

The **RAINBOW**[®]
on tape

Your very own Pot O' Gold
under the Rainbow for

APRIL 1986

RAINBOW On Tape
The Falsoft Building
9509 U.S. Highway 42
P.O. Box 385
Prospect, KY 40059

RAINBOW ON TAPE is comprised of ready-to-run programs based on listings published in **RAINBOW** magazine. The cassette service is not a stand-alone product, but is intended as an adjunct and complement to the magazine. You must refer to **RAINBOW** for loading and operating instructions.

* The machine language addresses for *PINEW* were inadvertently left out of the article and *PINEW* should be saved to disk with the following command:

```
SAVEM~PINEW~, &H4000, &H490D, &H0000
```

Then type `RUN~PIBASIC~`. This will load the *PINEW* routine. You will need to have a printer online to print out the results.

Check the accompanying articles in *RAINBOW* magazine for instructions on loading and using these programs. (The corresponding page number is noted for your convenience.)

Since *RAINBOW ON TAPE* programs run the gamut, from 4K to 64K, from Color BASIC to Disk Extended Color BASIC, cassette-based or requiring disk drives, not all programs may work on your own system. Please refer to the corresponding magazine article for system requirements.

Tape counter numbers for the CTR-80, CCR-81 and CCR-82 recorders are noted for your reference. However, counters vary from machine to machine and heavy usage will cause variance on a given cassette due to stretching of the tape. Use our table as an approximate position only. Note: You must cue the tape to the blank spot right before a given program to avoid getting an I/O Error.

Special Note: To exit from the MENU, press the up-arrow key. You may have to press it several times until the screen clears. After using any machine language program (including some BASIC programs), turn your computer off and back on or type `POKE 113, 0:EXEC 40999` to clear it before loading another program.

(While many program listings from *THE RAINBOW* may be slightly modified and typed in for use on Dragon and MC-10 computers, *RAINBOW ON TAPE* will not run on these machines.)
