"The WIZARD'S CASTLE"
Volume 1, Number 9
May 1988

(C) 1988

Edited and Published
By: Bobby Roger Queen
BBS # (704)-434-2629

"The WIZARD'S CASTLE" is published monthly by Bobby Roger Queen; 1737 Farmville Road; Shelby, NC 28150-9406.

The entire contents (C) 1988 by Bobby Roger Queen.

This magazine is intended for the private use of our subscribers and our readers. All rights are reserved. The contents of this mag azine may not be copied in whole, or in part without written permission from: Bobby Roger Queen.

Rates are as follows : $10/yr USA, $15/yr Canada, and $30/yr for overseas. All funds must be <US>.

The purpose of this magazine is to provide help to every Color Computer user. This magazine will continue to support all the Color Computers (CoCo's).

The submission of questions, penpal ads, scores, post-it-notes, reviews, hints, programs, etc. to be published in this magazine will be highly encouraged. Every thing that is submitted becomes the property of "The WIZARD'S CASTLE". We reserve the right to edit all the materials used, and not to publish materials which we determine to be unsuitable for publication.

We highly encourage submission of programs as well as articles on appropiate subjects. All programs must be well documented so readers can understand how these programs work. We currently do not pay for these programs or articles, but we may start some time in the future. Materials sent in will not be sent back unless proper return postage is included. All programs should be sent in on a disk or tape & any needed comments should be saved as an ASCII file. We prefer programs to be submitted on disk but we'll accept them on tape also.

DISPLAY AD RATES

Deadline for ads is the 25th of the month prior to printing.

Pages	1Month	6Months	12Months
1/4	$10.00	$ 50.00	$100.00
1/3	$15.00	$ 75.00	$150.00
1/2	$20.00	$100.00	$200.00
1	$25.00	$125.00	$250.00
2	$30.00	$150.00	$300.00

NOTICE:
Artwork must be camera ready. All rates listed are per page or fraction thereof. Please enclose full payment with each ad copy. Absolutely no X-Rated Ads.

Changes abound this month at the 'CASTLE'. First, we finally got moved into the trailer. It looked a lot bigger that it actually was. Also, our list of advertisers is slowly growing and our subscribers list continues to grow. Don't ever forget to keep supporting our advertisers because they're the ones who'll decide how long we can keep our prices down on subscription rates. And don't ever forget our two BBS's that we keep for your convienence. We continue to need articles for the magazine so send them in soon. We are in desperate need of programs for the programmers corner. How about some OS-9 programs also. We always can use new subscribers so send us those names and show your copy around to the CoCo users you see. Remember send those articles, reviews, etc., for the magazine to:

"The WIZARD'S CASTLE"
1737 Farmville Road
Shelby, NC 28150

ANNOUNCING the cover contest will be extended until May the 31st. I will be looking forward to some nice entries to the contest. Don't forget that the first place prize is a copy of DESKMATE for the CoCo 2. I hope everyone is already hard at work on their entry. Also, we are asking for more contest ideas. So far, not one reader, has given me even one idea. I know some of you have contest ideas so send them in today. So remember whether you have a cover for us or whether you have an idea for a contest, or whether you have a prize to donate, send it soon to:

--"The WIZARD'S CASTLE"
C/O Cover Contest
1737 Farmville Road
Shelby, NC 28150

This months cover is the only cover that has came in so far. It is the first of many (I hope) that are going to be entered in this contest. I know you think sometimes that all I do is gripe, but when one person, alone undertakes such a huge task as this, he's going to need to gripe every so often. Oh yes, don't forget to put your FULL NAME on any item sent in to us. Whether you MAIL it in or whether you UPLOAD it to our BBS (The NEWSROOM). If you have recently sent something to us and you don't remember if you put your name on it or not, then write a quick note telling up what it was, and giving us your name. Thanks again for helping me continue this growing publication.

Remember one man alone can not put out a publication as 'GREAT' as this one. Thanks again.

--The WIZARD

letters letters

to the editor

This is a column which will include letters written to the Editor which may have to be slightly edited due to space. Other that this the letter will be printed as it appears.

Dear Wizard,

A friend introduced me to "The WIZARD'S CASTLE", and I thought it was FANTASTIC!! A GREAT magazine! I am enclosing my subscription fee. Please start it as soon as possible. Thank you.

Signed,
Can't Wait in DE

Dear Wizard,

Here is the $10 for a years subscription to your DEVASTATING magazine!!! I'd like you to put this under your pencil pals area of the mag. Thanks WIZ.
P.S. Please send my subscription VERY...FAST because I can't wait to get my hands and eyes on the next copy of your magazine. Also send a sample copy of your magazine to my friend.

Signed,
Hurry UP in TX

Dear Wizard,

Find enclosed a money order for $10.00 for your monthly magazine "The WIZARD'S CASTLE". Thank you

Signed,
New Reader in AZ

Dear Helping,

Sure, we need help all the time Just write up the article/note/review and send it in. --The WIZARD

Dear Wizard,

Enclosed is my check for $10 so I can receive 12POWER PACKED issues of "The WIZARD'S CASTLE" magazine as offered in your ad in the 3/88 issue of DCN. Looking forward to your publication. Sincerely.

Signed,
Looking Forward in MO

Dear Wizard,

I can't tell you how happy all us CoCo user's are to finally see a new magazine for the CoCo. Well I think it's LONG OVERDUE!!! I have had a subscription to Rainbow for 5 years now & have watched it go downhill like Hot CoCo did. Well could you please send me a 1 year subscription, and could you also send a SAMPLE COPY to:.
P.S. Would you please list my BBS also.

Signed,
Elated in Canada

Dear Wizard,

I just couldn't wait to send my $10 for a 1 year subscription for your mag "The WIZARD'S CASTLE". I can't wait to see what this next months issue holds in store. Are you still needing input for your magazine? And if so, what kind?

Signed,
Helping in OK

REMUSIC is a versatile, programmable music synthesis software package requiring only a 16K disk-based CoCo(32K recommended). Enter musical data as BASIC program REM statements -- no graphic interface is used. Once loaded, REMUSIC keeps a low profile as you roll merrily along in BASIC. Here are a few of REMUSIC's powerful features:

*Four independent voice tracks *Definable and dynamically assignable tone waves and amplitude envelopes, allowing such effects as decay, vibrato, and tremolo *Music plays through TV or monitor speaker *Nestable multiple music repeats with the option of different endings *Key signature and two different transposition modes *Ability to mathematically link repeat iterations with such functions as transposition, octave, tempo, waveform assignment and subordinate repeats and endings *Ability to convert music to independent machine-language programs for use in your own programs *Since music source files are actually BASIC programs, they can be edited and merged as other BASIC programs can.

Package includes program diskette, sample music files, and documentation.

Send check or money order for $25.00* to:

CODIS ENTERPRISES
2301-C CENTRAL DR., STE. 684
BEDFORD, TX 76021

*Texas residents add $1.75 sales tax.

RAINBOW CERTIFICATION SEAL

Get a REMUSIC demo for $2.00

Since the benefits of REMUSIC 1.0 must be heard to be appreciated, CODIS ENTERPRISES offers a diskette containing a sampling of the quality of music of which REMUSIC is capable. Best of all, it requires no additional hardware. To receive this audition, send $2.00 to CODIS ENTERPRISES for the demo disk and a coupon entitling you to a two-dollar discount on REMUSIC 1.0.

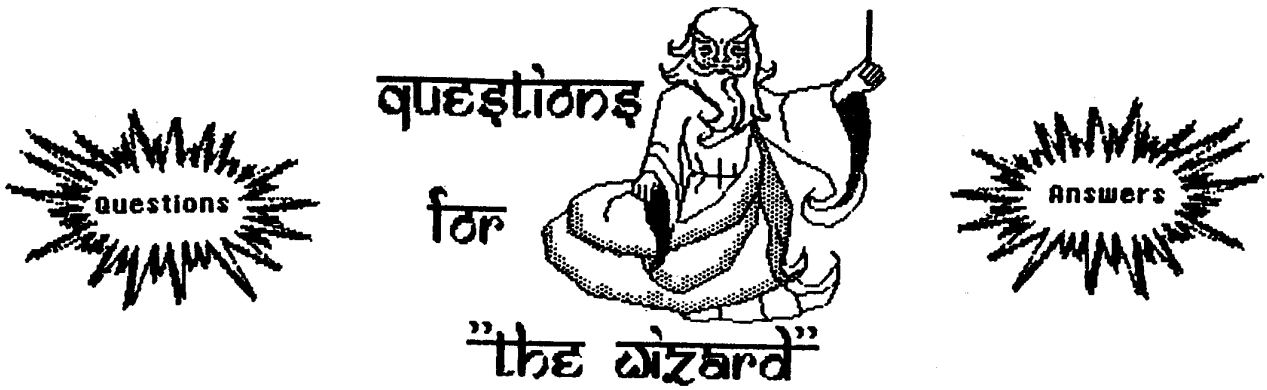
BEDFORD, TX 76021

Please send me ☐ the REMUSIC demo disk for $2.00*.
☐ REMUSIC 1.0 for $25.00*.

Enclosed is a check or money order for $_____.

*Texas residents add 7% sales tax.

WC



Here is where you can consult the 'WIZARD' on any and all problems you might have if he can't help you he will be honest and tell you so. But who knows he may be the one who can solve that big problem that has been bothering you for ages.

Dear Wizard,

I have lots of pictures good for the cover, but I'm still waiting for my disk drive. So couldn't I send some on tape and you could transfer it to disk?

Signed,
Wondering in EGYPT

Dear Wondering,

Yes, you, and any of our other readers can send pictures in on tape. We prefer it on a disk but we need covers so bad we'll take anything we can get. I will look forward to receiving your graphics in the near future.

Signed,
The WIZARD

Dear Wizard,

I mailed you a 'REVIEW' several months ago and I still haven't saw it in the magazine. Was some thing wrong with the review? Or are you that backed up?

Signed,
Been Looking in FL

Dear Been Looking,

No nothing was wrong with your review, and yes, we are a little backed up but that's the way we like it so keep sending them in.

Signed,
The WIZARD

Dear Wizard,

Recently I bought a CoCo 3 and I have had trouble getting 'Disk Omniclone 2.2' to work properly. It will load up okay but as soon as I try to make a copy of something the disk drives motor will start up and continue to spin, & the computer locks up. Can you offer a patch or any other solution?

Signed,
Helpless in OH

Dear Helpless,

Truthfully, I'm so busy with the magazine that I don't have time to keep up with all the 'NEWEST' patches for all the old programs and games. Hopefully some of our other readers might know of the patch. So how about it readers?

Signed,
The WIZARD

Dear Wizard,

Did you ever get moved into the trailer you told us about?

Signed,
Curious in LA

Dear Curious,

Yes I finally got moved out here & I'm typing this up now in our new offices. Thanks for asking and keep writing the letters.

Signed,
The WIZARD

LOOK at what's new for your Color Computer...

Phoenix Labrynth

It is YOUR destiny to assemble a brave group of adventurers and enter PHOENIX LABRYNTH! Lead the search for riches and glory in a world where only the best survive by use of strength, sorcery, and strategy. Use the unique skills of your players and the wide range of weapons and armor to defeat your opponents and gain experience and gold. Entering the Labrynth will be easy, but finding your way back will be hampered by dangerous creatures and traps, not to mention the complex tunnels and passageways. Let the bold and brave step forward to challenge the Labrynth!

- Exciting color and sound effects
- Watch as your players gain strength, riches, and powerful magics
- Up to 40 detailed characters saved to disk
- Choose from 4 professions, each with highly developed skills
- Clerics to turn the undead and heal the wounded
- Wizards to employ powerful sorcery against your opponents
- Fighters to help battle the cunning monsters
- Thieves to remove the deadly traps in the Labrynth
- Different Labrynth each time you play
- Dozens of creatures to challenge your every move
- Magical swords, staffs, potions, wands, rings, and much more
- Up to five players may participate in each adventure
- Full documentation booklet included

SLANG

This exciting word game has finally gone CoCo! Great for parties or just plain fun. Enter your own words into the computer and it uses them to create hilarious stories. SLANG is a wonderful game for children and friends, and can also satisfy the adult humor in all of us. SLANG creates your own personalized funny stories. SLANG stories can be put on paper through your printer, too, if you have one. Below are some titles which SLANG will let you choose from:

Flintstones	Olympics
Miami Vice	Psycho
Shark Attack	Beach Party
Hotel	Top Rank Boxing

And many others!

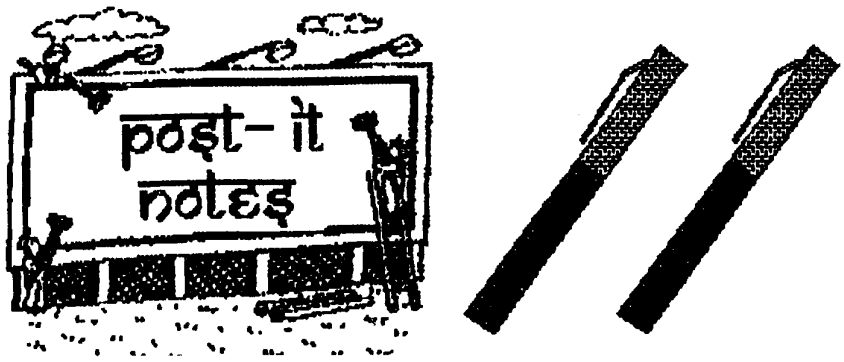
whatever you want to say just write it on a convenient post-it note.



This is where you can write a note to a fellow reader or just make a brief comment about something. You can use this area like you would use a bulletin board. Put a note about a new 'BBS' or comment on someone's program. Or just write a little note to someone else. It will be up to you to see that this area of the newsletter stays full. So "REACH OUT" and write a note today.

Readers,

A little reminder for all of you game players to catch "The Arena of Death" while it's HOT!! Also a special hello to Terry Laraway David Jolley, and most of all - The WIZARD himself -Bobby Queen. May "Lord Death" help you in your time of need...

--Knowledge Brokers

J. Vaughn,

Thanks. I'm thinking about the offer, and I'll get back to you on it.

--Joey Vaughan

Biker,

How's this?

--Joey Vaughan

The Source,

See you at Tandyland, sometime!

--Joey Vaughan

John Onken,

Go ahead and send the review on 'Sub Battle'. Thanks in advance.

--The WIZARD

The Source,

I'll send it soon, so be on the lookout for it.

--The WIZARD

Wanting to help in TX,

Please send me the names and the addresses of the too professional and the 'down right corny' CoCo newsletters you mentioned in your letter in the March issue.

--Bill Garretson
828 Gregory Avenue
Bedford, TX 76022

Readers,

If you have a CoCo 3, then here's a patch for CoCoMax II. CLEAR 200,&H3FFF:LOADM"COCOMAX":POKE&H53FB,&HFE:POKE&H53FC,&HEF:SAVEM"COCOMAX",&H4000,&H7FFF,&H492B

Even more Post-It notes

Here are even more notes that were posted this month. Thanks to you we are really keeping this section full and growing. Remember, now "REACH OUT" and write a note today.

Reader in EGYPT,

To make your drives run at 6ms, you don't necessaritly need to have EPROMS burned (although it is handy to do it this way).Here is a method of accomplishing it without EPROMS. First, you need at least 64K of memory. Next, if you have a CoCo 1 or 2, you must enter the All RAM Mode (copy ROM to RAM). If you have a CoCo 3, you don't need to do this. To enter the All RAM Mode, type in the following routine and RUN it

```
10 CLEAR999:FORX=1TO21:READA:A$=
A$+CHR$(A):NEXT:P=VARPTR(A$)+1:P
OKEP,126:EXECP
20 DATA26,80,190,128,0,183,255,2

0,224,0,37,241,57
```

Now, if you have DOS 1.1, enter POKE55232,0:POKE55318,20. If you have DOS 1.0, enter POKE54989,0: POKE55075,20. That's it. Your drives should now operate at six ms. If you get I/O ERRORs, you may need to go with a slower rate. For 12ms, use a value of 21 in the last 'POKE' of each of the above commands (ie: the last 'POKE' for DOS 1.1 would become POKE55318,21 & the last one for DOS 1.0 would be POKE55075,21). Use 22 for 20ms, & 23 for 30ms. You will have to enter the 'All RAM Mode' and do the appropriate POKEs everytime you power up. If you press RESET when in the 'All RAM Mode', the CoCo goes back to normal. To get back to the 'RAM Mode', enter POKE&HFFDF,0. The 'All RAM Mode' will allow you to change other features on your CoCo with appropriate POKEs.

--Andrew Bartels
President
Digital Innovations

Hey CoCo Nuts,

I am looking for an old silver CoCo 1 in "MINT" condition. Write and let me know. Be reasonable!! Anything from 4K up. I prefer the chicklet keys! Again, in working good shape! Write me!

--C.A. Bailey
1107 Clingan Ridge
Cleveland, TN 37311

Programmers,

We are in desperate need of some good programs for the magazine. I will be looking forward to receiving some soon. Thanks again.

--The WIZARD

E-Z FRIENDLY For Your CoCo 1, 2, & 3

RAINBOW CERTIFICATION SEAL

Leonardo's Pencil

(Reviewed in Oct. 87 RAINBOW) Makes programming sensational-looking graphics as easy as moving a joystick! Converts precision drawings into "DRAW" commands which can be stand-alone BASIC programs or merged into other programs. Also includes "DEMO" and "PAINT" programs. Requires a spring-centered joystick or touch-pad. 32k ECB **tape or disk $14.95**

?ENIGMA?

Transform your computer into an ultra-secret code machine capable of enciphering and deciphering in over 12 million virtually unbreakable codes! (not simple substitution codes). Print hard copy or store & retrieve coded data on tape or disk. Only the person who has the password can read it! 32k ECB **tape or disk $12.95**

New! *EZ Writer*

Just answer the prompts & type your message; "EZ WRITER" will put it into perfect letter form and send it to your DMP or DWP. Professional-quality, single-page letters every time! Do one letter or multiple copies for "personalized" mailings. Saves letters and mailing lists. Even does labels. Menu-driven. Undoubtedly the EZ-est letter writing system available! Free sample on request! 32k ECB **tape or disk $19.95**

EZ MATH PACKAGE

FOUR superior educational "games": "RACEWAY", "GO TO THE TOP" (multiplication tables drill), "WORD PROBLEMS", & "PYRAMID". Covers addition, subtraction, multiplication, & division. Different levels of difficulty. Exciting graphics & sounds. EZ and fun! 32k ECB **tape or disk $19.95**

KEYBOARD COMMANDER ***New!***

Probably the most exciting typing tutor available for your CoCo. You are the commander of a space ship & it's your job to shoot down alien letters & words as they speed toward you & attack your spaceship. Exciting Hi-Res action! 32k ECB **tape or disk $24.95**

DYNAMIC COLOR NEWS (DCN)

Color Computer Magazine

We are now in our fifth year. The purpose of DCN is to provide instruction on Basic and Machine Language Programming, Computer Theory, Operating Techniques, Computer Expansion, Product Reviews, New Products plus provide answers to questions from our subscribers. Included in each issue are Basic and Machine Language programs plus editorials on various computer subjects. Did you know that the joystick port can be used for many hardware appications such as digital voltmeters and thermometers? We showed how to build these in recent issues. We ran a series showing how EPROMS can be used for containing data and programs? Due to popular demand a Ham Radio section is included. DCN is written in a non technical style and is designed to be a learning tool.

Some topics covered are:

* CoCo 3	* OS-9
* Graphics	* Uninterrupted power
* Vectors	* Stacking Programs
* ASCII	* Memory Expansion
* Interrupts	* Machine Language
* Random Numbers	* Restoring Programs
* Ramdisk	* Editing Statements
* Data Sorting	* Basic Programming
* Memory Map	* Architecture
* Word Processing	* CoCo Heat Problem
* Morse Code	* Hardware Interface
* Joysticks	* Video Reverser
* Thermometer	* EPROMS
* Page -1	* Ham Radio
* Graphics	* Assembly Language

Some of the programs are:

Electronic Billboard	Fast Food
Check Book	Utility
Gas Mileage	Sound Generator
Character Generator	Grade Book
Card Shuffling	Inventory
Word Processing	Graphics Draw
Alarm Clock	Bank Switching
Morse Code	Antenna Design
Money Chase (Game)	Graphics zoom
Address File with Sort	Terminal Program
Star Constellation	Loan Interest
Roulette (Game)	Chords (Music)
Duelling Cannons	Disk File
Program Restore	Lucky Money
Terminal Program	Invoice
Audio Frequency Gen.	Frequency Meter

Dynamic Color News Subscriptions are $15/year, $18 Canada, $30 foreign.
FREE SAMPLE

Dynamic Color News is also available on disk or tape. Included are programs and editorials. Subscriptions $60/year or 6.95 each USA & Canada.

MEMORY MANAGER -a complete set of software for managing the second 32K memory bank in 64K computers. Run Basic programs in each bank or use the Ramdisk for program storage. **$19.95 Disk or Tape.**

Upgrade CoCo-2 Computers with two 4464 chips to 128K with Memory Manager Software. **MM-10A $49.95**

Upgrade 8-chip 4164 type 64K computers to 128K with Memory Manager software. **MM-12 $49.95**

512K memory for color computer 3. Includes ramdisk software. $89.95.

512K board with ramdisk software $29.95

RAMDISK software for color computer 3. reduced $15.95.

VIDEO REVERSER- Reduces eye strain by producing bright characters on a dark background. Minor soldering required. Not for color computer 3. $9.95.

MEMORY SAVER - Battery backup prevents loss of programs due to power failures. For all models $39.95

Dyterm-Terminal Program $9.95
Disasm-Decimal 6809 Assembler $9.95

DYPRINT - Print large signs or banners using standard print $19.95

COLOR COMPUTER 2 KITS - Build your own 64K color computer 2. Sockets for all integrated circuits and a complete book of step by step instructions. $59.95.

CC-TERM 2 - A dual thermometer that displays temperature in both Centigrade and Fahrenheit. 2 $19.95.

HR-1- A collection of 3 programs that allows Morse code practice, antenna design, and DX lookup program. $11.95

MORSE TERMINAL - When used with an interface this program converts your color computer into a Morse Terminal. Instructions are included for building an interface with off the shelf parts. $12.95

HAM LOG -Keeps a record of contacts. $9.95

HAM RTTY - Uses cassette port. Requires simple interface. $6.95

PUBLIC DOMAIN PROGRAMS - Call or write for free list. $4.95 each

All programs are color computer 3 compatible unless indicated. Please specify tape or disk software.

Checks, VISA or MC, Add $3 shipping.

Here are REVIEWS of some of the 'NEWEST' programs and games. These will be wrote by different readers of the magazine each month. If you want to do a review go ahead and write it and send it in. I may edit it for space and might have to change it. Send reviews done with any 'ASCII' word processor. Disks can only be returned only if postage is provided.

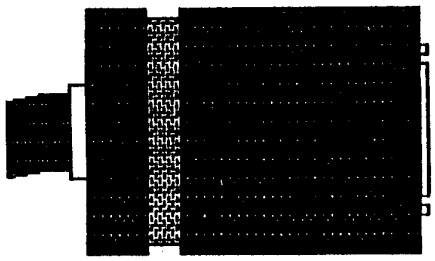
REMUSIC is a program distributed by Codis Enterprises.

Those familiar with Hot CoCo magazine should easily recall a short program from years back by William Garretson that simulated brilliant fire works exploding against a black sky. It was amazing to see so many variations produced with such a brief number of lines. Well, folks, he has done it again. This time, he's transformed those throw away remarks statements or REM lines used to document programs into music. Hence the name, (REM+Music = REMUSIC). After reading only the first few pages of Remusic's thorough documentation, I listened to "Canon" and "Song". I then, listed the source code of both songs to my screen. This accomplished musician/programmer has again built something amazing with a minimum of program lines. Mr Garretson's influences of madrigal harmonies, choral arrangements, and classical compositions were evident throughout each of the 3 included melodies. I cannot conceive of anyone attempting to duplicate the sounds produced here using SOUND and PLAY statements, & I feel this program far surpasses ANY music utility I've ever worked with, in ease of use & realistic reproduction of multiple voices. With every reading of the manual, I grow more comfortable with Remusic's capabilities and operational commands. And, if an untrained, tone-deaf like me can enjoy this package, anyone should be able to . Due only to the limited number of compositions provided in this integrated software package, I rate it as a 9.6. Other than this, I have found no flaws with Remusic whatsoever. Remusic is truly a worthwhile investment, and its author is very professional and a person with whom business means courtesy.

Unknown (Reviewer) -- PLEASE include FULL NAME with REVIEWS!!

Screen Star is an OS-9 word processor that works on all CoCos. If you have a 512K CoCo3, however, you can access the Text Formatter (extra) & Spell Checker from within the editor. The manual gives full details on loading the program, changing defaults, copying the program to a Level2 disk (the program comes on a Level1 disk), & installing Screen Star on a hard drive. I found Screen Star very easy to use. The commands are entered by pressing <CTRL> or <ALT> (<CLEAR> or <@> on a CoCo 1 or 2) & 1 or 2 other keys. There are ten user-definable macros. Screen Star implements many of Word Star's functions, so if you already know Word Star, you will be able to use Screen Star without much difficulty. I was only able to find 2 drawbacks: Since Screen Star is in OS-9 format, you can not directly use it with other word processors in your system unless they too run under OS-9. Second, you must also purchase the Text Formatter for decent printouts. On a scale from 1 to 10, I would rate Screen Star a 7.

Ian Boisvert (Reviewer)



Here are reviews of everything from Joysticks to Computers themselves. If you have a review go ahead and write it and send it in. If you like it maybe someone else can benefit from your review. If you have a product that you would like to see reviewed just let us know and we'll try to find someone who has that product to do a review for the magazine. Who knows we might even save you from buying one of those "LEMON" products or one that you don't really need.

CC-THERM

CC-THERM is a digital thermometer for all CoCo's. CC-THERM 2 is a dual unit that can be used for measuring two different temperatures. For an example: You can place the 20ft long thermistor outside and the 10 foot long one inside and have an indoor/outdoor thermometer. Also it can be used to measure the temperature inside of your computer. The CC-THERM plugs directly into the 'RIGHT' joystick port and comes with software on disk & an instruction sheet which tells all about the units. If you have an extra CoCo sitting around or if you want to check the temperature occasionally then this product is perfect for you. I would recommend it in those cases. It's a neat little item to have around.

Bobby Queen (Reviewer)

Multi-Pak Interface

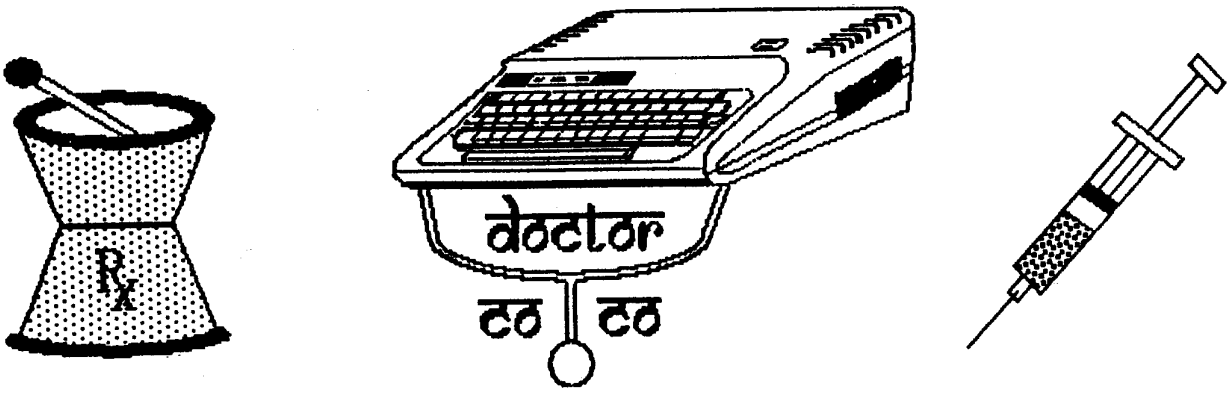
The Multi-Pak is very nice to have. The main reason is because you can switch between two to four cartridges while the computer is still on. I use mine mostly for switching between the Disk Drive Controller and the Speech/Sound Pak. I have heard stories about destroying both the computer & the Multi-Pak by shaking them too much but I have never had this problem. Some people have said that the Multi-Pak needs a pal chip that costs about $8 for it to work with the CoCo 3, but mine works just fine without it. The Multi-Pak changes cartridges through the switch on the front or ith pokes. I highly recommend getting one if you can find one. Radio Shack has discontinued it.

Jonathan Wanagel (Reviewer)

All Readers,

We are getting desperatly low again on Hardware Reviews, so hurry up!! Also, if you 'MAIL' in reviews to us, or if you 'UPLOAD' them to the NEWSROOM please make sure your FULL NAME is somewhere in the review.

Signed, The WIZARD



Here is a column dedicated to technical questions you may have concerning the electronics of the CoCo and its accessories. Your host is the always-in-demand man, Dr. CoCo!

Dear Dr CoCo,

This letter's in regard to your modification in the Feb 88 issue of the magazine. I'd like to point out that the black button on the RS Deluxe Joystick is programmable & that there are several OS-9 programs written utilizing this black button. For those who don't own a Coco 3, this is a good project to consider. But for us 3'ers, I wouldn't give up on that second relay yet. Signed, Del Scharff

Dear Del,

I should've known that I'd get caught on that one. Glad to see someone out there is reading my article. Thanks, for pointing out that tidbit. Also, while I was reading your letter, I had a brainstorm. Why not have the best of both worlds. It should be possible to use a double throw switch to switch the button between normal function and the second fire button. Readers, let me know if you are interested in me pursuing this project further. Signed, Dr. CoCo

---

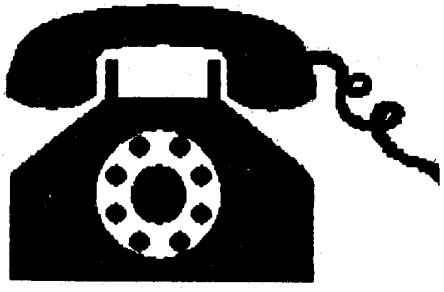
Dear Dr. CoCo,

I've been looking for a modem for the last few weeks, & I was wondering if you could recommend one, or tell me which one's to avoid. Also, what does Hayes compatible mean? Does that mean it'll work with a PC also? Signed, Andrew Wiest

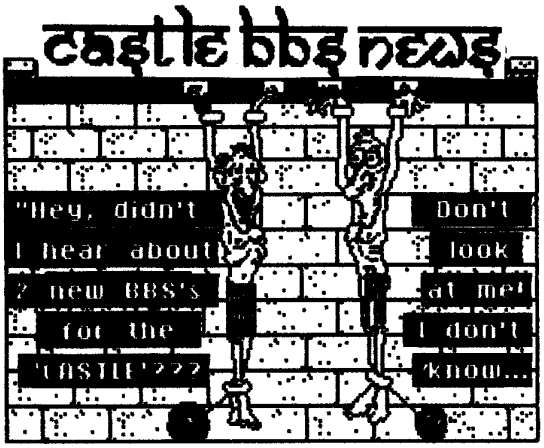
Dear Andrew,

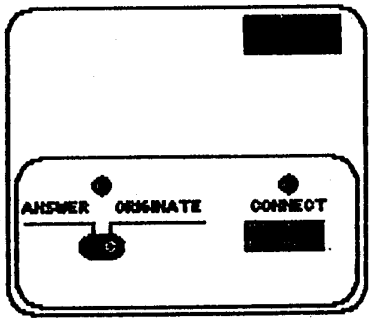
When looking for a modem, it is usually best to stay with a brand name. I know a lot of people out there just shook their heads, but let me explain. For people who have a limited electronics experience, a broken-down modem is not very funny. With a name brand, 9 times out of 10 you can get service on the unit. Plus, some companies such as Avatex offer a support line if you have operating problems. Now, shopping for your modem. This depends on what you will be using it for. As far as general communications, an Avatex 1200 is an excellent buy. It's small while at the same time, it won't put a strain on your pocket book. You usually can get one for under $100. Now, for the rest of your questions. Hayes modems set the standard for modems in the industry. Period. They're some of the best money can buy. They don't come cheap. So, some enterprising companies saw the opportunity to "clone" Hayes modems. They're less expensive, yet perform close to a Hayes modem. We could go on for ever about communications formats, etc. but generally speaking, that's what 'Hayes compatible' means. As for a PC using them, that's what they are really made for. It just so happens that most computers can access the RS-232 port on the modem to use. The CoCo has to have a cable made to adapt it to the port but it's generally not a serious drawback.

Signed, Dr. CoCo



castle bbs news





This is the column where you can learn about the latest happenings on "The WIZARD'S CASTLE" BBS's. You'll learn about uploads, downloads, news, & new functions on the BBB's. This column is written by Dr CoCo.

"The Wizard's Castle BBS" Sysop - Dr Coco #(704)937-7736

Greetings from the world of telecommunications, CoCo users. Here at the Wizard's Castle BBS, we are working hard on making this BBS the best in the CoCo world. We're looking at each and every suggestion you send us. We've had a few folks offering to help us with the software. I'm working to interface the hard drive we're building in Hardware Modification to the BBS. We are still working at getting a reliable 1200 baud system up for the board. Hopefully, we'll have 1200 baud up and running soon. Who knows, we may even try for 2400 baud. Let us know what you think. Remember, this BBS is for everyone, so pitch in your two cents worth. Every little bit helps. Those who have software suggestions please drop us a line on the board, or write C/O "The Wizard's Castle". Hope to see you online soon.

"The Newsroom BBS" Sysop - The Wizard #(704)434-2629

Here in the Newsroom, the Wizard is working his fingers (not to mention his CoCo's) to the bone processing the input all of you are sending in. He appreciates all the positive response he is receiving. As you can see, certain sections of the magazine are getting a little larger. This is due to your input. Please keep it up. Remember, this magazine relies on you for ideas and articles. So if you have an idea, review,etc. just give the Newsroom a call and upload it! The Wizard has a desperate need for covers right now & he especially wanted me to remind you to be sure your FULL NAME is on anything you upload, or in the case of a graphics file to leave a message telling who the file is from and what it is. He has one file uploaded early in April that he need to know about. Enough about that though. Dr. CoCo (the one who's writing this) is working on the hardware for this BBS also. Hopefully, both of the BBSs will arrive at 1200 baud at the same time. Just keep your eyes peeled here for that announcement. Until then, see you online!

All Modemers,

Remember, both our boards are online 24 hours a day, 7 days a week, and are currently at 300 baud only. We hope to see you online soon!!

The WIZARD

This is the section dedicated to building and upgrading the computer we all have grown to love. Dr. CoCo is your host. Any suggestions for this article may be sent to Dr. CoCo C/O The Wizard's Castle.

Hello fellow users. Dr. CoCo heree again. Over the past few months, I have had quite a few questions thrown at me concerning hard drives. It seems that everyone thinks that they've to be a master of OS-9 to hook a hard drive up to a CoCo. I don't blame them. I used to think the same thing when I began using my CoCo. How envious I was that those PC's could access their information so quickly. So,when I began this column, I made a promise to myself. I was determined to find a hard drive system that anyone could use. I embarked on my search. I knew Radio Shack sold a hard drive interface, but no way to access it from Basic. I searched on. Well, a while back, I stumbled across a new ad. "Build an affordable Hard Drive system with our interface. Plus, access it from Disk Basic", it read. I looked again. I couldn't believe my eyes. A company had come to our rescue! I jumped on the phone, and placed my order. I have received it and will begin work on my hard drive system. I also decided to try something different. I'm going to build my system with you. We will assemble it and get it up and running together. The next couple of months will be dedicated to "The Hard Drive"!

Now I know you're asking yourself. What's the name of this company that has heard our cries for help? Well, It's a company by the name of Burke & Burke out of Palatine, IL (312)397-2898. This company is very helpful with your questions. They'll help you all they can.

Now for the materials needed. You might want to go ahead and order your controller and software now. They have two types. One is the CoCoXT and the other is CoCoXT-RTC. The major difference between the two is that CoCoXT-RTC has a real time clock, great for OS-9 users. Plus, for basic users, you'll need a copy of 'Hyper-I/O'. This is what makes our basic miracle possible.

We need to be sure that we have a Multi-Pak interface. This controller uses 12 volts that is avaliable from the Pak. The CoCo's don't supply this voltage now. You need to be sure you have at least a 64k machine.

Let's go shopping. First, we need the hard drive. Many companies sell hard drive kits with controllers. This will probably be the way we need to go. You see the CoCoXT is an interface for a PC drive controller. If you decide to buy a hard drive package, be sure it has one of the controllers listed below:

Western Digital WD1002-WX1 (1/3 size card, MFM encoding)
Western Digital WD1002-27x (1/3 size card, RLL encoding)
Adaptec 2072 (1/3 size card, MFM encoding)

This is the rest of the project that was started on the preceding page. Remember Dr. CoCo is your host and any articles or suggestions for this column may be sent to Dr. CoCo C/O "The WIZARD'S CASTLE".

These controllers will fit inside of the CoCoXT and perform the best. Most of the drives you will see will be of the MFM encoding type. It's not recommended to use a RLL controller with a drive that is not certified for RLL encoding. Also be sure that the controller has a standard "ST-506" or "ST-412" connection. The CoCoXT is not compatible with SCSI or SASI controller. Also question the place you purchase your drive and controller from about cables. If they don't come with the package, you will have to purchase them extra.

Now, you have to purchase a case and power supply for the drive. Again, there are many companies that sell these. You need at least a 48 watt power supply to operate one full height drive. A 65 watt supply can run 2 half-height drives comfortably. Use these numbers when talking to a salesman about an enclosure. It is not recommended that a floppy power supply be used to operate a hard drive since the amperage & wattage are usually lower than the figures above.

So, go shopping and get your stuff. Next month, we'll start assembling the drive. If you have any questions, you can reach me on the "Wizard's Castle" BBS or by mail C/O The Wizard's Castle. So, until next month, keep on hacking!

! Programs !

New!! CC3 PAK

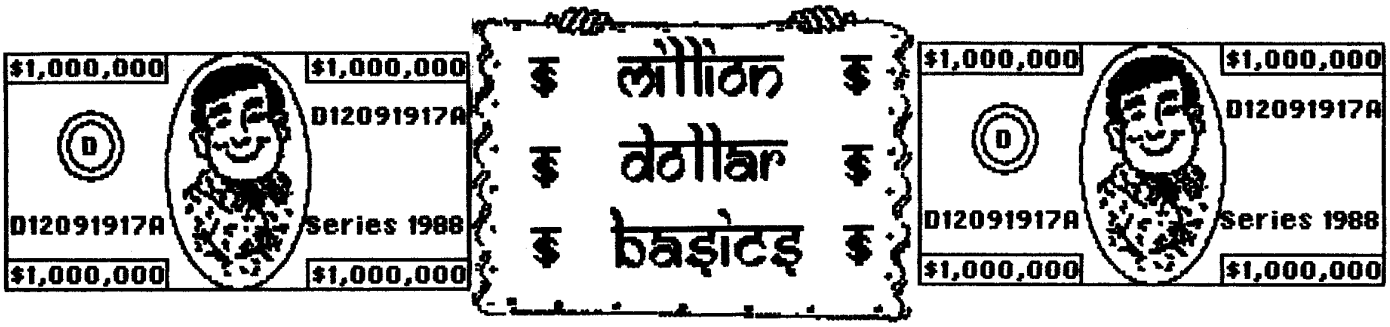
Get 50 hot new CoCo 3 files on disk for only $6.00. Contains graphics editors, games, animations, ROM fixes, ST and MGE pictures, and more.

Special!! GAME PAK

Games, games, and more games! Great for the entire family. Many are high res ML with great sound. Get 49 files in all for only $6.00.

Send check or money order to: DIGITAL INNOVATIONS, 1859 EAST 8TH STREET, MESA, AZ 85203-6649

Send for free catalog full of our other products!



All of you who wanted a Basic column now have got it. Please send all your questions, comments and problems relating to Basic programming to: John 'Million' Beck; C/O "The WIZARD'S CASTLE"; 1737 Farmville Road; Shelby, NC 28150. And now here's JOHN!

My original scheme was to spend 4 issues walking through 'Maximillian's Millions', but my recent address and marital status change used all the budgeted time I had allowed for writing those pieces. Which is good in a way. Now, you'll get the chance to get an overview of Max as a whole, tear it to shreds critically, & bark reviews and opinions at me in full force. And this, in turn, will give life to this new column. So far, 'The Source', (a trusted colleague), has given me very fair improvement criticisms, and was as blunt and honest as I expect you to be with me. Just remember, use enough courtesy to inspire the continuation of this feature. Above all, write soon. And now, here's Maximillian's Millions.

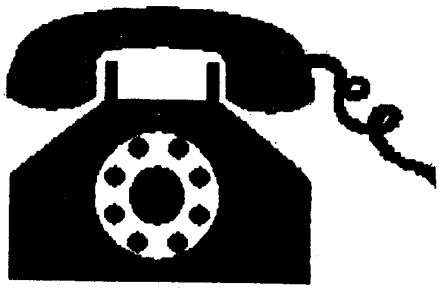
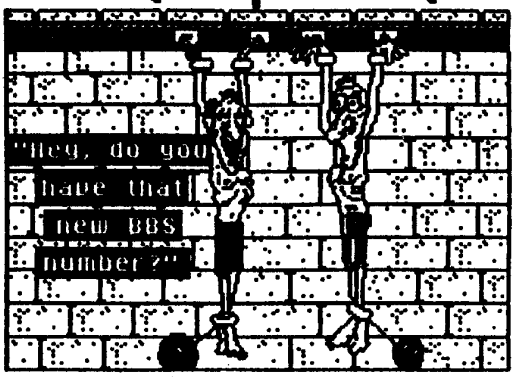
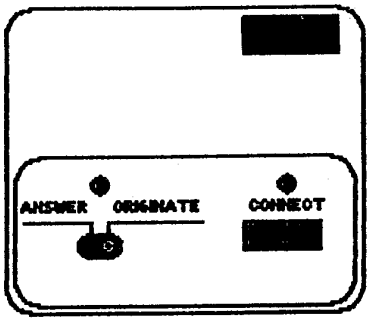
bbs updates







Here are some working BBS's as of date of inclusion. Please send information on working BBS's in your area. Send the name, phone number, baud rate, hours open, and any other notes about them. ENJOY! I'm sure the phone company will. They'll "REACH OUT" for your wallet. I know from experience. I won't be responsible for wrong numbers or dumb callers.

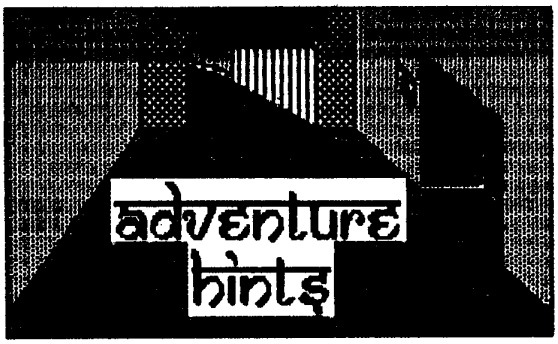
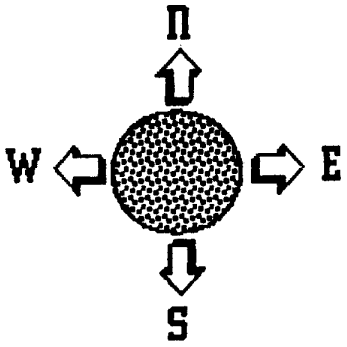
go north	go west
open door	unlock door
get light	open door
go down	get paper
on light	get pencil
go west	go south
get key	sit down
go east	put paper
go up	write hints
off light	go rest





Here is where you can help each other to solve those 'PESTY' games that have you lying in bed awake half the night. If you have any 'NAGGING' questions on any games or have any hints for the other readers here is the place they go. Total 'SOLUTIONS' will appear here too from time to time. So GO NORTH, PUSH BUTTON, PLAY GAME, and ENJOY!!

Dungeons of Daggorath Hints:

The high 'cat-like' creature on the 4th level must be defeated in one string of attacks.

Signed,
Quicksilver

Sands of Egypt Hints:

You must climb the tree to get the fronds, to make the rope. Here's how you do that:
Cut fronds-get fronds-down-put axe-braid fronds. The ladder is in the tunnel, but you've still a way to go yet.

Signed,
Princess Di

Black Sanctum Hints:

To make the altar do this: Drop all-build altar-get ash-get lantern-south-go vent-drop ash-invo epis. Now you're done.

Signed,
Princess Di

Magic of Zanth Hints:

Don't forget to take the pill when under water and talk to Beauregard. You are almost there now.

Signed,
Princess Di

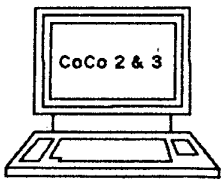
Sea Quest Hints:

You need the balloon to get the anchor. Here is how you do it: Tie balloon-to anchor-pull cord Don't forget to bring shark repellent.

Signed,
Princess Di

THE ARENA OF DEATH

Battle Lord Death's minions to the death in hand to hand combat! Super graphics and sound! An absolute must for combat buffs! Joystick required. 64k Disk only. Send $20.00 to:



Knowledge Brokers, Inc.
4102 Lufborough Dr.
Houston, TX 77066

Searchon!

"The WIZARD'S CASTLE" is a very special 'TANDY' 'Color Computer' magazine. We devote our entire magazine to the 'CoCo family'. Our articles include columns like: "Wizard's Corner", "Letters to the Editor", "Questions for the Wizard", "Pencil-Pals","Wizard's Castle Scoreboard","Word Search", "Post-It-Notes", "Programmers Corner", "Software Reviews", "Hardware Reviews", "Doctor CoCo", "Hardware Modifications", "Adventure Hints", and "BBS UpDates". If you have been looking for a smaller more 'PERSONAL' version of a CoCo 'MAG' then we're 'EXACTLY' what you've been looking for. Remember we're exclusively for owners of any of Tandy's Color Computers. We support CoCo's 1, 2, and 3.

Are you always running out of disks???? Do you dread paying $1.50 or more per disk? Now, the answer to all of your disk problems can be answered here at the 'CASTLE'. We are offering only premium quality DSDD diskettes at under $1.00 each. These are 'TOP QUALITY' guaranteed disks. If you ever get a bad one, just send it back for replacement. We will sell these disks in quantities of 10, 25, 50, or even 100 per pk. Prices each will be cheaper depending upon amount purchased. This brand of disks is one all of our members have used for over four years. We hardly ever find '1' bad disk for every purchase we make. If you are tired of paying top dollar for disks then try just one order from us. You don't have anything to lose and only $$MONEY$$ to save.

*
* The WIZARD'S CASTLE is
*
* !!ANNOUNCING!!
*
* New Subscription Rates
*
****
*
* EFFECTIVE: Immediately
*
* Our new rates are now effective. I hope this won't stop you from *
* subscribing to our magazine. Even at the new rates we are still *
* the best bargain as far as a Color Computer magazine goes. Please *
* don't miss out on a 'GOLDEN OPPORTUNITY' to subscribe to a rising *
* CoCo Magazine. Remember though, due to the extremely high costs *
* of mailing overseas there will be different rates for all of our *
* overseas subscribers. I hope that these rates can stay frozen for *
* awhile & with everyone helping to up our subscribers list we CAN! *
* I never expected the BOOM of growth that we've seen in these few *
* short months but I hope that this BOOM will continue. The renewal *
* notice will be posted on the back page of your copy for just two *
* months prior to your expiration date. Please respond immediately *
* to your renewal notice.
* --The WIZ
