

Wittman Computer Products

Delivering OS-9 quality

March 25, 1995

We are proud to announce our purchase of ownership of Color Systems OS-9 68K / K-Windows and Color Computer based software and all related materials. Wittman Computer Products will continue to support and update this software. And make it available on our new WCP306 OS-9 computer.

April 29, 1995

Wittman Computer Products begins porting UltiMusE-K (*Ultimate Music Editor*) to the new WCP306 OS-9 machine running MGR. Our target date for the release of this product is December 1995. Once available, the new product name will be: UltiMusE-MGR.

April 29, 1995

WCP306 Enhancements

SVGA 1 meg 16 bit (1024 x 768) video card	\$75
101 No-click AT Enhanced keyboard	\$30
Desktop Case with power supply	\$110
Mid size Tower Case with power supply	\$110
TEAC 1.44 meg floppy disk drive	\$60

E-Mail, OS-9 Support

Sysop: Carl Boll ----- CoSysop: Paul Jerkatis

300 to 9600 Baud, 24 Hours a Day!

At this time we would like to thank you for supporting the community by attending the show. We hope you enjoy the seminars and the various booths. If you have any suggestions feel free to make them. We hope that the interest this year will be sufficient that a Fest will be planned for next year. This year though just enjoy!

President's Welcome

Welcome, ladies and gentlemen, system hackers and users, hobbyists and vendors, to the **Fourth Annual "Last" Chicago CoCoFEST!** Thank you for your support of our show, for returning or for checking us out for the first time. This is Glenside's third year of running the Chicago CoCoFEST. We had so much fun last year that we had to do it again!

I would like to welcome all returning vendors from previous shows -- thanks for joining us again, either as vendors or as attendees. Also, I would like to thank the new vendors; thank you for giving our show a chance! Vendors are the lifeblood of our community; we wouldn't be here without them.

I would like to thank the many members of Glenside who have helped set up the CoCoFEST. Tony Podraza and Carl Boll did the lion's share of the work, receiving mail, talking to vendors, working on the show guide, and doing the innumerable tasks necessary to run a show of this size (including making sure I did my part!). Without their help, this show could never have happened. Thank you. And thank you to the many other members of Glenside's board of directors and of Glenside who helped with time and ideas, either volunteering to help run the show, or helping behind the scenes.

Finally, thanks to Dave Myers for the idea for the original annual "last" Chicago CoCoFEST, and to Falsoft for their legacy of Color Computer Chicago CoCoFEST, and to Falsoft for their legacy of Color Computer get-togethers.

Glenside is offering a wide array of activities both inside and outside the show. I believe this will be a weekend to remember. Beyond memories, I just hope you enjoy yourself. There is so much to do, with meeting old friends and making new ones, late-night hacking of the sort that only happens at computer shows (I remember a group of us trying to write a subliminal

OS-9 Software!

The Warped Drive Presents ...

Goodies Disk One

A collection of Basic09 programs in executable and source form. Both useful and fun, the programs will also help teach OS-9 programming.

"... an irresistible temptation. ... you can't possibly go wrong with this purchase." -Feb '91 Rainbow

Goodies Disk Two

Bigger and better, Disk Two demonstrates more advanced programming techniques than those used on Disk One. As before, both executable and source forms are included. (Disk two contains some ASM source code in addition to Basic09.)

program on an MM/1 several years ago), hanging out at the pool or bar, going to seminars, chatting until people start to fall asleep. And hey, don't forget to wander the show floor to visit the vendors, including Glenside!

After all these years, why does Glenside do it? Well, it's **FUN!** We throw this festival every year to bring together the people really doing things in and for our community. It's a chance to meet fellow movers and shakers, to find out what is happening, to tell others what you would like to see. As Dave Myers said at the first annual last Chicago CoCoFEST, through all the diversity of the fest 'attendees, we have one thing in common: A concern for our community.

Listen for your name over the PA; vendors have donated door prizes. Last-minute additions to the show will be announced over the PA and will be noted near the Glenside booth. Last year's auction was such a success we're doing it again!

Most importantly, enjoy your weekend. If there is anything Glenside can do to help you enjoy your weekend more, please do not hesitate to ask.

RICK'S COMPUTER ENTERPRISE

P.O. Box 276 Liberty, KY 42539

Telephone: 606-787-5783

The Os-9 Users Group, Inc.

Application for Membership

Dear Fellow CoCoist,

hope this letter finds you still enjoying our favorite computer. Here at Rick's Computer Enterprise we are still having lots of fun! And especially with the over 200 CoCo Friends who are currently subscribing to CoCo Friends Disk Magazine.

CFDM is now over three years old! The April issue (#39) just went out a few days ago. We've been very busy these last three years! Besides CFDM, we've added the fabulous software of COCOPRO and SUNDOG SYSTEMS.

In the last year the Friends of CFDM have actively supported the production of Jeff Vavasour's CoCo 3 Emulator for the PC and the creation of the CoCo Registry. Our Friends donated nearly \$1500 to promote Jeff's project! The CoCo Registry is a database of active CoCoists. Currently 422 Color Computer users are included in the registry. If you're not registered, please send for a Registry data form so you can be recognized as an active user.

Another aspect of Rick's Computer Enterprise is the 'PHONE FEST' events. A 'PHONE FEST' is a special day with special prices, door prizes, and auction items. The PHONE FEST was created as a way of passing on special prices along with a lot of fun to subscribers to CFDM. I hope you'll plan to join CFDM and participate in a future 'PHONE FEST'!

Another product you may not be aware of is CFDM HARDCOPY. HARDCOPY is a professionally printed copy of the magazine side of CFDM. HARDCOPY turns out to be 20 pages of delightful CoCo reading. It also includes many of the graphics found on the program side of the disk. CFDM HARDCOPY is available for \$30 for 12 issues. All current subscriptions run from issue #30 to #41. If you order now you'll receive issues #30 to #39. The remaining issues will be sent monthly.

And...this summer our group will sponsor the first CoCo fest ever held in Kentucky! This will be a one day event of fun. Our special guest will be Jeff Vavasour. Please write for information about this July 15th event!

The mission of Rick's Computer Enterprise is to keep the CoCo alive and to provide the Friends of CFDM with a means of contact. We need your help in this effort. Won't you please support the CoCo by joining the many Friends of CFDM with your subscription?

Sincerely,

Rick Cooper

Vendors

ANIMAJIK PRODUCTIONS

Check out the great prices in the "blow away"! Animajik wants you to walk away with a steady means to recover your Basic09 source code if you happen to delete it or suffer a "crash". Check out DCOM, the decompiler. Ask how "Iggy" is doing.

Address: 4650 Cahuenga Blvd
Ste #7
Toluca Lake, CA 91602
Phone Number: 818-761-4135

A. R. DAGES/R. C. SMITH

The Dages and Smith team have been insuring the continued viability of the CoCo Community by keeping the hardware and software from passing out of existence. Their supply of "previously owned" items ranges from ROM-PAKS to power supplies and computers to drives. They even have some new equipment. If you're looking for that "spare", look here. Ask these guys about "Goober" while you are at their booth. They hail from Atlanta! The home of the Atlanta CoCoFEST!...The one that started this all.

Phone Numbers: 404-469-5111 (AL Dages)
404-469-6601 ("RC" Smith)

ADVENTURE SURVIVORS

A.S. is a family-run club for CoCo adventure game players. Annual memberships and back-issues of the Club Newsletter are available at the show for a modest fee. At least 23 of the best CoCo adventures are reviewed (with maps and solutions) in back issues.

Address: 24 Perthshire Drive
Peachtree City, GA 30269
Phone Number: 404-487-8461

Vendors

FARNA SYSTEMS

As Editor and Publisher of "The World of 68' micros", Frank has given the community one of its rallying points in the printed word. The talents of this vendor have also brought you the OS9 Quick Reference Guide and Patch OS9 (with Rick Uland). Now see what he's cooked up for this year. Already the author of at least one CoCo program, he is also the author of the book, "Tandy's Little Wonder". Looking for a SCSI Interface? Stop by and check out the Ken-Ton devices.

Address: 904 2nd Avenue
Warner Robins, GA, 31098-1029
Phone Number: 912-328-7859

GLENSIDE COLOR COMPUTER CLUB

Glenside has been intimately involved with Chicago-area 'fests since 1987. This year is no exception. As the 'FEST! sponsor, we sincerely hope that your visit with us is all and more than you expected. As usual, past issues of the club's newsletter, the CoCo~123 will be freely available, as long as supplies last. Membership packages for '95 and '96 are available, as are the ever popular 'fest buttons. A limited supply of commemorative mugs are to be had, and maybe a few surprises, too! The Glenside Club would also like to acknowledge its debt to its members without whom these Fests wouldn't be possible. Stop by the booth with your comments, praises and criticisms.

Address: 208 Glen Ellyn Road
#306
Bloomington, IL 60108
Phone Numbers: 708-529-3539

DIGIGRADE PRODUCTIONS

In his second appearance as an exhibitor, Dave Pellerito again presents us with the unique concept of a video newsletter. Segue to this booth and catch the image. Get captured on video for posterity! Dave is always fun to chat with. Some of the best ideas come from people just getting together and talking about various ideas. Dave is from DeKalb, IL the same place as a well know person of the female persuasion. Do you know who she is? Ask Dave, he does.

Address: 1325 West Lincoln Hwy
Apt 412A
DeKalb, IL 60115
Phone Number: 815-756-7419

DISTO

Tony Distefano arrives with more schematics to the various devices that he has designed over the years, as well as copies of his book, A TURN OF THE SCREW. Rumours have it that he will also have a NEW publication, "INSIDE the TWO-MEG UPGRADE"....well, it's only a rumour. Find out if it's true. It is a fact though that he will have some repaired, used and possibly new equipment for sale as well at his booth. Do you have any ideas for new hardware projects? Tony just might design something new if there is sufficient interest. How about a RAM-PAK that uses SIMMs Tony? Maybe an IDE controller or an adapter that allows use of a VGA card? Can't hurt to ask, we never thought we'd see a 2-MEG CoCo either.

Address: 1710 Depatie
St Laurent, Quebec
Canada H4L 4A8
Phone Number: 514-747-4851

Vendors

BUDGETWARE

Returning from Nebraska for a second year, these gentlemen have promised to pop open our eyes with some really radical stuff. You really need to TREK(tm) on over the TILES and Monitor their GUI system utility. Want to give your two cents? They're looking for input re: current and future projects for both the CoCo and the MM/1.

Address: Box 3422
Omaha, NE 68103
Phone Number: 402-342-8805

ChiCoCo BBS

Stop by the booth and see what a CoCo BBS can evolve into. ChiCoCo has been around for several years as a BBS supporting OS-9 on the CoCo. Carl Boll (Sysop) and Paul Jerkatis (Co-Sysop) will demonstrate how to log in and how to use the BBS. Add to this lots of hard or impossible to find used goodies for sale at the booth.

Address: 6242 S. Menard
Chicago, IL 60638
Phone Numbers: Voice: 312-735-6087 Data: 312-735-6087

DALTRUG

Coming to the Chicago-area FEST! for the third time as a vendor, Lee Veal of this Dallas-based User Group continues to present to the public, Gravity Studio's "Planet Engine". This OS9-based astronomy program will capture your attention. Last year, a selection of well-crafted jewelry was also available...perhaps this year, as well.

Address: 8809 Linda Vista
Rowlett, TX 75088
Phone Number: 214-475-2840 (evenings only, please)

If you still use your Tandy Color Computer, OS-9, or an OS-9/68000 machine, you need to get.....

the world of 68' micros

This is the ONLY magazine currently in regular publication covering OS-9, OS-9/68000, and the Tandy Color Computer.

The magazine is published eight times per year (roughly every six weeks).

Subscriptions are \$25 per year US, \$32 per year for Canada. Send a US check or Postal Money Order (US or Canada) to:

Our own monk, Brother Jeremy, will hold a non-denominational prayer service for those who wish to join their fellow enthusiasts in a worship service.

09:00 Glenside and Goodman

Eddie Kuns will host a special meeting of the Glenside Color Computer Club for members who cannot normally attend meetings. We welcome our special guest, Marty Goodman. Join us even if you aren't a member; see what we do at these meetings.

10:00 Nitros-09

Curtis Boyle and Alan DeKok will host the ever-popular question and answer period on Nitros-09.

11:00 Open OS-9 Forum

John Strong returns to host an open OS-9 forum. Bring hints, rumors, gossip, facts, and join in the fun.

01:00 The Future of our Community

Join Allen Huffman and Frank Swygart as they speak about the future of our community. How can our computers be supported in the future? Learn how you can make a difference.

02:00 Glenside No Minimum Bid Auction

Our auction returns to close the seminar schedule, again hosted by Mike Knudsen.

SEMINARS

Saturday

10:15 Searching for the lost

Brother Jeremy speaks about tracking down lost and orphan hardware and software and bringing it back to our community.

11:15 Glenside presents Marty

Marty Goodman returns to a CoCoFest! Bring him your questions, and he will provide the answers (and he'll kill me for writing that). Join Marty in this open-format seminar.

01:00 History of MIDI on the CoCo

Mike Carey will demonstrate MIDI on the CoCo and explore the rich history MIDI has had on our computer.

02:00 Glenside No Minimum Bid Auction

Our own auctioneer, Mike Knudsen, will auction it off, you need to buy it. What is it? Come and find out what is at the auction.

03:00 Compact Disk Interactive

Boisy Pitre from Microware will discuss and demonstrate CDi.

04:00 Sculptor

Kurt Johnson from KD Consulting will speak about Sculptor and its use at NASA.

05:00 OS-9 Users Group meeting

Join the OS-9 Users Group at their semiannual meeting. If you are not a member, this is a good time to find out who they are.
