

We have been asked why?
Why are the Middle America
and Glenside fests so close?

The close timing is bound to have an adverse effect on each fest. Inevitably some vendors and users will choose to attend one or the other, lowering the gate at both. Granted the timing is poor.

During the planning stages Oct - Nov '92, we were in contact with Glenside. Who at that time were planning the Chicago Fest - late July. We signed contracts, set dates, and began promotion in Dec. Then learned in late January, that the Chicago Fest would be held May 1 & 2.

Tony Podraza, Pres of Glenside said, "They wanted a hotel in the Chicago Airport area. And had many problems trying to reserve Fest space in July Aug, or even Sept. Too many weddings, conventions etc. (we try to catch the hotels in their off season, for better rates) At which point Glenside's only choice was May 1 - 2 or goto to a hotel on the outskirts away from the airport".

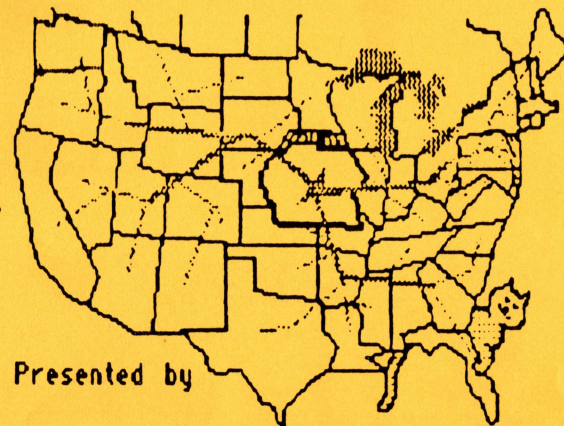

They might have opted for a less expensive but very nice hotel as we have here. Though it be a distance from an airport. (4% or less fly to the Fests) But second guessing is always easier then first.

Glenside has held fests in past years, and has every right to continue. Glenside has been very supportive of our fest and if there is controversy; we are unaware of it. Declining support for the CoCo in general no doubt also, accounts for lower attendance.

I'm already seeing a lower gate then expected. BUT, if it's having fun at the Fest you're after,,, you're in the right place! We expect plenty of that! We're here to support the CoCo community and,,, have a ball in the process!

MIDDLE AMERICA Fest '93

Presented by

MID IOWA & COUNTRY COCO

March 27-28th 1993

Saturday VIP Breakfast 8:30 AM RSVP 7 days
With Carl Boll/ VP Glenside & Terry Simons/ MI&CC
Saturday Show March 27, 10:00 AM to 6:00 PM
Town Meet: Seminar room 6:00 PM to 7:00 PM
Saturday Social: in our lounge area 7:30 PM
Sunday Show March 28, 10:00 AM to 3:00 PM

The Travel Lodge Inn.
Des Moines, Iowa

Welcome to the:

The Middle America Fest

Presented by:

Mid Iowa & Country CoCo

Planning since October 1992 with promotion in all CoCo journals and BBS SIGs we have put together a full menu of seminars, and activities.

"Mid Iowa & Country CoCo" Fest staff are easily recognized by the full sleeved T shirts; with their name above their logo. We're on a first name basis here. Because we're just CoCo supporters like yourself.

You need to thank more than we at MI&CC. The vendors as well have paid in both money and effort to help make this Fest possible. Supporting them is supporting your CoCo.

At the social: valid vendors as well as individuals are welcome to talk and swap legal software, and hardware. Hey, sell your boat if you want, we're here for you free wheeling conversation and fun!

There may be a small cover for pizza at the social.

Drawings for door prizes are planned hourly. To win, you must be present on either the show floor, seminar room, or social. Prizes must be claimed before leaving the fest.

Introducing a NEW MAGAZINE for CoCo users:

the world of

68' micros

Tandy Color Computer, OS-9, OSK

Where will you go for support when "The Rainbow" soon ceases publication? There was no other magazine supporting the Tandy Color Computer and Disk BASIC until now. "the world of 68' micros" is dedicated to producing a **QUALITY** publication supporting the CoCo. Top writers and articles will be featured, including the infamous **Marty Goodman**, who will be continuing the "**CoCo Consultations**" column with us. The initial issue (will be delivered in August 1993) will be 24 pages, growing from there. Contents will be:

Repackaging the CoCo

edited from several authors

Hardware Hackers Corner

Marty Goodman

"C" Programming (DECB & OS-9)

Bill Sgambati

Beginners Showcase

The: J & M, "Digital Diagnostic Drive Analyzer".

The dropping of J&M from the CoCo market some years ago saw the loss of this highly valued Drive analyzer.

I've found six new & complete sets

Includes:

- Program disk (CoCo 2 or 3). Digital disk,
- J&M Comprehensive instruction Manual.

The easy to read bold print manual has instructions on how to adjust: alignment, drive and index hole timing speed on most drives.

I and others have found the Index timing speed is off on many "new drives"! This not only effects the read write ability from system to system, but proper speed will increase the alignment accuracy of other readings.

It Tests:

- Drive Speed, Index hole Timing,
- Head Scew O/I/M (Outer Inner Middle),
- Head Alignment O/I/M, Alignment sensitivity O/I/M,
- Head Rotation, Directional seek.
- Drives 1 - 4 Single or double sided drives.

When I first purchased a J & M Test disk set (originally \$105.00), we felt the price was a bit much for one person so split between several of us. You may do the same (one check). For a club or small group, it's a bargain!

Buying a new drive isn't as simple an answer as it seems. New drives more often than not need an easy tuning to be at peak performance. Occasionally they are bad from the box.

When you are a little high, they are a little low no problem for each, until one is out of sync for the other. Being "right on" allows you to read and write other systems disks with greater accuracy.

For those like myself who have vital need of our CoCo systems with disks serving a broad spectrum; I want disks written to ultimate standards.

For all users, a periodic check will show you when a head cleaning will aid, and at the same time eliminate the wear of over cleaning.

The fringe benefit is many times a small adjustment rather than a new drive with longer lasting more accurate and reliable drives!

Like having a technician at home.

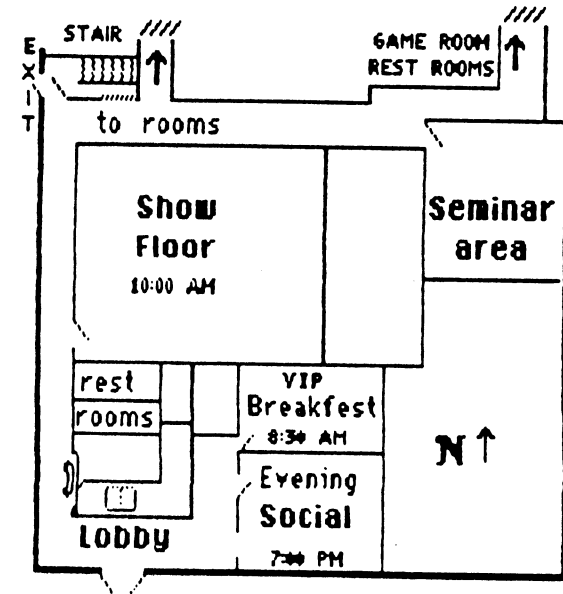

\$85.00 Plus \$4.00 shipping via Priority Mail
Terry Simons, 1328 48th, Des Moines, IA 50311

Available at the MI&CC membership booth.

J&M doesn't even have the software left in store.

When these are gone there may be no more!

COCO FRIENDS DISK MAGAZINE

"The most exciting new product for the CoCo Since....?"

COCO FRIENDS DISK MAGAZINE (CFDM) is devoted exclusively to those who still enjoy running under RS Dos. The standard system needed to use CFDM is CoCo 3, RGB monitor, at least one disk drive, and the RS Dos which came with your CoCo 3.

CFDM is a monthly disk based publication which is produced on a "flipple" disk. When you "Run" the "magazine" side of CFDM, you'll be greeted with a beautiful cover picture by CoCo Friend James Gibbons. Pressing any key takes you to the magazine's colorful Main Menu. There you'll find 14 sections which are filled with entries. Sections included are: About CFDM; About this Issue; Active CoCo; Advertisements; CoCo Friends Art Gallery; Articles of the Month; Family Tree; Forum; From the Editor; Letters to the Editor; Potpourri; Programs of the Month; Reviews; and Question & Answers.

Next you will enter a Section and find a number of entries written by our CoCo Friends from all over the world. Each issue of CFDM contains from 60 to 80 entries. Some sections contain documentation about the many programs and graphics found on the "flip-side" of CFDM.

The "flip-side" or "program" side of CFDM is filled with contributions of wonderful programs and graphics from our many CoCo Friends! Each issue has from 2 to 4 hi-res pics and from 8 to 15 never-before-seen programs.

The cost of CFDM is \$6 per issue or \$30 for a 6 issue subscription. Join us now for a lot of fun! If you're like me, there's never too many Friends around to enjoy a great time on the CoCo.

Seminars March 27th

8:30 VIP RSVP Breakfast \$7.00

Terry Simons, MI&CC and Carl Boll, Glenside will speak on CoCo clubs. What makes 'em go and keep on going. *It takes more than and energizer.*

11:00 - 12:00 OS-9 & OSK Portability
James Jones national know friend to OS users everywhere. James works for Microware, Inc.

1:00 - 2:00 PM R8DOB Assembly
Gene Lund, Secretary of MI&CC has helped with hardware project demo's as well as Machine language. Author of several articles on how to make use of ML. Here he will be speaking on Assemble.

3:00 - 4:00 PM HAM Radio
Ed Bassiok from Fairfield, CT, and friend: Ham on the CoCo

6:00 Town Meet
A general discussion on the closing of Rainbow. Without doubt, "CoCo support is already in place outside Rainbow and is expected to be around for years to come". But what can we expect? How can we avoid the start and drop of "nice idea CoCo mags that flourish for a few months, then leave? How can we see continued hard and software support? CoCo support will continue! How can we improve it?"

March 28th

11:00 - 12:00 OS-9 C Assembly
Boisy G. Pitre has worked with OS-9 for six years, authoring several public domain programs, and writing articles for OS-9 newsletters and magazines. He is founding president of the OS-9 Users Group, Inc. and works as a software engineer for Microware Systems Corp. in Des Moines, Iowa.

2:00 to 3:00 PM COCO MAX Graphics
Terry Simons with graphics signature "Terry g" has found it's way to many club logos, CoCo MAXIII ad, and some professional software. Terry will discuss some tips and tricks to easier drawing, as well how to put them to use on forms and personal cards.

Copyright (C) 1993

OS-9 is a trademark of Microware Systems Corp. and Motorola, Inc.

!! Correction Notice !!

Please note:

There is a popular misconception the "Mid Iowa & Country CoCo" is primarily made up of Terry Simons. Probably due to the fact that Terry edits and sometimes writes a greater part of the *UPGRADE National Diskmagazine*. Terry is the name they most often see.

Correction:

"Mid Iowa & Country CoCo" is made up of many who continually support when called to do so.

The Officers are:

James Jones, OS-9 Consultant
Gene lund, Secretary
John Schoettmer, Librarian
Terry Simons, Treasurer/ Editor

Local members, in random order:

Ben & Valerie Shultz	Ken Eekoff
Chris Stark	John Worthington
Larry Heiderschiedt	Bob Van der Brook
Garland Clapp	Boisy Pitre
Bob Hartwig	Heather Simons

You'll know them by the turtle neck Fest shirts with their first name imprinted with the Fest Logo. When we changed the name from "Mid Iowa CoCo" to Mid Iowa "& Country" CoCo; three years ago, we were committed to keeping the small group friendliness in MI&CC. Even though we now have members in over 40 states and 5 provinces of Canada, Australia & England,,, we're still on a first name basis here.

Also you'll see purple stipes on some Fest passes. These are some of our distant members, who as well support in many helpful ways over and above dues.

We can't list 'em all. Because "Mid Iowa & Country CoCo" is just that. A whole country of CoCo supporters working together! Don't join me. Don't join it. Join us!

We thank them all!

Middle America Fest connection!

The  Continuum 888 - (515) 987-5315

"24 hours a day, 7 days a week with OS-9 and StG-Net!"

Welcome to the Middle America '93 CoCo Fest! The OS-9 Continuum is proud to be a part of this event. We've been on-line since October 1991, and now come to you from Des Moines, Iowa, the Home of OS-9!

The OS-9 Continuum features:

- StG Network* News and Mail -- an OS-9 network!
- * STG Net carries RS and OS + 30 other national Sigs.
- Over 10 file areas filled with the latest and greatest programs for OS-9/6809
- Sound and Graphics Files
- UUCP Mail and Usenet News (restricted access)

Soon we will be upgrading to OS-9/68030 and StG V4!

You can connect to the OS-9 Continuum from 300 to 9600 baud. After your modem has made the connection, wait for the 'connect OS9er' message and the BBS welcome screen to appear. Then press <ENTER> at the 'UserName' prompt and register!

The Sysop: Boisy G. Pitre has worked with OS-9 for six years, authoring several public domain programs, and writing articles for OS-9 newsletters and magazines. He is founding president of the OS-9 Users Group, Inc. and works as a software engineer for Microware Systems Corp. in Des Moines, Iowa.

Catch Boisy's Seminar:

OS-9 C & Assemble programming.

"The UPGRADE" National Diskmagazine

From "Ald Iowa & Country CoCo"

We bid a sad farewell to Lonnie Falk and Rainbow. Despite some criticism over the years; (you can't please everyone) Lonnie has done a great job! Providing central support for the CoCo outlasting all the others. Radio Shack sold the hardware, but Rainbow has put the heart in the CoCo for many of us. **To Lonnie and the Rainbow staff: We salute you!**

There will be no more here!

No one will replace Rainbow. Neither we nor others will try. Yet, there will be "CoCo support for the years to come"! I can say that firmly by the response from our members in over 40 states plus Canada.

For those who are unaware, there is a good support base already in place outside of Rainbow. These will grow still larger. Look around the pages of this issue, choose what seems to meet your taste and subscribe.

The "UPGRADE" Disk Magazine:

Does not support OSK, or Computers not compatible to CoCo. That we leave to those more qualified.

Is not hard copy though it can dump to your printer.

Displays first rate 16 color H2 graphics, with articles. Does keep you informed with news from around the country.

Including ads and recommendations of better dealers.

Does have OS-9 articles concerning the CoCo. We've just started an excellent level II tutorial series.

Does have Basic program technique Article & tutorials.

Does carry a full variety of indepth articles and reviews.

We carry tips on where to buy printers, drives & hardware.

This is a newsdisk, not a software disk.

That we leave to the MI&CC library, where you can select from a variety of the Best available, for a filing & backup fee \$3.00 per disk. And we've done "All of this for eight consecutive years"! (three on disk)

Join with those who write: "Here's my renewal, I don't want to miss an issue"! See our Rainbow ads Jan Mar & Apr. Respondents to this offer, may cancel within 60 days and receive a refund!

Your RAINBOW Package deal includes:

- 1 year membership in MI&CC and UPGRADE Diskmagazine subscription
- Req: 128K CC3, w/1 drive, RGB, or TV
- HOME-PAC >>FAST-CHECK Shwre, CC3 disk (Reviewed, best of it's kind on CoCo)
- Plus a surprise Bonus disk!

That's 3 disks on your first mailing!

\$19.00 US \$24 Canada \$31 Foreign Air

If you need help beginning OS9
this tape is for you!

Using the original Radio Shack OS9 Level II operating system disk set, you will be guided in creating an OS9 Bootdisk which will boot up with an 88 column, type 2, terminal window, and will configure your 502 style drives as 40 track, double sided.

You will be instructed in the use of the following commands which are furnished with the original Radio Shack OS9 Level II operating system disk set: format, backup, load, build, modpatch, chd/chx, edit, os9gen, makdir, cobbler, dsave, copy.

Requires the Original Radio Shack OS9 Level II operating system disk set, a CoCo III, CM-8 monitor, two 502 style 40 track drives, and several unformatted disks. Tape is UHS format and speed is SP. Tape plays approximately one hour.
