DISK USERS: Insert disk and run **DIR**. **CASSETTE TAPE USERS:** Rewind tape. Zero the tape counter. Fast Forward to desired program's tape counter number and enter **LOAD** or **LOADM**.
If while loading or running a program, you get a FC, OM, or SN error, you probably have to enter the **P.MODE** and **PCLEAR** values from the keyboard. We try to put as many duplicates of the programs on tape as possible. If the first copy does not load, try the second copy, or if it has one, the third. If you cannot get the tape or disk to load the programs properly, then send it back for a prompt replacement.

Welcome to our 81st issue of subscription software. The Public Domain programs are ready! We've worked hard obtaining the best Public Domain programs. Out of 1000 programs, we have selected 635. Because you are a valued subscriber, we would like to offer you an additional 10% off. But hurry, the 10% offer will only last until April 15, 1989.

1. **MONSTERS** - Your goal is to destroy 5 groups of outlaw monsters in this 32K Dungeons and Dragons type game. You and your 100 troop army move around towns, dungeons, and other places. In the dungeons you can fight monsters in search of gold and treasure. In towns you can buy supplies, hire troops, gamble, and even buy wizards. In the arena you will be able to fight beasts for money. Good luck!

2. **SUPER CONCENTRATION** - This graphic program will test your memory. By using your joysticks, players take turns uncovering squares trying to match what is underneath them. When you make a match, the squares are uncovered revealing part of a quote. The first one to guess the quote, wins the prizes that they accumulated.

3. TEN PROGRAMS COCO3 - This program provides you with 10 programs for the Coko3. They are as follows: 1 Mortgage payments amortized. 2. Coko3 pie graph display. 3. Hexidexinal-Decimal converter. 4. Piano keyboard tutor. 5. Four-way math display. 6. Windchill Factor program. 7. Songwriter's word rhymmer. 8. Six number lotto maker. 9. Weaving pattern display. 10. American flag drawing.

4. FINANCE - This program allows you to find all kinds of information on your savings or loans. You can find compound interests, interest rates, monthly deposits required, loan payment amount plus much more.

5. SNOWBALL FIGHT - Use your joysticks to maneuver your men. Push the joystick down to pick up a snowball. Push the joystick button to throw the snowball. Hit your opponent in the back or on the face nine times before he hits you to win.

6. RULER - This educational program will help your grade school student learn fractions. You are shown a graphic screen of an enlarged ruler inch. If you do not guess the fraction correctly, a screen with the answers is shown. This program loads to ML files called A.BIN and W.BIN. To save any of these, enter (C)SAVEM "A or W",3584,9727,3584.

7. POP-UP WINDOWS - This program will allow you to create pop up windows for your basic programs. The program WININS contains instructions for creating the Pop-up windows as well as a demo of how they work. WININS loads up a file called MODULE which was previously created with the Window program. The Window program also loads up a machine language file called WW. To save WW, enter (C)SAVEM"WW", 19000,19127,19000.

8. TARZAR2, THE CASTLE - You must destroy Tarzar in this 32K graphic adventure. You start out in the entrance of a large castle. You must try verb/noun combinations like get picture, get key, unlock door, open door. Also, you can use N,S,E,W for North, South, East and West. This program will load up a machine language file called TARZAR2. To save TARZAR2, enter (C)SAVEM "TARZAR2",1024,1536,1024.

9. SUPER LISTER - This utility is great for reading/printing documentation files. The program will figure out if you have a Coko3 or not. If you have a Coko3 then the screen width will be 80 characters wide, else the screen width will be 32. To get a menu of commands, enter an ? while running. The commands are as follows: Up arrow - up 1 line. Down arrow - down 1 line. Shift up arrow - up 1 page. Shift down arrow - down 1 page. P - print the entire file at any time. Clear key - print the entire page. F - find text. N - find next text.

10. DRAONIAN - This is another of Tom Mix games that we have for you. The object of the game is to destroy all of the enemy bases within each sector, rescue as many Astronauts as possible, and dock with the friendly base at the top of the sector. Enter CLOADM to load from tape or LOADM"DRAC" to load from disk. Then enter EXEC to run the game. Pressing the <SPACE BAR> at start will stop the music and start the game. Use your joystick to maneuver your ship and fire. Shoot at the gun turrets and free the Astronaut by touching him. Dragons fly around the sector trying to destroy you. If you take too long to destroy all of the Enemy Bases, a warning will appear and then the indestructible Draconian will appear. After all the bases are destroyed you must enter the gate on the top to dock. Extra ships are awarded at 10,000 points and every additional 50,000 points. The <ENTER> key will pause the game and the <SPACE BAR> will resume. To save this program, enter (C)SAVEM"DRAC",7168,32255,23786.

Last month the program Spelling Checker had a bug in it. We've enclosed a new version of the basic program called SPELLING. Simply load this program and save it on last month's disk/tape.

Until next month.....
