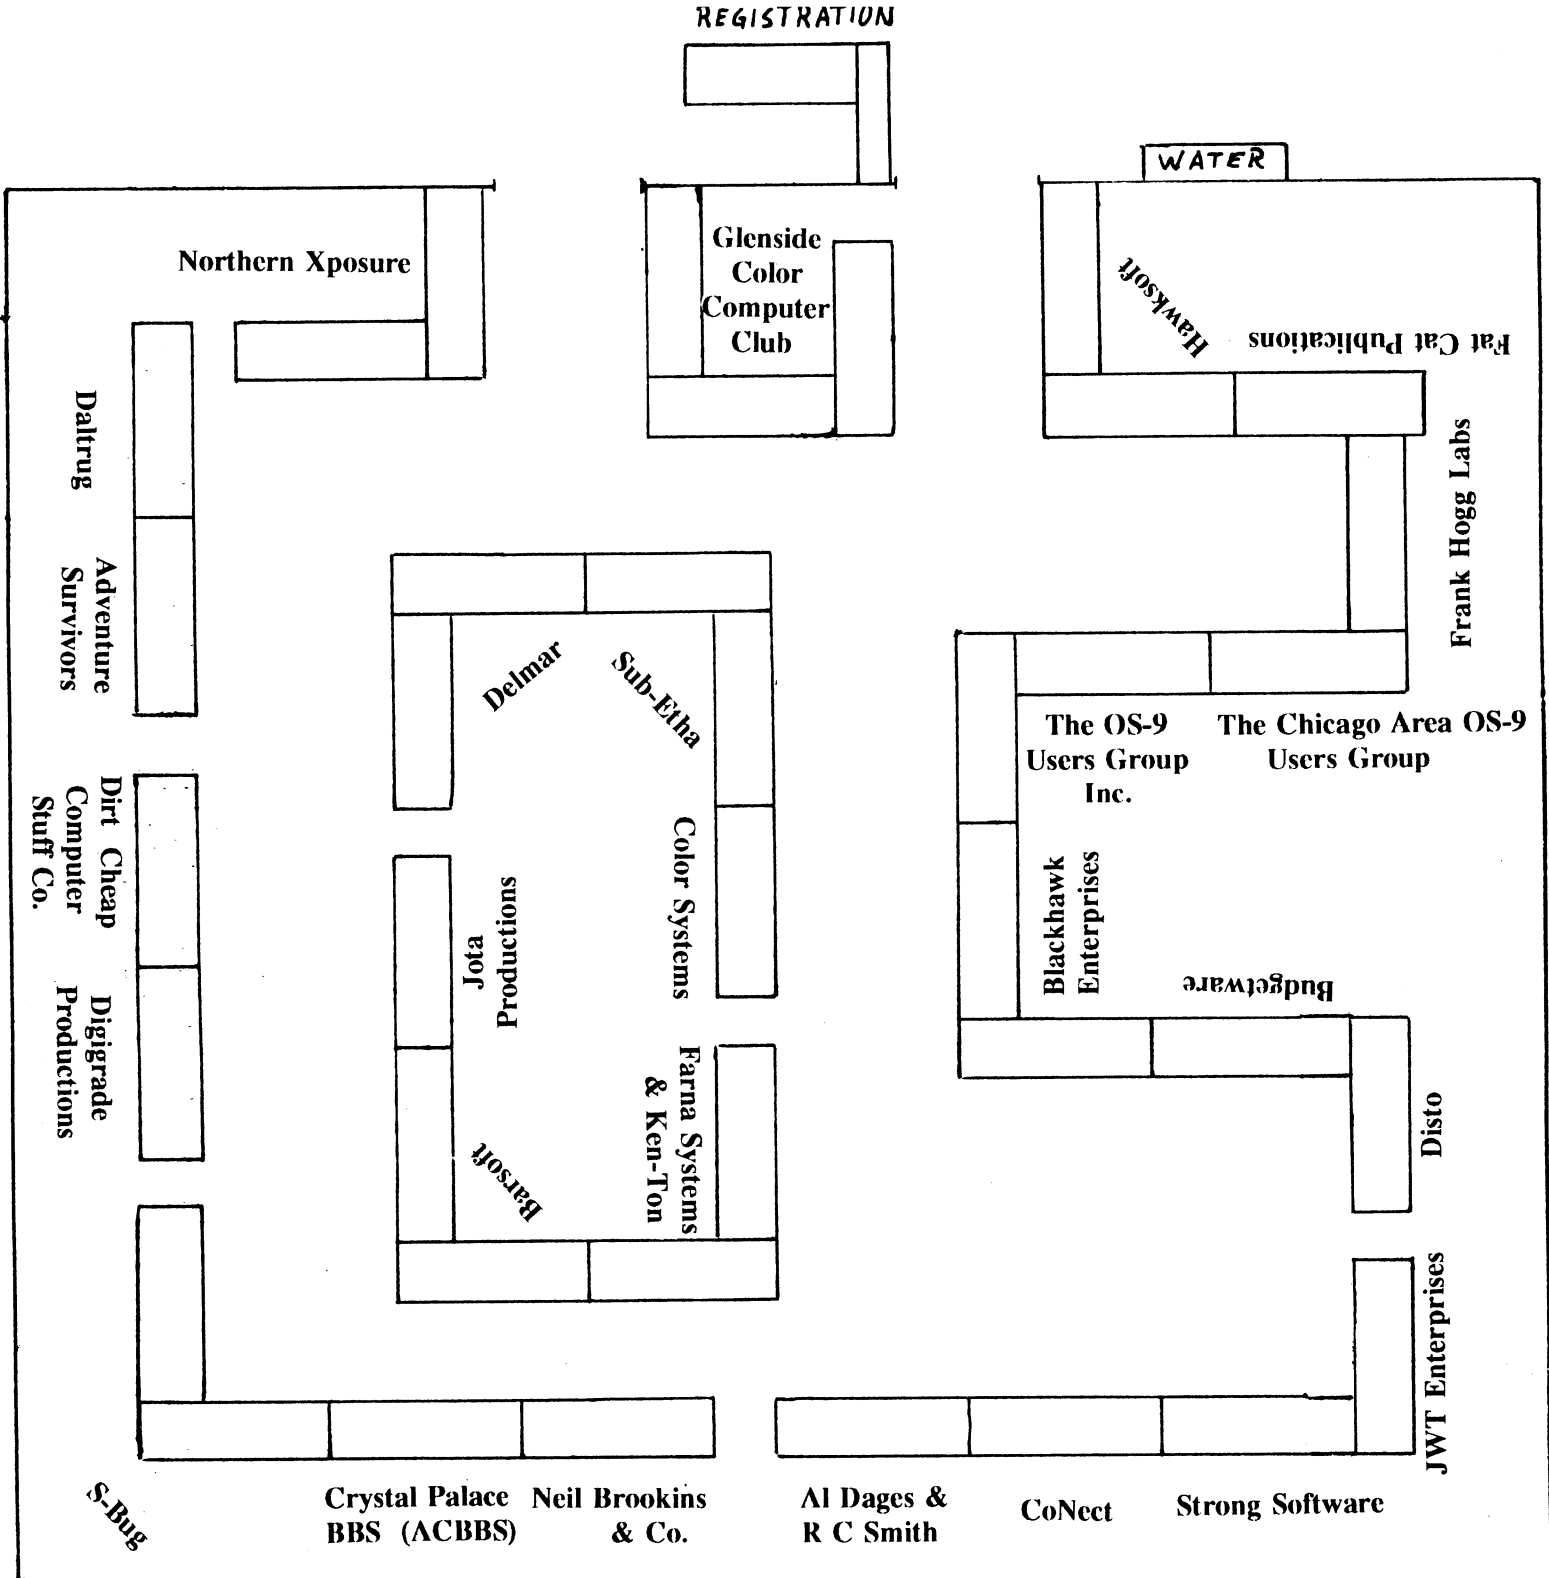

John Strong will give a seminar on games programming, the concepts and how to use graphics along with other tips and advice. If you are considering writing any program you should attend this seminar. John has a lot of experience and is willing to share it with you.

01:00 Nitros-09

Bill Nobel and Curtis Boyle will again hold a question and answer period on Nitros 09.

02:00 Allen Huffman Uncensored

Allen will be given an open forum during which he can speak on any subject (except me). This should be interesting.
