

# FRACTION FEVER™

## INTRODUCTION

FRACTION FEVER is an exciting learning game that combines true educational value with honest-to-goodness fun for the whole family.

As you hop along on your pogo stick, you'll be searching for the picture-fraction that matches the fraction at the top of the screen. Spot the correct fraction and ride the Fraction Elevator up to higher floors. Eliminate incorrect fractions and score points.

Matching fractions takes skill. The same fraction can be shown in several different ways, and while you are looking for fractions, you need to watch out for holes in the floor and keep an eye on

the timer!

For young players, FRACTION FEVER helps develop an understanding of what a fraction is. It uses numerical and visual representations to demonstrate relationships between different fractions.

For the whole family, FRACTION FEVER is a terrific pogo-sticking, fraction-hopping good time!

## HOW TO FIND THE FRACTION ELEVATORS

- Look at the whole floor shown in the radar at the bottom of the screen.
  - Locate the fraction along the floor.
- For example, if the Elevator Fraction for a floor is  $\frac{1}{2}$ , you will find it halfway along the floor.

- You and your pogo stick are shown on the radar as a line just above the floor.

- RADAR

The floor you are on is shown on the bottom of the screen.

Press **F** to see all twenty floors and to see what floor you're on.

Press **F** again to return to the game.

## HOW TO SCORE POINTS

- Once you get to the top floor, you'll score more points!

## HELPFUL HINTS

- Build up enough speed to jump across holes. (The faster you go, the further you can jump!)
- Keep an eye on the timer. If you don't find the elevator before the time gets to 0, it will leave without you.
- If an elevator leaves without you, make a hole, jump down a floor and try again.
- Be careful when jumping over holes. If you fall off the end of the floor or through holes 10 times, the game will end.
- Use the radar to see where the holes are and to plan your strategy.
