

# THE ATLANTA COMPUTER SOCIETY

Presenting

## COCO NUTS

Vol. 2 Issue 11

February 1996

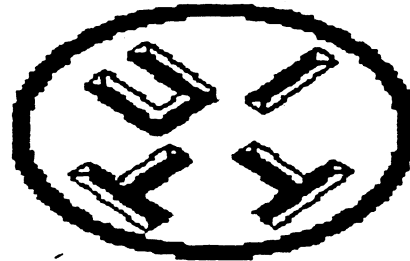

### Treasurer

#### TREASURER'S REPORT

By Russ Keller

Balance 12-95	\$3291.68
Debts 12-95	000.00
Deposits 12-95	20.00
Total 01-96	\$3311.68

Since I have all this space, how's about I pull out *my* soapbox.

Are we all using the ACS to its fullest potential?

It's a question we can only answer individually. For those of us who say you betcha, I say keep it up! You have the inside track.

If your answer is um, I guess so or no, I say read on. . .

Do you live out in the Coco

### Editor's Echo

### ACS

ACS

Happy New Year !!

Howdy folks.

boondocks, far away from other users? Maybe the local club has a great idea for software. The best place to start would be the ACS BBS.

From there you can get alot of info.

Hardware and software questions can be answered. Help with looking for that Coco stuff is here. Many fine programs, explanations, graphics, and music are also here.

We have several members who are well versed in hardware and software. I myself have gone to the board with hard drive, upgrade, OS-9 and printer questions.

Don't overlook the club library either. It's a great reference source also.

Of course there are the Atlanta Fests. These showcase what the ACS is all about, supporting the Coco community.

I hope all our members realize the many facets our club represents, and do use it to its fullest potential. I know I do.

## SMALL GRAFX

### ETC.

**NEW - THE TOOL - NEW**

512K Upgrades .....	\$50.00
Hitachi HD63B09E CPU & Socket .....	\$13.00
"Y" / "TRI" Cables Made Special 40 pin .....

TERRY LARAWAY 41 N.W. DONCEE DRIVE  
BREMERTON, WA 98311 360-692-5374

Info

In the last newsletter I submitted a very BASIC Basic09 program in support of the "Club Project". Anyone familiar with Basic09 probably had a chuckle after looking at it, however my thoughts were to start with a bare bones and maybe generate a little interest to learn to program in Basic09. "IF" interest is shown I will either add features, improve it or just make suggestions for you to improve and expand it. Anyway the following should be added. ( By the way you did save it before packing it ! ! )

R. C.

```
200 PRINT
RUN gfx2("clear")
GOSUB 300
RUN gfx("joystk",1,fire,xcor,ycor)
IF xcor<=21 THEN k$="is too cold." \ ELSE \ ENDIF
IF xcor>21 AND xcor<=42 THEN k$="is just rite."
ELSE \ ENDIF
IF xcor>42 THEN k$="is too hot." \ ELSE \ ENDIF
IF ycor<=21 THEN l$="is too cold" \ ELSE \ ENDIF
IF ycor>21 AND ycor<=42 THEN l$="is just right." \ ELSE \ ENDIF
IF ycor>42 THEN l$="is too hot." \ ELSE \ ENDIF
GOTO 450
```

!-----!

```
450 PRINT \ PRINT
PRINT "      Date:"; LEFT$(DATE$,8); "      Time:"; RIGHT$(DATE$,8)
PRINT \ PRINT
PRINT "      The inside temperature "; k$
PRINT \ PRINT
PRINT "      The outside temperature "; l$
PRINT \ PRINT
GOSUB 320
GOTO 10
```
