We took the extra time to research and plan this "CoCo Fest for You", the attendee. We are fortunate to live at the home of Microware, Inc. This gives us in town speakers like James Jones, and Boisy Pitre. Both are nationally known in the OS-9 world. Also Gen Lund will speak on Assmebly language. Rounding out with RSDOS by myself (Terry Simons). Hawkins & Earls of your ALT CTRL & RESET screen will make an appearance. And this is just a start. By Mid March this will fill to an even fuller seminar schedule. Out of town vendors, seeing the full sized Fest comming together; have reserved as early as Janurary.

After looking at many, we found a nice Hotel, "The Trave Lodge Inn", that would both give an impresssive show floor and room rates (for you), previously unheard of at a Fest. \$35.00 for up to FOUR occupants. And that includes a "FREE Continental Breakfast". WOW! It can cost a fortune for a meal at a big city hotel. This one has several resturants within walking distance. From formal dinning, to intermediate or Fast Food; it's your choice. What more could you ask?

Well,,, WE HAVE ADDED MORE!

Realizing many users come to the Fest to meet and socialize; we added a function to do just that. After the Saturday Fest, we'll open the "Evening Social area". With round tables, and seats where you can just mill around, or sit and talk, or whatever you like.

Our promotion is full force with ads in UPTIMES, RICKS DISK, two Rainbow Ads, Delphi announcements, as well as several BBS NETs.

This Fest offers "You the CoCo Enthusiast", everything you could ask for AND MORE. For the Vendor this Fest offers the attendance you're looking for. With a room & Fest Pass for less then the usual cost of Fest hotel room, join the others reserving early. These rooms are limited. VIP Breakfast optional \$7.00
