DISK USERS: Insert disk and run DSK CASSETTE TAPE USERS: Rewind tape. Zero the tape counter
Fast Forward to desired program's tape counter number and enter CLOAD or CLOADM
If while loading or running a program, you get a FC, OM, or SN error, you probably have to enter the
PMODE and PCLEAR values from the keyboard. We try to put as many
duplicates of the programs on disk/tape as possible. If the first copy does not
load, try the second copy, or if it has one, the third. If you cannot get the
tape or disk to load the programs properly, then send it back for a prompt
replacement.

Welcome to our 97th issue of subscription software. We hope that you will
enjoy this month's selection of programs.

1. FCC EXAM HELPER - Two quizzes are provided to help you practice for the FCC
Amateur Radio Test. If you select novice, then a file called NOVICE.DAT will be
loaded into the computer one question at a time. If you select technical, then a
file called TECHNICA.DAT will be loaded into the computer one question at a time.

2. EMPLOYEE SCHEDULE - This program will help you in scheduling shifts of
employees. The first step that you must do is to edit the jobs list. Here you must
enter the date you start, the location or department code, the title description and
the maximum pay-scale. The next step requires you to update the schedule. In this
mode you can update the date and add your employees to the time slots. You can also
see a graphic pie chart of all the full time slots. You can receive a printed
report of the schedule and save the information to tape/disk.

3. FLYING SAUCER ADVENTURE - You must sneak on board the flying saucer in your
quest to become a famed astronaut. Use commands like N, S, E, W, U, D, to move
around. Use verbs like get, examine, take, look, drop, or leave followed by a noun.
Overcome the robot as you try to find the secrets of the universe.

4. SPEECH AID - Speech Aid is a vocal program designed to help people with impaired speech. It is especially helpful for stroke victims with speech aphasia. It requires a multipak and the speech and sound pak. Since the sound pak uses phonetic sound, the user may have to spell a word incorrectly in order to get the correct sound.

5. MOWER MADNESS - Now all ten areas of the robot factory in this high resolution game. Use your right joystick to maneuver your lawn mower. Make sure you avoid the robots or you will have to start over.

6. JET TRIVIA - This machine language program will provide you with jet fighter statistics of ten planes. The planes are as follow: A-4 Skyhawk, F-14 Tomcat, F-15 Eagle, F-4 Phantom, F-111 Aardvark, F-16 Falcon, F/A-18 Hornet, A-10 Thunderbolt, F-5 Tiger II, A-6 Intruder. After viewing the statistics of each jet you can take a quiz on what you have learned or get a graphic flyby demonstration. Since this program is written in machine language, you must enter CLOADM "JETTRIV" if you have tape or CLOADM "JETTRIV" if you have disk. Enter EXEC to run. To save this program, enter (C)SAVEM "JETTRIV",12288,31144,12288.

7. INSTANT CALENDAR - This little utility will provide you with an instant calendar whenever you hit the <CLEAR> key. Simply run the program "ICLOAD" and it will automatically allow you to load and execute the program "IC". Use the arrow keys to change the date/year. To save "IC", enter (C)SAVEM"IC",14900,15027,14900.

8. WORLD MASTER 3 - This Coco 3 only program is a one or two player game of land acquisition. The object of the game is to gain the most land and points by shooting target sites. You have various options in the game including number of targets, number of players, computer skill level plus more. There are three kinds of targets. A white space (20 points) is a computer selected target. A green space (10 points) is a normal target. One of your opponents spaces (5 points) returns to a green space when you hit it. You must hit it again to claim it as yours. Use your joystick to select your targets and the fire button to claim them. You can press 'Q' to quit at any time. Both players must hit the joystick buttons to start a two player game. To load the WL game, enter LOADM"WMASTER3" for disk or CLOADM "WMASTER3" for tape. Enter EXEC to run. To save this program, enter (C)SAVEM "WMASTER3",16640,33150,16640.

9. AIR MAX 3 - This Coco 3 only game involves one on one fighter plane action. You can choose different options such as a cloud ceiling, a rising target balloon, shots that can wrap around plus more. Press the fire button to start you plane. You must have enough speed to pull up to climb over the mountain. Do not pull up to hard or you will stall the plane. By shooting down your opponent or the target balloon, you score a point. If you crash the plane, your opponent will score a point. To load this WL program simply enter LOADM "AIRMAX3" for disk or CLOADM "AIRMAX3" for tape. Enter EXEC to run. To save this program, enter (C)SAVEM "AIRMAX3",4096,25650,4096.

10. SKRAMBLE - Your mission is to penetrate the enemy Skramble system and destroy their headquarters in this Ten Mix favorite. You will start with three spaceflighters equipped with repeating cannons and twin bomb launcher. An extra fighter will be awarded at 10,000 points. Extra fuel can be gained by destroying the fuel dumps. If you evade the ground defenses, you will arrive at the cave to battle the UFO's. After this you meet up with a hail of meteorites and then a maze. If you make it through the maze you will have one chance to destroy headquarters. If you destroy headquarters, your ship will be replaced, together with a new and harder mission. The controls are as follows: Arrow keys or joystick control movement. To fire press the spacebar, shift key or joystick button. Press "U" for joystick game. Press "K" for keyboard game. Press "P" to pause or "R" to restart. To load this program, enter (C)LOADM "SKRAMBLE". Enter EXEC to run. To save this program, enter (C)SAVEM "SKRAMBLE",4096,14799,4096.

Until next month.......................
