TELLING TIME WITH DONALD

TWO INTERACTIVE LEARNING ADVENTURES DEVELOP THE ABILITY TO TELL TIME FOR AGES 5-8.

Each story poses problems for the players to solve. Correct answers generate positive, reinforcing responses. After an incorrect answer, the problem is restated and the player is asked to try again. The goal is to answer all the problems successfully.

TELLING TIME: HOURS

An entertaining introduction to time by the hour and the parts of a clock. Mayor Mickey Mouse has a big problem. Nothing gets done on time because no one in his town knows how to use a clock. A charming cuckoo and helpful clockmaker from another village end the confusion when they show Mickey and his friends how to tell time by the hour.

MICKEY AND DONALD MAKE LEARNING EASY — AND FUN!

Each adventure in this inventive program is highly interactive — that means you get an immediate response to every input. Players learn from their mistakes and get rewarded for right answers. That's the best and most fun-filled way to learn!

HERE'S A COMPUTER LEARNING ADVENTURE THAT'S NEARLY AS MUCH FUN TO WATCH AS IT IS TO PLAY!

TELLING TIME: HALF HOURS

Teaches youngsters to tell time by the half hour and to learn to read a digital clock. Donald Duck and Gladstone Gander hook a magic lamp while fishing in Duckburg Pond. The genie grants them three wishes — with the condition that each be made exactly on the half hour!

EASY TO USE!

An easy-to-follow instruction guide clearly explains how to interact with this learning adventure.

PLAYER'S GUIDE

2. "Time for Dinner"

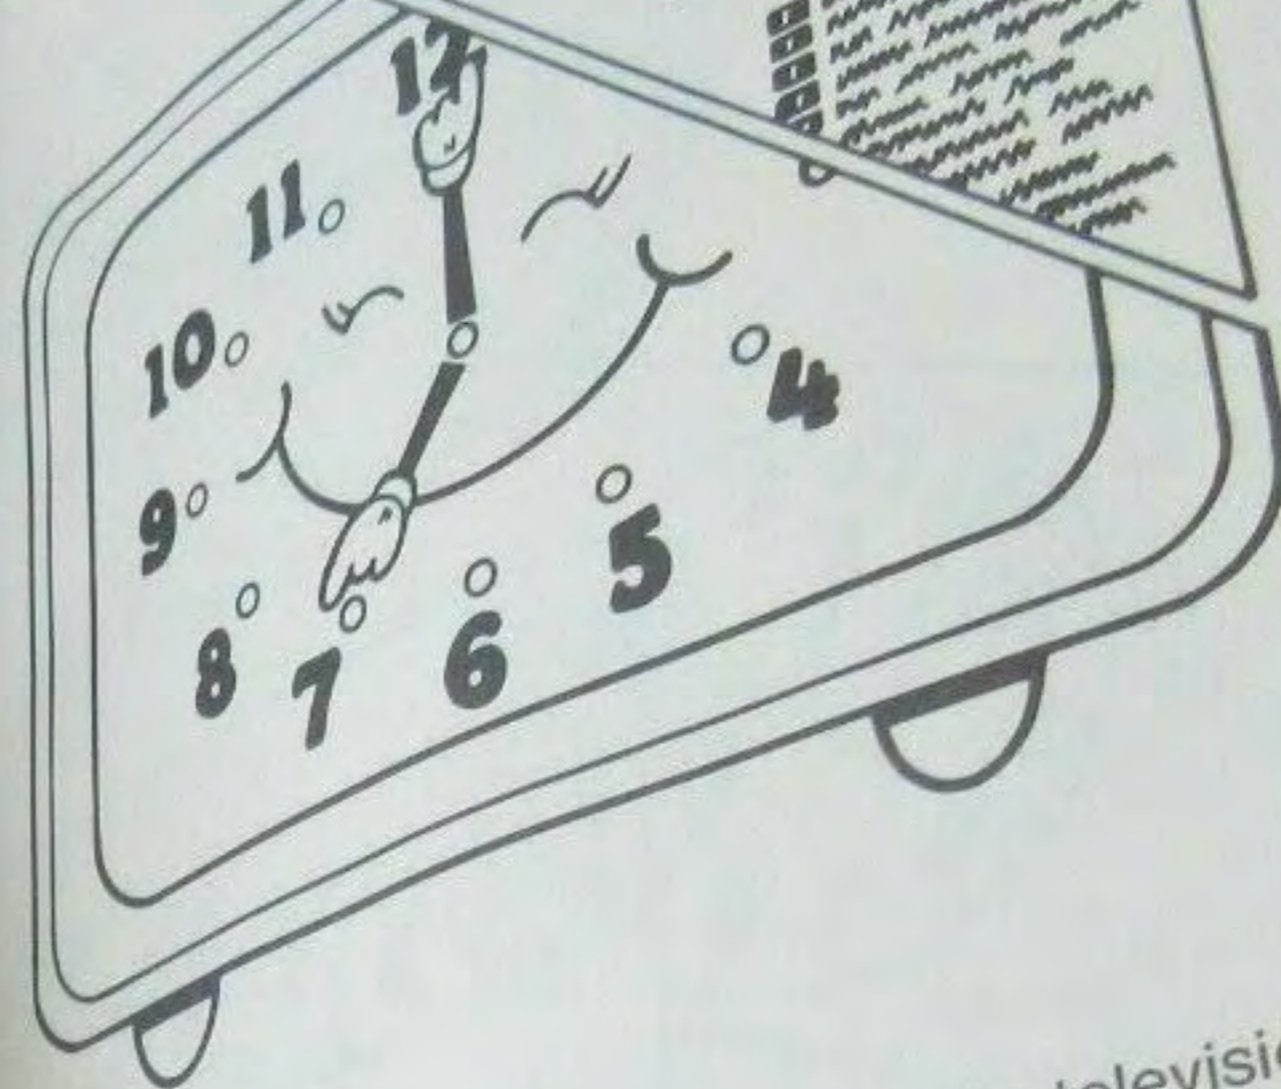

Plates, forks, knives, even potatoes, help your child to tell time by the hour. Using your child's plate as the face of a clock, ask your child to locate objects using the clock's numerals. A fork is at nine o'clock, a cup at two o'clock, and so on. Bon appetit!

TELEVISION GUIDE

Saturday
6 AM to 7:30 AM

7 AM	0	1	2	3	4	5	6	7	8	9	10	11	12

3. "Showtime!"
You'll need a clock with easily movable hands and a television guide. Help your child look up his/her favorite programs in the guide, and have him/her move the clock hands to the program times. Happy viewing!
