CEO TALK

The 5th Annual "Last" Chicago Fest was GREAT FUN! Renewing old acquaintances and meeting new faces is always a pleasure.

There were Seminars, Glenside "auction sales" (always very popular), many Vendor "Specials" (especially late Sunday), lots of new/used CoCo software/hardware, and a number of "Door Prize" drawings. Also, a few of the 68xxx machines, OSK, and OS9 were well supported.

VENDORS AND REPRESENTATIVES

Alan Dages, R.C. Smith, Ron & Diane Bull (also represented Rick's Computer Enterprise), Chris & Nancy Hawks of Hawksoft, Carl Boll of Chicago BBS, Bill Wittman of Wittman Computer Products, Frank Swygert of Farna Systems, John & Charley Strong of Strongware, Andre Lavelle of SBUG, Tom Schaeffges of The Coco Cellar, Alan Dekok of Northern Xposure, The OS9 Users Group, Dave Pellerito of Digigrade Productions, John Brown of Hazelwood Computer Systems, Paul Jerkatis of SandV BBS, Chicago Area OS9 Users Group, Justine Wagner of Justin Time, Brother Jeremy of Monk-O-Ware, The Glenside Club, and Adventure Survivors.

Fest attendance, and the number of vendors were down from last year. BUT, Glenside has announced that there will be another Chicago Fest next year - probably the first week-end in April.

A SPECIAL THANKS to the Ladies, and Gentlemen - Especially Tony Podraza, and Carl Boll - of Glenside. Their efforts in keeping CoCo support alive is greatly appreciated - WELL DONE!!!

**REVIEW: LEISURE SUIT LARRY IN THE LAND OF
THE LOUNGE LIZARDS**

LSL is another fine graphic adventure from *SIERRA ON-LINE* by Al Lowe & others. Of course, the CoCo version is no longer available. Even used ones are difficult to find. A 512K CoCo 3, disk drive (two are better), and RGB or CMP (TV) monitor, are required. For IBM compatible users, see article at the bottom of page 4.

NOTE: Due to content, LSL is "RATED PG" - may not be suitable for youngsters!

It was reviewed in *Rainbow* 10/89, page 98 by John Hebert (has a picture of the start scene).

The original game package includes the game Booklet, 2 Reference Cards (one for the CoCo), and 2 un-protected disks. Back up these disks under BASIC or OS-9.

Disk 1 "flippie": Side 1, boot
(includes OS-9 loader).
Side 2, play side.

Disk 2 "floppie": Side 1, play side.

A separate Save disk MUST be formatted under OS-9. If you don't have or use that System, a disk can be formatted (or back-up the game disks) at the "OS9:" prompt when loading the game.

To load LSL (RSDOS 1.1 or 2.1), put side 1, disk 1 into drive 0, and <DOS>. Press ENTER to by-pass the "Time?" entry, and the "OS9:" prompt will appear. Now...

FORMAT A SAVE DISK

Put a spare disk in drive 0 (or drive 1): <format /d0>. For drive 1, change the "0" to a "1". Follow the on-screen prompts, and the "OS9:" prompt returns.

Continue loading (side 1, disk 1 in drive 0) with: <sierra-r> for a RGB monitor, or just <sierra> for TV or CMP monitor (during play, a special command, CTRL-V, can be used to "toggle" between monitor types). A joystick option, intro-screen, music, and a few credit screens appear. Next, you will given a test (5 trivia, general knowledge questions) that determines if you are old enough to play the game. Miss two, and you fail (OS9 prompt appears)! Re-boot, and try again OR: ALT-SHIFT x (at the test or intro-screen) for a quicker start, and by-pass the quiz). One way or the other, You'll will be prompted to "turn" the disk, and press the Enter key to begin play.

Two word (verb-noun), one word, and simple sentences (sometimes required) are useable commands. Type them in at the

cursor - bottom of the screen. All words must be completely typed-out, except INV (Inventory). Other useable words: IN, AT, THE, TO, etc. "Special Commands" are in the game doc's, and on page 4 (they auto-exec when touched).

Game responses, and messages appear in "pop-up" windows. These, while on screen, act like a game pause. Return to normal play by pressing the joystick Fire-Button or the Enter key.

Move your character, Larry, around via a joystick (easier), or combinations of CTRL or SHIFT keys with the Arrow keys. A few places require travel via a Taxi cab. Move Larry to the Street edge (middle of a scene) and <HAIL TAXI> or just <CAB>. When it stops, move closer and <GET IN>. The Driver asks where to? Reply: <STORE>, <CASINO>, etc. When you arrive, he says how much it is (random, \$6-20). <PAY> and <EXIT>. ALWAYS have enough money to pay! Score one point for the first cab ride.

The Save feature is excellent. <SAVE GAME> or touch the 5 key and follow the on-screen prompts. If you use drive 1 for the Save disk, then change the "/d0" to "/d1" (back-space with the left-arrow key to remove the "0", touch "1", and press ENTER). Describe your save position anyway you wish, within 30 "spaces".

Other Tips: <USE SPRAY> when your "Bad Breath" is mentioned. Move away from the Dog or be "anointed". Don't <FLUSH THE COMMODORE>! Don't let your money reach \$0 (Larry hides \$10 - seems useable, only once during normal play). Don't stay in a "Dark Alley" more than a few seconds! Be sure to USE, and REMOVE "protection" when dealing with the hooker. LSL can be finished by scoring less than 222 points.

TASK: Help Larry lose his virginity, and find True Love in "Lost Wages".

Fourth Annual "Last" Chicago Co-Op 1995

LEISURE SUIT LARRY MAPS

For IBM Compatible users: Sierra recently offered *Leisure Suit Larry I: In The Land of The Lounge Lizards*, and a few others, on CD ROM (MSDOS) for \$14.95. ORDER (credit card) #: 1 800 757 7707. Basically it plays the same, but colors, graphics, (non-stop) music, animation, and 3-D effect are much better. It is icon driven (point-click with a mouse), and plays faster. Maximum total points is still 222. "Click" on the "system" icon to see your running total. Other differences: 1. Whenever You earn a point, you'll hear a "ding". 2. Call Sierra (209 683 6858) early (first time at the Store?) for that 5 points. 3. The point in the Cabaret is only given when the Comic is there. 4. No bet limit (Black Jack or Slots) and \$10,000 Breaks-the-Bank. 5. No point for looking at the girl (Fawn) in the Disco, but You get 2 points for turning on the radio in the Honeymoon Suite instead of 1. 6. A "Zipper" icon is available.

LEISURE SUIT LARRY SOLUTION

This shows one way to solve the problems, and score 222 points. Earned points, running totals, and comments are shown in parentheses. Commands are shown in UPPER-CASE, and generally, scenes are underlined. LOOK in each scene for a good description.
