DISK USERS: Insert disk and run 'DIR'. CASSETTE TAPE USERS: Rewind tape. Zero the tape counter. Fast Forward to desired program's tape counter number and enter 'CLOAD' or 'CLOADM'. If while loading or running a program, you get a FC, OM, or SN error, you probably have to enter the PMODE and PCLEAR values from the keyboard. We try to put as many duplicates of the programs on tape as possible. If the first copy does not load, try the second copy, or if it has one, the third. If you cannot get the tape or disk to load the programs properly, then send it back for a prompt replacement.

Welcome to our 46th issue. Since a disk subscription costs the same as a tape subscription, you can now change your tape subscription to disk without any charge. Lately, we are finding that disks are more reliable than cassette. Also, we plan on filling up each disk with pictures of movies and TV shows and allow you to win free subscriptions and back issues.

1. SPECIAL EVENTS REMINDER - This home management program will allow you to create, save, and reference a database of birthdays and anniversaries. A neat hard copy printout can be made of the data in the database if desired. An extra built-in feature lets you calculate time (in days) between a current date and any other birthdate or anniversary date listed in the database.

2. Disk Lock Utility - This disk directory security program. You can lock up valuable disks and then unlock them later by entering the proper password. To run this program, do the following: 1. Initialize a blank disk. 2. Run "DISKLOCK" and enter a password. 3. Save or copy programs to your new disk. 4. To lock the disk, enter LOADM "LOCK":EXEC. Now when you type DIR, only UNLOCK will appear. To unlock the disk, enter LOADM "UNLOCK":EXEC. Then enter the proper password. Note: After using this program, you should turn the computer off and on.

3. **SMALL BUSINESS HELPER** - This program may be useful to anyone who runs a small business. This program allows you to create, save, and manipulate a database of your business equipment, along with a seperate database of financial transactions. This program works with both tape and disk and data can be printed on your printer.

4. **BOMB RUN** - Drop your bombs on the enemy bases as you fly your jet bomber. Watch out for the land bases as they can fire at you as well. This Basic game uses machine language and the high speed poke to help it move fast.

5. **TANKS** - Do battle with the computer controlled tank as you try to shoot and destroy the computer's flag before the computer gets you.

6. **TAR PITS** - Try to avoid traps by running and jumping in this graphic game. You must also avoid the pits, and wallowing tar pits. Collect points by collecting treasures. Collect all treasures on the level and get a bonus and a new level.

7. **COMPUTER BASEBALL** - This baseball game is for two players. On offense, control the swing of the bat and the advancement of base runners. On defense, control the pitching and the outfielders. Keep yourself and a friend entertained for hours with the national past time!

8. **NUMBER RELATIONSHIP** - This program will drill children in number relationships. Three difficult levels are available and you can set the number of exercises. A complete score report is provided at the end of the exercises.

9. **ROULETTE** - If you enjoy Las Vegas but can't seem to get there often enough, then maybe this will help. Start out with $1000 and place your bet in this version of the popular game. Bet on BLACK/RED, ODD/EVEN, HIGH/LOW, or all three.

10. **GLOBAL EDITOR** - Global Editor is a machine language utility which can be used to change several occurences of a certain group of characters and statements in your Basic programs. For examples: If you want to change all PRINT statements to PRINT #-2, statements, you can do it with this program. Loading instructions: 16K - Enter CLEAR200,14999. Enter (C)LOADM"GLOBEDIT". Enter EXEC. 32K - Enter CLEAR200,31383. Enter (C)LOADM"GLOBEDIT",16384. Enter EXEC when necessary. To save this program to tape or disk, enter (C)SAVEM"GLOBEDIT",15000,15982,15000.

If you have any problems loading the programs try changing the volume on your tape recorder. If you have any questions, problems, solutions or chatter, please write to us. If you have any uncopyrighted programs that you want to show us, we will be glad to see them. Send them in and if we like them, we will make you an offer.

Until next month.................
