MOONROVE	Moon Rover	4	4	204-372	138-345
IOERRFIX	IO Error Ignorer	0	1	216-382	150-361
				227-391	160-378

If, while loading or running a program, you get a FC, OM, or SN error, you probably have to enter the PMODE and PCLEAR values for the program from the keyboard. The label on the tape also contains the PMODE and PCLEAR values. Locations for the programs are set for the Radio Shack CTR-82. Your locations may vary slightly. We try to put as many duplicates of the programs on tape as possible. If the first copy does not load, try the second copy, or if it has one, the third. If all three do not load, then send it back for prompt replacement.

Welcome to our April edition of T&D Software. Please remember, the first program on this tape is our Introduction program. Our 'CHATTER' column needs you! If you have anything to sell, trade, or announce, please let us know!

Note: Before loading the first program, 16k users must enter 'POKE 31,6:POKE 25,6' for more memory.

- HEALTH HINTS - Here are fifty one ways to better maintain your family's health. This program gives you some of the old-time cures that common sense has dictated over the years.
- GLIBLIBS - By inputting your own data, (nouns, adjectives, etc.), you can create three hilarious stories. Your data can then be scrambled, saved, loaded, and printed. When you first run the program, enter menu option number 4 to load in your data. Then, run option number 1 to examine your stories.
- COLOR SLITHER - In this program, the arrow keys direct a snake around the screen in search of score dots. Upon hitting a score dot, five points are scored and the snake's tail gets one longer. Hitting the red border or doubling back on the snake's tail ends the game. High scores are retained.

4. BIBLE 1 & 2 - This month we have four bible quiz programs for your enjoyment. They are all self explanatory. Bible 1 and 2 contain some multiple choice questions dealing with general knowledge of the bible.

5. BIBLE 3 & 4 - These two multiple choice quizzes require you to identify books of the bible by knowing their characteristics.

Note: The next five programs are machine language programs. You must enter 'CLOADM' instead of CLOAD and 'EXEC' instead of RUN. We recommend that you turn the computer off and on between programs.

6. CATCH ALL - This game is somewhat like the Radio Shack Rom-pack called Popcorn. You start the game with four paddles. You must catch the falling blocks before they hit the floor, else you lose one paddle. To save this program to disk or tape, enter (C)SAVEM "CATCHALL",10000,16000,10000.

7. INVADER - You alone must prevent the aliens from landing on earth and conquering the world. Use the right joystick to move back and forth as you take aim at the descending ranks. To save this program, enter (C)SAVEM "INVADER",10000,16000,10000.

8. ALIEN RAID - This is a fast moving game for either one or two players whereby you blast the aliens who are raiding your fuel supply. Each joystick controls a laser and at the conclusion of the game, scores are tallied. To save this game, enter (C)SAVEM "ALIENRAD",10000,16000,10000.

9. MOON ROVER - Can you safely guide your Moon Rover across the rough surface of the moon? Try to gather as many prizes as you can as you jump over the craters and accumulate points. To save this program, enter (C)SAVEM "MOONROVE",11000,16380,11000.

Note: Before loading the next utility, enter PMODEO:PCLEAR1: CLEAR100,15999.

10. IO ERROR IGNORER - Have you ever had an ?IO error midway thru a basic program? This utility will ignore the ?IO error and load what is good providing the first 20 bytes and the last 20 bytes are intact. Simply CLOADM the utility and EXEC. To save this program, enter (C)SAVEM "IOERRFIX",16000,16380,16000.

If you have problems loading the programs try changing the volume on your tape recorder. If you have any questions, problems, solutions or Chatter, please write to us. If you have any uncopyrighted programs that you want to show us, we will be glad to see them. Send them in and if we like them, we will make you an offer.

Until next month.....
