CONGRATULATIONS!

You've just made a very good investment in your child's future . . . an investment which will begin to pay dividends as soon as your child begins to play this adventure.

You see, Disney has been making educational media for teachers for over 35 years. That experience means that we know what your child needs to succeed at each level in school.

Now, we've combined that educational expertise with our tradition of excellence in the entertainment field to create home computer software that is both fun and educational.

Your child will have endless hours of fun with these challenging adventures. And while your child is having fun, these innovative adventures reinforce the same important skills and concepts your child is learning at his age level in school.

These adventures are designed to inspire your child's curiosity and sense of discovery. That's why we call this a "learning adventure." . . . because we believe that stimulation of the mind is perhaps the greatest adventure of all.
