

RAINBOW On Tape
P.O. Box 506
Waterford, MI 48095

RAINBOW ON TAPE is comprised of ready-to-run programs based on listings published in **RAINBOW** magazine. The cassette service is not a stand-alone product, but is intended as an adjunct and complement to the magazine. You must refer to **RAINBOW** for loading and operating instructions.

Entire contents copyright© 1985 by Falsoft, Inc. Duplication of this product, either in whole or in part, is expressly prohibited. Reproduction by any means is a violation of applicable laws.

*Machine language program

Check the accompanying articles in RAINBOW magazine for instructions on loading and using these programs. (The corresponding page number is noted for your convenience.)

Since RAINBOW ON TAPE programs run the gamut, from 4K to 64K, from Color BASIC to Disk Extended Color BASIC, cassette-based or requiring disk drives, not all programs may work on your own system. Please refer to the corresponding magazine article for system requirements.

Tape counter numbers for both the CCR-81 and CTR-80 recorders are noted for your reference. However, counters vary from machine to machine and heavy usage will cause variance on a given cassette due to stretching of the tape. Use our table as an approximate position only. Note: You must cue the tape to the blank spot right before a given program to avoid getting an I/O Error.

Special Note: To exit from the MENU, press the up-arrow key. You may have to press it several times until the screen clears. After using any machine language program (including some BASIC programs), turn your computer off and back on or type PDKE 113,0:EXEC 40999 to clear it before loading another program.

(While many program listings from THE RAINBOW may be slightly modified and typed in for use on Dragon and MC-10 computers, RAINBOW ON TAPE will not run on these machines.)
