LOADING INSTRUCTIONS: Load the program into the computer by typing CLOADM (enter), if the program does not autostart, type EXEC (enter).

TROUBLE: If you encounter an FM Error, you are probably trying to load the program using CLOAD or trying to use RUN once the program is loaded. You must use CLOADM and EXEC with machine language programs. If you encounter an I/O Error, try loading another copy of the program, both sides of the tape contain several copies of the program.

METHOD OF PLAY: On your Mark! Get Set! and your off on the craziest race track of your life! Choose from three different race courses and race against an opponent for the best time, or for one player, beat your own best time. Do your best to avoid pot holes, walls, and Slippery Cat as you skid and slide around the track. The joystick lever controls your direction and you accelerate by pushing the joystick button.

Le Mans is a fast-action, machine language game utilizing a black background with excellent sound effects.

OBSTACLES: Drive as fast as you can, but remember that hitting pot holes and walls will cost you time. You can actually ram your way through and over walls, but this is very costly timewise. Especially be on the lookout for Slippery Cat! The Cat will tear across your path at random intervals and hitting him will cause you to spin out. Pot holes or Chuck-holes relocates itself everytime you go a lap, all foward motion stops. You can drive through walls, but no credit given for lap. You must go around the course Counter Clock Wise, going Clock Wise will make you lose laps (take away).

SCORING: You must pass the start/finish line 20 times to finish-the shortest time wins. A lap timer and lap counter for each player is shown at the bottom of the screen. You receive a score of 1 lap for each time you pass the start line.

BONUS: Getting the Gas Can when it appears on the screen will earn you 1 lap on your lap counter.

SKILL LEVELS: At higher skill levels Slippery Cat appears more often and is faster and the road is slicker causing more spin outs. Choose level 0 to 15.

Unfortunately, due to the flood of illegal copies of our software being generated, we have been forced to copy-protect our software.

If the cassette or diskette should be erased or become unusable for any reason, Spectral Associates will replace it, if the original is returned post paid, for a minimal charge of $3.00 for cassette and $5.00 for diskette.

Spectral Associates will exchange cassette versions of our software to diskette form, if the original cassette is returned post paid, for a minimal fee of $6.00.

We will gladly assist the customer with any problems they may encounter in understanding or using our computer programs.

More than one copy of the program will be found on both sides of the cassette.

If you enjoyed Le Mans, you will want to try some of our other Machine Language, Arcade Quality games. They all have the Fast Action and use the Highest Resolution Graphics and Great Sound.

Have you ever wanted to be a race car driver? Well now you can be in this new Fast Action, Machine Language game. Using a black background enhances the great colors with excellent sound effects. Avoid hitting pot holes, walls and Slippery Cat on your way to the finish line. Choose from 16 skill levels and 1 or 2 players.
