QUEST	Quest for Lenore	1	2	177-318-445	118-270-480

If, while loading or running a program, you get a FC, OM, or SN error, you probably have to enter the PMODE and PCLEAR values for the program from the keyboard. The label on the tape also contains the PMODE and PCLEAR values. Locations for the programs are set for the Radio

Shack CTR-80. Your locations may vary slightly. We try to put as many duplicates of the programs on tape as possible. If the first copy does not load, try the second copy, or if it has one, the third. If all three do not load, then send it back for prompt replacement.

Hello, this is T&D Software. My name is Tom. We want to welcome all the new subscribers. We hope that you will be satisfied with our programs. Notice that the tape must be rewound before being played. This is to allow the tape to adjust to the recorder.

1. UFO COVER - This month's cover program uses four screens to demonstrate a UFO attack. The first scene shows earth's defense. The man in the center is asking if everything is OK and then you see a close-up of earth's screen and radar. You can take it from there.... Any fans from Close Encounters of the Third Kind? Note: Before loading the next program, enter PMODE 3: PCLEAR 4.
2. BIORHYTHM - Discover your Biorhythm for any given day. This program charts all three cycles: Physical cycle, Emotional cycle, and Intellectual cycle. It then graphs them for you. It also tells you how long you have lived and gives you a prediction of how you should be feeling.
3. BOMBARDMENT - This game can be very addictive. Players take turns shooting at each other over a mountain after entering the angle and the velocity. The size of the mountain and the wind factor change each game making each game a new challenge. Note: Before running the next program, enter PMODE 0: PCLEAR 1.

4. BLACKJACK - Blackjack, the popular card game, is played entirely with joysticks. Each person starts off with \$500 playing against the dealer and his opponent. Try your luck!

5. COST OF LIVING - This program gives you tips on 50 ways to save money on everyday living expenses. This includes saving money on food, energy, medical, clothing, car, and much more. See how much you can save.

6. FRENZY - Frenzy is a game of strategy and quick reactions. Players use their joysticks to maneuver their blocks to chase around after point squares. Players are also able to input the winning score and losing score to determine the length of the game.

7. BUSINESS LETTER - Have you ever had to write the same letter over and over again to different people? This program allows you to create a business letter (modified block style), review the letter, edit the letter and save the letter to disk or tape. The program also allows you to load pre-written letters from tape or disk. After your letter is created, you can print it out on your printer using fanfold paper or letterhead. Note: This program was created for use with the Radio Shack Line Printer VIII, but other printers may work as well.

*** Before running the next program, it would be best to turn the computer off and on, and then enter PMODE 1: PCLEAR 2. ***

8. QUICK THINK - This game will definitely get you thinking. Sure, it seems easy at first. Try using the timer function and setting it for three seconds. If you don't make your move fast enough, the computer will randomly make it for you. If you're really lazy, you can let the computer play the whole game.

9. QUEST INSTRUCTIONS - The instructions for Quest took so much memory that we had to make it into a separate program.

10. QUEST FOR LENORE - You are Hero in Quest for Lenore. She was taken by an ape-like creature to a city full of mazes. You find yourself lost, fighting off Dragons, running from Doomwinged Bloodthirst while searching for Lenore. Because there are over 90 sections, we put Lenore in two areas. When you enter a room of swords, you automatically gain possession of the sword of that color. Note: you might want to enter PCLS before playing the game.

If you have problems loading the programs, try changing the volume on your tape recorder. We have tested many tapes and all have come through with flying colors. If you have any questions, problems, solutions, or ideas please write to us. If you have any uncopyrighted programs that you want to show us, we will be glad to see them, and if we use them, we will pay you for them.

Until next month.....
