Now, RAINBOW ON DISK!

In addition to this popular RAINBOW ON TAPE service, the October 1986 issue marked the availability of RAINBOW ON DISK. Not only do you get all the programs that come with the tape service, but you also get OS-9 programs, which cannot be loaded from tape.

For more details and individual copy and subscription prices for RAINBOW ON DISK, check the latest issue of RAINBOW Magazine.

RAINBOW ON TAPE
April 1989

RAINBOW ON TAPE is comprised of ready-to-run programs based on listings published in RAINBOW magazine. The cassette service is not a stand-alone product, but is intended as an adjunct and complement to the magazine. You must refer to RAINBOW for loading and operating instructions.

If any manufacturing defect becomes apparent, return the defective tape within 30 days of purchase and it will be replaced free of charge. Please return the defective tape with a letter specifying the problem to RAINBOW ON TAPE, The Falsoft Building, P.O. Box 385, Prospect, KY 40059.

CLUB PURCHASES: While group purchases of RAINBOW ON TAPE and RAINBOW ON DISK are permitted, no license to make copies is conveyed or implied. Yes, your group may even purchase a subscription to our disk/tape services, but such purchase in no way authorizes that *any* copies be made of that original disk/tape. Specifically, this means that the original disk/tape itself may indeed be kept in a club library for use by members. However, a group purchase *does not* entitle club members, individually or as a group, to copy that disk/tape. Unauthorized copying of any copyright product is strictly illegal. The copyright (right to make copies) is in no way conveyed in the purchase transaction.

April 1989 Rainbow On Tape

* Indicates a machine language program.

Check the accompanying articles in RAINBOW magazine for instructions on loading and using these programs. (The corresponding page number is noted for your convenience.)

Since RAINBOW ON TAPE programs run the gamut from 4K to 512K, from Color BASIC to Disk Extended Color BASIC, cassette-based or requiring disk drives, not all programs may work on your own system. Please refer to the corresponding magazine article for system requirements.

Tape counter numbers for the CTR-80, CCR-81 and CCR-82 recorders are noted for your reference. However, counters vary from machine to machine and heavy usage will cause variance on a given cassette due to stretching of the tape. Use our table as an approximate position only. Note: You must cue the tape to the blank spot right before a given program to avoid getting an I/O Error.

Special Note: To exit from the MENU, press the up-arrow key. You may have to press it several times until the screen clears. After using any machine language program (including some BASIC programs), turn your computer off and back on or type POKE 113,0:EXEC 40999 to clear it before loading another program.

(While many program listings from THE RAINBOW may be slightly modified and typed in for use on Dragon and MC-10 computers, RAINBOW ON TAPE will not run on these machines.)
