QUICK3	QUICK 3	3	4	202:364	148:348
BLACKB	BLACK BEARD	3	4	205:374	150:356

DISK USERS: Insert disk and run 'DIR'. CASSETTE TAPE USERS: Rewind tape. Zero the tape counter. Fast Forward to desired program's tape counter number and enter 'CLMAY' or 'CLOADM'. If while loading or running a program, you get a FC, CM, or SN error, you probably have to enter the P.MODE and PCLEAR values from the keyboard. We try to put as many duplicates of the programs on tape as possible. If the first copy does not load, try the second copy, or if it has one, the third. If you cannot get the tape or disk to load the programs properly, then send it back for a prompt replacement.

Welcome to our 108th issue of subscription software. We hope that you will enjoy this month's fine selection of programs. Thank you for your continuous support of the Coco.

- 1. SOUND GENERATOR** - This program will provide you with some sound variations to demonstrate the different types of sounds available on the Coco. There are eight selections to choose from as well as a random sound selector.
- 2. HIDE DIRECTORY** - Hide a disk directory with this easy to use disk only utility. With the directory hidden, the disk will appear to be empty and your data will be safe. You can use a password to protect your valuable data, if you desire. When the program is first run, it will automatically create a file called system.dat. Press (H) to hide the directory and (U) to unhide the directory. Before hiding the directory of this disk #108, please make a backup of disk #108.
- 3. LOST TREASURE ADVENTURE** - You start out in the woods searching for the lost treasure of famous King Erik. Watch out for snakes and Wizard's and other characters. Use standard adventure syntax like N, E, S, and W for moving north, east, south, or west. Use other verb/noun combinations like get, hit, examine, look, etc.

4. **CLUB REGISTER** - If you are a secretary for a club then this program may help you. You can maintain your lists of members, a list of dues as well as providing a report onto your printer. You can save your information to tape or disk. When you first run this program, you should select A for adding members. Not only can you add the members name and address, you can add the date he joined, the dues paid, the dues owed, his membership expiration date as well as additional information. When you select the print option, you can print mailing labels, member lists, as well as a list of members dues.
5. **SNACK SHACK** - As the owner of your very own concession stand, you must make the decisions on how much popcorn to pop, how much pop to stock, how many cups of ice to make, as well as how much coffee to make. Try to make as much money as possible before the football game ends.
6. **CIVIL WAR 3** - This Coco3 only program will list most of the battles that occurred during the civil war. It includes where & when it was fought as well as the commanders and the winners of each battle.
7. **SPELLING QUIZ** - This program will help drill you on some of the most often misspelled words. You can enter in from 2 to 100 questions depending on how many you want. At the end of the drill, the computer will grade your results.
8. **COCO 3 CLOWN** - This Coco 3 only program will provide plenty of entertainment for the younger computer user. The clown will appear on the left of the screen. You can color up to ten different items on the clown. You can re-color any of the items as long as you do not try to re-color black..
9. **QUICK 3** - This Coco 3 only game is somewhat similar to the Quix program we published from Tom Mix. The object of the game is to try and cover as much area as possible without getting hit with the moving ball. It is kind of tricky to play at first. You may get a little frustrated with the controls because first time users tend to crash into themselves. You can decide which keys will control the movement. There is a percentage graph on the right side of the screen which lets you know how much area you have covered.
10. **BLACK BEARD ADVENTURE** - This disk only Tom Mix adventure involves the search for Black Beard's treasure. You are treasure hunter and all-around beach bum Tom Wentworth. After falling off your father's yacht, you find yourself on a volcanic island. You must escape the island and find Blackbeard's treasure any way you can. Note: This program is not 100 % compatible with the Coco3. Some of the pictures will appear garbaged on the Coco 3. We have done everything we can to try to make this program Coco 3 compatible. To run this machine language program, enter LOADM "BLACKB". Then enter EXEC. There will be a delay before the game starts. To save this ML program, enter SAVEM "BLACKB",9700,24500,9700.

Until next month.....
