## Editorial

This issue once again brings an installment of our *Product Hotline* listing, featuring products and services from many different vendors. As always, each vendor's contact address, including some whose products are *not* listed, is listed at the end of the product listings. If you have any questions, comments, or corrections, please let us know about them. In addition, if you have a product which you would like to be listed in the hotline, send a complete product description along with system requirements and retail price to *Product Hotline* at the regular mailing address.

I have also found out some more information about the upcoming Glenside Fest, planned for this May, from Tony Podraza. Some information concerning ticket pricing did not make it onto the advertisement. Those Fest attendees from age 10 to 5 will receive a \$5.00 rebate off of the ticket price, and children 5 and under are free. In addition, there will be a special student rate. We'll get back to you with more information about the Fest and our regular columns next month!

## Product Hotline

This section is a new addition for *UpTime*. Listed here are products and their features from various distributors. This information and their comments are taken directly from the distributors and *not* independent reviews. Every effort has been made to insure the accuracy of the material in this section; however, if there is an error, please let us know. If you would like to have a product listed here or remove a product from these listings, please notify us in writing. This section will be displayed in its entirety approximately every three months, and new items will be listed monthly. Note that most prices are for the U.S. only. Foreign orders should contact the dealer for extra shipping costs.

## ANNOUNCING: Invoice09

A program that produces professional looking invoices on blank computer paper. Ideal for light volume applications. The program is very flexible, but since you can preselect your options with a setup program it is also very easy to use.

Some of the program's options include support for color printers, automatic journal entries if you use the accounting level 2 package, automatic search through an address database with every new entry being added to the database and the option to print the address on an envelope.

The utilities in the package include a database manager for the address database with printing capabilities for mailinglists/labels, a setup program, installation routines and a program that produces sales listings and summaries by product or customer.

The database manager can also be used as a standalone program for personal use: holding names, addresses and telephone numbers of family, friends, etc.

System requirements: OS9 level 2 and a printer that supports the IBM character set.

# KiX/20...

## *32 bits of affordable excellence*

### **32 bit Performance at 16 bit cost!**

#### **NEW LOW COST 32 BIT COMPUTER FOR OSK!**

The KiX20 has the same 32 bit expansion bus as the KiX30 and uses the same expansion boards. This includes the Ultra fast Multi Graphics Adaptor video board. The 32 bit MGA video board adds high end graphics to the low cost KiX20. This combination provides the end user with high performance workstation capabilities at home computer prices. *If you are looking for an OSK machine that provides super fast video and low cost, then this is it.*

#### **The KiX20 specs:**

- ▶ 25 Mhz 68020 CPU
- ▶ 1, 2, 4, 8 or 16 Meg of RAM on the motherboard using SIMM memory.
- ▶ On board SCSI controller (same as KiX30)
- ▶ Dual density floppy controller. Supports 360K to 1.4 Meg floppies.
- ▶ 8K Battery Backed Static RAM.
- ▶ 4 on board full serial ports (same as KiX30)
- ▶ Battery backed Real Time Clock
- ▶ Sound port
- ▶ 1 Parallel printer port
- ▶ Full user manual with schematics
- ▶ Autoboot from floppy or hard disk included.
- ▶ 4 Built in I/O expansion bus.
- ▶ 1 KiX30 32 bit Expansion bus connector
- ▶ 4 layer PCB
- ▶ Small 8.7 in by 8.7 in. size drops in any PC case

#### **includes...**

- ▶ PROFESSIONAL OS9/68000
- ▶ MICROWARE K&R C COMPILER
- ▶ MICROWARE BASIC!
- ▶ MICROWARE MANUALS
- ▶ Run as a terminal system now, then add a video board later.

The bus runs at full CPU speed. The bus is not a limiting factor like the slow AT/ISA bus used on most PCs available today. (The AT/ISA bus is limited to 8Mhz and is only 16 bits.)

The performance gain of this system over current systems is dramatic.

In today's economy, cost is a major factor. This system is designed to start at only 699.95. That includes Professional OS9/68000, Microware K&R C compiler, Microware BASIC, debuggers and tons of utilities.

You can start out with a terminal based system and add the MGA video board later.

#### **The introductory price for the KiX20 is:**

# *Only \$699.95!*

*And that includes...  
OS9/68000, C and BASIC!

## CoCo-XT Hard Disk Interfaces

Hundreds of Color Computer enthusiasts in the US, Canada, Europe, South America, and Australia love our affordable high-performance hard disk interfaces! Look at these features:

**NO HALT • 1 or 2 hard drives • 30% faster than SASI • Uses PC-type hard disk drives & MFM / RLL controllers • 5 Meg to 120 Meg per drive • Does not use interrupts • Multi-PAK recommended • Works with 12 Volt Y-cables • Includes EZGen boot file editor for easy installation**

Each interface includes a user manual and software for use with HYPER I/O or OS-9. The CoCo XT hard disk interface is \$69.95. The CoCo XT-RTC model, \$99.95, adds a battery-powered real time clock / calendar for OS9 and BASIC.

## Native Mode for \$34.95!

Burke & Burke's \$34.95 PowerBoost kit replaces your CoCo's 6809 with a high-performance Hitachi HD63B09E microprocessor. PowerBoost comes with our exclusive "tuneup" program, which uses the HD63B09E's advanced instructions to speed up many OS9 operations by an average of 40%. PowerBoost now includes software to run the 63B09E microprocessor in Native Mode for a 10% average speed increase over previous versions. Our implementation of Native Mode updates only the REL, BOOT, OS9P1, OS9P2, and CC3DISK modules; other modules require no modification.
